# SUBJECT INDEX, VOLUME 26

(\*By title only)

**ABSORPTION** (see also under specific headings, e.g., *Calcium absorption*)  
by small intestine *in vitro* (rat), 725.  
effect of dehydration and hypothermia (rat), 967.  
estimation (rat), 667.  
from colon, effect of hyaluronidase (guinea pig), 970.  
from digestive tract (sheep), 275.\*  
from intestine, *in vivo*, apparatus for study (rat), 270.\*  
*Acacia georginae*, poisoning of cattle and sheep, 550.\*  
**Acetate** (see *Cherry, West Indian*)  
conversion to cholesterol and its precursors (fish, guinea pig, rat), 710.  
effect on blood sugar and ketones (sheep), 1006.  
incorporation into cholesterol and fatty acids, *in vitro*, by tissues (normal and ascorbic guinea pig), 662.  
incorporation into fatty acids, intestinal, role of bile (rat), 1006.  
role of liver and other tissues (mouse), 136.  
metabolism, by mammary gland *in vitro* (rat, sheep), 1027.  
in liver slices, changes in relation to tumour formation (rat), 731.  
effect of adrenal removal (rat), 723.  
oxidation, effect of fat intake (rat), 1006.  
uptake by foetus (sheep), 458.\*  
**Acetoacetate**, effect on ascorbic acid and cholesterol contents of adrenals (guinea pig), 958.  
ethyl, condensation product with glucose, prevention of diabetes produced by dehydroascorbic acid (rat), 696.  
**Acetoin**, formation from pyruvate and acetaldehyde, effect of vitamin B<sub>1</sub> and sulphhydryl compounds, 939.\*  
in bread, rye, 895.\*  
**Acetonaemia** (see *Ketosis*)  
**Acetone**, estimation, in urine (cattle), 878.\*  
**Acetone bodies** (see *Ketone bodies*)  
**Acetophenone**, 2-amino-3-hydroxy-, excretion in blood disorders (man), 422.  
**Acetylcholine** and vitamin B<sub>1</sub>, effect on heart, isolated (tortoise), 644.  
**Acids** (s)  
fatty (see *Fatty acids*)  
organic, cholesterol precursors, separation, 314.  
detection, 878.  
estimation, 23.  
halogenated, estimation, 876.  
in bananas, 49.\*  
in fruit, 48\*, 335.  
in peaches, effect of maturity, 913.  
separation, 335.  
**Acid base equilibrium**  
after stomach removal (man), 723.  
blood alkali reserve, estimation, 319, 601.\*  
normal values, 319.  
effect of phosphorus intake, high (guinea pig), 1022.  
estimation (man), 319.\*  
in ruminants, effect on fertility (cow), 818.  
acidity, estimation, in small quantities of fluid, 881.  
foods, 28.\*  
milk, 882.

**Acidosis**  
diabetic (see under *Diabetes*)  
in electrolyte depletion (man), 143.  
**Acouite bean** (see *Legumes, Phaseolus acouitifolius*)  
**Acorn**, hydrolysable tannin, toxicity when injected (calf, mouse, rabbit), 1156.  
poisoning of sheep, 845.\*  
**Activity** (see *Energy output; Exercise*)  
**Addison's disease**, in children, effect of cortisone on growth, 1034.  
**Adenine**  
effect on toxicity of antibiotics to bacteria, 642.  
estimation in blood, 20.\*  
**Adenosinetriphosphate**, in blood, effect of ascorbic acid deficiency (guinea pig), 90.  
protection against cholesterol atherosclerosis and effect on liver glutathione (rabbit), 433.  
role in mineralisation of cartilage, 156.  
**Adrenin** (see *Vitamin B<sub>1</sub>*)  
**Adipose tissue**  
acetal phospholipins and phospholipins, changes with age (rat), 979.  
composition, effect of fasting and refeeding (rat), 1165.\*  
effect of insulin, 270.\*  
fat formation *in vitro*, effect of diet (rat), 155.  
lipoprotein lipase (rat), 97.\*  
metabolism, *in vitro*, 450.  
review, 728.\*  
**Adlay cereal** (see *Job's tears grass*)  
**Adolescence and growth** (book), 1158.  
**Adolescents** (see also *Boys; Girls*)  
blood composition, America (U.S.), 393.  
blood picture, America (U.S.), 104.  
energy exchange in relation to growth, 406.  
**Adrenal(s)**  
ascorbic acid and cholesterol, effect of salicylates, 93.\*  
ascorbic acid content, effect of acetoacetate (guinea pig), 958.  
effect of blood withdrawal from ophthalmic sinus (rat), 959.  
effect of cold (hypophysectomised rat), 93.  
effect of cortisone and adrenocorticotrophic hormone (guinea pig), 958.  
effect of hibernation (hamster), 383.  
effect of injection of blood from hypophyseal portal vessel (rat), 662.  
effect of stress (infant rat), 383.  
effect of X-ray exposure of half body (rat), 381.  
in siloxan diabetes, 382.\*  
corticosteroid formation, effect of adrenocorticotrophic hormone *in vitro* (pig), 958.  
**Adrenal disorders**, hyperactivity, treatment with vitamin B<sub>1</sub>, effect on nitrogen metabolism (man), 784.  
**Adrenal(s)**, effect of ascorbic acid in exposure to cold (guinea pig), 272.\*  
effect of protein and riboflavin deficiencies with or without *p*-dimethyl-*phenyl*carbamate (rat), 841.  
effect of riboflavin deficiency (rat), 645.  
effect on protein breakdown in starvation (rat), 999.

**Adrenal(s)**  
function, and vitamins, 1161.\*  
role of pantoic acid, 946.  
haemorrhage in kwashiorkor, 485.  
homogenates, effect of ultraviolet light and ascorbic acid on corticosteroid formation, 383.  
hormones, and vitamin C, effect on adrenal, thymus and preputial glands (castrated rat), 92.  
effect on lipid metabolism (rabbit), 432.\*  
influence on organ weights in starvation (mouse), 110.  
insufficiency (see also *Addison's disease*)  
chronic, diet treatment, 1161.\*  
treatment with ascorbic acid (man), 786.  
metabolism, ascorbic acid as hydrogen acceptor, 92.  
mitochondria, conversion of phosphopyridine nucleotides, effect of ascorbic acid (pig), 954.  
phosphorus metabolism, effect of cold (rat), 1029.\*  
physiology in sheep, 275.\*  
relation of pyridoxine, 369.  
relation to thyroid in cold adaptation, 403.\*  
response to stilboestrol, effect of protein intake (rat), 115.  
role in fat metabolism (baboon), 683.  
role in fatty infiltration of liver in alcohol poisoning, 728.\*  
vitamin C content, effect of cortisone and adrenocorticotrophic hormone (guinea pig), 270.\*  
weight and ascorbic acid content, normal and in ascorbic acid deficiency, effect of exposure to cold (guinea pig), 662.  
weight and cholesterol content, effect of stress and diet (rat), 340.  
**Adrenal cortex**  
activity, effect of potassium deficiency (rat), 683.  
and ascorbic acid, 381.\*  
developing, distribution of lipids and ascorbic acid, 92.\*  
effect of salt intake (rat), 683.  
effect on citric acid in blood (guinea pig), 403.\*  
function, relation of ascorbic acid and glutathione (mouse, rat), 93.  
relation of salicylic acid and vitamins, 1167.\*  
hormones, corticosteroids, production, effect of ascorbic acid (man), 786.  
corticosteroids, effect on ascorbic acid requirement of guinea pig, 92.  
effect on bone growth in vitamin D deprivation (rat), 929.  
effect on calcium and phosphorus metabolism in infants with idiopathic hypoparathyroidism, 1011.  
effect on food intake of pregnant mice, 458.  
effect on glucose and nitrogen excretion in pantothenic acid deficiency (phloridized rat), 947.  
effect on growth and skeletal maturation of children with adrenocorticalism, hypopituitarism and Addison's disease, 1034.

- Adrenal cortex  
hormones, cortisone, effect on hyper-  
tension produced by deoxycorti-  
costerone acetate (rat) 382.  
effect on lipid metabolism (rabbit),  
431.  
effect on protein formation after  
depletion (rat), 999.  
effect on teeth and blood in rickets  
(rat), 634.  
effect on vitamin B<sub>1</sub> metabolism  
(rat), 73.  
effect on vitamin C content of adren-  
als (guinea pig), 270\*, 958.  
effect on vitamin C in liver and  
lymphoid tissue (rat), 352.  
effect on vitamin C requirement  
(guinea pig), 270.\*  
metabolism by liver slices, effect of  
ascorbic acid deficiency (guinea-  
pig), 382.  
treatment of arthritis, experimental  
(rat), 649.  
treatment of distemper in ferrets,  
659.  
treatment of vitamin D poisoning  
(infant), 775.  
damage to heart and kidney, effect of  
food restriction (rat), 932.  
deoxycorticosterone acetate, and vita-  
min B<sub>6</sub> complex, treatment of  
acute hepatitis (man), 491.  
production of hypertension, effect  
of cortisone, adrenocorticotrophic  
hormone and vitamin C (rat),  
382.  
effect on ascorbic acid content of adren-  
als (rat), 93.  
effect on blood lipids (dog, rabbit),  
111.  
effect on blood potassium (rabbit),  
111.\*  
effect on blood sodium (rabbit), 111.\*  
effect on carbohydrate metabolism,  
992.\*  
effect on composition of saliva in  
sodium depletion (sheep), 982.  
effect on salt and water excretion  
(rat), 982.\*  
effect on wool growth (sheep), 684.  
hydrocortisone, metabolism, effect of  
ascorbic acid (man), 500.  
17-hydroxycorticosterone, excretion in  
scurvy (guinea pig), 92.  
metacortandracin and 9-alpha-fluoro-  
hydrocortisone, in treatment of  
ketosis (cattle), 549.  
possible origin in kidney (cat), 1029.
- Adrenal removal  
effect of tryptophan and anthranilic  
acid on survival, liver glycogen and  
protein metabolism (rat), 1002.  
effect of vitamin D on rickets (rat), 929.  
effect on acetate metabolism in liver  
slices (rat), 728.  
effect on action of vitamin A excess  
(rat), 348.  
effect on blood picture in protein depri-  
vation (rat), 403.\*  
effect on oedema production by egg  
white injections (rat), 93.  
effect on organs and tissues, role of sex  
and protein and pantothenic acid  
in diet (rat), 371.  
effect on potassium in heart, 148.\*  
effect on proteinuria in nephrosis (rat),  
1164.\*  
effect on response to  $\alpha$ -tocopherol deficiency  
(rat), 1162.\*  
effect on tryptophan metabolism (rat),  
944.  
effect on vitamin B<sub>1</sub> depletion from  
tissues (rat), 73.  
influence on effect of methionine on liver  
weight (rat), 130.
- Adrenal removal  
survival and physiological changes (dog),  
684.  
xanthurenic acid excretion, effect of  
tryptophan (rat), 423.
- Adrenaline  
role in specific dynamic action of protein  
(man), 118.  
Adrenocorticone, effect on coccoboxylase in  
liver (rat), 72.  
Africa (see also specific territories, e.g.,  
Nigeria)  
anemia, megaloblastic, treatment with  
penicillin, effect on vitamin B<sub>12</sub>  
absorption and level in blood, 498.  
Angola, hookworm infestation and  
anemia, role of diet, 189.  
Belgian Congo, blood sugar and glucose  
tolerance in adults, 118.  
pregnant woman, eclampsia, inci-  
dence, 1068.  
diet deficient in animal protein, relation  
to kwashiorkor and to animal  
husbandry, 190.  
dried blood as supplement, 480.  
diet in institutions, effect of addition of  
dried milk, 763.  
East, hay, nutritive value, 917, 1105.  
nutritional research, review, 479.\*  
East and Central, absence of siderosis in  
liver (man), 773.  
effect of hookworm infestation on nutri-  
tional state (man), 189.  
feedingstuffs, composition and trace  
elements, 333.  
foods, stored, insect pests, 324.\*  
French West, agriculture, conditions,  
and improvement, 223.  
food policy, 185.  
industrial by-products in livestock  
feeding, 258.  
mineral and vitamin deficiencies in  
livestock, 282.  
hair, human, amino acid and sulphur  
content, normal and in kwashiorkor,  
270.\*  
malnutrition, neurological syndrome  
during recovery, 1072.  
man, requirements of energy and pro-  
tein, review, 175.\*  
millets and sorghums, composition and  
nutritive value, 617.  
nutrition, beverages, alcoholic, signi-  
ficance, 269.\*  
Portuguese territories, diet studies, 183.  
South (see South Africa)  
tropical, dietary liver disease, path-  
ology, 558.\*
- Age, and performance in athletics, 408.  
effect on activity of thyroid (rat), 719.  
effect on protein turnover in tissues  
(rat), 127.  
old (see Old age)  
Ageing (see also Longevity; Old age)  
blood formation, relation of diet, 1061.  
comparison with effects of antibiotics  
(rat), 1039.  
effect on ascorbic acid metabolism (rat),  
354.  
effect on excretion of vitamin B<sub>12</sub>,  
radio-active (man), 1082.  
effect on nitrogen content of enamel of  
teeth, 557.\*  
effect on vitamin B<sub>12</sub> in blood (man,  
rat), 1084.  
muscular dystrophy in rats, 932.  
nitrogen retention (woman), 1162.\*  
vitamin C, review, 208.\*  
vitamin E, review, 198.\*
- Agriculture  
and population growth, 765.  
and standard of living, Colombia, 259.  
Brazil, increase in area cultivated, 545.

## Amino acids

in blood and liver, effect of infection (chicken), 481.  
 in blood and urine, in pregnancy, normal and with toxemia (woman), 674.  
 in casein, deficiency (chicken), 559.\*  
 in cerebrospinal fluid (man), 678.  
 in cheeses, Italian, 902.  
 Swiss, 903.  
 in collagen and gelatine (animal, human), 332.  
 in dentine and enamel of teeth (man), 681.  
 in diet, Netherlands, 898.  
 in feather meal, 939.  
 in fenugreek seeds, 50.  
 in fish protein, effect of canning or drying, 615.  
 in foods and meals, America (U.S.), 328.  
 in gliadin, wheat, 333.  
 in hair, African, normal and in kwashiorkor, 270.\*  
 in insects, several species, 173.  
 in  $\alpha$ -lactalbumin, 40.\*  
 in leaves and legumes, India, 48.  
 in meat, fish and shellfish protein, 332.  
 in meat extract, 614.  
 in milk, 330.  
 buffalo, 330.  
 formation from glucose (cow), 162.  
 in mussels (*Mytilus mundahuensis*, sururu), Brazil, 908.  
 in plant protein, 849.\*  
 in plasma, effect of evaporation and tumours (rat), 731.  
 in potato protein, effect of fertilisers, 911.  
 in rumen liquids, 274.\*  
 in rye and wheat proteins, 617.  
 in seaweeds, 336, 914.  
 in silage, grass, laboratory studies, 608.  
 in skin, normal and pathological, 110.  
 in tooth proteins, in fluorosis (rat), 557.\*  
 in urine (man), 1000.  
 changes with age (man), 1000.  
 in hepatitis (child), 695.  
 in vegetable foods, India, 563.\*  
 in vitamin B<sub>12</sub>-polypeptide complex, 85.  
 in yeasts, 897.  
 incorporation into cytoplasmic particles (rat), 450.  
 incorporation of fixed carbon (rat), 700.  
 injected, incorporation into protein (rat), 1001.  
 intake, by children with kwashiorkor, 486.  
 effect on alcohol consumption (rat), 1023.\*  
 effect on pancreatic enzymes (rat), 961.  
 interrelations (rat), 701.  
 labelled, from *Chlorella*, 848.\*  
 labelled and unlabelled, chromatography, 310.  
 limiting role in symbiosis of microorganisms, 653.  
 Amino acid metabolism  
 (rat), 1001.  
 by cells *in vitro*, 727.  
 effect of vitamin G and pteroylglutamic acid deprivation (guinea pig), 657.

 in leucine tissues, 755.\*  
 in rumen (sheep), 391.  
 of liver *in vitro*, effects of cirrhosis and of azo dyes (rat), 1031.  
 review, 124.\*  
 when given by mouth, in infants, 698.  
 Amino acid mixtures (see also *Protein hydrolysates*)  
 effect on dietary cirrhosis (rat), 1164.\*  
 efficiency, relation to utilisation (rat), 697.\*

Amino acid oxidase (see under *Oxidase*)  
 Amino acids, placental transfer, in twins (man), 735.\*  
 preparation from gelatine hydrolysates, 18.  
 prevention of ammonia poisoning (rat), 433.  
 protection against *Lathyrus* poisoning (rat), 1048.  
 renal clearance (man), 128.  
 requirements, evaluation by carcass analysis, 273.\*  
 of baby pigs, 273.\*  
 of chickens, effect of genetic ability to grow, 559.\*  
 of embryo bone *in vitro*, 152.  
 of guinea pigs, 1163.\*  
 of mammalian cells *in vitro*, 152.  
 of pigs, evaluation, 272.\*  
 of salmon, 1162.\*  
 of turkeys, 273.\*  
 of women, young, 756.  
 separation, 18, 19, 19\*, 310, 583, 588, 869, 873, 903.  
 sulphur, and rheumatic fever, 1161.\*  
 deficiency, production of liver injury, 558.\*  
 effect of cyclophorase system *in vitro*, 385.  
 effect on ascorbic acid in tissues (rat), 91.  
 effect on coenzyme A content of liver in dietary necrosis (rat), 371.  
 in Peruvian molluscs, 45.  
 requirements of women, 1053.  
 role in carbon tetrachloride poisoning (rat), 130.  
 supplement, for broilers, 273.\*  
 for pigs, 273.\*  
 to ration containing casein, effect on growth and creatine formation (chicken), 1003.  
 to rice diet, effect on growth and liver fat (rat), 129.  
 synthesis, by yeast, baker's, 897.\*  
 catalysis by pyridoxal phosphate, *in vitro*, 369.  
 N-terminal, in gliadins, 909.  
 toxicity, for frogs, 754.  
 review, 697.\*  
 treatment, of kwashiorkor, 191, 1070.  
 of liver disorders, 509.  
 of muscular atrophy, 219.  
 uptake by intestine *in vitro*, effect of galactose (chicken), 993.  
 utilisation (rat), 1163.\*  
 voluntary intake by rats, effect of insulin, 1043.  
 with or without sucrose, effect of heating under pressure, 33.  
 p-Aminobenzoic acid  
 effect on phosphorus metabolism (rat), 274.\*  
 in milk, human, 709.  
 metabolism, effect of vitamin A deficiency (rat), 628.  
 potassium salt, treatment of pemphigus, 779.  
 Aminobutyrate, metabolism, 130.\*  
 Aminobutyric acid, comparison with glutamic acid, physiological effects, 701.  
 $\alpha$ -Aminobutyric acid, estimation in bees molasses, 310.  
 formation from methionine (mouse), 130.  
 $\gamma$ -Aminobutyric acid, in cheese, 34.  
 isolation from urine (man), 310.  
 Aminofluorene, 2-acetyl-, effect on riboflavin metabolism (rat), 942.  
 Amino-nitrogen (see *Nitrogen, amino-*)  
 Aminopterin (see *Pteroylglutamic acid, 4-amino*)  
 Amino sugars, N-acetyl-, estimation, 584.\*

## Ammonia

estimation, 308.  
 in protein hydrolysates, 585.  
 in blood, normal (man), 973.\*  
 nitrite (see *Nitrogen, ammonia*)  
 Ammoniated molasses, for dairy heifers, 231.  
 Ammoniated orange peel, for cattle and sheep, 234.  
 Ammoniated products, source of nitrogen for rumen bacteria and dairy cattle, 231.\*  
 Ammonium carbamate, cause of poisoning of ruminants by urea, 264.  
 Ammonium salts, toxicity, effect of amino acids (rat), 423.  
 Amphibian(s)  
 embryo (see under *Embryo*)  
 frog, blood and tissue proteins, composition, 173.  
*Rana sacculenta*, acid and alkaline phosphatases, 173.\*  
*Rana pipiens*, eggs, yolk proteins, changes during development, 754.  
 respiratory metabolism, 467.  
 toxicity of amino acids, 754.  
 toad, *Xenopus laevis*, bone formation, effect of parathyroid hormone, 557.\*  
 tadpoles, nitrogen excretion, 467.  
 Amylase  
 estimation, in blood, 27.  
 in blood, effect of antibiotics (rat), 1043.  
 in blood, saliva and urine, effect of amino acids, 665.  
 pancreas, effect of pituitary removal or underfeeding (rat), 355.  
 $\alpha$ -Amylase, estimation, 307.  
 Amyloid, from diseased organs, composition (man), 109.  
 Amyloidosis, prevention by liver preparations (mouse), 1049.  
*Anabaena cylindrica*, alga, vitamin B<sub>12</sub> activity, 659.  
 Anaemia  
 after stomach removal, effect of aureomycin (rat), 1163.\*  
 association with experimental hypoproteinaemia (dog), 1164.\*  
 blood copper (man), 109.  
 chronic, refractory, with sideroblastic bone marrow, case reports, 1096.\*  
 treatment with iron, production of siderosis (man), 797.  
 copper deficiency, morphology (pig), 721.  
 effect on polyunsaturated fatty acids in bone marrow (rabbit), 110.  
 effect on proteins and lipids in stroma (dog), 655.  
 effect on vitamin B<sub>12</sub> in blood after parenteral injection (man), 783.  
 excretion of 2-amino-3-hydroxyacetophenone (man), 422.  
 experimental, effect of vitamin B<sub>12</sub> and a grasshopper pigment, 1164.\*  
 influence on iron turnover in red cells (pig), 719.  
 phosphorus uptake by tissues (rat), 166.  
 hookworm, effect of iron, 1163.\*  
 role of diet, Angola, 189.  
 hypochromic (see also *Anaemia, iron-deficiency*)  
 amino acids in plasma (man), 675.  
 due to defective iron metabolism (child), 442.  
 in rheumatoid arthritis, iron absorption (man), 149.  
 treatment with iron-dextran complex, 797.  
 treatment with vitamin B<sub>12</sub> (man), 1078.  
 in America (U.S.), rural community, 216.  
 in cancer, treatment, review, 797.\*  
 in cats, diagnosis and classification, 1135.

effect on apparent utilisation of vitamin A (rat), 1163.\*  
effect on blood plasma proteins and vitamin B<sub>12</sub> in vegetarians, 1080.  
effect on carcass quality (pig), 661.\*

## Antibiotics

- aureomycin, effect on cellulose digestion by rumen micro-organisms *in vitro*, 561.\*
- in rumen (cattle), 1041.
- effect on digestibility of different rations (calf), 1108.
- effect on digestibility of ration (beef cattle), 560.\*
- effect on excretion of pantothenic acid in pantothenic acid deficiency (rat), 79.
- effect on growth and efficiency of goslings, 836.
- effect on growth and feed efficiency (pig), 561.\*
- effect on growth and vitamin A content of liver (rat), 640.
- effect on growth of beef cattle, 560.\*
- effect on intestine (pig), 401.
- effect on liver lesions in riboflavin deficiency (rat), 363.
- effect on metabolism and heat production in gilts and castrated males, 408.
- effect on pantothenic acid requirement of pigs, 561.\*
- effect on performance of calves, 564.\*
- effect on rabbits infected with *Candida albicans*, 622.
- effect on roughage digestion by sheep, 560.\*
- effect on selenium poisoning (pig), 561.\*
- effect on storage of vitamin A, growth, depletion and survival times (rat), 346.
- effect on synthesis of vitamin B<sub>2</sub> derivatives by propionic acid bacteria, 553.
- effect on teeth (hamster), 557.\*
- effect on utilisation of vitamins (pig), 1146.\*
- effect on vitamin A absorption (rat) 53.
- effect on vitamin A utilisation (ovariectomised rat), 345.
- effect on vitamin D response (rat), 353.
- for beef cattle, 564.\*
- for calves, 1108.
- for cattle, effect on rumen fermentation, *in vitro*, 302.
- with diethylstilbestrol, 561.\*
- for chickens, 558\*, 836.
- for pigs, 827.
- effect on decarboxylation by intestinal micro-organisms, 1040.
- effect on growth, feed efficiency and carcass composition, 561.\*
- effect on small intestine, 667.
- on restricted rations, 564.\*
- for poultry, effect on meat quality, 879.
- for pregnant and lactating sows, 561.\*
- for ruminants under commercial feedlot conditions, 561.\*
- for runt pigs, 531.
- toxicity to rabbits, 622.
- Aurofac (see under *Aurofac*).
- bacitracin, and vitamin B<sub>12</sub>, for pigs, 378.
- chlortetracycline, effect on carcass characteristics and body composition (pig), 529.
- effect on digestibility of ration, nitrogen retention and volume of urine (sheep), 819.
- effect on growth (pig), 668.
- and thyroid (chicken), 836.
- effect on newborn unsuckled pigs, 530.
- effect on toxicity of methionine in treatment of liver disease (man), 1098.
- for calves, 226.
- for lambs, effect on growth, feed efficiency and carcass quality, 819.

## Antibiotics

- chlortetracycline, for pigs, effect on micro-organisms in intestine and faeces, 242.
- treatment of cobalt deficiency in lambs, 88.
- clinical use (animals), 622.\*
- detection in feeds, 597.\*
- detection in milk, 28.
- effect of feed consumption on response, 247.
- effect on antirachitic action of vitamin D<sub>2</sub> (chicken), 353.
- effect on blood coagulation and serum enzymes (rat), 1043.
- effect on carcass measurements and dressing percentage (pig), 242.
- effect on egg production, growth and antibiotic-resistant micro-organisms, 559.\*
- effect on faecal flora (rat), 744.
- effect on growth at different levels of protein and fibre (pig), 561.\*
- effect on growth of calves, 553.\*
- effect on growth of fur animals, 246.
- effect on growth on suboptimal diet (rat), 1162.\*
- effect on growth when given in creep feed or implanted in baby pigs, 1125.
- effect on intestinal flora (infant), 473.
- effect on intestinal tract (chicken), 559.\*
- effect on nitrogen metabolism and digestibility (calf), 560.\*
- effect on protein deposition (chicken), 247.
- effect on protein metabolism, 853.\*
- effect on protein requirements of poultry, 252.
- effect on response to vaccination (poultry), 266.
- effect on rumen digestion, 854.\*
- effect on transit time in digestive tract (rat), 667.
- effect on vitamin metabolism (man), 193.
- effect on vitamin B<sub>12</sub> absorption in digestive tract disorders, 207.\*
- for bobwhite quail, 1147.
- for calves, 226, 518.
- deprived of colostrum, 1167.\*
- effect of level and length of period, 560.\*
- effect on growth, 516.
- effect on growth and health, 226.
- prevention of white scours, 546.
- for chickens, effect of mode of administration and environment on growth, 252.
- effect on growth and feed utilisation, 533, 658.
- effect on utilisation of carotenoids, 559.\*
- fishmeals as source, 534.
- high level, 273.\*
- relation of growth stimulation to intestinal microflora, 1140.
- relation to "infection", 1167.\*
- for children, review, 179.\*
- for guinea pigs, effect on growth and reproduction, 748.
- for hens and broilers, 559.\*
- for lambs, 273.\*
- for laying hens, 273.\*
- for livestock, 224\*, 804\*, 1103.
- and fur animals, 1102.
- possible dangers, 1103.
- for pigs, 560\*, 826, 827, 1166.\*
- by mouth or implantation, effect on growth, vitamin B<sub>12</sub> in liver and intestine, and digestibility of ration, 531.
- comparison with cow manure extract, 861.\*
- effect of environment on growth and carcass quality, 561.\*
- effect on cellulose digestion, 966.

## Antibiotics

- for pigs, effect on growth and feed utilisation, 827.
- effect on growth, efficiency and carcass, 530.
- fate in intestine, 531.
- fattening, 527.
- growing and fattening, 243.
- on ration of soyabean oil meal, 564.\*
- on restricted ration, 530.
- relation of vitamin B<sub>12</sub> and cobalt for growth, 88.
- for poultry, dangers, 1040.
- effect of high levels on growth, efficiency and mortality, 1140.
- on ration of rate of passage of feed, 964.
- mode of action, 253.
- suggested standards for Europe, 538.
- with or without detergents, effect on growth, efficiency and mortality, 1140.
- for rats, 359.
- for turkeys, 539.
- effect on growth and feed utilisation, 658.
- implants, for suckling pigs, 564.\*
- in animal nutrition, 270.\*
- in litter, poultry, 83.
- in maternal diet, effect on growth of progeny (chicken), 559.\*
- in nutrition (book), 554.
- mode of action, 1106.\*
- (chicken), 545.
- modification of vitamin D<sub>2</sub> activity (chicken), 65.
- naturally occurring in plants, for chickens, 253.
- penicillin, active and inactivated, effect on growth and feed utilisation (pig), 243.
- detection in milk and milk products, 318.\*
- effect on growth and efficiency of goslings, 836.
- effect on growth, feed efficiency and nitrogen retention (pig), 529.
- effect on vitamin B<sub>1</sub> requirement (rat), 644.
- for horses, debilitated, 659.
- for pigs, effect with vitamin B<sub>12</sub> on growth, 87.
- growth response in chickens and turkeys, effect of water intake, 836.
- in feedingstuffs, stability, 606.
- inactivated, effect on growth (chicken), 1167.\*
- growth factor as source of unidentified mycelium, as source of unidentified growth factor for chickens, 539.
- for chickens, 537.
- for poultry, 835.
- prevention of bloot in cattle, 1150.
- treatment of anaemia, megaloblastic, effect on vitamin B<sub>12</sub> absorption and level in blood, Africa, 498.
- penicillin G, crystalline, treatment of anaemia, megaloblastic, India, 216.
- procaine penicillin, for poultry, effect on egg weight and shell thickness, 383.
- production of senescence (rat), 1039.
- relation to vitamin B<sub>12</sub> in nutrition, 564.\*
- streptomycin, estimation, 874.
- mycelium, as source of unidentified growth factor for chickens, 536.
- soluble, for dairy calves, 273.\*
- tolerance, effect of pantothenate (man), 495.
- supplements for pigs on alfalfa pasture, 273.\*
- terracycline, effect on calcium and phosphorus metabolism (chicken), 1140.
- effect on protein utilisation (chick, rat), 378.
- for beef cattle, 273.\*
- for chickens, effect of old and new environment, 1139.

## Antibiotics

- terramycin, for ducks, 835.  
 for pigs given vitamin B<sub>12</sub>, 658.  
 for poultry, 836.\*  
 with arsenic acid, effect on growth of chickens, 253.  
 toxicity to bacteria, effect of vitamin B complex components, 642.  
 treatment of enteritis (pig), 558.\*  
 treatment of infection, relation to nutrition, 558.\*  
 treatment of liver cirrhosis (infant), 558.\*  
 use in self-feeding lambs, 561.\*  
 with arsenical supplements, for poultry, effect on growth, egg production and arsenic in tissues, 539.  
 with fishmeal, for chickens, 552.  
 with plant protein, for chickens, 534.  
 with thyroxine and stilboestrol, effect on growth of pigs, 244.

Antibody production (see *Immunity reactions*)

Antimetabolites and drugs, 851.\*

## Anti-oxidants

- action of vitamin E, 636.  
 diphenyl-p-phenylenediamine, detection in alfalfa meal, 55.  
 effect in preventing encephalomalacia (chicken), 357.  
 effect on carotenoid utilisation (chicken), 923.  
 effect on metabolism of carotene and vitamin A (rat), 627.  
 effect on vitamin A excess (rat), 1162.\*  
 for cows, effect on susceptibility of milk to oxidative deterioration, 235.  
 for fats, 33\*, 895.  
 from moulds, 33.  
 synergistic effect of  $\alpha$ -alanine, 34.  
 for food, 1168.\*  
 gallic acid esters, toxicity (pig, rat), 270.\*  
 stabilisation of fats and fatty foods, 325.\*  
 supplements to low-fat diet, effect on reproduction (rat), 838.  
 use in fats for animal feeding, 325.

Antiscorbutics (see under *Scurvy; Vitamin C*)

Antivitamins, antimetabolites and chemotherapy, 622.\*

## Aorta

- aneurysm, produced by *Lathyrus odoratus*, histopathology (rat), 749.  
 cholesterol formation, *in vitro* (turkey), 155.  
 composition, effect of sodium intake (rat), 145.  
 elastic tissue, effect of cholesterol (rabbit), 142.  
 intima, lipids and protein, in normal and atherosclerotic areas (man), 851.\*

Apoerythrin (see *Anaemia, anti-anaemia factor, intrinsic*)

## Apparatus

- automatic recording, for chromatographic estimation of amino acids, 1164.\*  
 brooder, compensator for barometric pressure variations, 323.\*  
 cage for isotope studies (rat), 601.  
 cage for metabolism and other experiments (laboratory animals), 322.  
 calorimeter, for aquatic animals, 321.  
 gradient layer, 276.\*  
 dilatometer for estimation of solids in fats, 875.\*  
 electrolysaler and desalter, 869.\*  
 extraction, micro-, 305.  
 for chromatography, 15.  
 automatic fraction collector, 305\*, 869.  
 column, fraction collector, 883.\*  
 flow counter, 869.\*  
 Geiger counter for scanning, 869.\*

## Apparatus

- for chromatography, paper, 15\*, 583.\*  
 continuous, 15.  
 R<sub>f</sub> scale, 869.  
 for collecting saliva (rat), 888.  
 for erude fibre estimation, 869.  
 for electrophoresis, electronic computer, 583.\*  
 modification for measurements of radio-activity, 869.  
 paper, 15, 587, 873.  
 for estimating carbon dioxide in blood, 869.  
 for estimating moisture in foods, 1167.\*  
 for faeces and urine collection (cow), 887.  
 for infusion, continuous (animals, man), 886.  
 for measuring activity and oxygen consumption (rat), 887.  
 for measuring conductivity of blood, 869.  
 for measuring oxygen absorption, 321.  
 for measuring oxygen consumption (chicken), 887, (small mammals), 321.  
 for nitrogen estimation, 308.  
 for recording cattle behaviour, 31.  
 for recording feeding (rat), 886.  
 for sampling rumen fluid, 32.  
 for study of intestinal absorption, *in vivo* (rat), 270.\*  
 for treating blast, 885.  
 for urine collection, from infants and children, 320.  
 from pigs, baby, 322.  
 manometer flask, 30.  
 metabolism chamber for small animals, 31, 322.  
 metabolism stall, moveable, for bulls, 887.  
 microburette, motor-driven, 876.  
 pycnometer, automatic recording, 15.\*  
 flame, ultraviolet, 850.\*  
 respiration, for use with rats, 850.\*  
 Soxhlet extractor, improved, 305.  
 tissue chopper, 601.\*

## Appetite

- and repletion, role of bulk in ration (livestock), 1099.  
 effect of amino acids (man), 697.  
 effect of olfactory stimuli (rat), 1042.  
 effect on growth and obesity, 270.\*  
 loss (see *Anorexia*)

## Apple(s)

- residue from cider making, digestibility and nutritive value (sheep, pig), 1103.  
 silage, for dairy cows, 234.  
 ripening, 2: 3-butylene glycol content, 618.  
 vitamin C content, 94.

*Arachis hypogaea* (see *Groundnuts*)

Arabis, South, syndrome of splenomegaly, incidence, 193.

L-Arabinose, detection, 307.\*

Arachidonic acid, in blood, 877.

Arasan (fungicidal product), for poultry, effect on egg quality, 1146.

Arctic, mammals and birds, energy exchange, 117.

*Arepa* (see under *Veneruela*)

## Argentina

goitre, 272.\*

hospitals, diet planning, 212.

Arginine, estimation in liver, 881.

## Arginine

- estimation, 588, 874.  
 in protein hydrolysates, 874.  
 importance for mink on purified diet, 1163.\*  
 in eggs, germinal disc and yolk, effect of, 1162.\*  
 requirement of chickens, 559\*, 831.  
 Arginine phosphate, variations in insect metamorphosis, 468.\*

## Army

- America (U.S.), bee  
 assumption, cooki  
 waste, 892.  
 Chinese Republican,  
 clinical observati  
 diet, role of preserved  
 Netherlands, recruits,  
 studies, 1168.\*  
 Arsanilic acid, for chick  
 tissues, 659.\*  
 for poultry, effect on gr  
 duction and arsenic i  
 for turkeys, 539.  
 tolerance of mink, 1164.\*  
 Arsenic, effect on growth (cal  
 for poultry, effect on grow  
 duction and arsenic in  
 for turkeys, 539.  
 in tissues of chickens given  
 acid, 559.\*  
 Arsenic compounds, effect on  
 poisoning (pig), 561.\*  
 Arsonic acid  
 p-chlorophenyl, dodecylamide  
 poultry, effect on growth,  
 duction and arsenic in tiss  
 effect on growth (chicken), 538.  
 for pigs, 829.  
 3-nitro-4-hydroxyphenyl, effe  
 growth and efficiency of go  
 836.  
 for turkeys, 539.  
 with terramycin, effect on gr  
 (chicken), 253.  
 4-nitro-phenyl, effect on product  
 (turkey), 1145.  
 Arteriosclerosis (see also *Atherosclerosis*)  
 blood lipids, effect of brain cerebrosid  
 (man), 709.  
 coronary, relation to peptic ulcer (man,  
 1165.\*  
 serum cholesterol, effect of sitosterol  
 (man), 140.  
 disorders from blood lipids and chylom  
 micron curves (man), 134.  
 experimental, in cockerels, effect of  
 alcohol, 1023.  
 in diabetes, effect of diet high in vege  
 table fat (man), 272.\*  
 in vitamin E deficiency (dog, monkey),  
 1165.\*  
 pathogenesis, in choline deficiency (rat),  
 138.  
 produced by choline deficiency, effect of  
 cholesterol (rat), 142.  
 reduction by dihydrocholesterol  
 (chicken), 432.  
 pulmonary, induced, effect of fat feeds  
 on severity (rabbit), 1007.  
 review (man), 1007.\*  
 treatment, 272.\*  
 treatment and prevention by diet, 508.\*  
 Arteritis, necrotising, prevention with  
 vitamin B complex components  
 (dog), 272.\*  
 Artery disease, coronary, effect of fat  
 intake, high (man), 188.  
 Arthritis (see also *Gout*)  
 rheumatoid, iron absorption (man), 140.  
 treatment with vitamin K, 1161.\*  
 with anaemia, treatment with cobalt  
 injections, 1161.\*  
 Artocarpus (see *Breadfruit*)  
 Arum maculatum, poisoning of cattle, 559.\*  
 Ascaridia (see under *Worms*)  
 Ascites (see under *Liver disorders, cirrhosis*)  
 Ascorbic acid (see also *Vitamin C*)  
 and adrenal cortex, 381.\*  
 as hydrogen acceptor in metabolism of  
 adrenal, 92.  
 autooxidation as function of pH values,  
 380.\*

## Antibiotic acid

- autogenesis, 381.\*  
 and, in lemon pulp, diurnal variation and effect of maturation, 954.  
 in liver (guinea pig), 954.  
 efficiency, effect on adrenal and thyroid during exposure to cold (guinea pig), 662.  
 effect on adenosinetriphosphato in blood (guinea pig), 90.  
 effect on cortisone metabolism by liver slices (guinea pig), 382.  
 effect on ketone formation by liver, *in vitro* (guinea pig), 956.  
 effect on lysozyme content of tissues (guinea pig), 91.  
 effect, *in vitro*, on citrovorum factor in urine after folic acid by mouth (man), 1079.  
 effect on adrenal (mouse, rat), 93.  
 in exposure to cold (guinea pig), 272.\*  
 effect on blood and urine composition during exposure to cold (man), 778.  
 effect on carotene utilisation (rat), 992.  
 effect on catarract, experimental (guinea pig), 957.  
 effect on complement fixation (guinea pig), 955.  
 effect on cysteine requirement of *lactobacilli*, 663.  
 effect on hydrocortisone metabolism (man), 500.  
 effect on inulin-glucose tolerance curves in obesity (man), 1087.  
 effect on oedema production by egg white injections after adrenalectomy (rat), 93.  
 effect on oxidised flavour of stored butter, 383.  
 effect on response to insulin of blood sugar, adrenal cholesterol, and liver glycogen (rat), 959.  
 effect on succinic dehydrogenase activity of skin (rat), 383.  
 estimation, 89, 380, 953.  
 in fruits and vegetables, *rod.* 15.  
 with indophenol, use of *p*-chloromercuribenzoic acid, 953.  
 excretion, effect of aminopterin (rat), 956.  
 effect of diet (rabbit), 90.  
 for poultry, effect on egg weight and shell thickness, 383.  
 formation, from glucose, effect of chlorotone (rat), 1165.\*  
*in vitro*, from sugars by lens (bovine, guinea pig, rabbit), 89.  
 in ascoria, extraction, 954.\*  
 in adrenal, distribution during development (rat), 92.\*  
 effect of acetate (guinea pig), 958.  
 effect of adrenal cortex hormones (rat), 93.  
 effect of blood withdrawal from ophthalmic sinus (rat), 959.  
 effect of cortisone and adrenocorticotrophic hormone (guinea pig), 958.  
 effect of injection of blood from hypophyseal portal vessel (rat), 662.  
 effect of salicylates, 93.\*  
 effect of X-ray exposure of half body (rat), 381.  
 effect of stress (infant rat), 383.  
 in alloxan diabetes, 382.\*  
 in pre-hibernation (hamster), 383.  
 in apples, 84.  
 in aqueous humour, origin (guinea pig, rabbit), 957.  
 in baobab fruit pulp, 664.  
 in beans, green, effect of cooking, 664.  
 in blood, as index of stress (rat), 383.  
 effect of ascorbic acid intake (man), 785, 1087.  
 effect on vascular fragility, 785.  
 normal and in disease, India, 500.

## Ascorbic acid

- in blood, relation of vegetative nervous system, 91.  
 studies, Poland, 785.  
 in blueberries (*Vaccinium uliginosum*), 49.  
 in fruits, French Guiana, 384.  
 in fruits and vegetables, America (U.S.), 84.  
 in leuca (cattle, rabbit), 956.  
 in milk products, role in oxidised flavour development, 383.  
 in organs, effect of pantothenic acid (guinea pig), 91.  
 in peas, Southern, effect of maturity and storage, 384.  
 in potatoes, scope, effect of variety, times of planting and harvesting and of storage, 53.  
 in tissues, effect of amino acids, sulphur (rat), 91.  
 effect of aminopterin (rat), 956.  
 effect of anti-inflammatory drugs (rat), 93.  
 effect of fescuin in diet (guinea pig), 958.  
 effect of X-ray exposure (rat), 381.  
 in tomatoes, 94.  
 influence on power of adrenocorticotrophic hormone to deplete adrenal ascorbic acid (rat), 662.  
 intake, effect on ascorbic acid in blood and white blood cells (man), 785.  
 effect on blood haemolysis by oxygen, 1087.  
 effect on weight and cholesterol content of adrenals after stress (rat), 340.  
 Italy, 785.  
 interaction with isoniazid (mouse), 1165.\*  
 massive doses, effect on gingival tissue (man), 557.\*  
 effect on growth and survival in vitamin B<sub>12</sub> deficiency (rat), 940.  
 metabolism (guinea pig), 660.  
 (man), 385.\*  
 (rat), 381.\*  
 effect of age and diet (rat), 954.  
 effect of X-ray exposure (rat), 381.  
 oxidation, photochemical, in presence of oxalic acid, catalysis by iron salt, 380.  
 mechanism of reaction, 659.  
 oxidation products, effect on growth of *Mycobacterium tuberculosis*, 743.  
 pantothenic acid sparing action in antibody production (rat), 1163.\*  
 production from 2,3-dihydroxyglutamic acid by eye lens extract (rabbit), 660.  
 production from L-sorbose (rat), 90.  
 reaction with alloxan, *in vitro*, 382.  
 reaction with cyclic amino acids, 953.  
 reduced and total, in foods, 95.  
 reduction of cytochrome c, effect of tocopheryl phosphate, 932.  
 requirement of guinea pig, effect of cortisone, 92.  
 role in tricarboxylic acid metabolism, 90.  
 saturation tests, in dietary surveys, 500.  
 treatment of adrenal insufficiency (man), 785.  
 treatment of myxoma (man), 786.  
 treatment of scurvy and megaloblastic anaemia, case report, 1086.  
 uptake by blood colloids in pathological conditions, 785.\*  
 L-Ascorbic acid, autooxidation, effect of imidazole derivatives, 954.\*  
 Ascorbic acid, D-arabo-, treatment of vitamin deficiency (man), 500.  
 Ascorbic acid, dehydro-  
 effect on glutathione in blood and tissues (rabbit), 660.  
 hyperglycaemic action, production of histological changes (rat), 959.

- Ascorbic acid, dehydro-  
 oxidation, effect of pyrocatechol, 95.  
 production of diabetes, prevention by condensation product of glucose and ethyl acetate (rat), 660.  
*Ashbya gossypii*, riboflavin synthesis, incorporation of labelled carbon, 941.  
 Ash (see *Minerals*)  
 Asia, Central, cottonseed oil, properties and digestibility (man), 618.  
 Aspartic acid, estimation, in beet molasses, 310.  
 in blood (man), 973.  
 metabolism, microbiological studies, 1164.\*  
 Aspartic acid antimetabolites, 1003.\*  
 Aspartic, acute and chronic effects (rat), 845.\*  
 uptake, in thyroid disorders (man), 848.\*  
 Astaxanthine, conversion to vitamin A, in *Gambusia holbrooki*, 626.  
 Asthma, nicotinic acid metabolism, 1161.\*  
 treatment with iodine, production of goitre, 785.  
*Astragalus vulgaris*, fruit, for pigs, 828.  
 AT.10 (see *Dihydroxyacetone*)  
*Atalapha hemiphaea* (white wood), fruit, toxicity for horses, 1156.\*  
 Atheroma, in coronary arteries under different diets, role of arterial and renal injury, 1165.\*  
 relation to lipaemia, 849.\*  
 Atherosclerosis (see also *Arteriosclerosis*) and fat intake, relation in different ethnic groups, 768.  
 angina pectoris produced by eating fat (man), 135.\*  
 aorta, intima, lipids and protein (man), 857.  
 aortic phospholipids (rabbit), 272.\*  
 bile acids in blood (monkey), 399.  
 blood lipids (man), 272.\*  
 comparison with hypothyroidism (man), 107.  
 cause, 188.  
 coronary, serum lipoproteins (man), 106.\*  
 effect of cholesterol (chicken), 1163.\*  
 experimental, effect of alginate acid, 142.\*  
 effect of choline citrate (rabbit), 709.  
 effect of state of cholesterol in diet (rabbit), 709.  
 effect of vegetable fats (rabbit), 708.  
 histological changes (monkey, rat), 1162.\*  
 in rats, 432, 1162.\*  
 induced by cholesterol, 849.\*  
 phospholipids in aorta (rabbit), 142.  
 serum proteins and lipoproteins (rabbit), 106.  
 hypertension, and diet, 1161.\*  
 in Bantu, South Africa, 853.\*  
 in old age (man), 97.\*  
 lack of correlation at death with clinical tests during life, 1007.  
 in workers, America (U.S.), 188.  
 morphogenesis (pig), 272.\*  
 on milk diet (monkey), 272.\*  
 polyunsaturated fatty acids in blood (man), 138.  
 produced by cholesterol, effect of ethionine (guinea pig, rabbit), 141.  
 effect of heparin (rabbit), 272.\*  
 production by diet (rabbit), 708.  
 production by high intake of vegetable fat (rabbit), 851.\*  
 production by vegetable oil (rat), 272.\*  
 regression (chicken), 272.\*  
 research, review, 1007.\*  
 serum lipids (man), 676.  
 serum lipoproteins, changes during incubation (man), 106.  
 specific differences, 432.  
 spontaneous, in rats, 708.

- Atherosclerosis**  
spontaneous and produced by cholesterol, effect of fat-soluble vitamins (heui), 340.  
treatment with diet (man), 798.  
Athletes, diets, 480.  
Athletics, energy output, 849.\*  
Aureomycin (see under *Antibiotics*)  
Aurofac, for pigs, 826.  
Aurofac-2A, and Fortafeed, for fattening geese, 252.  
for calves, 226.  
for pigs, 827.
- Australia**  
butterfat production by cows on pasture alone or with high- or low-protein concentrates, 113.  
cattle, beef, grazing behaviour, 518.  
industry, review, 840.  
phosphorus deficiency, 842.  
Central Queensland Highlands, agricultural potential, 846.\*  
dental caries, and fluorosis, 788.  
control by fluoridation of water, recommendations, 789.  
diet study, in pregnancy, relation to toxæmia (women), 476.  
fat lamb production, 526.  
goitre (man), 794.\*  
hospital patients, aged, diet study, 760.  
infants, underfeeding, 470.  
knock-knees in children, incidence and etiology, 768.  
milk, human, composition, 610.  
Northern Territory, aborigines, diet survey, 764.  
pasture, effect of molybdenum and other minerals, 430.  
trace element deficiencies, 916.\*  
plants, non-pasture, trace element deficiencies, 908.\*  
sheep, copper status, relation to interaction between copper, molybdenum and sulphate, 843.

in infants, premature, 972.  
with increased amino acid excretion, case report, 219.  
in Navajo Indians, 974.  
in vegetarians, effect of aureomycin, 1080.  
incorporation into liver tissue and hepatoma (rat), 730.  
labelling with radio-active iodine (rabbit), 598.  
rate of loss, normal and in cancer (rat), 1091.  
regulation (dog), 972.\*  
relation to nutritional state, India (man), 477.  
separation, 17.\*  
turnover, 972.\*  
normal and in cirrhosis (man), 126.  
**Blood plasma volume, estimation (man), 29.**  
with dextran, 1165.\*  
**Blood pressure**  
arterial, in disease, effect of vitamin B<sub>1</sub> (man), 1076.  
effect of intermittent high fat intake (dog), 137.  
effect of salt (man), 1161.\*  
high, after kidney removal, effect of protein intake (dog), 127, 1165.\*  
and diet, 1161.\*  
electrolyte exchange, early effects of salt restriction (man), 144.  
essential, serum lipids and lipoproteins, effect of fat and cholesterol intake (man), 133.  
experimental, neurogenic, effect of vitamin B<sub>1</sub> (rat), 940.  
produced by deoxycorticosterone acetate, effect of cortisone, adrenocorticotrophic hormone or vitamin G (rat), 382.  
relation to salt intake and thirst (rat), 439.  
relation to adrenals and pantothenic acid, 1161.\*  
salt and water balance (rat), 851.\*  
total, exchangeable sodium (man), 1014.  
treatment by low-sodium diet, preparation of meals, 1093.  
treatment with liver extract, glutamic acid and vitamin B<sub>1</sub>, 1161.\*  
treatment with pantothenic acid, 1161.\*  
in obesity, 270.\*  
late effect of choline deficiency (rat), 152.  
response to stimulation, effect of sugar or honey (man), 119.  
venous, in oedema produced by sodium excess (man), 438.  
**Blood protein (see also under Blood plasma; Blood serum)**  
cattle, use in human therapeutic diets, 1091.  
changes in oedema disease (pig), 261.  
combination with vitamin B<sub>12</sub>, 84.  
complex formation with carotene, vitamins A and D and cholesterol, 53.  
estimation, 308, 873.  
fractions, estimation, 18.  
in kwashiorkor, 771.  
in infants, Bédouin, 1071.  
in malnutrition of infants and children, Italy, 770.

## Blood protein

- labelled, decay of activity after oral or intravenous administration (man), 598.\*  
low, association with anaemia and hyperlipaemia, 1164.\*  
**Blood prothrombin**  
deficiency, in infants, newborn, 786.  
effect of hen's diet (chicken), 357.  
in lead poisoning, effect of vitamin K, 301.  
**Blood prothrombin time, effect of hormones and vitamins (rabbit), 53.**  
**Blood, red cells**  
basophil stippling effect of vitamin B<sub>12</sub> *in vitro*, 85.  
carbohydrate utilisation *in vitro* (rabbit), 448.  
formation, effect of folic acid in pernicious anaemia, 780.  
estimation, (man), 971.  
haemoglobin concentration, 30.\*  
haemolysis, *in vitro*, effect of vitamin E deficiency in diet (chicken, rat), 930.  
in (leucocyte) deficiency (child), 775.  
in anaemia, megaloblastic, survival time in normal subjects, 507.  
in racing horses, 971.\*  
incorporation of iron, normal and in anaemia (pig), 719.  
labelling with radio-active chromium, 598.  
membrane, permeability to potassium, 1081.\*  
metabolism, effect of vitamin B<sub>1</sub> deficiency (rat), 1164.\*  
in galactosaemia, 726.  
regeneration in anaemia, effect of vitamin B<sub>12</sub> and intrinsic factor, 85.  
rubidium, radio-active, as label, 884.  
sedimentation rate, effect of diet of Bantu mine-workers, 672.  
sodium and potassium content and osmotic resistance, effect of coumarin and flavone derivatives (guinea pig, horse), 960.  
stroma, effect of anaemia on proteins and lipids (dog), 655.  
survival, in copper deficiency (pig), 1020.  
*in vivo* (man), 271.\*  
**Blood, red cell volume**  
estimation, 30\*, 319, 598\*, 884.\*  
in infants and children, 30.  
in vegetarians, 1080.  
**Blood, reticulocyte count, in newborn infants, 104.**  
reticulocytes, maturation time, in infants, 393.  
**Blood serum albumin**  
and protein intake for assessment of nutritional status, 766.  
distribution in body when injected (man), 402.  
estimation (man), 17, 308.  
human, treatment of liver damage, 271.\*  
iodine-labelled, preparation, 320.\*  
metabolism, in congestive heart failure and proteinuria (man), 421.  
in nephrotic syndrome (man), 421.  
**Blood serum, fatty acids, separation, 877.\***  
**Blood serum globulin, estimation (man), 308.**  
in infants, 395.  
**Blood serum, glycoproteins, estimation, 309.\***  
iron, effect of hookworm infestation (man), 189.  
iron-binding capacity, in disease (man), 400.  
**Blood serum lipids**  
and lipoproteins, effect of fat intake and sitosterol (man), 140.  
in hypertension, effect of fat and cholesterol intake (man), 133.

Blood serum lipids  
in hypothyroidism, effect of  $\beta$ -sitosterol (man), 271.\*  
in infants and children, 678.\*  
Blood serum lipoproteins, 106.\*  
and cholesterol, relation to diet and activity (man), 393.  
distribution (child), 973.  
distribution of lipid and phospholipin (man), 974.  
effect of carbohydrate in diet (rat), 992.  
effect of sitosterol (man), 1008.  
electrophoretic mobility, effect of fat infusion (man, dog), 974.  
fractional distribution (man, laboratory mammals), 398.  
in atherosclerosis (man), 106\*, 271.\*  
in choline deficiency (rat), 398.  
in diabetes (man), 676.\*  
in diabetic acidosis and glycogen storage disease (man), 120.  
in infants and children, 676.\*  
nomenclature, 973.\*  
normal and in atherosclerosis or lipaemia, changes during incubation (man), 106.  
separation, 586.  
Blood serum  $\beta$ -lipoproteins, separation, 873.  
Blood serum proteins  
albumin as precursor of globulin (rat), 127.  
amino acids, electrophoretic pattern (dog, man, rat), 106.\*  
and lipids, effect of old age (man), 742.  
and lipoproteins (man), 106.\*  
and non-protein nitrogen during pregnancy, effect of vitamin B<sub>6</sub> deficiency (rat), 1163.\*  
and protein metabolism, 417.\*  
at parturition (woman), 972.  
changes with age and egg production (chicken), 397.  
circulation time after injection (dog, rabbit), 676.  
complex with vitamin B<sub>12</sub> (man), 654.  
cystine content (man), 973.  
during lactation (woman), 739.  
effect of dextran (dog, rat), 694.  
effect of ethionine (rabbit), 396.  
effect of *Plasmodium berghei* infection (rat), 164.  
electrophoresis, 396\*, 586, 873.  
electrophoretic study (calf), 163.  
estimation, 17\*, 18\*, 308, 586.  
(man), 587.  
fractionation, 18\*, 586.  
fractions, estimation, 587.\*  
in pregnancy (woman), 586.  
 $\gamma$ -globulin, in infants, premature, 396.  
in cancer, 396.  
in Caucasoid and Negroid, North America, 972.\*  
in cholesterol atherosclerosis (rabbit), 106.  
in collagen diseases (man), 674.  
in disorders of infants and children, 972.  
in goats, relation to age and diet, 397.\*  
in health and disease (man), 271.\*  
in infants, 106.  
African 395.  
exposed to malaria, 673.  
amount and quality, 972.\*  
in portal and hepatic veins (dog), 968.  
in pregnancy (woman), 674.  
and lactation (woman), 736.  
Kwango women, 161.  
normal and with toxæmia (woman), 674.  
in snakes, 753.\*  
in toxicosis (infant), 674.\*  
influence of pituitary (man), 984.  
iodination *in vitro*, 557.\*  
new components (man), 396.  
normal, Venezuela (man), 972.

Blood serum proteins  
relation to calcium, 108.\*  
relation to diet and malaria, Uganda (man), 105.  
relation to nutritional status of infants, Japan, 673.  
relation to protein in organs (mouse), 109.\*  
separation, 308, 586, 587, 587.\*  
(mammal), 17.\*  
(man), 587.  
sialic acid content (man), 108.\*  
species differences, 106.  
sulphydryl, in scurvy, effect of anti-inflammatory drugs (guinea pig), 1165.\*  
turnover rate (dog), 1164.\*  
Blood serum, serological reactions, effect of treatment of syphilis with vitamin B<sub>12</sub>, 1077.  
thyroxine-binding capacity (man), 113.  
effect of thyroxine analogues (man), 114.  
vitamin B<sub>12</sub>-binding capacity, estimation, 1164.\*  
Blood, slaughterhouse, preservation and use for livestock, 894.  
Blood sugar (see also *Carbohydrate metabolism*; *Diabetes*; *Insulin*)  
assimilation, estimation, 411.  
changes, in sheep, 413.  
effect of acetate, propionate and butyrate (sheep), 1006.  
effect of animal and vegetable protein (man), 125.  
effect of carbohydrate-free diet (rat), 121.  
effect of fructose (man), 119.  
with and without adrenocorticotrophic hormone, 691.\*  
effect of glucagon (child), 120.  
(man), 991.  
effect of glutamate or glycine (rabbit), 122.  
effect of glycerophosphate (rabbit), 122.  
effect of honey given by vein (rabbit), 120.  
effect of nutrients yielding energy (man), 1162.\*  
effect of pantothenic acid (rat), 80.  
effect of type of breakfast (woman), 411.  
effect of volatile fatty acids (goat), 139.  
effect on ketone bodies (rat), 416.  
estimation (man), 16.\*  
glucose homeostasis test for functional hyperinsulinism, 320.  
fractionation, 415.  
fractions, in diabetes (man), 415.  
high, effect on metabolism in diabetes (dog), 990.\*  
in diabetes, alloxan, effect of nicotinic acid (rabbit), 77.  
produced by dehydroascorbic acid, effects on tissue histology (rat), 959.  
produced by xanthurenic acid, mechanism, 944.\*  
in African adults, 118.  
in beriberi, effect of cocarboxylase (pigeon), 361.  
effect of cysteine and cystine (pigeon), 361.  
in calves, relation to rumen development, 990.  
in diabetes and hyperinsulinism, effect of dextran by mouth, 1092.  
in hepatitis, effect of amino acid and glucose infusion (man), 412.\*  
in lizards, 753.\*  
in obese diabetic mice, effect of hormones, 691.  
in turkey poults, effect of insulin with or without glucagon, 991.  
low, after stomach removal (man), 693.  
idiopathic, in infants, 187.  
in pregnancy toxæmia (ewe), 1165.

Blood sugar  
low, of nervous origin (man), 416.  
spontaneous, review (man), 416.\*  
maternal and foetal, and sugar in amniotic fluid (rabbit, hare), 1036.  
protein-bound, estimation (man), 307.  
relation to blood lipids, in diabetes (man), 120.  
relation to rumen movements (sheep), 670.  
response to adrenaline, effect of diet and choline (rat), 994.  
response to insulin, effect of ascorbic acid (rat), 959.  
tolerance, effect of diets containing fructose, glucose and galactose (dog), 992.  
effect of fructose (man), 1163.\*  
in Africans and Europeans, 690.  
in dietary liver necrosis, effect of cysteine and vitamin E (rat), 380.  
in endocrine disorders (man), 691.  
in muscular dystrophy (child), 970.  
in pregnant women, 736.  
relation to obesity and food intake (mouse), 990.  
tolerance tests, double, significance (man), 118.  
effect of lactose diet (child), 119.  
effect on serum inorganic phosphorus, normal and in diabetes (woman), 691.  
flat curve, significance (man), 691.  
in diabetes and obesity, effect of vitamin B<sub>12</sub> (man), 784.  
in obesity (man), 990.  
effect of ascorbic acid (man), 1087.  
in old age, 791.  
in pigs, 691.  
intravenous, comparison of indices (man), 690.  
xylose (infant), 557.\*  
Blood, thromboplastic activity, effect of vitamin B<sub>12</sub>, 376.  
Blood vessels  
capillary, hyaluronidase action, effect of luteol and rutin (child), 210.  
disorders, aorta lesions, role of vitamin E deficiency (guinea pig, rabbit), 356.  
arterial disease, role of diet, 218.\*  
hypertension, treatment with rice diet, effect on papilloedema, 218.  
in embryo, production by pantothenic acid deficiency in mother (rat), 947.  
portal collateral circulation, with liver cirrhosis, production of psychoneurosis (man), 1069.  
treatment with horse chestnut extract (man), 493.  
treatment with vitamin E, calcium and magnesium (man), 195.  
Blood volume  
effect of heat and acclimatization (man), 434.  
effect of hot environment (calf), 557.\*  
estimation (animals, man), 598.\*  
(chicken embryo), 30.\*  
(dog, rabbit), 271.\*  
(goat), 20.  
(man), 271\*, 598, 884, 885.\*  
in dystrophy (infant), 103.  
in goats, 30.  
in pregnancy and puerperium (woman), 1034.  
normal variations (man), 851.\*  
portions of musculo-skeletal system (man), 310.\*  
prediction from height and weight (man), 978.  
Blood, white cells  
ascorbic acid content, effect of ascorbic acid intake (man), 785.  
vitamin B<sub>12</sub> content, normal and in leucæmia (man), 1086.

- Blood, withdrawal, from ophthalmic sinus, effect of ascorbic acid in adrenals (rat), 959.  
effect on fattening cattle, 517.
- Bloodmeal, as lysine supplement for chickens on all-vegetable rations, 534.  
for carp, 1106.
- Blowfly (see under *Insects*)
- Blown (see *Cattle disorders, bloat*)
- Blueberry (*Vaccinium uliginosum*), composition, 49.
- Bobwhite quail (see *Quail, bobwhite*)
- Body build, corpulence index for adults, 186.
- Body composition  
changes during rehabilitation (man), 508.  
effect of adding carbohydrate to milk diet, (rat) 1044.  
effects of development and nutrition, 670.  
of Indian adults, 400.  
protein content, effect of testosterone (rat), 405.  
tissue weights, effect of X-rays (rat), 680.
- Body fat (see under *Fat*)
- Body measurements (see also *Growth; Height; Weight*)  
adult men, standards, 456.  
calculation of bodyweight and lean bodyweight, 1164.\*  
children, histological, 453.\*  
height and weight, for prediction of blood volume and adiposity (man), 978.  
influence on metabolic cost of work (man), 407.  
leg-length differences, measurement, accuracy, 320.
- Body surface, estimation from Du Bois formulae, application to Indian men, 116.
- Body temperature (see under *Energy exchange*)
- Body water (see under *Water*)
- Body weight (see *Weight*)
- Boletus edulis*, protein, nutritive value for rats, 1048.
- Bombax sessile*, Kapok tree, seeds, composition, 48.
- Bombyx mori* (see under *Insects, Silkworm*)
- Bone(s) (see also *Skeleton*)  
and vitamins, recent research, 621.\*  
appreciation of vibrations, relation to diet, 766.  
calcification, effect of extract from saliva (rabbit), 1013.  
effect of fluorine (rat), 557.\*  
effect of parotid gland extract (rabbit), 1012.  
mechanism, 558.\* 729, 1164.\*  
problems, review, 713.\*  
studies *in vitro*, 1164.\*  
calcium, exchange *in vitro* (ox), 156.  
exchangeable, 452, 713.  
resorption after vitamin D, relation to dosage (rat), 633.  
composition, effect of calcium depletion, 270.\*  
effect of fluorine (monkey), 147.  
effect of vitamin A, massive doses (rat), 921.  
relation to diet and blood composition (cotton rat, rat), 270.\*  
density, effect of calcium intake (rat), 1103.\*  
relationships in adolescence, 1163.\*  
development, effect of diet and previous illnesses (child), 564.\*
- Bone disorders (see also *Rickets*)  
arthritis, induced by formalin, treatment with cortisone and vitamin B<sub>6</sub> (rat), 649.  
degenerative joint disease, in mice, relation to diet and obesity, 1049.
- Bone disorders  
dysplasia, osteoblastic, case reports, 197.  
fibula, curvature in, rickets, 460.  
foetal, dwarfing, production by pteroyl-glutamic acid deficiency in maternal diet (rat), 82.  
hyperostosis, spongy, in ancient skulls, Peru, relation to anaemia, 775.  
in chickens on purified diet, prevention by addition of ash of unidentified growth factors, 1163.\*  
osteomalacia, diagnosis, 1011.  
from phosphorus deficiency (cow), 274.\*  
in hypoparathyroidism, case report, 1074.  
of unknown etiology, case report, 1074.  
renal, in vitamin D deficiency (woman), 197.  
vitamin D-resistant, case report, 775.  
with excess glycine in urine (man), 698.  
osteoporosis, diagnosis, 1011.  
polyarthritic, chronic, effect on vitamin A metabolism (man), 488.  
"sickle-hock" in pigs, caused by manganese deficiency, 1129.
- Bone(s), effect of citric acid intake (rat), 1012.  
effect of manganese (chicken), 444.  
effect of nutrition, 558.\*  
effect of tryptophan deficiency (rat), 557.\*  
embryo, amino acid requirements *in vitro*, 152.  
effect of diacritine, racemic, *in vitro*, 371.\*  
effect of vitamin A excess, *in vitro* (chicken), 630.  
fluorine deposition, effect of injected fluorine (rat), 557.\* 1016.  
formation, effect of glucosamine (rat), 693.  
effect of parathyroid hormone (toad), 557.\*  
heteroplastic, effect of vitamin C deficiency (guinea pig), 661.  
radioautography, 558.\*  
fragility, in old age, effect of diet, 1060.  
growth, in vitamin D deprivation, effect of cortisone (rat), 929.  
healing, effect of lysine deficiency (rat), 703.  
intramembranous, development and healing of rickets, histological studies (rat), 354.  
malformation, effect of previous diet deficiency (rat), 594.\*  
marrow (see *Marrow, bone*)  
metabolism, studies with radio-active calcium and sulphur (dog), 848.\*  
mineral content and growth, effect of plane of nutrition (calf), 980.  
mineralisation, in foetuses and young infants, relation to bone growth, 1073.  
minerals, solubility, 143.\*  
organic matrix, chemistry, 558.\*  
periodontal lesions, effect of diet (white-tailed rat), 753.  
phosphorus accretion (infant), 436.  
phosphorus turnover (cat, rabbit, rat), 1013.  
phosphorus uptake, relation to growth (rat), 437.  
retention of calcium and strontium (mouse, rabbit, rat), 713.  
role in sodium metabolism (rat), 145.  
strength, in cattle, effect of nutrition, 807.  
structure in rickets, experimental (dog), 64.  
sulphur deposition (rabbit), 723.

## Calcium

- in blood, in pneumonia, interstitial (infant), 198.
- relation to serum protein, 198.\*
- in bone, effect of fluorine (rat), 557.\*
- effect of parathyroid hormone (rat), 1012.
- in cheese, low-salt, 331.
- in goat and sheep carcasses, 331.
- in maize, effect of maturity, 909.
- in milk and cheese, 909.
- in plant ash, estimation by flame spectrophotometer, 850.\*
- in sardines, America (U.S.), Japan, Portugal and Scandinavia, 907.
- injected, disposition (rat), 1164.\*
- excretion, species differences (man, monkey, rat), 1163.\*
- Calcium intake**
  - effect on bone density (rat), 1163.\*
  - effect on bone resorption during pregnancy and lactation (sheep), 435.
  - effect on digestibility of other nutrients, 272.\*
  - effect on histamine sensitivity (guinea-pig), 436.
  - effect on magnesium requirement of rats, 1013.
  - high, effect on growth of calves, 1111.
  - in rachitogenic diet, effect on tooth enamel pigmentation in vitamin E deficiency (rat), 557.\*
  - low, adaption (rat), 928, 1167.\*
  - effect on response to parathyroid extract (parathyroidectomised rat), 557.\*
  - effects (rat), 436.
- Calcium, ionic, estimation in milk ultrafiltrate**, 593.
- Calcium metabolism**
  - Bantu, South Africa, 853.\*
  - compared with strontium (rat), 713.
  - effect of cellobiose and glucosamine (rat), 693.
  - effect of dihydroxycholesterol and vitamin D (rat), 633.
  - effect of fluorine (goat), 143.
  - effect of glycolic acid (rat), 414.
  - effect of lactose and choline (rat), 414.
  - effect of low phosphorus and protein intakes (rat), 435.
  - effect of mannitol and sorbitol (rat), 414.
  - effect of optimal diet with or without vitamin D (rat), 928.
  - effect of oxalic acid in beet leaves (sheep), 222.
  - in bone (dog), 848.\*
  - in girls, 711.
  - in health and disease (man), 711.\*
  - in lactating goat, 740.
  - in pregnancy and lactation, review, 1037.\*
  - relation to citrate, 711.\*
  - role of parathyroids, 558.\*
- Calcium, physiological behaviour, effect of massive doses of vitamin D (cattle)**, 500.\*
- radio-active, estimation of response time in vitamin D deficiency (chicken)**, 453.
- use in metabolic studies (rat)**, 1167.\*
- ratio to magnesium in body fluids, clinical significance**, 24.
- Calcium requirement**
  - of cows, 229.
  - effect of sugar beet products containing oxalic acid, 1119.
  - of man, 757.
  - of pigs, 560.\*
- Calcium, resorption from bone after vitamin D, relation to dosage (rat)**, 633.
- retention, effect of age and level of phosphorus intake (rat)**, 1167.\*

## Calcium

- retention, effect of urea (lamb)**, 560.\*
- from low-calcium diet, effect of previous calcium intake (man)**, 1162.\*
- in ulcer patients, effect of sleep, 996. tolerance test, in parathyroid insufficiency and other disorders (man)**, 983.
- transfer across placenta (rat)**, 1037.
- utilisation, by chickens, factor in dried distiller's solubles**, 537.
- effect of dulcitol or mucic acid (rat)**, 414.
- effect of mannose (rat)**, 123.
- effect of sugars (rat)**, 122.\*
- for growth, role of vitamin D (rat)**, 63.
- Calcium and phosphorus**
  - in blood, effect of carotene (horse), 921.
  - effect of cortisone in rickets (rat), 634.
  - in infants, newborn and premature, 677.
  - relation to dermatoglyphism (pig), 714.
  - intake, effect on production of caries with sugar intake, high (rat), 557.\*
  - effect on strontium accumulation in bone (rat), 713.
- Calcium and phosphorus metabolism**
  - after test dose of calcium, normal and in disease (man), 1010.
  - effect of calciferol and dihydroxycholesterol (rat), 63.
  - effect of phytate phosphorus intake (bull), 519.
  - effect of terramycin (chick), 1140.
  - effect of vitamin A, massive doses (rat), 921.
  - in college women, 564.\*
  - in hypercalcaemia, idiopathic, in infants, effect of vitamin D intake, 1011.
  - in lactating sows, 435.
  - in milk-alkali syndrome and hyperparathyroidism, 519.
  - in resistant rickets, effect of dihydroxycholesterol, 197.
  - on poor rice diet, effect of groundnut curd supplement (child), 124.
  - on poor vegetarian diet (man), 418.
  - role of parathyroid hormone, review, 404.
- Calcium and phosphorus ratio, in anchovy fillets, squid and tuna**, 907.
- in diet, effect on caries incidence (rat)**, 1050.
- in ration, effect on fertility (cow)**, 818.
- in sardines, America (U.S.), Japan, Portugal and Scandinavia**, 907.
- Calcium and phosphorus, requirement of chickens, effect of animal fat**, 559.\*
- retention, in boys, effect of type of breakfast**, 695.
- utilisation, by poultry**, 563.\*
- on poor rice diet with lucerne or milk powder (rat)**, 143.
- Calcium carbonate, anaemia-producing action**, 275.\*
- Calcium formate compound, conservation of alfalfa silage**, 561.\*
- Calcium gluconate, with vitamin E, treatment of blood vessel disorders (man)**, 138.
- Calcium laevulinate, treatment of milk fever (cow)**, 548.
- Calcium phosphate, condition in milk**, 901.\*
- Calcium, uric acid, physiopathological study**, 799.\*
- urinary, in cats, effect of diet**, 549.
- Calluna vulgaris* (see *Heather*)
- honey* (see *Honey, heather*)
- Calorie requirement (see *Energy requirement*)**
- Calorie value (see *Energy value*)**

- Calorimeter, for aquatic animals**, 321.
- human gradient, observations**, 1165.\*
- Calves (see also *Cattle*; *Cows*)**
  - beef, feeding, creep, 273.\*
  - grass silage or arable crop silage, 228.
  - restricted rations, effect on subsequent performance, 227.
  - stilboestrol, 517.
  - grazing, non-protein and amino-nitrogen in blood, 397.
  - weight changes during first 3 days of life, 225.
- blood picture, changes with age**, 971.
- variations with individual and age**, 394.
- blood sugar, relation to rumen development**, 990.
- blood volume, effect of hot environment**, 557.\*
- body temperature, deep and rectal**, 118.
- buffalo, fattening**, 516.
- carbohydrate digestion and absorption**, 997.
- creep feeding**, 806.
- crossbred and purebred, reaction to type of feeding**, 520.
- dairy, feeding, simple and complex starters and hay**, 273.\*
- simple milk replacement formula**, 273.\*
- soluble streptomycin**, 273.\*
- digestibility of different rations, effect of aureomycin**, 1108.
- disorders, bracken poisoning, experimental**, 941.
- fatty induration and fatty necrosis, clinical signs**, 844.
- hyperkeratosis, caused by commercial protein concentrate, isolation of toxic fraction**, 1155.
- hypomagnesaemic tetany, magnesium metabolism**, 853.\*
- muscle dystrophy, etiology**, 274.\*
- relation to vitamin E**, 852.\*
- nicotinic acid deficiency**, 76.
- ophthalmia, case reports**, 628.
- prevention**, 807.
- scours, etiology and control**, 853.\*
- white scours, epidemiology**, 546.
- effect of vitamin A given to cow**, 546.
- incidences, relation to hygiene and colostrum**, 546.
- prevention with aureomycin**, 546.
- dry feeding**, 806.
- effect of aureomycin on performance**, 564.\*
- fattening, comparison with buffalo calves**, 516.
- for baby beef**, 227.
- Germany**, 228.
- Calves, feeding**
  - antibiotics, 518.
  - effect of level and length of period, 560.\*
  - Aurofac-2A, 226.
  - buttermilk, dried, 806.
  - in meal mixture, 1107.
  - chlortetracycline and ethionid C/16, effect on growth, efficiency, digestibility and blood nitrogen, 226.
  - colostrum, and development of serum globulins and agglutinins, 163.
  - during weaning period, 806.
  - effect of composition of dry starter, rumen inoculation and level of milk consumption, 853.\*
  - effect of level on sexual development, 272.\*
  - effect of lipotropic substances on vitamin A and carotene in blood and liver, 926.

- Calves, feeding  
indoor or outdoors, effect of grass and of sanitation, 1108.  
milk, limited amounts, 514, 806\*, 1108.  
of different fat content, effect on subsequent milk production, 520.

liveweight, estimation from body measurements, 518.  
management in feedlot, Canada, 1112.\*  
milk and beef breeds and their crosses, beef productions, Sweden, 1112.  
mineral requirements, 563.\*  
moisture exuded by skin, estimation, 602.  
muscle fibre, diameter, effect of age and breed, 822.  
pasture consumption, measurement, review, 902.\*  
phosphorus, availability from different sources, estimation, *in vitro*, 890.  
deficiency, Australia, 842.  
metabolism, effect of age, 273.\*  
physiological effect of temperature and humidity, 852.\*  
poisoning, by *Acacia georginae*, 550.\*  
by *Arum maculatum*, 550.\*  
by chemicals used as weed killers and insecticides, 845.\*  
by ethylene dibromide-treated grain, 1120.  
range, consumption of salt and phosphorus supplement, 563.\*  
reticulo-ruminal motility, 390.  
rumen (see under *Rumen*)

## Cattle

- serum iron, 977.  
skin thickness, European and zebu, 518.  
stomach, effect of vagal stimulation on motility and eructation, 390.  
topography, 99.\*  
trace element deficiencies, Tasmania, 1153.\*  
water requirements in tropics, 1111.\*  
zebu, and crossbred, body temperature in tropics, 988.\*  
grazing habits, errors of recording technique, 818.  
hump, physiology, 853.\*  
Cell(s) (see also *Tissue*)  
carbohydrate metabolism, *in vitro*, effect of potassium, 153.  
connective tissue, sulphur requirement, *in vitro*, 447.  
cytoplasmic particles, incorporation of amino acids (rat), 450.  
division, relation to carbohydrate metabolism (chicken embryo), 1025.  
embryo fibroblasts, cystine requirement, *in vitro*, 154.  
in tissue cultures, growth, estimation, 887.  
mammalian, amino-acid requirements, *in vitro*, 152.  
requirements, *in vitro*, 447.  
role of serum, 727.  
membrane, transport of lipids, 850.\*  
permeability, *Lactobacillus arabinosus*, effect of oleate and Tween 40 on biotin availability, 949.  
protein formation, review, 1028.\*  
requirement for unidentified tissue components, *in vitro*, 447.  
respiration *in vitro*, significance, 1025.  
tissue, culture medium, 152.  
Cell mitosis, heart fibroblasts, chick embryo, effect of vitamin A excess, 60.  
Cellulose, effect on calcium metabolism (rat), 693.  
Cellulose (see also *Fibre*; *Roughage*)  
decomposing factors in protein hydrolyses, effect on growth (lamb), 560.\*  
digestion, by rumen micro-organisms, 564.\*  
*in vitro*, effect of source of energy, 1041.  
effect of antibiotics (pig), 966.  
effect of carbohydrate, 560.\*  
in rumen, effect of aureomycin, 1041.  
estimation, 307, 558.  
grass, digestibility (sheep), 220.  
in feedingstuffs, effect on digestibility, 337.  
in plants, digestion *in vitro*, effect of lignification, 561.\*  
metabolisable energy value for chickens, estimation, 558.\*  
Cellulose digesting organisms, in feeds for ruminants, 561.\*  
Cenco moisture tester, for milk analysis, 273.\*  
Central nervous system (see under *Nervous system*)  
Cephalin (see also *Phospholipins*)  
estimation in milk, 592.  
Cephalopods (see under *Molluscs*)  
*Cerantonis siliqua*, L. (see *Carab bean*)  
Cereal(s) (see also under specific cereals, e.g., *Maize*)  
bread, planning for self sufficiency, Norway, 1150.  
effect of  $\gamma$ -rays, 848.\*  
export, FAO report, 274.\*  
for chickens and turkeys, effect on growth and food utilisation, 658.  
fumigated with ethylene dibromide, effect on egg production (hen), 550.  
gliadins, N-terminal amino acids, 909.

## Cereal(s)

- green, with beans, as green feed for livestock, 1103.\*  
losses in stacks due to rodents, 545.  
national policies, international effects, FAO report, 274.\*  
proteins, 616\*, 909.\*  
rice substitutes, India, 37.  
starch and sugar contents, 585.  
storage, mould growth, effect of oxygen and carbon dioxide concentration, 604.\*  
efficiency on quality, 604.\*  
trace elements, tables, 616.  
treated with Aldrin, toxicity for poultry, 265.  
vitamin B complex content, India, 360.  
Cereal by-products (see under specific products, e.g., *Bran*)  
Cereal grass and alfalfa, source of unidentified growth factors for chicken, 536.  
Cereal products, metabolisable energy, estimation from chemical composition, 1162.\*  
Cerebrosides, estimation, 592.\*  
from brain, treatment of arteriosclerosis (man), 709.  
Cerebrospinal fluid, amino acids (man), 678.  
composition, normal and in spasmophilia (man), 678.\*  
glycoproteins, in patients with brain disorders, 307.  
inorganic phosphorus (man), 678.\*  
iodine metabolism, 678.\*  
protein, estimation (man), 18.  
Cereolose, effect on utilisation of timothy hay (sheep), 561.\*  
Ceylon, kwashiorkor, pathology and prevention, 485.  
Charcoal, wood, in diet of chickens, adsorption of vitamins, 341.  
Cheese  
albumin, from ewe milk, composition, 904.  
amino acids and fatty acids, Swiss varieties, 903.  
 $\gamma$ -aminobutyric acid, 34.  
buffalo milk, calcium and phosphorus content, 903.  
cadaverin, 34.  
calcium and phosphorus content, 903.  
Camembert, fat content during ripening, 902.  
Cheshire, factor analysis, 888.  
consumption, by schoolchildren, Netherlands, 764.  
fatty acids and physico-chemical properties, Italy, 902.  
goat's milk, Norway, 330.  
keeping quality, 35.\*  
low-salt, sodium, potassium, calcium and chloride content, 331.  
nutritive value, review, 612.\*  
phosphatase test, 28.\*  
production, Schleswig-Holstein, 890.  
ripening, amino acids and fatty acids, vitamin B and riboflavin, Italian varieties, 643, 902.  
biochemistry, 903.  
glutamic acid decarboxylase, 34.  
lysine decarboxylase, 34.  
phosphatases, 613.  
serine and threonine, 613.  
vegetable oil replacing milk fat, 324.  
Cheese making, effect of antibiotics added to milk, 892.  
Kashkaval from pasteurised milk, 324.\*  
*Chelodactylus variegatus* (see under *Fish*)  
Chemicals, in foods, 33\*, 323, 606.  
estimation of safe dose, 888.  
relation to incidence of disease, 789.  
review, 323.\*  
in food processing, control, 849.\*

- Chemotherapy, antivitamin and anti-metabolites, 622.\*
- Cherry, round, of Cayenne, vitamin C, 384.\*
- West Indian (*Malpighia punicifolia*, L.), ascorbic acid, extraction, 954.\*
- juice, for infants, 785.
- isolation of bound vitamin C, 1164.\*
- vitamin C content, 384.\*
- Chervil (*Anthriscus cerefolium*), digestibility and feeding value (chick), 1105.
- Chicken(s) (see also Poultry; Chicken meat; Poultry meat)
- amino acid requirement, effect of genetic ability to grow, 559.\*
- antibiotics and "infection", 1167.\*
- arginine requirement, 559\*, 831.
- caeca, micro-organisms, 275.\*
- calcium and phosphorus metabolism, effect of terramycin, 1140.
- calcium and phosphorus requirements, effect of animal fat, 559.\*
- calcium utilisation, factor in dried distiller's solubles, 537.
- carcase analysis, rapid method of preparation, 886.
- carcase composition, effect of age on organ weights, 1143.
- cholesterol in blood, 558.\*
- cobalt metabolism, 443.
- digestive tract, micro-organisms, effect of diet, 809.
- disorders, searid infection, effect of leucine on resistance, 265.
- coccidiosis, effect of thiouracil or thyroprotein, 550.
- treatment with sulphaguanoxaline, effect of age, nutritional state and intake of vitamins, 622.
- "crazy chick" disease, production by excessive amounts of cod liver oil in diet, 66.
- encephalomalacia, 558.\*
- and vitamin E requirements, 273.\*
- incidence, U.K., 1132.
- prevention by tocopherol and antioxidants, 337.
- utilisation of vitamin E in alfalfa and wheat middlings in prevention, 559.\*
- vitamin E metabolism, effect of fish oil and anti-oxidant, 934.
- vitamin E requirement, 273.\*
- exudative diathesis, and leg weakness, effect of vitamin E, yeast, protein and amino acids, 66.
- haemorrhagic syndrome, production by sulphaguanoxaline, 69, 559.\*
- muscle degeneration, effect of methionine, sodium sulphate and  $\alpha$ -tocopherol, 559.\*
- nutritional deficiency, 918.
- perosis, effect of floor type and choline content of ration, 845.
- Plasmodium gallinaceum* infection, treatment with metachloridine, effect of diet, 743.
- Salmonella gallinarum* infection, and amino acids, 481.
- weakness, production by pantothenic acid deficiency, 948.
- effect of deoxycorticosterone, 404.\*
- effect of diethylstilboestrol on oestrogenic activity of tissues, 332.\*
- effect of hormones, 680.
- effect of limited light, 559.\*
- effect of restricted lighting on subsequent egg production, 542.
- effect of vitamin B<sub>1</sub>, 559.\*
- effect of vitamin E in brewer's yeast, 559.\*
- embryo (see Embryo, chicken)
- fat metabolism, effects of pituitary removal and stilboestrol, 636.
- fatty acids, essential, deficiency, 1162.\*
- Chicken(s), feeding
- amino acids, need for unidentified growth substance, 247.
- supplements for broilers, 273.\*
- animal fat, 535.
- antibiotics, effect on protein requirements, 252.
- high level, 273.\*
- naturally occurring in plants, 253.
- relation of growth stimulation to intestinal microflora, 1140.
- antibiotic mycelia, sources of unidentified growth factor, 536.
- aureomycin, 558\*, 836.
- blood meal as lysine supplement to all-vegetable ration, 534.
- bulrush meal, 250.
- cereal grass and alfalfa as source of growth factors, 536.
- charcoal, adsorption of vitamins, 341.
- citrus sludge, activated, 564.\*
- compounds related to glycine, 1163.\*
- cottonseed meal produced by different methods, 35.
- cottonseed products, effect of free gossypol content, 834.
- cottonseed protein, adequacy in relation to nitrogen solubility in alkali, 559.\*
- cow manure extract, effect on growth, egg production, fertility and hatchability, 539.
- diet low in sulphur, effect of addition of sulphate, 559.\*
- dried distiller's solubles, whole or ashed, effect on growth, 537, 832.
- dried whey, effect on growth, egg production and hatchability, 833.
- effect of grain, fish solubles, vitamin B<sub>12</sub>, and B complex and antibiotics, 655.
- egg yolk, dried, as source of unidentified growth factor, compared with animal fat and fish solubles, 1139.
- effect on growth, 1139.
- fat and fatty acids, 248.
- effect on growth and feed utilisation, 1138.
- fat and methionine, effect on growth and efficiency, 831.
- fat, effect on growth and preference for rations, 535.
- fatty acids, unsaturated, 559.\*
- feather meal, 249, 559.\*
- to replace all or part of fishmeal, 1139.
- fish body oils, 273.\*
- fishmeal, and antibiotics, 252, 534.
- as source of amino acids, effect of processing, 534.
- growth response to equalised feeding, 1138.
- fish solubles, and terramycin, effect of old and new environment, 1139.

- Citellus* spp. (see *Ground squirrel*)
- Citrate, oxidation, and vitamin D (rat), 1184.\*
- relation to calcium metabolism, 711.\*
- Citric acid
- effect on bones (rat), 1012.
- effect on growth and incidence of rickets, (rat), 633.
- estimation, in biological fluids, 23.
- in bone and dentine, 23.\*
- in wine, 23.\*
- in blood, effect of adrenal cortex (guineapig), 403.\*
- maternal and umbilical (woman), 399.
- Citric acid cycle, intermediate substances, effect on metabolism of cortisone, *in vitro*, 382.
- Citrin (see *Vitamin P*)
- Citrovorum factor (see *Leuconostoc citrovorum* factor)
- Citrulline, in cocksfoot, *Galega officinalis*, *Medicago sativa* and red clover, 50.
- Citulliniminase, from crab tissue, pyridoxal-5-phosphate as coenzyme, 945.
- Citrus by-products, for pigs, 563.\*
- Citrus acid, effect on physical, chemical and organoleptic properties of beef, 561.\*
- Citrus fruit(s) (see also *Grapefruit*; *Lemon*; *Orange*)
- diphenyl residues, toxicity and regulations, 896.
- lime and mandarin, composition, 49.
- Citrus Juices (see specific juices, e.g. *Orange juice*)
- Citrus molasses, for fattening cattle, 809.
- Citrus products, for beef cattle, 809.
- Citrus pulp, for beef cattle, 561.\*
- for fattening cattle, 809.
- Citrus sludge, activated, for chickens, 564.\*
- Climate (see also *Arctic*; *Cold*; *Environment*; *Heat*; *Temperature*; *Tropics*)
- effect on foraging performance of cattle, 235.

## Climate

- hot, protection of cattle, Italy, 523.  
stress, resistance of pheasant chicks, effect of feeding, 543.  
Clove (*Caryophyllus aromaticus*), composition, 914.  
Clover (see also *Legumes*)  
composition, effect of fertiliser and locality, 915.\*  
extracts, effect on motility of intestine *in vitro* (rabbit), 100.  
genistein, occurrence, 52.  
Ladino, effect on fertility (ewe), 561.\*  
extract, effect on rumen movement (cattle), 100.  
toxic concentrates, 562.\*  
red, citrulline, 50.  
hay, amino acids, effect of maturity, 50.  
subterranean, genistein, occurrence in different strains, 52.  
white, composition and yield, effects of molybdenum, lime and phosphate, New Zealand, 339.\*  
magnesium, chlorophyll fraction, 620.  
yield and composition, effect of gypsum, New Zealand, 915.  
Clover and grass silage, effect of preservatives on storage losses and feeding value, 327.  
*Clupea* spp. (see *Fish, sardine*)  
Cobalamin (see *Vitamin B<sub>12</sub>*)  
Cobalamin, cyanide, effect on growth, bacterial, 950.  
Cobalamin, decimethylcyano-, effect on growth, bacterial, 950.  
Cobalt deficiency  
effect of phenothiazine alone or with cobalt (lamb), 843.  
effect on worm infestation (sheep), 1156.  
in hill lambs, prevention with massive doses, 547.  
in lambs, effect of leucovorin or antibiotics, 88.  
New Zealand, effect of cobalt top-dressing, 262.  
Tasmania, 262.  
in ruminants, prevention and cure, 262.  
in soil, New Zealand, 275.\*  
New Zealand, 1153.\*  
synthesis of vitamin B<sub>12</sub>, effect of cobalt and calcium (sheep), 87.  
Cobalt, effect during pregnancy (woman), 112.  
effect on growth of chicks and rats, 1020.  
effect on iodine metabolism and tumour growth (rat), 112.  
effect on reproduction (ewe), 1122.  
effect on thyroid (child), 111.  
estimation, 315.  
in tissues (laboratory animals), 594.  
for *Candida guilliermondii*, effect on riboflavin production, 645.  
for livestock, requirement and function, 863.\*  
for pigs, effect on tissue composition, 88.  
on ration of soya bean oil meal, 564.\*  
in hay and pasture plants, Switzerland, 620.  
in pasture, effect of soil, Germany, 338.  
in soils, feedingstuffs and fertilisers, Denmark, 46.  
New Zealand, 1152.  
intake, effect on excretion of vitamin B<sub>12</sub>-active substances (sheep), 87.  
metabolism, in chickens, 443.  
radio-active, distribution in tissues (dog), 443.  
effect on vitamin B<sub>12</sub> activity of rumen micro-organisms, 655.  
estimation, 318.\*  
supplement for sheep, 563.\*

## Cobalt

- treatment of anaemia (man), 1095.  
in infants, premature, 271.\*  
treatment of rheumatoid arthritis and anaemia, 1161.\*  
valency in vitamin B<sub>12</sub>, reduction product, 655.  
with iron, treatment of iron-deficiency anaemia, 797.  
Cobalt-protein complexes, in liver (rat), 1165.\*  
Coocarboxylase (see also *Vitamin B<sub>1</sub>*)  
effect on excitability of nerve centres, 72.\*  
effect on phosphorus excretion (rabbit), 644.  
effect on pyruvic acid in blood of children with ketosis, 199.  
in blood, normal and in multiple sclerosis (man), 1076.  
in cartilage, metaphyseal, effect of vitamin B<sub>12</sub> deprivation (rabbit), 71.  
in liver, effect of adrenochrome (rat), 72.  
in tissues, normal and in scurvy, effect of vitamin B<sub>12</sub> (guinea-pig), 361.  
inhibition by oxythiamine triphosphate, 362.  
treatment of beriberi, experimental, 72\*, 361.  
treatment of toxic states in infants, 199.  
treatment of trigeminal neuralgia, 493.  
Coocarboxylase disulphide, biological activity, 361.  
Cocksfoot grass, *Dactylis glomerata*, citrulline, 50.  
hay, amino acids, effect of maturity, 50.  
Cocksfoot and alfalfa pasture, effect of grazing, 273.\*  
Cocoa, composition, presence of nickel, 337.  
production, price and consumption trends, FAO report, 562.  
sodium, adrenochrome and tannin content per cup, 337.  
Cocoa beans, sugars, 337.  
Cocoa shells, for cows, 235, 521.  
for dairy cows to prevent oxidative deterioration of milk, 235.  
Coconut water, treatment of congestive heart failure, India, 1098.  
Cod liver oil  
for children, clinical study, U.K., 488.  
in wound healing, 774.\*  
massive doses, production of disorders (chicken, duckling), 66.  
Cod liver oil residues, vitamin content and use in stock feeding, 1098.  
Coeliac disease (see also *Sieatorrhoea*)  
case reports, 505.\*  
diagnosis and treatment with gluten-free diet, 793.  
effect of gliadin on blood glutamine, 600.  
effect of wheat gliadin, 505.  
in children, incidence in parents, their siblings and grandparents, 793.  
metabolism of glutamine and gliadin, 1168.\*  
prognosis, 793.  
toxicity of wheat gluten (review), 793.\*  
treatment with gluten-free, low-protein bread, 793.  
with steatorrhoea and megaloblastic anaemia, case report, 204.  
Coenzymes, containing vitamins, in health and disease (man), 1161.\*  
riboflavin-containing, in blood, normal and in disease (man), 779.  
Coenzyme A (see also *Pantoic acid*)  
acetyl-, formation, enzymic, by brain extract, 946.  
content of liver in dietary necrosis, effect of sulphur amino acids and vitamin E, 371.  
estimation in tissues, 370.

## Coenzyme A

- in liver, effect of vitamin B<sub>12</sub> deprivation (rat), 658.  
extraction, 79.  
fatty (rat), 946.  
in tissues, effect of vitamin B<sub>12</sub> deficiency (rat), 377.  
normal and in scurvy (guinea-pig), 956.  
phosphorylation, enzymic, by brain extract, 946.  
precursors, effect on liver coenzyme A levels in pantoic acid deficiency (rat), 1163.\*  
structure, synthesis and distribution, 946.  
Coffee, composition and properties, review, 917.\*  
effect on stomach secretion, influence of filtration (man), 387.  
nicotinic acid content, 386.  
nutritional importance, Venezuela, 648.  
sodium, caffeine and tannin content per cup, 337.  
sugars, 870.  
Coffee beans, raw, analysis and composition, 917.  
*Coin Lachrym Jobi* (see *Job's tears grass*)  
Cold (see also *Arctic*)  
acclimatisation, effect on utilisation of sugars (rat), 413.  
adaptation (mouse, rat), 1162.\*  
thyroid and adrenal relations, 403.\*  
effect on adrenal activity (hypophysectomised rat), 93.  
effect on fatty acid formation from carbohydrate, 1165.\*  
effect on growth of hair and nails (man), 987.  
effect on magnesium requirement of rats, 1013.  
effect on succinic dehydrogenase activity of skin (rat), 383.  
exposure, effect of ascorbic acid deficiency on adrenal and thyroid (guinea-pig), 662.  
effect of vitamin B complex and ascorbic acid on blood and urine composition (man), 778.  
injury, frostbite, effect of flavonoids on fluid loss from capillaries (rat), 95.  
metabolic responses, in old age (man), 459.  
physiological and pathological effects on man (book), 1158.  
relation to nutrition, review, 117.\*  
utilisation of body fat and effect on weight and body water (mouse), 980.  
Cold storage (see *Refrigeration*)  
Colitis (see under *Digestive tract disorders*)  
Collagen  
amino acid composition (man, animal), 332.  
connective tissue, effect on breakdown of meat proteins, 604.  
formation, role in wound contraction in scurvy (guinea-pig), 957.  
hydroxylysine, 43.  
in meat, effect of heating, 35.\*  
Collagenase, review, 819.\*  
serum proteins (man), 674.  
Collards, vitamin B complex content, effect of nitrogenous fertiliser, 643.  
Colombia, agriculture and standard of living, 250.  
soya beans, yield and oil and protein content, effect of variety, 912.  
Colon (see *Intestine, large*)  
Colostrum: all entries refer to cow's colostrum unless otherwise stated.  
buffer value, 899.\*  
composition after under insufflation for parturient paresis, 1154.

## Colostrum

- galactose and hexosamine, 900.
- human, composition, tables, 328.
- pantothenic acid content, 203.
- proteins, 329.
- steroid hormones, 611.
- nutritional significance, 1167.\*
- sulphate, inorganic, 330.
- tocopherol content, 640.
- vitamin A content (mare), 926.
- Colour(s), added to foods, psychological effect, 33.\*
- detection in beverages, 883.\*
- in foods, 28, 597.
- in confectionery, 603.
- in foods, 603.
- carcinogenic effects, legislation and estimation, review, 891.
- recommendations, 603.\*
- U.K., 892.\*
- Coma, diabetic (see under *Diabetes*)
- hepatic, impending, effect of protein intake (man), 217.
- Concentrate industry, in Venezuela, 841.
- Condiments, feeding, effect on animal products, 271.\*
- Confectionery, colouring, 603.
- storage, 38.\*
- Connective tissue, and toughness of
  - meat, 614.
  - carbohydrates, review, 728.\*
  - lipids (rabbit, rat), 110, 402.
- Constipation (see under *Digestive tract disorders*)
- Convulsions, in infants, production by vitamin B<sub>12</sub> deficiency, 1078.
- in rats, effect of  $\omega$ -methyl analogues of vitamin B<sub>12</sub>, 368.
- Cooking
  - beans, green, effect on ascorbic acid content, 604.
  - beef, braising in oven or pressure cooker, effect on composition and quality, 893.
  - losses, army, America (U.S.), 892.
  - effects on nutritive value of foods, 33.\*
  - geese, carcass and parts, losses, 894.
  - meat, 35.\*
  - frozen, with or without thawing, 894.\*
  - moist and dry heat, effect on vitamin B<sub>12</sub> and nicotinic acid, 930.
  - peas, effect of salt or phosphates, 605.
  - potatoes, blackening, 895.
  - discolouration, causes, 37.
  - for salt-free diet, 37.
  - vegetable fats, 33.\*
- Copper compounds, in herbago extracts, 916.
- Copper deficiency
  - anaemia, morphology (pig), 721.
  - bone changes (pig), 721.
  - effect on cell metabolism (rat), 1029.
  - effect on fleece (sheep), 1124.\*
  - effect on iron metabolism (pig), 1020.
  - haematin chromoproteins (pig), 1162.\*
  - in pasture, Poland, 1152.
  - in sheep, and cattle, relation between copper, molybdenum and sulphate, 1152.
  - copper aminoacetate and copper sulphate in correction, dangers, 262.
- Copper
  - effect on copper and magnesium content of hay, 51.
  - effect on growth of cattle, 274.\*
  - effect on response of *Bacterium coli* to vitamin B<sub>12</sub> and methionine, 84.
  - effect on wool quality, 1124.\*
  - estimation, in beverages, 25.\*
  - in blood, 25, 315.
  - (man), 880.\*
  - in fish and meat conserves, 595.\*
  - in oils and margarine, 1167.\*
  - in plant materials, 25.
  - in thyroid tissue (man), 504.

## Copper

- excretion (dog, pig), 443.
  - for pigs, effect of high level in mineral mixture, 528.
  - suckling and fattening, 1166.\*
  - for sheep, poisoning by supplement after copper medication, 1155.
  - in blood, in health and disease (man), 109, 677.
  - in nervous disorders (man), 109.
  - in blood and liver (many vertebrates), 881.
  - of cattle, Netherlands, 402.
  - of sheep, relation to interaction between copper, molybdenum and sulphate, 843.
  - in blood and urine, normal (man), 1019.
  - in brain and liver, in hepatic coma (man), 682.
  - in butter, stored, effect on flavour, 324.
  - in drugs, contamination from apparatus, 647.
  - in foods, recommendations, U.K., 892.\*
  - in grass, 891.
  - in hair (different species), 110.
  - in herbage, availability, 275.\*
  - (rat), 443.
  - in pasture, effect of soil, Germany, 338.
  - in pasture and soil, New Zealand, 275.\*
  - in thyroid, and other tissues (man), 594.
  - normal and in goitre (man), 720.
  - interrelations with molybdenum and phosphorus, 564.\*
  - interrelations with molybdenum and sulphate in copper deficiency in sheep and cattle, 1152.
  - metabolism (cow), 891.
  - (dog, man), 271.\*
  - in health and in Wilson's disease (man), 271.\*
  - normal and in liver disorders (man), 720.
  - organic complexes from herbage, availability (rat), 1019.
  - prevention of physiological disorders in farm animals, 841.\*
  - status of New Zealand soils, 1152.
  - supplement for fattening pigs, 527.
  - supplement to ration of suckling pigs, effect on growth and meal consumption, 527.
- Copper aminoacetate, therapy for copper deficiency, dangers (sheep), 262.
- Copper sulphate, effect on milk fat percentage, 1167.\*
- for pigs, 275.\*
  - therapy for copper deficiency, dangers (sheep), 262.
- Coprophagy, by dogs in Greenland, 270.\*
- Coproporphyrin, chronic, hereditary, and vitamin deficiency with aminoaciduria, case report, 202.
- Coprosterol, formation by intestinal bacteria, *in vitro* (man), 103.
- Corynebacterium* (see *Insects, moth, rice*)
- Corhormone, effect on resistance to tuberculosis (guinea pig), 357.
- guanylic acid derivative, effect on activity (rat), 986.
- Corn, American (see *Maize*)
- Cornua (see under *Eye*)
- Corticoids, biologically active, new, 111.\*
- Cortisone (see under *Adrenal cortex hormone(s)*)
- Corylus* (see *Hazelnut*)
- Corynebacterium* 197, infection, effect of penicillin deprivation (rat), 370.
- Costa Rica, diet studies, 1058.
- Cottonseed, fats, hydrolysed or distilled fatty acids for poultry feeding, 1138.
- gossypol removal, 607.
- Cottonseed hulls, for sheep, 273.\*
- nutritive value for heifers, 560.\*

- Cottonseed meal, for chickens, effect of different methods of processing, 38.
- effect on growth of free gossypol content, 834.
- for hens, gossypol-cephalin compound in eggs, 43.\*
- for pigs, effect on growth, fattening and reproduction, 1127.
- free from gossypol, for pigs, amino acid supplements, 560.\*
- solvent-extracted, for turkeys, to replace soya bean meal, 1137.
- low-gossypol, for pigs, effect of supplements, 564.\*
- nutritive value, effect of pH during processing, 559.\*
- replacement of soya bean oil meal for chickens and turkeys, 250.
- toxicity and protein quality, 749.
- Cottonseed oil, digestion (goat), 1007.
- effect on cholesterol metabolism (rat), 1162.\*
- estimation in mixture, 21.
- properties and digestibility, Central Asia (man), 618.
- unsaponifiable matter, 21.
- Cottonseed protein, adequacy for chickens, relation to nitrogen solubility in alkali, 559.\*
- Coumarin, compounds, effect on thromboplastin in plasma, 787.\*
- derivatives, effect on red blood cells guinea pig, horse), 960.
- Cow(s) (see also *Cattle*; *Heifers*)
- blood cholesterol, effect of diet, 398.
- blood picture, 304.
- after udder inflammation for parturient paresis, 1154.
- bodyweight, estimation from measurements, relative efficiencies, 807.
- breeding, duration of pregnancy and sex ratio, Eastern Red Polls, 739.\*
- efficiency, relation to milk production, 230.
- calcium requirement, 220.
- carotene and vitamin A metabolism, 1167.\*
- copper metabolism, 891.
- Danish, acclimatization in Italy, and milk yield, 235.
- digestibility of feedstuffs, Japan, 802.
- digestion and metabolism, effect of change of ration, 1167.\*
- digestive efficiency, effect of roughage level during rearing, 1166.\*
- Cows, disorders
  - abortion, effect on milk yield, 817.
  - acetonemia, 1154.
  - treatment with sodium propionate, 548.
  - anaemia of unknown origin, 546.
  - and wastage, 260.
  - bloat, effect of oil on milk yield and quality, 1167.\*
  - in intact animal grazing New Zealand pasture, 851.\*
  - on fresh lucerne, sequence of events, 1150.
  - production by fresh legume tops, 841.
  - grass tetany, development, effect of potassium supplement, 263.
  - effect of magnesium oxide, 1153.
  - potassium, sodium and magnesium relationships, 844.
  - ketosis, relation to feeding practice, 845.
  - review, 1154.\*
  - treatment, 548.
  - with hydrocortisone, ACTH or cortisone, 549.
  - with 11-ketoprogesterone or glucose, 1154.
  - with metacortandracin or 9-alpha-fluorohydrocortisone, 549.
  - low blood magnesium and grass tetany, 1167.\*

## Cows, disorders

- milk fever, blood calcium and phosphorus, changes after treatment, 548.  
blood picture and treatment, 1154.  
prevention, 548.\*  
treatment with calcium laevulinate, 548.  
osteomalacia from phosphorus deficiency, 274.\*  
parturient paresis, 594.  
effect of under-insufflation on blood picture and colostrum, 1154.  
tetany, due to magnesium deficiency, effect of magnesium liming of pasture, 843.  
effect of magnesium sulphate application to grass, 851.\*  
Cow(s), effect of summer pasture on blood composition, 394.  
effect of undernutrition after calving on establishment of lactation, 1107.\*  
Estonian Friesian, milk, increasing the fat content, 1114.\*  
faeces, carotene and other pigments, 891.  
faeces and urine, collection, apparatus, 887.  
feed intake, effect of palatability and fibre content, 520.  
feed utilisation, genetic differences, 1120.  
Cow(s), feeding : entries, unless otherwise stated, refer to effect on milk yield and/or milk fat content.  
all-maize ration, 560.\*  
ammoniated products as source of nitrogen, 281.  
and milking frequency, 1113.\*  
anti-oxidants, effect on oxidative deterioration of milk, 235.  
beet leaf silage and maize silage, effect on water intake and nitrogen, calcium and phosphorus retention, 234.  
Chinese cabbage, 47.  
cocks shells, 521.  
concentrates, effect of fineness of grinding, 1116.  
high- and low-protein, at different levels, economics, 1115.  
cows compared with maize, 232.  
different supplements when grazing, effect on composition of milk, 1116.  
effect of change of ration on digestion and metabolism, 1167.\*  
effect of fibre on milk fat production, 812.  
effect of grazing by day only or day and night, milk yield and feed consumption, 1115.  
effect of plane on milk production, productive life and reproduction, 814.  
effect of source and level of protein and of energy level, 813.  
effect of underfeeding during early lactation on milk yield and mineral and nitrogen balances, 1113.  
effect on composition of milk, 1118.  
effect on vitamin B<sub>12</sub> content of milk, 953.  
feed formulae, 518.  
goat's rue (*Galega officinalis*, L.), 817.  
grain, effect on yield, 273.\*  
treated with ethylene dibromide, 1120.  
grass, dried, spring or autumn, comparison with other concentrates, 813.  
grass and grass products, 815.  
grassland, 257.  
grass silage, 522\*, 1117.  
hay, effect on dry matter intake on pasture, 273.\*  
hay, of good and poor quality with or without cod liver oil supplements, effect on performance of calves, 230.

## Cow(s)

- feeding with grain mixtures, 232.  
importance of pasture, Italy, 1114.  
Johnson grass silage and Johnson grass hay, 1167.\*  
lucerne treated with Systox insecticide, effect on milk production and cholinesterase activity of red blood cells, 817.  
lucerne hay as supplement to pasture, 1115.  
magnesium oxide to prevent grass tetany, 1153.  
maize, high-protein, 231.  
maize silage, 1117.  
in winter, supplements required, 1117.  
requirement of hay for maximum feed intake and milk production, 232.  
manual, 519.  
nutritive ratio of feed, 229.  
oat forage, immature, 1167.\*  
oil to control bloat, 1167.\*  
on different types of pasture, effect on persistency of yield, 233.  
orange-peel silage enriched with ammonia, 234.  
pasture, alone or with low- or high-protein concentrates, Australia, 1113.  
and silage, without concentrates, 1114.  
economics, 237.\*  
effect on milk acidity, 899.  
fatty acids, unsaturated, effect on iodine value of milk fat, 1118.  
strip or rotational grazing, performance, digestibility, intake and behaviour compared, 1100.  
Philippine Islands, 523.  
potato pulp, dried, 522.  
practical methods, 850.\*  
purified diet, 560.\*  
rapeseed meal, 516.  
rations low in hay and high in concentrates, effect on milk fat and on processes of the reticulo-rumen, 519.  
ryegrass, short-rotation and perennial, 275.\*  
silage, effect on milk acidity, 800.  
from cider apple residue, 234.  
self-feeding in trench, 273.\*  
sorghum, 232.  
Sudan grass, 273.\*  
soya beans, raw, 1119.  
standards, 229.  
straw treated with alkali and water, 522.\*  
supplements to grazing, effect on fat content of milk, 811.  
swedes or fodder beet, 1117.  
sweet yellow lupin seed meal, 528.\*  
Tift Sudan and Star millet pastures, 273.\*  
urea, 517.  
or diacylamide, 1117.  
replacing protein in late Alpine pasture, 231.  
vitamin D emulsion, effect on milk yield and growth of calves, 531.  
Cow(s), Friesian, in Germany, milk production and feed utilisation, 812.  
glucose metabolism, 120.  
grass intake in summer, 560.\*  
grazing, break versus paddock, 272.\*  
herbage consumption, 851.\*  
habits and grass consumption, identical twins, Netherlands, 522.  
maintenance requirement of dry matter and requirement for milk production, 1115.  
management, 1116.\*  
health, yield and health, effect of feeding level during early life, 275.\*  
growth and grazing habits, relation to amount of shade, 816.

## Cow(s)

- heat tolerance and milk production, genetic aspect, 273.\*  
high yielding, effect of fixed and variable costs, Israel, 1150.\*  
Holstein and Friesian, importance in world milk production, 840.  
lactation (see also *Milk production*) and reproduction, effect of grain treated with ethylene dibromide, 1120.  
liveweight, estimation from body measurements, 1167.\*  
losses due to sterility and other disorders, 259.  
magnesium in blood, 274.\*  
effect of magnesium liming of pastures, 843.  
milk and fat production on pasture, grazing versus cutting, 811.  
milk production and yield (see *Milk production*)  
mineral intake under different systems of feeding, Germany, 1110.  
mineral requirements, 816.  
nitrogen metabolism, 274.\*  
norleucine metabolism, 739.  
old, slaughter and carcass quality, 561.\*  
pasture utilisation, grazing versus cutting, 811.  
performance, double-reversal (switch-back) trials with more than two treatments, 889.  
productive life, America (U.S.), 815.  
effect of plane of nutrition, 814.  
optimum, with reference to milk and meat yield, 1120.  
relation to age at first calving and other factors, 259.  
protein, fat and milk production during lactation period, 1118.  
reaction to temperature and humidity, 273.\*  
reproduction, length of gestation in Ayrshire cattle, 236.  
rumen, (see under *Rumen*)  
satiety, theoretical considerations, 229.  
selection, first lactation yield as basis, 851.\*  
summer milk production, effect of climate and nutrition, 273.\*  
Swedish Holstein-Friesian and Swedish Jersey, relative feed consumption, milk yield and cost and value of produce, 814.  
wastage and incidence of disease, 260.  
water consumption, effect of protein content of ration and environmental temperature, 1118.  
yield and level of grain feeding, 273.\*  
Cow manure, for poultry, 853.\*  
Cow manure extract, for chickens, 539.  
for pigs, comparison with antibiotics, 851.  
Cowpox, ascorbic acid content, effect of maturity and storage, 334.  
for dairy cows, effect on yield, 232.  
Crab (see under *Crustaceans*)  
Cream, composition and bacteriology, 257.  
fatty acids, insoluble, 876.  
phosphatase, alkaline, and xanthine oxidase, 901.\*  
Creatine  
excretion, in cystic fibrosis of pancreas and biliary atresia, effect of a-tocopherol (boy), 1075.  
in muscular dystrophy (man), 219.  
in steatorrhea, effect of tocopherol (child), 1163.\*  
formation, in muscle, effect of amino acid, chicken, 1003.  
in heart muscle (man, rabbit), 851.\*  
in placenta (woman), 736.  
metabolism (man, rabbit), 131.

- Creatine and creatinine, excretion, effect of cold (rat), 272.\*
- Creatine quotient, in muscular dystrophy produced by vitamin E deficiency (rabbit), 636.
- Creatinine
- clearance, in pregnancy (woman), 1035.
  - excretion, assessment of obesity (man), 320.
  - measure of endogenous nitrogen (man), 1103.\*
  - in placenta (woman), 736.
  - precursors, effect of vitamin E on incorporation (rabbit), 637.
- Crep feeding, calves, 806.
- Creeping indigo (see *Indigo*)
- c-Cresol, production of vitamin E deficiency (laying hen), 935.
- Crotanase, in fatty acid metabolism, 666.\*
- Crustaceans
- chromoproteins, effect on xerophthalmia from vitamin A deficiency (albino rat), 923.
- crab (*Callinectes maenas*) skin, carotenoids, content during formation of new tissue, 57.\*
- (*Polanobius estuans* and *P. leptodactylus*) citrulliniminase in tissue, pyridoxal-5-phosphate as coenzyme, 945.
- daphnids, algae as food, 755.
- Euphausiacea, carotenoid, fat and vitamin A contents, 340.
- lobster, tissues, non-protein constituents, 174.
- marino, vitamin A and carotenoid contents, seasonal variation, 349.
- Meganyctiphanes norvegica*, vitamin A isomer in eye, 270.\*
- oil from hepatopancreas, vitamin A activity (rat), 924.
- prawn, deep sea (*Penaeus borealis*), vitamin A, isomer in eyes, 56.
- Cryptococcus laurentii* (see under *Yeasts*)
- Cube mixtures, alfalfa, for lambs, 1121.
- Cumin (*Cuminum cyminum*), composition, 914.
- Curacao, anaemia, megaloblastic, nutritional incidence, 1079.
- Curds, supplement to rice diet, effect on vitamin B<sub>12</sub> metabolism (child), 492.
- vegetable oil replacing milk fat in preparation, 324.
- Curled tongue, in turkey poults, relation to physical condition of diet, 261.
- Cyanamide and derivatives, estimation, 874.
- Cyanide poisoning, effect of vitamins B<sub>12</sub> and B<sub>12a</sub> in vitro (toad heart), 657.
- Cyanocobalamin (see *Vitamin B<sub>12</sub>*)
- Cyclophosphoramide, effect on sulphur amino acids in vitro, 386.
- Cynodon dactylon* (see *Dog's tooth grass*)
- Cypress, summer (*Kochia trichophylla*), composition, 609.
- Cystathionine, excretion, effect of vitamin B<sub>6</sub> deficiency (rat), 1104.\*
- Cysteine, effect on blood sugar in beriberi (pigeon), 361.
- effect on toxicity of synkavit (rat), 936.
  - estimation, 20.
  - pantothenyl-, in biological material, detection, 660.
  - requirement of lactobacilli, effect of ascorbic acid, 663.
- Cystine
- cystine-sulphuric acid, metabolism in tissues, 1029.\*
  - cystine-sulphuric acid as precursor (rabbit), 1021.
  - effect on blood sugar in beriberi (pigeon), 361.
  - effect on blood sugar tolerance in dietary liver necrosis (rat), 350.
- Cystine
- effect on methionine requirement (man), 422.
  - estimation, 20, 597, 874.
  - rate when injected (rat), 1021.
  - in proteins and foods, table, 597.
  - in serum albumin and  $\gamma$ -globulin and globin from haemoglobin (man), 973.
  - intake and hypotaurine in urine (rat), 424.\*
  - protection against liver necrosis, 558.\*
  - requirement, of cells in vitro, 154.
  - of chickens, 1141.
  - of pigs, 527.
  - storage disease, case reports, 482.\*
  - supplement to mushroom diet for rats, 932.
  - treatment of diabetes, 1161.\*
- Cystine and cysteine, estimation together, 1168.\*
- Cystinosis, diagnosis, 1074.
- Cystinuria, diagnosis, 1074.
- Cytochrome c
- in heart and skeletal muscle (man), 982.\*
  - isolation and purification, 27.
  - reduction by ascorbic acid, effect of tocopheryl phosphate, 932.
  - review, 96.\*
- Cytochrome c reductase, effect of tocopherol, 68.
- Cytochrome system, in liver, effect of fasting (rat), 1026.
- Czechoslovakia
- anaemia, pernicious, 498.\*
  - goitre, in children, treatment with thyroglobulin, 790.
  - rice, composition, 47.
- Dactylis glomerata* (see *Cock-foot*)
- Dahl (see *Curds*)
- Dairy products (see *Milk*; *Milk products*; and specific products, e.g., *Butter*)
- Dairying, New Zealand, future, 272.\*
- Dates, dried, composition, Spain, 913.
- DDT, in milk, after treatment of cow, 892.\*
- Decanoic acid, absorption and transport in blood and lymph (rat), 428.
- Decarboxylase, dihydroxyphenylalanine, of liver, effect of thioxyline and triiodothyronine (guinea-pig, rabbit, rat), 945.
- glutamic acid, in cheese, during ripening, 34.
- lysine, in cheese, during ripening, 34.
- Deer, nutritional requirements, 532.
- wild, assessment of nutritional status, 735.
- thyroid activity, 634.
- winter browse utilisation, 829.
- Deficiency conditions, and predisposition to infection, 558.\*
- experimental, in man, 558.\*
- Deficiency diseases (see also *Malnutrition*; *Nutritional state*; *Vitamins*; and specific deficiency diseases, e.g., *Scurvy*)
- after stomach removal, 794.\*
  - in tropics, 558.\*
  - pathological physiology, 770.\*
- Dehydrase, xanthine, in milk, 961.
- Dehydration (see also *Water metabolism*)
- after surgical operation, 790.\*
  - in children, treatment, 271.\*
  - in infants, mineral balances, 723.
  - treatment, 504, 504.\*
  - of foods (see *Drying*; and under specific foods, e.g., *Egg*)
- Dehydroascorbic acid (see *Ascorbic acid*, dehydro-)
- 7-Dehydrocholesterol (see *Cholesterol*, 7-dehydro-)
- Dehydrogenase, choline, in liver, 96.\*
- glucose-6-phosphate, in liver, effect of nicotinamide (rat), 942.
- lactic, in heart muscle, effect of energy intake in pregnancy (pig), 665.
- liver, effect of vitamin B<sub>12</sub> deficiency (rat), 851.
- succinic, in skin, effect of cold and ascorbic acid (rat), 383.
- Dehydrogenase systems, of plants, co-enzyme activity of pyridine nucleotide of liver, 77.\*
- Denmark, butterfat, properties, survey, 902.
- cobalt, content of soils, feedingstuffs and fertilisers, 46.
- foods, vitamin content, 54, 55.
- progeny testing of bulls, 815.
- Dental caries (see under *Teeth*)
- Dentine (see under *Teeth*)
- Deoxycholic acid, metabolism (rabbit), 447.
- Deoxycorticosterone (see under *Adrenal cortex hormone*)
- Deoxypyridoxine (see *Pyridoxine*, deoxy-)
- Deoxyribonucleic acid (see under *Nucleic acid*)
- Dermatitis (see under *Skin disorders*)
- Detergents (see *Surface-active agents*)
- Deuterium, reduction of vitamin A reserves of chickens, 628.
- Dextran, effect on blood composition (dog, rat), 694.
- effect on blood sugar in diabetes and hyperinsulinism, 1092.
- Dextrins, estimation, 854.
- Dextrose (see *Glucose*)
- Diabetes (see also *Insulin*)
- acidotic, in old age, 1161.\*
  - and liver cirrhosis (man), 1093.
  - and overfeeding, America (U.S.), 1092.\*
  - blood and urine sugar fractions (man), 415.
  - blood glycoproteins (man), 120.
  - blood sugar, effect of breakfast protein (man), 415.
  - effect of dextran by mouth (man), 1092.
  - blood sugar tolerance, effect of lactose diet (child), 119.
  - catalan formation, effect of diet (rat), 692.
  - coma, treatment with vitamin B<sub>1</sub> pyrophosphate (man), 493, 777.
  - complications, causes, 214.
  - current concepts, 503\*, 791.\*
  - diagnosis in old people, blood sugar tolerance tests, 791.
  - diet, errors, 1161.\*
  - disorder of regulation (man), 990.\*
  - effect of fructose, glycine and pyruvic acid (dog), 990.\*
  - effect of honey (man), 120.
  - effect of vitamin B<sub>12</sub> on sugar tolerances test and glutathione in blood (man), 784.
  - effect of vitamin E on carbohydrate and fat metabolism (man), 491.
  - effect of yeast (man), 415.
  - effect on signs of fatty acid deficiency (rat), 139.
  - etiology, 1161.\*
  - experimental, aloxan, effect of carbohydrate source (rat), 121.
  - effect of dietary fat (rat), 136.
  - effect of flavins (rat), 75.
  - effect of oestrogens (rat), 686.
  - effect on phosphorus selection (rat), 462.
  - hyperglycaemia, effect of nicotinamide (rabbit), 77.
  - pathology, 124.\*
  - prevention by condensation product of glucose and acetoacetate (rat), 692.

## Diabetes

- experimental, alloxan, relation between ketosis and liver glycogen (rat), 694.  
 dehydroascorbic acid, prevention by condensation product of glucose and acetoacetate (rat), 660.  
 liver glycogen fractions (rat), 694.  
 xanthurenic acid, production and prevention (rat), 79.  
 fasting, development, effect of carbohydrate intake (man), 1164.\*  
 glucose in aqueous humour, 1165.\*  
 glucose metabolism, 272.\*  
 glucose oxidation (man), 692.  
 in children, 1092.\*  
 Finland, 213.\*  
 incidence in parents, their siblings and grandparents, 793.  
 Nobécourt's syndrome, 214.  
 treatment, 213\*, 503\*, 1092.  
 treatment with long-acting insulin, 213.  
 in infants and children (book), 552.  
 in Jamaica, 503.  
 in mothers, growth and incidence of diabetes in children, 271.\*  
 islets of Langerhans, effect of sulphanilyl-butylcarbamide (man), 792.  
 ketosis, treatment with fructose, 503.  
 liver glycogen (rat), 121.  
 metabolic effects of glucose given by vein, 692.\*  
 metabolism, effect of high blood sugar (dog), 990.\*  
 neuropathies, etiology, 214.  
 overweight patient, management, 791.\*  
 produced by cortisone, glucose metabolism (guinea pig), 692.  
 protein metabolism, review, 415.\*  
 relation between blood sugar and lipids (man), 120.  
 relation to insulin deficiency, 692.\*  
 review, 120.\*  
 sensitivity to insulin and adrenocorticotrophic hormone, effect of pantothenic acid deficiency (rat), 947.  
 skin, histochemical studies, 1161.\*  
 sorbitol as sweetening substance in food, 791.  
 spontaneous and experimental, review, 415.\*  
 treatment, 214.\*  
 (man), 503.\*  
 by core diet system, 791.  
 by weight reduction, 1161.\*  
 in practice, 791.\*  
 review, 214.\*  
 with sorbitol, test of suitability, 16.  
 with carbamide, 1092.  
 with cystine, 1161.\*  
 with diet, 791.\*  
 with lente insulin, 792.\*  
 with low-fat diet, 1092.  
 with N-[4-methylbenzenesulphonyl]-N-butylurea, 1093.  
 with sulphonamide, 504, 792, 1092, 1093.  
 with vitamin B<sub>12</sub>, folic acid and calcium pantothenate, 204\*, 272.\*  
 types, 791.\*  
 vascular complications, control, 791.\*  
 effect of diet high in vegetable fat (man), 272.\*  
 prognosis by provoked hyperlipaemia, 1162.\*  
 with good health, patients' handbook, 1160.  
 Diacetyl, estimation in butter, 42.  
 in bread, rye, 895.\*  
 in butter, 42.  
 Diarrhoea (see under *Digestive tract disorders*)  
 Diastase (see *Amylase*)  
 Dicarnitine, growth factor for *Tenebrio molitor* larvae, 271.\*

## Dicarnitine

- racemic, biological activity (mammal), 271.\*  
 effect on bones, embryonic, *in vitro*, 271.\*  
 1:2-Dichloro-4:5-diaminobenzene, effect on egg hatchability, 378.  
 Dicumarol (see also under *Blood pro-thrombin*)  
 derivative, production of tissue lesions, effect of vitamin E (rabbit), 935.  
 Dicyanodiamide, for cows, 1117.  
 for dairy cattle, 273.\*  
 value in low-protein ration (rat), 561.\*  
 Diet (see also *Food*; *School meals*)  
 African, value of groundnut meal (rat), 1049.  
 and athletics, Netherlands, 1168.\*  
 and disease (see *Diet treatment* and under the specific disease, e.g., *Diabetes*)  
 and coronary heart disease, South Africa, 509.  
 and dental decay (man), 788.  
 and growth (see under *Growth* and under different species, e.g., *Children, growth*)  
 and health, old people in Netherlands, 1168.\*  
 and immunity (see under *Immunity*; *Infection*)  
 and reproduction (see under *Reproduction*)  
 balanced, 1161.\*  
 costs (see under *Food costs*)  
 deficient (see *Malnutrition*; *Under-feeding*; and under the specific item deficient, e.g., *Vitamin C*)  
 human, biological value of protein in meals, 1092.  
 energy value, estimation, 269.\*  
 history, Greeks and Romans, 184.\*  
 protein content, 179.\*  
 in middle age, 1161.\*  
 in old age, 1161.\*  
 in pregnancy (see under *Pregnancy*)  
 Indian, poor rice, alfalfa as supplement, 164.\*  
 nutritive value (rat), 163.  
 calcium and phosphorus utilisation, effect of lucerne or milk (rat), 143.  
 effect of lucerne supplement on body composition of rats, 168.  
 nutritive value, effect of groundnut curd supplement (child), 124.  
 role of tamarind and chili, 168.  
 supplementary value of leaves (rat), 464.  
 value of milk and milk products as supplements (rat), 167.  
 γ-irradiated, wholesomeness for rats, 1164.\*  
 laboratory, for mice and rats, tocopherol deficiency, 933.  
 maternal, deficient, significance for infant, 759.\*  
 palatability, effect on growth of rats, 171.  
 restricted (see *Food intake, restricted*; *Underfeeding*)  
 standardised, for metabolic studies (man), 757.  
 vegetarian, effects on growth, blood composition and mental responses (man), 270.\*  
 production of vitamin B<sub>12</sub> deficiency (man), 496.  
 without milk, review, 790.\*  
 Diet planning, for hospitals, Argentina, 212.  
 for old age, 480.  
 qualitative principles, 1062.\*  
 Diet selection (see *Food habits*; *Food selection*)  
 Diet studies  
 Africa, institutions, effect of addition of dried milk, 763.

## Diet studies

- Africa, Portuguese territories, 183.  
 aged patients with bone fractures, 1069.  
 Alaska, Eskimos, 762.  
 America (U.S.), farmers, effect of social characteristics, 1055.\*  
 institutions, 762.  
 schoolchildren, 1055.  
 students, 476.  
 urban families, 1162.\*  
 and blood picture, Canary Islands (man), 1056.  
 Australia, aborigines of Northern Territory, 764.  
 aged hospital patients, 760.  
 food inventory, long-term periods, 474.  
 Gold Coast, 183.  
 Guatemala, 1059.  
 influence of dietary habits on blood composition, 181.

- manual for doctors and dietitians, 1160.
- Digestible nutrients, in grazed pasture, estimation, 1100.
- in lucerne, estimation, 890.
- Digestibility, and rate of passage through intestine, relation (sheep), 1104.
- effect of feed texture, 273.\*
- effect of grinding or pelleting the ration (lamb), 512.
- estimation, methods compared (cattle, sheep), 511.
- feedingstuffs (see also under specific feedingstuffs)
- relation to time of passage through gut (sheep), 269.\*
- nutrients, effect of calcium level in ration, 272.\*
- pasture, strip- or rotationally grazed (dairy cow), 1100.
- protein, estimation with pepsin and *Pseudomonas ceruginosa*, 29.
- Digestibility trials, chromic oxide and chromogen method, 1100.
- chromic oxide excretion, effect of frequency of administration (goat, sheep), 1101.
- direct and indicator methods compared (pig), 322.
- indicators (rat), 32.
- chromium oxide (pig, cow), 220, 602.
- or lignin (chicken), 602.
- plant pigments (cattle), 322, 891.
- problems, in sheep, 1104.
- recovery and chromic oxide methods (rat), 601.
- Digestion, efficiency, effect of level of roughage during rearing (calf), 1161.\*
- of common foods, role of mastication (man), 863.
- review, 964.\*
- Digestive tract (see also specific organs, e.g., *Stomach*)
- absorption (sheep), 275.\*
- absorption and transit time, estimation (rat), 667.
- amino acid content, effect of protein and non-protein meals (dog), 102.
- epithelial cells, in pernicious anaemia, achlorhydria and carcinoma, 500.\*
- function, in health and disease (man), 664.\*
- length and volume, effect of diet (pig), 1132.
- micro-organisms (chicken, pig, ruminant), 1107.\*
- effect of diet (chicken), 966.
- pressure in lumen, measurement (man), 598.\*
- rate of passage of feed (goat), 670, 963. (pig), 964.
- effect of antibiotics (chicken), 964.
- (rat), 667.
- effect of fibre in feed (rabbit), 964.
- relation to digestibility (sheep), 1104.
- secretion of phosphorus (pig, sheep), 609.
- secretions, potassium content (rabbit), segments, variations in nitrogen content, 849.\*
- vitamin B complex components, relation to human diseases, 778.\*
- vitamin synthesis, 849.\*
- Digestive tract disorders (see also *Gastrointestinal disease*; *Sprue*; *Steatorrhoea*; *Ulcer*)
- alimentary intoxication, in infants, clinical and biochemical studies, 482.
- cancer (see under *Cancer*)
- colitis, effect on vitamin A absorption (man), 773.
- constipation, functional, in infants, treatment, 793.
- treatment with yoghurt and prunes, 506.
- diarrhoea, effect on vitamin B<sub>12</sub> retention (man), 1085.
- in children, treatment with carrot soup, 504.
- in infants, treatment, 792.
- treatment of dehydration, 504.
- production of deficiency syndromes, effect on electrocardiogram (child), 201.
- effect of antibiotics on vitamin B<sub>12</sub> absorption, 207.\*
- entero-toxaemia, experimental production (pig), 74.
- functional, production by surgical operations, 505.
- gastro-enteritis in infants, production of cerebral damage, 792.
- in cattle, 1155.\*
- obstruction, intestinal, vitamin B<sub>12</sub> metabolism, 73.\*
- parasites (see under *Parasites*; and specific parasites, e.g., *Worms*)
- rectal prolapse, incidence and treatment (child), 493.
- sprue after small intestine removal, case report, 215.\*
- stenosis, pyloric, production of tetany, case report (man), 1094.
- stricture or anastomosis, effect on vitamin B<sub>12</sub> absorption, 782.
- treatment, 505.\*
- treatment with diet and sleep, 1094.
- ulcers, retention of nitrogen, potassium and calcium, effect of sleep (man), 996.
- Dihydrotyrosyl, effect on calcium and phosphorus metabolism (rat), 63.
- effect on calcium metabolism (rat), 633.
- treatment of resistant rickets, effect on calcium and phosphorus metabolism, 197.
- Diketogulonic acid, in eye, lens (bovine guinea pig, rabbit), 957.
- 2:3-Diketogulonic acid, conversion to ascorbic acid by eye lens extract (rabbit), 660.
- p-Dimethylaminazo-benzene, effect on adrenals in protein and riboflavin deficiency (rat), 941.
- 2:5-Dimethylbenzimidazole, effect on egg hatchability, 378.
- 3:5-Dinitro-o-cresol, estimation in tissues 314.\*
- Dipeptidase, activity in muscle, effect of vitamin E deficiency (rabbit), 992.
- Diphenyl, residues on citrus fruits, toxicity and regulations, 806.
- Diphenyl-p-phenylenediamine, effect on vitamin E metabolism (chicken), 558.\*
- in reproduction (turkey), 559.\*
- Dipodomys merriami* (see *Rat, kangaroo*)
- Distearyl tartrate, rate of excretion, effect of fat intake (rat), 848.\*
- Distiller's grains, source of cellulolytic factors for cattle, 564.\*
- Distiller's solubles, dried, for chickens, effect on growth and calcium utilisation, 537.
- for turkeys, effect on hatchability and fertility of eggs, 254.
- growth factor for chickens not in ash fraction, 832.
- Diuresis (see under *Water*)
- Dogs (see also *Canine*)
- blood plasma,  $\alpha$ -amino nitrogen content, 538.
- disorders, black tongue, case report, 365.
- treatment with  $\alpha$ -tocopherol succinate, 639.
- urothiasis, disease of calcium and phosphorus metabolism, 846.
- food intake, social facilitation, 462.
- haemoglobin, normal adult values, 395.
- protein and amino acid requirements, 998.
- sheep-, feeding and management, need for improvement, 1134.
- vitamin B<sub>12</sub> metabolism, 71.
- Dog's tooth grass (*Cynodon dactylon*, club grass), leaf flour, nutritive value (rat), 464.
- Dolphin oil, detection in butter, 312.
- Donkey, water metabolism in desert conditions, 1022.
- Dried egg, milk, vegetables (see *Egg, dried*; *Milk, dried*; *Vegetables, dried*)
- Drinking, control by hypothalamus (goat), 445.
- control by stomach, 445.\*
- Drinking water (see *Water, drinking*)
- Drosophila melanogaster* (see under *Insects, fruit fly*)
- Drugs, and antimetabolites, 851.\*
- contamination with copper from apparatus, 647.
- effect on animal products, 271.\*
- effect on intermediary metabolism, 851.\*
- use and abuse, 272.\*
- Drug addiction, effect of nutrition, 270.\*
- Drying (see also specific foods, e.g., *Egg, dried*)
- fodders, 327.\*
- freeze-, for electron microscopy, 583.
- $\alpha$ -lactalbumin, effect on solubility, 308.
- milk, human, bacteriological tests and effect on growth of infants, 34.
- effect on composition and properties, 324.
- pork, prevention of browning reaction by yeast fermentation, 894.

## Ducks

- disorders, dystrophy, muscular, production by excessive amounts of cod liver oil in diet, 66.
- fattening, effect of terramycin and Vigofac, 835.
- feeding, duckweed sludge, 542.
- fodder beet, 834.
- terramycin, 835.
- wild, food habits, 835.
- Ducklings, feeding, micro-organisms as protein source, 334.\*
- Duckweed sludge, for ducks, 542.
- Dulcitol, effect on calcium utilisation (rat), 414.
- Ductless glands (see *Endocrine glands* and specific glands, e.g., *Thyroid*)
- Duodenal ulcer (see under *Ulcer*)
- Duodenum (see under *Intestine, small*)
- Dutch West Indies, nutrition studies, 1168.\*
- Dyes, artificial, F.D. and C. Yellow No. 3 and No. 4, toxicity (rat), 323.\*
- for foods, toxic and non-toxic, 270.\*
- Dystrophy, hunger, effect on stomach acidity, 484.
- muscular (see under *Muscle disorders*)
- nutritional, in children, production of liver enlargement, 767.
- in infants, a disorder of adaptation, 1065.
- in mothers, relation to liver enlargement in breast-fed infants, 767.
- in prisoners of war, effects on sympathetic nervous system, 484.
- pathology, post mortem, 1070.

EARTHNUITS (see *Groundnuts*)

East Africa (see under *Africa*)

Echinone, isolation from *Strongylocentrotus* spp., 620.

## Echinodermata

- sea urchin (*Paracentrotus lividus*), eggs and embryos, nicotinic acid derivatives, content, 943.
- pantoic acid derivative, content, 947.
- Strongylocentrotus* sp., isolation of echinone, 620.

Eclampsia (see under *Pregnancy disorders*)

Eczema (see under *Skin disorders*)

Egg: entries refer to hen eggs unless otherwise stated.

- amino acids, changes during incubation, 459.
- cholesterol content, changes during incubation, 43.
- composition, effect of choline, methionine, and vitamin B<sub>12</sub> in diet, 86.
- distribution of sulphur given to hens by mouth or by injection, 722.
- dried, protein, nutritive value (rat), 166.
- for infants, 178.
- frozen, quality, tests, 603.
- germinal disc and yolk, arginine and tryptophan contents, effect of fertilisation, 905.
- glycyl-cephalin compound, 43.\*
- green yolks, production by sodium copper chlorophyllin in diet, 542.
- hatchability, and fertility, and tocopherol in yolk, effect of different supplements (chick), 254.
- effect of fishmeal or vitamin B<sub>12</sub>, 1145.
- effect of grain, fish solubles, vitamins B<sub>12</sub> and B complex, 653.
- effect of pantoic acid deficiency, 948.
- effect of riboflavin deficiency, 853.\*
- effect of vitamin B<sub>12</sub>, and benzene and benzimidazole derivatives, 378.

## Egg

- hatchability, effect of vitamin E, N,N'-diphenylparaphenylenediamine and fish liver oil (turkey), 934.
- relation to vitamin E, 559.\*
- riboflavin requirement, 364.
- iodine content, 1038.
- phospholipin content, changes during incubation, 43.
- preservation, by oil, 325.
- riboflavin and vitamin B<sub>12</sub> content, effect of diet and breed, 359.
- vitamin B<sub>12</sub> content, 379.
- vitamin D<sub>3</sub> utilisation by chicks, 273.
- weight and shell thickness, effect of antibiotic and ascorbic acid in hot weather, 383.
- effect of choline, methionine and vitamin B<sub>12</sub>, 86.
- Egg albumin (see also *Egg white*)
- absorption, in diarrhoea (infant), 668.
- production of oedema, effect of fasting (rat), 466.
- Egg lecithin (see under *Lecithin*)
- Egg production
- economics, 259.
- effect of climate and housing conditions, 254.
- effect of feeding (see *Poultry feeding (laying hens)*; *Ducks, feeding*; *Turkeys, feeding*)
- effect of flash lighting, 543.
- effect of growth hormone 838.
- effect of intermittent light, 559.\*
- effect of progesterone 559\*, 1145.
- effect of ration during growth, 559.\*
- effect of reducing length of daylight, 1144.
- effect of restricted lighting, 542.
- of Polish Greenleg and Sussex breeds, effect of crossing, 1142.
- on floor pens and in laying battery, 559.\*
- seasonal, geographical and breed variations, Philippine Islands, 543.
- Egg quality
- effect of energy, fibre and protein in ration, 853.\*
- effect of feeding, 255.
- with Arsan (fungicide), 1146.
- Egg shell, thickness, effect of sulphamide, 838.
- Egg white
- duck, ovomucoid, 563.\*
- injections, production of oedema, effect on complement titre (rat), 93.
- proteins, effect of refrigeration, 35.\*
- thin and thick, effect of age of hen, 613.
- Egg yolk
- dried, for chickens, source of unidentified growth factor, 1139.
- formation, 459.
- lecithin, properties, 591.
- phospholipids, fatty acid composition, 905.
- phosphorus turnover during incubation, 162.
- proteolytic enzymes during incubation, 356.
- size, effect of choline, methionine and vitamin B<sub>12</sub>, 86.
- Egypt, infants, undernutrition, treatment, 212.
- nutrition and home economics programme, 849.\*
- Electrodialysis, apparatus, 869.\*
- Electrolyte(s)
- active transport and metabolism in tissues and mitochondria, 850.\*
- and fluids, 445.\*
- treatment of disorders, 503.
- balances, during acclimatisation to heat (man), 434.
- behaviour in dehydration (infant), 723.

## Electrolyte(s)

- estimation, 271.\*
- in blood, apparatus, 869.
- excretion, in infants of diabetic mothers, 115.
- in blood, in kwashiorkor, 853.\*
- maternal and cord (woman), 108.
- normal (man), 869.
- in ileum and faeces, effect of sodium restriction and cation exchange resin (dog), 430.
- in muscle (man), 110.\*
- in serum and muscle, effect of potassium deprivation (rat), 716.
- in tissues, in potassium and protein deficiency (rat), 146.
- intake, effect on retrolental fibroplasia in premature infants, 797.
- losses in children, scheme for replacement, 213.
- metabolism, during work in hot, humid mines (man), 434.\*
- solutions, in treatment of shock (rat), 146.
- total body, in rat, 1164.\*
- transport through embryonic membrane, 850.\*
- Electronic computer, estimation of sampling errors in diet survey, 888.
- Electrophoresis, 870.\*
- agar plates, 306.
- apparatus, modification for measurements of radio-activity, 869.
- paper, 306, 870.\*
- apparatus, 873.
- apparatus and technique, 15.
- application to phosphatides and bile acids, 1162.\*
- electronic computer, 583.\*
- review, 583.\*
- Electro-retinogram, effect of vitamin A deficiency, enatac and glucocina (man), 1072.
- Eleusine coracana* (see under *Millet*)
- Elk, winter browse utilisation, 829.
- El Salvador, diet study, 1058.
- Embryo (see also *Foetus*)
- amphibian, amino acid incorporation, 1050.
- blood proteins (rabbit, rat), 106.\*
- chicken, allantoic fluid, protein composition, 741.
- blood volume estimation, 30.\*
- calcium metabolism, 741.
- carbohydrate metabolism of liver *in vitro*, relation to cell division, 1025.
- development, effect of vitamin B<sub>12</sub> deficiency in diet of hen, 376.
- glycine, serine and threonine contents, 459.
- glycogen distribution, 741.
- heat regulation, 162.
- homogeneous, formation of nicotinic acid from 3-hydroxy-anthranilic acid, 648.\*
- malformations, clabbed down, effect of riboflavin in diet of hen, 364.
- methionine uptake, effect of ethionine, 1038.
- nutrition and respiration at different stages, 459.
- sulphur metabolism, 741.
- development, effect of pteroylglutamic acid deficiency (rat), 1163.\*
- frog, carbohydrate metabolism, effect of lithium, 1051.
- membrane, transport of electrolytes, 850.\*
- turkey, eye disorders, production by vitamin E deficiency, 933.
- Enamel, teeth (see under *Teeth*)
- Endocrine glands (see also specific glands, e.g., *Thyroid*)
- activity, effect of biotin deficiency (rat), 948.

- Endocrine glands  
effect on development of liver necrosis, 558.\*  
effect on mammary gland growth and lactation, 560.\*  
role in milk formation, 851.\*  
weight, effect of feed intake (rabbit), 683.  
Energy balance trials (sheep), 511.  
Energy exchange, and cerebral metabolism, review, 986.\*  
and nutrition (book), 554.  
Energy exchange, basal  
decline with age, 1165.\*  
effect of environmental temperature (ground squirrel), 988.  
effect of folic acid deprivation, 82.  
effect of thyroxine (guinea pig, rat), 404.  
girls, in Great Lakes region, 1162.\*  
infants, obese, 850.\*  
premature, effect of feeding, 687.  
relation to body composition (man), 400.  
relation to cell surface area (frog), 754.  
relation to season (frog), 407.  
Energy exchange, body temperature and oxygen consumption (rat), 117.\*  
cooling and overheating in hot climate (buffalo, goat, sheep), 117.  
deep and rectal (calf), 118.  
during work, effect of restricted water intake and low-calorie carbohydrate diet, 1165.\*  
in tropics, Zebu and crossbred cattle, 988.\*  
resistance to cooling, effect of body fat (man), 689.  
Energy exchange, cost of work, relation to body type and fat content (man), 407.  
effect of environmental temperature and thyroxine (rat), 989.  
effect of season, arctic mammals and birds, 117.  
effect of specific nutrients, 687.  
fatty acids, volatile (sheep), 852.\*  
feedingstuffs at different intake levels, effect of frequency of feeding, exercise and previous diet, 852.\*  
heat adaptation, effect of season (rat), 689.  
in small birds, 689.  
heat production (cattle), 688.  
calorimeter (aquatic animal), 321.  
effect of feeding, 1162.\*  
pigs at various ages, 408.  
Energy exchange, heat regulation  
changes in respiration (sheep), 408.  
during work in hot, humid mines (man), 434.\*  
effect of diet (rat), 989.  
effect of radiation intensity (cattle), 409.  
in chicken embryo, 162.  
in hedgehog and snake, 410.  
long-term effects, 1162.\*  
Energy exchange, heat tolerance (man), 434.\*  
in young bulls, 689.  
relation to type of hair (cattle), 689.  
respiratory behaviour (calf), 557.\*  
pregnancy, 1037.  
in fish, relation to bodyweight, 468.  
in tissues, during chemical thermoregulation, 988.\*  
in vitamin A deficiency (rat), 58.  
measurement, apparatus, 30.  
in small animals, 31.  
Energy exchange, oxygen consumption and adaption temperature (rat), 117.  
effect of fat (rat), 557.\*  
effect of thyroprotein (chicken), 887.  
effect of Yogo exercises (man), 987.  
estimation (chicken), 887.  
apparatus, 887.  
(small mammals), 321.  
Energy exchange, regulators of enzyme reactions, 687.  
relation to growth in adolescents, 406.  
respiration rate and body temperature, cows and buffaloes compared, Egypt, 988.  
respiratory quotient, in chicken, 410.  
respiratory rate, effect of feeding (pig), 687.  
in insects during development, effect of homogenisation, 753.  
response to cold, effect of age (man), 459.  
review, 986.\*  
source of energy for flight in mosquitoes, 174.  
specific dynamic action, mechanisms, 687.  
role of adrenaline (man), 118.  
utilisation of body reserves during exposure to low temperature (mouse), 989.  
work capacity of chest in old age (man), 163.  
Energy expenditure, role of alcohol, 269.\*  
Energy, in feed, utilisation by animals, 986.\*  
Energy intake and weight change in toxæmia of pregnancy, 269.\*  
effect on lipoproteins and cholesterol in blood, relation to energy output (man), 133.  
effect on reproduction (cow), 561.\*  
estimation from diet histories of population groups, 760.  
from alcohol by various populations, 269.\*  
girls, normal and obese, relation to activity, 760.  
in pregnancy, effect on enzymes in heart muscle (pig), 665.  
low, effect on satiety value of diet, 508.  
miners and clerks, 179.  
nitrogen sparing effect, in chronic liver disease (man), 997.  
relation to egg production and efficiency (hen), 1144.  
restricted, effect (rat), 563.\*  
effect on nitrogen utilisation (rat), 419.  
interrelation of protein and calories (rat), 1163.\*  
method for comparison of metabolic energy of foods (rat), 1163.\*  
soldiers, relation to bodyweight and body fat, 406.  
utilisation, in muscle contraction, 851.\*  
Energy, metabolic, of foods, comparison by rat growth under restricted energy intake, 1163.\*  
metabolisable, in cereal products, estimation from chemical composition, 1162.\*  
of poultry feedingstuffs, and composition, 610.  
net, versus starch equivalent, 800.  
Energy output  
(man), 407.\*  
and food intake, cadets, 116.  
children, relation to total haemoglobin, 672.  
daily, 849.\*  
effect of graded exercise (man), 850.\*  
effect of vitamin C (man), 209.  
estimation (man), 849.\*  
from pulmonary ventilation (man), 407.  
girls, normal and obese, relation to intake, 760.  
in athletes, 849.\*  
in old age, 849.\*  
measurement, 320.\*  
on agricultural work (man), 688.  
on coal mining and clerical work, 179.  
on exercise during and after cooling (man), 987.  
Energy output  
on industrial operations (man), 117.  
on military training, Chinese Republican Army, 106.  
on walking, effect of stooping (man), 408.  
physiological processes, method of study (man), 320.\*  
relation to nutrition, 849.\*  
working capacity, effect of a purine nucleotide (rat), 986.  
in children and adults, 986.  
Energy, productive, of feedingstuffs, measurement, 269.\*  
productive and metabolisable, estimation with chickens, comparison, 559.  
Energy requirement  
man, 407.  
Africa, review, 175.\*  
women, 469.  
Energy retention, from dried grass, effect of grinding and cubing, 1103.  
Energy, utilisation, by chickens, effect of age, 830.  
by poultry, effect of age and sex, 831.\*  
effect of dystrophy in infants, 187.  
Energy value, estimation, 15.  
feedingstuffs for ruminants, estimation, 269.\*  
foods (see also under the specific food) calculation, factors, 305.  
human diets, estimation, 269.\*  
poultry feedingstuffs, 600.  
ratio to protein, effect of protein level, 1136.  
England (see *United Kingdom*)  
Eusling (see *Silage making*)  
Environment, and heredity, interaction in poultry, 837.  
day length, effect on growth, carcass grade and feathering of turkeys, 1136.  
effect on growth and incidence of perosis (turkey), 356.  
hot weather, effect of antibiotic and ascorbic acid on egg weight and shell thickness, 383.  
Enzymo(s) (see also specific enzymes, e.g., *Phosphatase*)  
abnormalities associated with dietary liver necrosis, 558.\*  
action, mechanism, symposium (book), 268.\*  
activity in fatty liver (infant), 558.\*  
carbohydrase, of ciliate protozoa, 275.\*  
digestive, in pancreas and small intestine (baby pig), 960.  
digestive and absorptive, effect of diet, 564.\*  
estimation, 271.\*  
for poultry feeding, 273.\*  
in duodenal secretion and faeces, in spruce (man), 385.\*  
in liver, effect of carbon tetrachloride, influence of lipotropic substances (rat), 960.  
effect of lipotropic substances (rat), 665.  
in milk, review, 611.\*  
in nervous system, 960.\*  
iron-containing, in blood, effect of protein intake (rat), 96.

 embryo, effect of vitamin E deficiency (guinea pig), 569\*, 1162.\*  
 lens, ascorbic acid content (cattle, rabbit), 956.  
 crystalline, formation of ascorbic acid, *in vitro* (bovine, guinea pig, rabbit), 89.  
 $\alpha$ -crystallin, amino acids (man, ox), 682.\*  
 extract, conversion of diketogulonic to ascorbic acid (rabbit), 660.  
 metabolism, 660.  
 protein, soluble and insoluble, effect of age (rat), 981.  
 vitamin C and diketogulonic acid contents (bovine, guinea pig, rabbit), 957.  
 prawn, deep sea, vitamin A<sub>1</sub> isomer, detection, 56.  
 relation to vitamin deficiencies, 488.\*  
 retina, ganglion cells, effect of vitamin C deficiency (guinea pig), 661.  
 lipids, 682.\*  
 soluble proteins (calf), 109.\*  
 zinc content (seal), 981.
- FACTOR VII, in blood, effect of vitamin K<sub>1</sub> (infant), 219.
- Factory workers (see *Workers, industrial*)
- Faeces  
 bovine, vitamin B<sub>12</sub>-active substances, availability (chicken, rat), 87.  
 collection, apparatus (cow), 887.  
 collector (man), 886.\*  
 composition, Greenland (man), 270.\*  
 dry matter content (pig), 364.  
 output, estimation with chromic oxide, when grazing (sheep), 322.  
 water content, and rate of passage of seeds (goat), 963.
- Fagopyrum esculentum* (see *Buckwheat*)

## Family budgets

Austria, 475.  
France, 1953-54, 701.  
India, 186.  
Netherlands, 1951, 475.

Far East, diet study with clinical observations, Chinese Republican Army, 1066.

food and agriculture expansion, FAO regional consultation, 274.

Fasting (see also *Starvation*)

and refeeding, effect on composition of adipose tissue (rat), 1165.\*  
effect on cardiovascular response to cigarette smoking (man), 462.  
effect on liver cytochrome system (rat), 1026.

effect on liver enzymes (rat), 656.

effect on liver glycogen (rat), 121.

effect on oxidising action of liver homogenates (rat), 76.

with hard work, psychological effects, 184.

Fat (see also *Lipids*; *Fatty acids*; *Oils*; and specific fats, e.g., *Lard*)

Fat absorption (man), 1168.\*

(rat), 135.

and blood composition (man), 425.

and chylomicron counts (infant), 425.

by cockroach, 755.

cellular phase, 1165.\*

defective, in children, 1161.\*

effect of choline, methionine or ethionine (rat), 968.

estimation, with radio-active iodine (man), 1018.

in chylolymph, case report, 102.\*

in coeliac disease and pancreatic fibrosis (child), 132.

in duodenum, role of Golgi complex, 726.\*

in ferrets, 557.\*

in infant with congenital bile duct atresia, 669.

in infant with cystic fibrosis of pancreas, 669.

in malnutrition and kwashiorkor (child), 418.

normal and in sprue (man), 132, 133.

site, in rat, 1165.\*

studies with radio-active fatty acids (man), 270.\*

Fat, acetin, and vitamin A metabolism, 1162.\*

acetylated monoglycerides and triglycerides, digestion (rat), 705.

adulteration of butter, Italy, 902.

animal, and vegetable, comparative value for growth (rat), 1005.

effect on blood lipids (man), 272.\*

for chickens, effect on calcium and phosphorus requirement, 559.\*

source of unidentified growth factor, 1139.

for poultry, 250, 1138.

in concentrates, 804.\*

stabilisation with anti-oxidants, 325.

stabilised, for turkeys, effect on growth, efficiency and carcass quality at different levels of dietary protein, 1138.

anti-oxidants, synergistic effect of  $\alpha$ -alanine, 34.

auto-oxidation and anti-oxidants, 895.

auto-oxidised, fractions, nutritive properties, 1165.\*

back, composition, relation to dietary fat (goat), 1007.

bacterial, in rumen, 275.\*

beef, for chickens, 835.

blood (see *Blood fat*; *Blood lipids*)

Fat, body

accumulation (guinea pig), 979.

colour (man), 773.

Fat, body

composition, effect of vitamin E deficiency (pig), 67.

effect on resistance to cooling (man), 689.

estimation, 600.

by skin-fold thickness, 270\*, 481, 978.

in children and young men, U.K., 481.

from body water, in beef cattle, 275.\*

prediction from height and weight (man), 978.

relation to bodyweight and energy intake (man), 406.

relation to carcass weight (mouse), 750.

trans fatty acids, 619.

utilisation during exposure to cold (mouse), 989.

Fat, butter (see *Butterfat*; *Milk fat*)

Fat, coefficient of absorption, estimation (rat), 135.

composition, of snakes, 173.

cooking products, effect in diet (rat), 706.

deficiency, fate of  $^{14}C$  labelled linoleic acid (rat), 274.\*

fatty acid metabolism (mouse), 707.

syndrome, effect of sex hormones (rat), 1165.\*

tissue cholesterol esterase (rat), 962.

deposition, effect on lipids in blood (man), 133.

in coronary artery, effect of cold and diet (rat), 1007.

role of pituitary, 985.

deprivation, effect of diabetes (rat), 139.

production of liver fibrosis, 890.\*

digestion, and absorption, review, 132\*, 668.\*

effect of parenteral infections (infant), 704.

effect of sterols (rat), 709.

in Leiner's disease (man), 426.

in the rumen (sheep), 671.

effect on carotene in alfalfa meal during storage, 920.

effect on cholesterol absorption (rat), 429.

effect on digestibility of rations (lamb), 560.\*

effect on free fatty acid concentration in plasma (man), 270.\*

estimation, in butter and cheese, 875.

in cream and ice-cream, 589.

in fat-producing yeasts, 21.\*

in faeces, 214.

(infant), 589.

in insects, 21.\*

in meat, 875.

in meat products, 20, 875.

in milk, 20, 589, 876.

*in vivo*, 850.\*

excretion, effect of stomach operations (dog), 387.

faecal, origin, in sprue (man), 132, 133.

for chickens, effect on growth and feed utilisation, 1138.

importance of nutritive ratio in high energy rations, 1138.

for poultry, effect on pantothenic acid requirement, 948.

for rabbits, 1134.

form in diet, and incidence of hepatoma (mouse), 730.

Fat formation

by faecal bacteria, 744.

by moulds, 33, 897.

in adipose tissue, effect of diet (rat), 155.

in liver slices, effect of pituitary removal and diet (rat), 451.

in obesity, genetic, effect of fat intake and hormones (mouse), 1006.

hypothalamic (mouse), 427.

of different types (mouse, rat), 136.

Fat, from yeast in inositol-deficient medium, 609.

given by vein, tolerance in infants and children, 557.\*

glyceride structure, relation to enzyme systems, 427.

human, carotene and vitamin A content, 773.

hydrogenated, digestion and absorption (man), 132.

hydrogenation in rumen (sheep), 100.

hydrolysis in intestine (rat), 389.

in beef, and juiciness and tenderness, 906.

in cheese, Camembert, during ripening, 902.

in Indian fish, composition and nutritive value for rice moth larvae, 168.

in liver, effect of pantothenic acid and thyroxine (rat), 371.

in musculo, effect of diet (chicken), 1143.

Fat intake

and coronary disease, South Africa, 851.\*

effect on acetate metabolism (rat), 1006.

effect on blood clotting (man), 1004.

effect on blood lipids and lipoproteins (man), 140.

effect on oxygen consumption (rat), 557.\*

effect on plasma cholesterol (man), 1008.

effect on serum lipids (man), 704.

effect on severity of induced pulmonary arteriosclerosis (rabbit), 1007.

effect on vitamin B<sub>1</sub> excretion (infant), 492.

high, effect on blood pressure and heart rate (dog), 137.

effect on carbohydrate metabolism (rat), 413.

effect on fluorosis (rat), 441.

effect on incidence of mammary tumours (rat), 730.

effect on palmitic acid oxidation by liver slices (rat), 738.

effect on pancreas (rat), 136.

effect on utilisation of glucose by liver slices (rat), 440.

production of obesity (rat), 750.

relation to coronary thrombosis (man), 135.

influence on blood lipids (man), 134.

low, and mineral oil, toxicity, effect of liver residue and dietary fat (rat), 89.

and polyunsaturated fatty acids in blood (man), 133.

effect on blood cholesterol (man), 1008.

treatment of diabetes, 1092.

treatment of multiple sclerosis, 799.

production of angina pectoris in coronary artery disease (man), 135.\*

relation to atherosclerosis in different ethnic groups, 768.

restricted, effect on serum lipids and lipoproteins, in hypertension (man), 138.

Fat, interpenular, brown, composition, effect of insulin and thyroxine (rat), 91.

iodine number, estimation, 20, 875.

liver (see also *Lipids*, *liver*)

deposition in hypoxia, effect of choline or methionine (mouse), 427.

deposition on low protein intake, effect of amino acids and related substances, (rat), 138.

effect of carbohydrates and low amino acid diets (rat), 422.

effect of protein and energy intake (chicken), 697.

effect of source of fat in diet (rat), 706.

in pregnancy, effect of nutrition and starvation (ewe), 457.

relation to iron (man), 680.

variations (animals, man), 849.\*

Fat, metabolisable energy value for chickens, estimation, 558.\*  
 Fat metabolism (see also *Obesity*)  
 after removal of or damage to pancreas (dog), 704.  
 after stomach removal (man), 696.  
 by liver *in vitro*, effect of growth hormone (rat), 984.  
 effect of growth hormone (rabbit), 685.  
 effect of methionine, influence of diet (rat), 703.  
 effect of pituitary removal and stilboestrol (chicken), 686.  
 effect of X-rays (monkey), 706.

- Fish residues, gelatine, commercial preparation, 84.\*
- Fish sludge, for pigs and poultry, 803.
- Fish solubles**  
and terramycin, for chickens, effect of old and new environment, 1139.  
condensed, for chickens and turkeys, effect on growth and food utilisation, 558.  
for hens, effect on riboflavin and vitamin B<sub>12</sub> contents of egg, 359.  
for turkeys, effect on hatchability and fertility of eggs, 254.  
herring, vitamin B<sub>12</sub> content, 379.  
effect on vitamin A storage in liver (chicken), 559\*, 924.  
for chickens, source of unidentified growth factor, 559\*, 1139.  
for pigs, source of growth factors, 245.  
for poultry, effect on quality of meat, 379.
- Fisheries**, FAO yearbook, 274.\*
- Fishing boats, diet on board, Netherlands, 1168.\*
- Flavins**, in diabetes, experimental (rat), 75.  
separation and estimation, 362.
- Flavones**, in fermented drinks, 960.
- Flavone derivatives**, effect on red blood cells (guinea pig, horse), 900.
- Flavonoids**, effect on fluid loss from capillaries in frostbite (rat), 95.  
treatment of infective, haemorrhagic cystitis, 210.
- Flavour**, bad, in vegetables, frozen, 38.  
butter, stored, effect of copper, 324.  
oxidised, butter, stored, effect of ascorbic acid, 383.  
development in dairy products, role of ascorbic acid, 353.  
milk, effect of diphenyl-p-phenylene-diamine, 60.  
volatile compounds, 324.\*
- Flavouring**, synthetic, in poultry feeds, effect on growth, 1142.
- Flax**, chaff, pectinised, for fattening pigs, 1129.
- Flax plant feed**, digestibility, 561.\*
- Fleece** (see *Wool*)
- Flights**, long-range, feeding of pilots of aircraft, 757.
- Flint grit**, for laying hens, intake and utilisation, 540.
- Flours** (see also specific kinds, e.g., *Wheat flour*)  
legume, keeping quality, 605.  
preservatives, estimation, review, 883.  
legislation, Spain, 883.
- Fluoride(s)** (see also *Fluorine*)  
action on bone salts, 1164.\*  
effect on caries and mottling of teeth, 850.\*  
effect on dentine *in vitro*, 147.  
effect on fleece (sheep), 1123.  
effect on mitotic activity in thyroid epithelium (rat), 1015.  
estimation, 20.  
in bone meal, 26.  
in dentine and enamel, 880.\*  
excretion, after defluoridation of water supply (man), 1015.  
in dentifrice, stannous and sodium salts, prevention of caries, 557.\*  
in drinking water, effect of state, 557.\*  
in teeth, in areas with low fluoride in drinking water, 1091.  
in urine, effect of stannous fluoride in dentifrice (child), 557.\*  
injection, effect on deposition in segment of tibia (young rat), 1016.  
metabolism (rat), 557.\*  
topical application, effect on caries, 502.  
toxicity, acute and subacute (dog, mouse), 1015.
- Fluorine** (see also *Fluoride(s)*)  
addition to drinking water, 502\*, 1089.\*  
Australia and New Zealand, discussion, 788.  
deposition in bone, effect of injected fluorine (rat), 557.\*  
effect *in vivo* (rat), 557.\*  
effect on bone composition (monkey), 147.  
effect on calcium and alkaline phosphatase in bones and teeth (rat), 147.  
effect on calcium in bone (rat), 557.\*  
effect on calcium in milk (goat), 143.  
effect on iodine metabolism (rat), 148.  
effect on thyroid (man, rat), 440.  
frequency of administration, effect on retention (rat), 117.  
in calculi from urinary tract (man), 1015.  
in drinking water, and dental caries, America (U.S.), (man) 788.

Glutamic acid antimetabolites, 1003.\*  
Glutamic acid decarboxylase (see under *Decarboxylase*)  
Glutaminase, in liver, effect of vitamin B<sub>6</sub> deprivation (rat), 78.  
Glutamine  
harmful effect in coeliac disease, 1168.\*  
in blood (man), 973.  
effect of gliadin in coeliac disease, 600.  
in wheat gliadin, production of coeliac disease, 508.  
intake, effect on alcohol consumption (rat), 1023.\*  
metabolism, in coeliac disease (man), 1168.\*  
review, 702.\*  
requirement of tissue cells *in vitro*, 727.  
Glutathione  
effect on adrenal (mouse, rat), 93.  
effect on toxicity of synkavit (rat), 936.  
in blood, effect of  $\alpha$ -tocopherol (man), 776.  
in beef cattle, relation to rate of gain and efficiency, 397.  
in diabetes and obesity, effect of vitamin B<sub>12</sub> (man), 784.  
in liver disease, 851.\*  
in blood and tissues, effect of alloxan and dehydroascorbic acid (rabbit, rat), 660.  
in liver, effect of adenosine triphosphate and cholesterol (rabbit), 433.  
in tissues in hyperthyroidism, effect of vitamin B<sub>12</sub> (rat), 86.  
turnover, in *Corvus*, 1040.  
Gluten, wheat (see *Wheat gluten*)  
Glycides (see also *Fats*)  
aceto-, absorption and digestion (rat), 705.  
estimation, 590.  
formation, by liver mitochondria *in vitro* (rat), 728.  
mono-, acetylated, nutritional studies (rat), 1162.\*  
Glycerol, conversion into liver glycogen *in vivo* (rat), 848.\*  
effect in diabetes (dog), 990.\*  
estimation, 590, 615.  
treatment of hypoglycaemia in fasting pregnant sheep, 549.  
treatment of pregnancy toxæmia in ewes, 549.  
Glycerophosphate, effect on blood sugar (rabbit), 122.\*  
 $\alpha$ - and  $\beta$ -, effect on phosphorus excretion (rabbit), 644.  
estimation, 615.  
metabolism, in liver homogenates (rat), 727.  
Glyceryl triaurate, with methyl linoleate, effect on reproduction (rat), 1037.  
Glycine  
breakdown in liver (rat), 450.\*  
effect on blood sugar and liver glycogen (rabbit), 122.\*  
effect on uric acid and allantoin excretion (rat), 116.  
incorporation in blood, 311.  
excretion, excessive, with osteomalacia (man), 698.  
formation, by tumour cells *in vitro*, 731.  
effect of pteroylglutamic acid, vitamins B<sub>12</sub> and C (guinea-pig, rat), 657.  
incorporation into amino acids of muscle, effect of vitamin B (rabbit), 1163.\*  
incorporation into Ehrlich ascites tumour, effect of X-rays (mouse), 848.\*  
incorporation into liver ribonucleic acid, effect of diet, 850.\*  
injected, metabolism (man), 699.  
isolation from protein hydrolysates, 311.  
metabolism (rabbit), 129.  
effect of vitamin B deficiency (rabbit), 856.  
related compounds, nutritive value for chickens, 1163.\*  
Glycine  
requirement of chickens, 559.\*  
relation to serine, 129.  
with vitamin B<sub>12</sub>, lipotropic action (rat), 376.  
Glycoell (see *Glycine*)  
Glycogen (see also *Carbohydrate metabolism*)  
estimation, 307, 584.  
formation in liver, effect of fructose, sucrose and glucose (rat), 604.  
in chicken embryo, distribution, 741.  
in endometrium (woman), 457.  
in heart, liver and muscle, effect of pantoic acid (rat), 80.  
in tissues, fractions (rats), 680.  
liver, after adrenalectomy, effect of tryptophan and anthranilic acid (rabbit), 417.  
daily variations (chick embryo, chicken), 849.\*  
deposition, effect on liver phosphorus (rabbit), 417.  
effect of carbohydrate-free diet (rat), 121.  
effect of fasting (rat), 121.  
effect of feeding (chicken), 849.\*  
effect of glutamate or glycine (rabbit), 122.  
effect of nicotinamide (rat), 942.  
effect of vitamin B<sub>12</sub> and vitamin B<sub>1</sub> (rat), 934.  
estimation, 871.  
in biopsy samples (cow), 994.  
in diabetes (rat), 604.  
normal and in diabetes (rat), 121.  
relation to diabetic ketosis (rat), 694.  
response to insulin, effect of ascorbic acid (rat), 959.  
turnover, in obesity with diabetes (mouse), 694.  
variations (animals, man), 849.\*  
liver and muscle, effect of carbon tetrachloride (guinea-pig), 980.  
metabolism, review, 417.\*  
reserves, restoration after work, effect of vitamin preparation (rat), 53.  
Glycogen storage disease, blood lipoproteins (man), 120.  
Glycol, 2:3-butylene, in apples, ripening, 618.  
Glycolic acid, effect on calcium metabolism (rat), 414.  
Glycoprotein, estimation in cerebrospinal fluid, 307.  
in blood, specific differences (dog, man, rabbit), 397.\*  
in cerebrospinal fluid, in patients with brain disorders, 307.  
Glyoxalase, 662.\*  
Gout (s)  
blood proteins, relation to age and diet, 397.\*  
blood volume, 30.  
body temperature, effect of climate and other influences, India, 117.  
carcase, proximate composition and calcium and phosphorus content, 331.  
digestive tract, rate of passage of feeds, 670, 963.  
disorders, cobalt deficiency, prevention and cure with dietary cobalt, 262.  
infertility, Germany, 1151.  
lactation, induction by hormones, 1134.  
milk, composition, taste, and use for cheese-making, Norway, 330.  
phospholipin content, 901.  
viscosity, 42.\*  
yield, butterfat and casein, effect of vitamin B<sub>12</sub>, 952.  
portal blood flow, 599.  
rearing, 829.\*  
rumen (see under *Rumen*)  
Goat's rue, *Galaea officinalis*, citrulline, 50.  
effect on milk yield (cow), 817.

Goitre (see under *Thyroid disorders*)

Gold coast, diet studies, 183.

infant feeding, effect of milk on resistance to *Plasmodium falciparum*, 799.

Goosling(s), effect of antibiotics and arsenic acid on growth and efficiency, 836.

Gossypol

free, in cottonseed meal, effect on growth (chicken), 834.

inactivation with phloroglucinol, 542.

reaction with iron, 38.\*

removal from cottonseed, 807.

Gossypol-cephalin compound, in eggs from hens given cottonseed meal, 43.\*

Gourd, for livestock, 1105.

Gout (see also *Arthritis*)

physiopathological study, 799.\*

Grains (see *Cereals*)

Gram (see under *Legumes*)

Granite grit, for chicks, 273.\*

Grapes, vitamin B<sub>12</sub> content, 88.

Grape juice, volatile constituents, 49.\*

Grape seed meal, for laying hens, 542.

Grapefruit juice, vitamin C content, recommended standard, 1036.

Grass(es) (see also *Fodder*; *Forage*;

*Pasture*; and specific grasses, e.g., *Ryegrass*)

carbohydrates, digestibility in artificial rumen, 557.\*

carotene and other pigments, 891.

changes in lignin, cellulose and xylan during growth, 563.\*

chlorophyll content, effect of maturity, 915.

composition, at 6 stages of growth, Canada, 914.

effect of fertiliser and locality, 915.\*

effect of maturity, 914.

composition and nutritive value (wether), 804.

composition and yield, effect of nitrogen fertiliser, 561.

copper and manganese contents, 891.

copper availability, 275.\*

crude fibre, cellulose and lignin, content and digestibility, 220.

different species, yield of total digestible nutrients and effect on milk production and bodyweight (cow), 1114.

dried, composition and digestibility, effects of temperature and grinding and cubing (sheep), 39.

for sheep, effect of grinding and cubing on energy retention and digestibility, 1103.

nutritive value, 270.\*

ground, cubed or long, digestibility (sheep), 1104.

nitrate content, effect of fertiliser, 915.

spring or autumn, for cows, comparison with other concentrates, 813.

for drying, 338.

from normal pasture and pasture causing swayback, availability of copper (rat), 443.

intake by cows in summer, 560.\*

Johnson, silage and hay, for cows, 1167.\*

local and imported in Mauritius, composition, 1167.\*

main source of feed for dairy herd, 257.

milk-stimulating value, 1114.

nitrate content, effect of fertiliser, 915.

nitrogen fractions, relation to feeding value, 563.\*

soluble carbohydrates, 275.\*

Sudan, silage, for dairy cows, 273.\*

summer pasture compared with silage in winter for fattening beef cattle, 227.

tropical, composition and feeding value, effect of rainfall and maturity (sheep), 619.

oxalic acid content, 338.

Grass(es) (continued)

wilted, silage, losses compared with hay, 39.

with or without clover, effect of nitrogen, 338.

yield and composition, effect of gypsum, New Zealand, 915.

Grass and clover mixtures, beef yield and quality, 563.\*

Grass and grass products, feeding cows and beef cattle, 815.

Grass and legumes as pasture for poultry, evaluation, 853.\*

Grass and legume mixtures, composition and nutritive value (wether), 804.

Grass hay, nutritive value, East Africa, 1105.

Grass juice, for turkeys, 272.\*

Grass silage (see *Silage, grass*)

Grassland, management, 513.

research in New Zealand, future, 272.\*

Grass tetany (see under *Cattle, disorders*;

*Cows, disorders*)

Grasshopper pigment, effect on anaemia, experimental (mouse), 1164.\*

Graves' disease (see *Goitre, exophthalmic*, under *Thyroid disorders*)

Grazing (see also *Pasture*)

cattle, pasture consumption and faeces excreted, labelled barium sulphate as indicator, 890.\*

Grazing habits, calves and cows, relation to amount of shade, 816.

cows, strip or rotational grazing, 1100.

parasitological significance (cattle), 265.

Zebu cattle, errors of recording technique, 816.

Grazing season, prolongation, effect on milk production, 232.

Great Britain (see *United Kingdom*)

Greenland, diet study with clinical observations, 182.

food intake and faecal excretion (man), 270.\*

teeth, attrition, effect of urbanisation, 210.

Grinding, bone meal and limestone, effect on utilisation by cattle, 517.

concentrates, effect on growth and milk production (cow), 1116.

grass, dried, effect on carotene content, 39.

Grinding and cubing, lucerne, dried, effect on digestibility, 606.

Grit, flint and limestone, for laying hens, intake and utilisation, 540.

Groundnut(s)

composition, effects of variety, season and locality, 335.

for pigs, effect on ham quality and vitamin B<sub>12</sub> content, 614.

hardening of fat by feeding tallow, 561.\*

proteins, effect of storage, 38.

Groundnut cake, solvent-extracted, effect on reproduction (rat), 161, 162.

Groundnut hulls, for cattle, 273.\*

Groundnut meal, estimation in pre-mix for broad enrichment, 597.\*

for poultry, lysine deficiency, 1167.\*

nutritive value in African diets (rat), 1042.

protein, nutritive value, effect of methionine and threonine (rat), 166.

Groundnut milk, curds, supplement to poor rice diet, effect on nitrogen, calcium and phosphorus balances (child), 124.

nitrogen fractions, effect of souring, 48.

Groundnut oil, effect on cholesterol accumulation in tissues (chicken), 431.

effect on incidence of alloxan diabetes (rat), 136.

Groundnut oil

effect on iodine value of milk fat (cow), 1118.

intake, effect on cholesterol and polyethenoic acids in tissues (chicken), 1009.

wild species, 335.\*

Ground squirrel, *Citellus parryi*, energy exchange, 988.

Grouse, ruffed, food habits, America (U.S.), 838.

Growth (see also *Growth factors*)

analysis, from numbers of blood cells (man), 161.

anthropometry, 850.\*

at adolescence (book) (man), 1158.

body build and circulation (man), 1034.

bone (see *Bone growth*)

development and adaptation (man), 158.\*

disturbances of nutritional origin, review, 457.\*

effect of appetite, 270.\*

foetal (see under *Foetus and Reproduction*)

hair (see *Hair growth*)

mass-action, equations, 456, 457.

pathology, review, 158.\*

quantitative measurement, 158.

skeleton (see *Skeleton, growth*)

teeth (see *Teeth, development*)

Growth of calves (see *Calves, feeding*;

*Calves, growth*; *Heifers, feeding*;

*Heifers, growth*)

Growth of cattle (see *Calves*; *Cattle, beef, feeding*; *Cattle, feeding*; *Heifers, feeding*; *Heifers, growth*)

Growth of chickens (see *Chickens, feeding*;

*Chickens, growth*)

Growth of children (see *Children, growth*;

*Body measurements*; *Height*;

*Weight*)

Growth of heifers (see under *Heifers*)

Growth of infants (see *Infants, feeding*;

*Infants, growth*)

Growth of micro-organisms (see under

*Bacteria*; *Micro-organisms*; and

specific micro-organisms, e.g.,

*Lactobacillus acidophilus*)

Growth of pigs (see under *Pigs*)

Growth of rabbits (see under *Rabbits*)

Growth of sheep (see under *Lambs*; *Sheep*)

Growth of turkeys (see under *Turkeys*)

Growth factors, effect on rats on sub-optimal diet, 1162.\*

for chickens, egg yolk, fish solubles and animal fat as sources, 1139.

in calf thymus, 559.\*

in cereal grains and alfalfa, 536.

in distiller's dried solubles, 832.

in feather meal, 1139.

inorganic and organic, 559.\*

sources, 833.

for *Leuconostoc citrovorum* (see under

*Leuconostoc citrovorum*)

for pigs, cod liver as source, 245.

for turkeys, effect of protein level and tallow in diet on response, 559.\*

unidentified, ash, prevention of bone disorders on a purified diet (chicken), 1103.\*

estimation, standardisation, 558.\*

for calves, 226.

for chickens, 251.

antibiotic mycelia as source, 536.

sources, 251.

for poultry in feather meal ash, 1139.

in feed products, effect on chickens, 559.\*

in practical rations for chickens, 558.\*

production by *Streptomyces B-1354*, 559.\*

requirement of chickens, effect of cereals and iodinated casein, 535.

sources for turkey poult, 536.

Growth hormone, pituitary (see under

*Pituitary, anterior*)

Guanine, effect on toxicity of antibiotics to bacteria, 642.

#### Guatemala

children, growth, effect of vitamin B<sub>12</sub> and antibiotics, 1163.\*  
teeth condition, 211.  
diet study, 1059.  
effect of diet on blood composition, 181.

Guiana, British, health and nutrition, 769.  
French, children, feeding, effect of yeast in growth, 471.  
diet problems, 479.  
diet studies, 477.  
fruits, ascorbic acid content, 384.  
nutritional state of population, means of rapid improvement, 479.  
pathological problems, nutritional aspects, review, 769.\*  
requirements, recommended allowances (man), 469.

Guinea, Portuguese, vitamin B<sub>1</sub> excretion in disease (man), 199.

Guinea pig(s), body composition, changes in first week of life, 400.

effect of fat, lactose and bulk intakes, 463.

effect of milk diet on faecal flora, 165.  
fat accumulation in organs, 979.  
feeding, ration stable in vitamin C, 1168.\*

growth and reproduction, effect of antibiotics, 748.

panthothenic acid requirement, relation to ascorbic acid, 1163.\*  
protein and amino acid studies, 1163.\*  
protein requirement, 697, 997.  
requirement of choline or substitutes, 181.

L-Gulonolactone, oxidation to vitamin C, 880.\*

Gum conditions (see under *Mouth*)  
Guvitine (from guar seed), digestibility (wether), 512.

Gypsum, effect on clovers and grasses, New Zealand, 915.

#### HADDOCK (see under *Fish*)

Haemoglobin (see also *Anaemia*)  
adult and foetal, antigenic specificity (man), 672.  
alkali-resistant, in adults (man), 394, 672.\*

isoleucine content (man), 105.  
amino acid composition (man), 104.  
carboxy-, estimation, 80.\*  
concentration, in adult Bantu, South Africa, 104.

effect of sex hormones (chicken), 673.\*  
electrophoretically distinct, in ruminants, 270.\*  
estimation, 270.\*

(man), 30, 599.

in tropics (man), 599.\*  
proposed standard, report, 30.

foetal, amino acids (man), 394.  
in cord blood, as index of maturity (infant), 672.

formation, effect of manganese (sheep), 721.

effect of scurvy (guinea pig), 661.

in infancy, from iron of maternal origin (man), 441.

role of absorbed and stored iron, 149.  
globin, cystine content (man), 973.

in birds, 673.

in blood, relation to milk yield (cow), 962.  
in children, African, 394.

in cord blood of twins (man), 735.\*  
in dogs, normal, 395.

in fish, freshwater, 754.  
in health and disease (man), review, 105.\*

#### Haemoglobin

in horse, donkey and mule, composition, 971.

in ruminants, 105.\*  
oxy-, estimation (man), 319.\*

fractionation (man), 319.\*  
production in vitamin B<sub>12</sub> deficiency, effect of dried liver (rat), 951.

separation (poultry), 599.  
total and carboxy-, in anaemia, pernicious, effect of treatment, 849.\*

total body, relation to energy and iron requirements (child), 672.

total, estimation (man), 30.\*  
in plasma, 599.

Haemoglobin E, amino acids (man), 971.

Haemorrhage, after tonsillectomy, control by vitamin K and vitamin C (child), 786.

bleeding time, in scurvy (guinea pig), 955.

in women, rhesus negative, treatment with vitamin K during pregnancy, 501.

Haemorrhagic syndrome, in chickens given sulphaquinoxaline, 559.\*

Hair  
African, amino acid and sulphur content, normal and in kwashiorkor, 270.\*

copper content (different species), 110.  
disorders, hypochromotrichia and malnutrition, in infants, Jamaica, 485.

growth, effect of cold environment (man), 987.

red, in negro infants in Belgian Congo, relation to kwashiorkor, 772.

Hake (see under *Fish*)  
Halibut liver oil, vitamin A, stability in emulsions, 343.

Halides, separation, 25.

Ham(s)  
components, quantitative relation to whole carcass and to each other, 906.

quality, and vitamin B<sub>12</sub> content, effect of groundnuts ration, 614.

Hamster, teeth, composition, 682.

Hatchability (see under *Egg*)  
Hawaii, foods, frozen, composition, 918.

fruits, nutritive value and use (book), 1168.

meat and bone meal locally produced, for poultry, 249.

Hay  
bitter vetch, composition and feeding value (sheep), 803.

botanical composition, effect on mineral content, 51.

oat content, Switzerland, 620.

composition, and quality, effect of manurial treatment over 50 years, 51.

digestibility and feeding value, Bulgarian liver oil, different animals, 339.\*

Italy, 620.

losses during harvest and value for dairy cows, effect of stage of growth and method of curing, 1102.

copper content, effect of copper treatment, 51.

feeding value of 10 species, East Africa, 617.

for calves, effect of physical form, 560.\*  
for cows, effect on milk fat content, 612.

for dairy calves, with simple or complex starters, 273.\*

for fattening cattle, unidentified growth factor in good quality samples, 1109.

from natural pastures, chemical and botanical composition, Yugoslavia, 916.

grass and legume, nutritive value, East Africa, 1105.

heated, digestibility (wether), 804.

#### Hay

lucerne, and soya bean, for cows, 232.  
amino acids, 50.

red clover, timothy and cocksfoot, amino acids, effect of maturity, 50.

total digestible nutrients, estimation from lignin or crude fibre content, 890.

magnesium content, effect of copper or magnesium treatment, 51.

millet, Italian, composition, digestibility and feeding value, 339.\*

minerals, effect of manurial treatment and botanical composition, 51.

nitrate content, effect of fertiliser, 915.

nutritive value, effect of method of curing, 853.\*

prairie, low-protein, effect of protein supplements (cattle, sheep), 560.\*

timothy, low-quality, utilisation, effect of supplements (steer), 561.\*

utilisation, effect of protein and cereals (sheep), 561.\*

wild and cultivated, composition and digestibility by cattle, Japan, 802.

Hazelnut(s), sugars, 913.

Health, and nutrition, British Guiana, 769.

nutrition activities, evaluation, 478.\*  
and population growth, effect on standard of living, 479.

public, and standard of living, index of measurement of status, 185.

Heart, ballistocardiograph, and blood cholesterol, in middle age (man), 272.\*

Heart disorders  
angina pectoris, effect of choline and inositol (man), 272.\*

angina, produced by fatty meal, relief by heparin, 861.\*

body sodium and body water (man), 861.\*

cardiac insufficiency, production by riboflavin deficiency (man), 201.

congenital disease, effect of  $\alpha$ -tocopherol, 776.

coronary disease, and diet, Italy, 272.\*  
and fat intake, South Africa, 861.\*

blood cholesterol, effect of  $\beta$ -sitosterol (man), 851.\*

effect of diet and blood cholesterol, South Africa, 509.

lipoproteins and diet, 851.\*  
enlargement, right-sided, incidence, Indonesia, 1076.

failure, congestive, nutritional aspects, 218.\*

serum albumin metabolism (man), 421.

treatment with coconut water, 1098.

in pigs, vitamin-protein theory, 274.\*  
relation to mineral intake (mouse), 434.

thyrotoxic, relation to vitamin B<sub>1</sub> deficiency (man), 492.

in old age, nutrition of patient, 798.\*  
lesions produced by diet, 272.\*

myocardial infarction, role of diet and hormones in prevention, 500.\*

treatment with embryonic heart extract in old age (man), 1098.

treatment with  $\alpha$ -tocopherol (man), 776.

Heart, effect of intermittent high fat intake (dog), 137.

effect of nutritional deficiency, review, 1070.\*

effect of vitamin B<sub>12</sub> and pantothenic acid deprivation (rat), 359.

electrocardiogram, in children, effect of diarrhoea, 201.

extract, corticosterone, effect on flight performance of pigeons, 406.

embryonic, treatment of heart disorders in old age (man), 1098.

## Heart

- isolated, effect of vitamin B<sub>1</sub> and acetylcholine (toroises), 644.  
 lipoprotein lipase (rat), 97.\*  
 muscle, creatine content (man, rabbit), 851.\*  
 enzymes, effect of energy intake in pregnancy (pig), 665.  
 metabolism, review, 448.\*  
 potassium content, effect of potassium deprivation and adrenal removal, 146.\*  
 response to work at high altitude (man), 408.\*  
 riboflavin content, effect of ageing (man), 1077.  
**Heat** (see also under *Temperature; Tropics; Climate; etc.*)  
 effect on water and electrolyte loss in mine workers, 150.  
 environmental, acclimatisation (man), 434.  
 regulation (see under *Energy exchange*)  
 tolerance (see under *Energy exchange*)  
**Heather**, for sheep, 851.\*  
**Hedgehog**, response to change in environmental temperature, 410.  
**Heifers, feeding**  
 cane molasses, 512.  
 detergents (Fub), effect on digestibility of all-hay ration, 1104.  
 high- and low-plane rations, effect on blood composition, 1109.  
 lecithin, effect on digestibility of all-hay ration, 1104.  
 urea and ammonium molasses, 231.  
**Heifers, growth and blood composition**, effect of trace elements and excess calcium, 562.\*  
 milk composition, effect of hormonal induction of lactation, 521.  
 outwintering, effect of high- and low-protein supplements and influence of added minerals and vitamins, 816.  
 pituitary, growth hormone content, effect of age and plane of nutrition, 551.\*  
 pregnant, effect of plane of nutrition on growth and milk yield, 1167.\*  
**Height** (see also *Body measurements*)  
 secular change, Sweden (man), 735.  
**Helmith(s)** (see *Worms*)  
**Hemicelluloses**, fermentation by rumen bacteria, 275.\*  
**Hens** (see *Chickens; Poultry*)  
**Heparin**, effect on rabbits given cholesterol, 272.\*  
**Hepatitis** (see under *Liver disorders*)  
*n*-Heptadecanoic acid, in shark (*Galeorhinus australis*) liver oil, 616.  
 $\Delta^7$ -Heptadecanoic acid, isolation from calf fat (lamb), 332.  
**Herbage** (see *Fodder; Forage; Grasses; Pasture*)  
 Herbivores, nutritional requirements, 853.\*  
**Herbs**, effect on yield, composition and digestibility of pasture, 1100.  
**Heredity**, and environment, interaction in poultry, 837.  
 effect on composition of milk (cow), 1118.  
**Heritability**, and plane of nutrition (sheep), 1123.  
**Herring** (see under *Fish*)  
**Herringmeal**, effect of storage and heat treatment on nutritive value, relation of oil content (chicken), 833.  
 for pregnant ewes, 818.  
 preserved with niphrite, for pigs, 264, 1126.  
**Hesperidin** (see *Vitamin P*)  
**Hexadecanoic acid**, 16-methyl-, in beef fat, 49.

- Hexosamine**, in colostrum, 900.  
 in whey protein, 900.  
**Hexose phosphates**, separation, 584.  
**Hibernation**, effect on ascorbic acid in adrenals (hamster), 383.  
 in bats, serum magnesium, 976.  
**Hill farming**, U.K., economics, Blackface versus Cheviot, 840.  
**Histaminase**, in blood, effect of vitamin B<sub>12</sub> (guinea-pig), 85.  
**Histamine**  
 effect on blood pyruvic acid (rabbit), 122.\*  
 effect on gastric secretion (man), 964.  
 in vitamin B<sub>6</sub> deficiency (rat), 850.\*  
 response, effect of calcium intake (guinea-pig), 436.  
 role in ruminant digestion, 849.\*  
**Histidine**, estimation, 20\*, 311.  
 requirement of pigs, 561.\*  
**Histochemistry**, practical, and histopathological technique (book), 556.  
**Hogs** (see *Pigs*)  
**Holland** (see *Netherlands*)  
**Holocellulose**, in forages, 49.  
**Homocysteine**, S-adenosyl-, metabolism, detection, 311.  
**Homoserine**, formation from methionine (mouse), 130.  
**Honey**  
 effect on blood sugar in diabetes (man), 120.  
 effect on blood sugar when given by vein (rabbit), 120.  
 effect on vegetative tone when injected (man), 119.  
 heather, physical and chemical properties, Scotland, 52.  
 moisture content, Italy, 917.\*  
**Hookworm infestation**, anaemia, role of diet, Angola, 189.  
 effect on nutritional state, 189.  
**Hooves**, cattle and pigs, nutritive value for chickens, 535.  
**Hormone(s)** (see also *Endocrine glands*; and under specific glands; e.g., *Pituitary*)  
 and breast (woman), 1038.\*  
 and disturbances of growth (child), 1033.\*  
 and lactation, 459.\*  
 and vitamins, 379.\*  
 control of mammary glands, 1167.\*  
 effect on blood sugar, in obese diabetic mice, 691.  
 effect on composition of milk and carotene and vitamin A metabolism (cow, goat), 552.\*  
 effect on fatty liver due to ethionine (rat), 406.\*  
 effect on fertility (sheep), 851.\*  
 effect on growth and nitrogen retention (chicken), 559.\*  
 effect on resistance to undernutrition (rat), 403.  
 effect on reticulo-endothelial system and liver (rabbit), 53.  
 effect on skeletal growth, 558.\*  
 for growing and fattening animals, 224.\*  
 for lambs, effect on carcass quality, growth and digestibility of ration, 273.\*  
 implanted, effect on growth of lambs, 273.\*  
 physiology, chemistry and applications (book), 846.\*  
 regulation of lipid metabolism, review, 1004.\*  
 relation to dietary fat, 132.\*  
 research, recent progress (book), 556.\*  
**Hormones**, sex  
 androgens, effect on metabolism in old age (man), 163.  
 in urine (man), 975.

- Hormones**, sex  
 androgens, methylandrostenediol, effect on premature infants, 1088.  
 effect on cholesterol in blood and liver (rat), 1163.\*  
 effect on conversion of folic acid to citrovorum factor (rat), 374.  
 effect on excretion of purine metabolites on protein-free diet (rat), 116.  
 effect on fat deficiency syndrome, 1165.\*  
 effect on growth and carcass quality, when given orally or subcutaneously (lamb), 1122.  
 effect on haemoglobin level (chicken), 673.\*  
 effect on meat composition, 804.\*  
 effect on nicotine acid metabolism after ovary removal (rat), 1163.\*  
 effect on pregnancy disorders in pantotheuric and pteroylglutamic acid deficiency (rat), 937.  
 excretion, effect of malnutrition (man), 188.  
 implantation, effect on beef quality, 516.  
**Hormones**, sex, oestrogens  
 and aurochrome for feeder cattle, 561.\*  
 contamination of feed, effect on mice, 405.  
 effect on adrenal, influence of protein intake (rat), 115.  
 effect on carcass of beef cattle, 561.\*  
 effect on dressing percentage and cooking losses (poultry), 1143.  
 effect on fat metabolism (chicken), 686.  
 effect on fattening cattle, 809.  
 effect on fattening of turkeys, 539, 558.\*  
 effect on growth and carcass quality (bull steer), 617.  
 effect on growth and dressing percentage (poultry), 1141.  
 effect on growth and reproduction (mink), 1163.\*  
 effect on growth, blood composition and carcass quality (steer), 809.  
 effect on growth, fattening and carcass quality (sheep), 237, 819.  
 effect on growth, of beef calves, 517.  
 of beef cattle, 560.\*  
 of lambs, 525.  
 effect on milk yield and composition, 1167.\*  
 effect on organs after castration and pituitary removal (rat), 374.  
 effect on ruminants, 514.\*  
 fed or implanted, effect of protein level on response (steer), 561.\*  
 for beef cattle, 561\*, 1112.\*  
 for fattening lambs, 861.\*  
 in alfalfa and other plants (mouse), 686.  
 in plants, 1167.\*  
 induction of lactation (goat), 1134.  
 oviduct response, effect of vitamin B<sub>12</sub> and folic acid (chicken), 86.  
 protection of foetus against effect of *Lachryz adustus* (rat), 1045.  
 residue in tissues (chicken), 332.\*  
 treatment of diabetes (rat), 686.  
 uterine weight response, effect of diet (mouse, rat), 1164.\*  
**Hormones**, sex, progesterone and egg production and moult, in hens, 559.\*  
 effect on growth and sexual development (chicken), 254.  
 treatment of ketosis in cows and pregnancy disease in ewes, 1154.  
 response of chicken, effect of thiouracil and thyroxine, 114.\*  
 stillboestrol, by mouth, tissue residues (beef cattle), 614.  
 effect of implant on growth of beef cattle, 273.\*  
 effect on fattening of lambs when given orally or as implants, 526.

Hormones, sex  
 stilboestrol, effect on growth of pigs receiving antibiotics, 244.  
 for beef cattle, 273.\*  
 for fattening lambs, 1121.

Hormones, sex, testosterone  
 effect on body protein (rat), 405.  
 effect on cartilage (rat), 985.  
 effect on immature pullet, 116.\*  
 effect on lesions in choline deficiency (rat), 984.\*  
 effect on mice, influence of diet, 405.  
 effect on tissue transaminases (rat), 97.\*  
 effect on weight gain, carcass grade and behaviour (ewe), 819.  
 protein-sparing effect (man), 690.  
 retention in tissues after infection (ewe), 819.

Hormones, sex, treatment of muscular dystrophy, 219.  
 with folic acid, effect on reproductive system (rat, toad), 83.  
 steroid, in colostrum, human, 611.  
 thyrotropic (see under *Pituitary, anterior*)

Horns, growth, in sheep, 457.\*

Horse(s) (see also *Equine; Horses*)  
 debilitated, effect of penicillin and vitamin B<sub>12</sub>, 659.  
 disorders, rancorous disease, effect of vitamin C, 274.\*  
 feeding, effect of carotene intake on reproduction, 925.  
 hay and concentrates, intake when waking and resting, 1099.  
 maize, 224.  
 silage, 1107.  
 substitutes for oats, 1107.  
 USSR, 306.  
 kidney function, 151.  
 liver oil, unsaponifiable matter, 45.  
 racing performance, effect of  $\alpha$ -tocopherol, 639.  
 reproduction, effect of  $\alpha$ -tocopherol, 639.  
 seminal plasma, proteins, 400.\*  
 thrombosed, blood picture, 971.\*  
 red cells and haemoglobin, 971.\*  
 toxicity of whitehead fruits, 1156.\*  
 vitamin B<sub>1</sub> deficiency, relation to horse-tail poisoning, 274.\*

Horse-tail, poisoning of horses, relation to vitamin B<sub>1</sub> deficiency, 274.\*

Hospitals, diet planning, Argentina, 212.

Humana milk, for infants, 1084.

Humidity (see also under *Climate*)  
 high, effect on dairy cows, 273.\*  
 physiological response of cattle, 852.\*

Hump, in Zebu cattle, physiology, 853.\*

Hungary, protein shortage for animal feeding, 1106.

Hunger, 98.\*  
 behaviour, effect of nerve sections (dog), 462.\*  
 satiety value of reducing diets, effect on carbohydrate metabolism, 508.

Hyalin, from diseased organs, composition (man), 109.

Hyaluronidase, action on capillaries, effect of inositol and rutin (child), 210.  
 effect on absorption from colon (guinea-pig), 670.  
 effect on semen quality, *in vitro* (bull), 663.

Hydrocephalus, acute, benign, produced by massive dose of vitamin A (infant), 774.  
 production by vitamin A deficiency (rat), 58.

Hydrocyanic acid, in jola, effect of stage of growth, 52.

Hydrogen ion concentration  
 estimation in blood, 317.  
 in milk, 612.\*

Hydrol, ammoniated (maize molasses), for beef cattle, 560.\*

3-Hydroxyanthranilic acid, conversion to nicotinic acid by chick embryo homogenates, 648.\*

Hydroxyproline, estimation, in collagen and gelatine, 874.  
 in meat, 588.  
*Hyperemesis gravidarum* (see under *Pregnancy disorders*)

Hyperkeratosis (see *Calves, disorders*)

Hyperparathyroidism (see under *Parathyroid*)

Hypertension (see *Blood pressure, high*)

Hyperthyroidism (see under *Thyroid disorders*)

Hypoglycaemia (see *Blood sugar, low*)

Hypoglycin A, toxicity for rats, effect of diet, 464.

Hypophysectomy (see *Pituitary removal*)

Hypophysis (see *Pituitary*)

Hypoproteinaemia (see *Blood protein, low*)

Hypotaurine, excretion, effect of cystine intake (rat), 424.\*

Hypothalamus (see under *Brain*)

Hypothermia (see also *Cold*)  
 effects (rabbit), 749.

Hypothyroidism (see under *Thyroid disorders*)

#### IMMUNITY REACTIONS

agglutinin production, effect of vitamin B<sub>6</sub> deficiency (rabbit), 387.  
 antibodies, absorption from milk, effect of age (rat), 1039.  
 antibody production, effect of vitamin deficiencies (rat), 63.  
 pantothenic acid sparing effect of ascorbic acid, 1163.\*  
 role of vitamins, 340\*, 558.\*  
 complement fixation, effect of ascorbic acid on activity of serum (guinea-pig), 955.  
 complement titre, effect of ethionine and cholesterol (guinea-pig, rabbit), 141.  
 effect of egg white injections (rat), 93.  
 sensitisation of infants to milk proteins, 790.

Immunity, resistance to disease  
*Ascaridia galli* infection, effect of leucine (chicken), 265.  
*Corynebacterium* infection, effect of pantothenate deprivation (rat), 370.  
 effect of vitamin C deficiency (guinea-pig), 663.  
 development of serum globulins and agglutinins (calf), 163.  
 effect of poultry litter (chicken), 83.  
 enteritis, effect of antibiotics and vitamins (pig), 558.\*  
 fowl typhoid, effect of vitamins (chicken), 568.\*  
 Newcastle disease, effect of antibiotics on response to vaccination, 266.  
 parasitic infestation, effect of grazing green oats (sheep), 265.  
*Plasmodium berghei* infection, changes in serum proteins (rat), 164.  
 effect of milk diets (rat), 164.  
 effect of raw or pasteurised milk (mouse), 460.  
*Plasmodium falciparum*, effect of milk diet (infant), 799.  
*Salmonella* infection, effect of diet, new modified double strain inoculation test (mouse), 742.

and composition of milk (woman), 739.  
Belgian Congo (woman), 161.  
calcium and phosphorus metabolism (cow), 435.  
calcium metabolism (goat), 740.  
effect of fluorine (goat), 143.  
review, 1037.\*  
diet, Peru, 471.  
effect of abortion (cow), 817.  
effect of feed texture, 273.\*  
effect of glyceryl trioleate (rat), 1037.  
effect of growth hormone (mouse), 1167.\*  
effect of level of feeding (cattle), 273.\*  
effect of soya bean proteins and vitamin B<sub>12</sub> (rat), 657.  
effect of stage on vitamin B<sub>12</sub> content of milk (cow), 953.  
effect of vitamin E (woman), 775.  
deficiency, in mother, on protein in muscle of young (rat), 637.  
effect on composition of mammary gland (guinea pig), 726.  
effect on methionine in blood (woman), 498.  
effect on wool growth (ewe), 1123.  
establishment after calving, effect of undernutrition (cow), 1167.\*  
hormonal induction, effect on milk composition (heifer), 521.  
in sows, nitrogen balance, 527.  
induction by prolactin (rabbit), 405.  
norleucine metabolism (cow), 739.  
persistence, 1121.\*  
physiology, 1161.\*  
stage, effect on milk composition (cow), 611.  
vitamin A in plasma of dams, relation to level in suckling pigs, 925.  
weight loss (cow), 239.

## Lactic acid, estimation, 23.

- in blood, variation (sheep), 413.  
in tissue metabolism, 271.\*  
Lactic acid bacteria, requirements for purines, folic acid and p-aminobenzoic acid, 373.  
Lactobacilli, cysteine requirement, effect of ascorbic acid, 663.  
intestinal, effect of fatty acids from milk, 1039.  
mouth, amino acid requirements, 743.  
*Lactobacillus acidophilus*, cultures, for  
in mouth, relation to caries (hamster), 743.\*  
*Lactobacillus arabinosus*, biotin, availability, effect of oleate and Tween 40, 940.  
effect of pyridoxamine and  $\alpha$ -keto acids, 945.  
17-5, phosphorylation of pantothenic acid, 372.  
*Lactobacillus bifidus*, growth in human milk, effect of heating, 165.  
selective culture medium, 1039.  
*Lactobacillus helveticus*, pantothenic growth factor, 370.  
 $\beta$ -Lactoglobulin, effect of hydrogen peroxide, 324.  
in milk, 40.  
Lactose  
comparison with choline (rat), 414.  
effect on incidence of diabetes after alloxan (rat), 121.  
effect in rats, 1168.\*  
estimation, in chocolate, 16.  
in commercial foods, 306.  
in milk, 871.  
in tissues, 307.  
formation in mammary gland, 852.\*  
in milk, effect on freezing-point depression, 315.  
in vitro, dry, utilisation (calf, chicken, pig, rat), 42.  
intake, effect on blood sugar tolerance (child), 119.  
metabolism, in mammary gland *in vitro*, 307.  
physiological effects, 559.\*  
Lactulose (see *Fructose*)  
Lamb (meat), (see *Mutton*)  
Lamb(s) (see also *Sheep*)  
birthweight, relation to weaning weight, 851.\*  
variation, environmental, 237.  
carcase quality, effect of hormones, 273.  
cobalt deficiency, effect of phenothiazine alone or with cobalt, 843.  
Tasmania, 262.  
digestibility of ration, effect of hormones, 273.\*  
Lambs, disorders  
cobalt deficiency, effect of cobalt top-dressing, New Zealand, 262.  
effect of leucovorin or antibiotics, 88.  
prevention in hill flocks with massive doses, 547.  
muscle dystrophy, etiology, 274.\*  
stiff-lamb disease, relation to feeding and management, 853.\*  
swayback, America (U.S.), review, 1153.\*  
wascity, New Zealand, 1161.  
relation to fresh growth of pasture, 1161.  
Lambs, fat, production, Australia, 528.  
by rotational grazing or set-stocking, New Zealand, 1121.  
fattening, effect of hormones, oral or as implants, 526.  
effect of oestrogens, 851.\*  
pelleted rations, 560.\*  
or whole grains, 561.\*  
Lambs, feeding  
acidophilous cultures, 524.  
alfalfa cube mixtures, 1121.  
antibiotics, 273\*, 561.\*

## Lambs, feeding

- beef tallow, 354.\*  
 chlortetracycline and stilboestrol, effect on growth, feed efficiency and carcass quality, 819.  
 effect of grinding or pelleting the ration on digestibility, 512.  
 effect of intensity on thickness of wool, 524.  
 effect of pelleting on digestibility, 561.\*  
 effect of plane of nutrition on adult sheep, 525.\*  
 feather meal, 561.\*  
 in spring, value of temporary winter pasture, 273.\*  
 milk, restricted, by hand, Israel, 236.  
 non-protein nitrogenous compounds, 523.  
 oestrogens, effect on growth, 525.  
 on different planes of nutrition, effect on lifetime performance, 524.  
 urea and biuret, 561.\*  
 urea or stilboestrol, 1121.  
 valeric acid, biotin and *p*-aminobenzoic acid as supplements, 560.\*  
 wood molasses, 528.\*
- Lambs, fleece structure, effect of restricted feeding of ewe during pregnancy, 821.
- Lambs, growth and carcass quality, effect of sex hormones given orally or subcutaneously, 1122.  
 and survival, effect of defective udders in dams, 237.  
 effect of cellulose decomposing factors in protein hydrolysates, 560.\*  
 effect of hormone implant, 273.\*  
 fattening and carcass quality, effect of diethylstilboestrol, 237.
- Lambs, Karakul, birthweight and pelt weight in relation to length of gestation, 236.  
 milk intake, Awassi breed, Israel, 236.  
 neonatal mortality, New Zealand, 560.\*  
 production, effect of protein source for ewe, 237.  
 protein requirements, 553.\*  
 ram, different breeds, performance testing, effect of concentrate to roughage ratio, 819.  
 rumen (see under *Rumen*).  
 suckling behaviour, 818.  
 sulphur requirement in terms of methionine, sodium sulphate and elemental sulphur, 1121.  
 utilisation of phosphorus from different sources, 500.\*  
 vitamin A and calcium deficiency, histopathology, 853.\*  
 weaning weight, relation to birthweight, 831.\*

- body, effect of environmental temperature (mouse, rat), 137.
- effect of X-ray exposure of half body (rat), 881.
- conjugated, in connective tissue (rabbit, rat), 402.
- distribution in developing adrenal (rat), 92.\*
- estimation, 312.
- excretion, effect of administration of plant sterols, 1164.\*
- in nephrosis (rat), 437.\*
- extraction from wheat, flour, bran and gluten, 590.
- formation, in aorta and liver tissue, effect of cholesterol and alcohol (rabbit), 451.
- from jejunum of fasting dog, composition, 270.\*
- in brain and liver, changes with age (rat), 880.
- in cod and haddock flesh, 615.

## Lipids

- in connective tissue (rabbit, rat), 110.
- in diet, relation to hormones, 132.\*
- in teeth (man), 980.
- labelled, distribution in alimentary lipaemia (rat), 1162.\*
- liver (see also *Fat, liver*)
- and muscle, effect of carbon tetrachloride (guinea-pig), 980.
- effect of folic acid and thyroxine (rat), 949.
- effect of pantothenic acid (rat), 80.
- effect of protein intake and lipotropic substances (rat), 137.
- fatty, effect of vitamin K (rat), 69.
- of cholesterol-fed rats, 850.\*
- metabolism, 877.\*
- effect of a synthetic triglyceride (man), 1004.
- effect of cortisone and adrenalin (rabbit), 432.\*
- effect of high cholesterol intake with and without cortisone (rabbit), 431.
- in nervous system, review, 1029.\*
- review, 132.\*
- milk (see *Milk fat*)
- mobilisation, effect of cold, study by analysis of tissues (rabbit), 1162.\*
- removal from blood, effect of protamine (man, rat), 704.
- separation, 591, 875.
- tissue, new unsaponifiable constituent (different species), 63.
- transport, through cell membrane, 850.\*
- vegetable, effect of sunlight, 896.
- wheat flour, in bread making, 604.
- Lipins (see *Lipids*)
- Lipocain, effect on blood cholesterol (rabbit), 107.\*
- effect on oxygen consumption of fatty liver (rat), 1026.
- Lipoic acid (see *Thioctic acid*)
- Lipoproteins, estimation in blood, centrifuged, 878.
- in blood (see under *Blood*)
- in muscle (rabbit), 682.
- Lipotropic substances (see also specific substances, e.g., *Choline*), 558.\*
- and protein, treatment of liver cirrhosis, 558.\*
- choline and betaine compared (guinea-pig), 427.
- deprivation, effect of different lipids, 138.\*
- effect on heart and blood vessels (rat), 272.\*
- effect on liver enzymes (rat), 665.
- after treatment with carbon tetrachloride (rat), 960.
- effect on liver lipids (rat), 137.
- effect on resistance to hypoxia (mouse), 427.
- effect on vitamin A and carotene in blood and liver (calf), 926.
- from pancreas, effect on oxygen consumption of fatty liver (rat), 1026.
- metabolism, review, 708.\*
- protection of organs, lecture, 1005.\*
- treatment of liver disorders, review, 1008.\*
- Lipoxidase, wheat, 47.\*
- Lithium, effect on carbohydrate metabolism of frog embryo, 1051.
- estimation in whiskey, 596.\*
- Litter, poultry, vitamin B<sub>12</sub> activity, micro-organisms and antibiotic content, 83.
- Liver
- the entries are divided into two groups:
  - (a) those relating to the liver as an organ;
  - (b) those relating to liver as a food, or to liver preparations as therapeutic agent or tissues of vitamins.

## Liver

- For constituents such as Liver iron, see *Iron, in liver*
- alkaline phosphatase, normal and in cirrhosis (rat), 97.\*
- in cirrhosis, normal and in cancer, effect of ethionine (rat), 158.\*
- ascorbic acid, bound, content (guinea-pig), 956.
- biopsy, changes in dystrophy, nutritional (man), 767.
- in infants and children, 601.\*
- technique (cow), 994.
- catalase, effect of riboflavin deficiency (mouse), 75.
- cells, effect of low protein intake (rat), 154.
- melkolar size, effect of amino acid deficiencies (rat), 1002.
- cell fractions, lipids, 1029.\*
- mitochondria, relation to total metabolism and bodyweight in mammals, 1025.
- nuclei, mitochondria and fraction X, vitamin A content (man), 773.
- cholesterol distribution in parenchyma and reticulo-endothelial cells (rat), 710.
- cholesterol formation, effect of dietary cholesterol, 1165.\*
- cholesterol metabolism *in vitro* (rat), 728.
- choline dehydrogenase, 96.\*
- composition, changes during pregnancy (rabbit), 737.
- effect of 2-acetylaminofluorene (rat), 1031.
- effect of malnutrition (infant), 787.\*
- effect of starvation (guinea-pig), 881.
- cytochrome system, effect of fasting (rat), 1026.
- cytoplasmic fractions, separation by nicotine, 77.\*
- dehydrogenase activity, effect of vitamin B<sub>12</sub> deficiency (rat), 951.
- Liver disorders
- (book), 268.
- abscesses, production by folic acid deficiency (rat), 270.\*
- biliary atresia, effect of  $\alpha$ -tocopherol on creatinuria, 1075.
- blood glutathione, 851.\*
- blood potassium, effect of sugars (man), 412.
- chronic, effect of energy intake on nitrogen retention (man), 997.
- cirrhosis, and precancerous state produced by azo dyes, amino acid metabolism *in vitro* (rat), 1031.
- alcoholic, effect of purified diet with choline, 558.\*
- biliary, effect of vitamin E (man), 1163.\*
- blood protein turnover (man), 126.
- case reports, 484.\*
- effect of casein or amino acid mixtures (rat), 1164.\*
- effect of protein and lipotropic substances, 558.\*
- effect on vitamin A metabolism (man), 488.
- fatty, treatment with lipotropic substances, review, 1008.\*
- infants, 482.\*
- methionine metabolism (man), 507.
- production by diet, 708.
- protein metabolism, 558.\*
- protein metabolism and liver function, 766.\*
- relation to diabetes (man), 1093.
- role of protein intake, low (man), 192.
- splanchnic blood flow, effect of protein or glucose (man), 123.
- treatment, with antibiotics (infant), 558.\*
- with liver extract, 510.

## Liver disorders

- cirrhosis, treatment, with methionine, toxic effects (man), 1098.  
with sodium intake, restricted, 509.  
vitamin A and E contents of blood, 270.\*  
with oedema, water balance (man), 728.  
with portal collateral circulation, production of neuropsychiatric syndrome (man), 1069.  
cirrhosis and fatty liver, pathological development, 558.\*  
relative importance of protein and labile methyl in development, 558.\*  
cirrhosis and malignant disease, incidence, Jamaica, 192.  
congenital bile duct stenosis, with rickets (infant), 774.  
copper metabolism (man), 720.  
damage, due to carbon tetrachloride, carbohydrate and potassium metabolism (dog), 1031.\*  
produced by diet (man), 772.  
produced by human foods (rat), 747.  
treatment with transfusions of human albumin, 271.\*  
danger of protein-rich diet (man), 708.\*  
diagnosis from copper and iron in serum (man), 677.  
dietary, in tropical Africa, pathology, 558.\*  
effect of vitamin B<sub>12</sub> on vitamin B<sub>6</sub> and riboflavin excretion (man), 496.  
effect on conversion of folic acid to citrovorum factor (rat), 652.  
effect on tocopherol metabolism, 558.\*  
effect on vitamin B<sub>12</sub> destroying enzymes of saliva, 777.  
effect on vitamin E in blood (man), 198.  
enlargement, and protein deficiency in Samoa, Niue and New Zealand (Maoris), 772.  
in dystrophy, nutritional (child), 767.  
epidemic hepatitis, creatine metabolism (man), 131.  
fatty infiltration and necrosis, 1167.\*  
fatty liver, acute, in pregnancy, case reports (woman), 1072.  
carbohydrate metabolism, *in vitro*, 155.\*  
effect of vitamin B<sub>12</sub> and amino acids (rat), 376.  
effect of vitamin K on liver lipids (rat), 69.  
enzyme activity (infant), 558.\*  
produced by carbon tetrachloride, effect of pancreatic lipotropic extract (rat), 1026.  
produced by choline deficiency, effect of heparin or aureomycin (dog), 1005.  
produced by diet, effect of lipotropic substances (rat), 665.  
effect of liver extract (rat), 1005.  
effect on blood sugar response to adrenaline (rat), 994.  
production by cholesterol, effect of heparin (rabbit), 272.\*  
production by diet containing carcinogen (rat), 270.\*  
production by orotic acid (rat), 380.  
pyridine nucleotides (rat), 165.  
relation to glycogen content (rat), 936.  
fibrosis, on fat-free diet, 850.\*  
produced by ligation of bile duct, effect of liver extract and vitamin B<sub>12</sub> (rat), 951.  
hepatic coma, copper in brain and liver (man), 682.  
hepatitis, acute, infectious, treatment with diet and exercise, 218.  
treatment with vitamin B complex and deoxycholesterone, 491.

## Liver disorders

- hepatitis, alcohol metabolism, effect of fructose, 151.\*  
amino acids in urine (child), 698.  
and chronic after-effects, serum iron-binding capacity (man), 976.  
nicotinic acid metabolism, 1161.\*  
viral, effect of amino acid and glucose induction (man), 412.\*  
effect of diet, 558.\*  
nitrogen balance (man), 125.  
in alcoholism, protein nutrition and hepatic coma, 798.\*  
in alcoholism, treatment by diet, 217.  
injury, effect of antibiotics, 558.\*  
induced by anabur amino acid deficiency, 558.\*  
iron deposition, effect of essential diet (man), 192.  
lipoproteins, electrophoresis, 851.\*  
necrosis, absence of cirrhosis after recurrent episodes, 558.\*  
association with renal lesions (rat), 270.\*  
dietary, effect of cystine and vitamin E on blood sugar tolerance (rat), 380.  
effect on co-enzyme A content of liver, 371.  
effect of endocrine glands on development, 558.\*  
in germ-free and conventional rats, 558.\*  
interaction of diet and environment (rat), 406.  
produced by diet, 466, 558.\*  
effect of environment and mode of feeding, 558.\*  
effect on metabolism (rat), 637.  
enzyme abnormalities (rat), 558.\*  
pathology, 558.\*  
vitamin E and cystine as protecting factors, 558.\*  
produced by dried skimmed milk diet (rat), 169.  
produced by mushroom diet, effect of cystine, methionine and tocopherol (rat), 932.  
produced by vitamin E deficiency (pig), 67.  
effect of intravenous and intraportal injection of vitamin E on respiratory decline (rat), 1163.\*  
production by *Torula* yeast (rat), 1163.\*  
necrosis and cirrhosis, differentiation and diet affecting development, 558.\*  
nutritional, human and experimental, aspects, 558.\*  
treatment, 798.\*  
produced by diets deficient in labile methyl groups, effect of vitamin B<sub>12</sub> (rat), 86.  
production by malnutrition, tropical (man), 270.\*  
serum iron, 105.\*  
siderosis, in East and Central African natives, 772.  
production in treatment of anaemia, chronic (man), 797.  
treatment, 1098.\*  
by diet, 217.\*  
review, 217.\*  
role of pantothenic acid, 495.  
with amino acids, 509.  
with liver extract and diet (man), 217.  
tumours (see *Tumours*)  
tumour-like nodules, production by ethionine (rat), 453.  
uptake of radio-active vitamin B<sub>12</sub> by liver, 1165.  
veno-occlusive disease, case reports, Jamaica, 193.

## Liver, effect of cholesterol (rabbit), 431.

- effect of hypothermia (rabbit), 749.  
effect of undernutrition (infant), 680.  
effect of yeast proteins (rat), 1048.  
fat (see *Fat, liver*; *Lipids, liver*)  
fat content, effect of pantothenic acid and thyroxine (rat), 371.  
fatty, coenzyme A content (rat), 946.  
fatty acids (see under *Fatty acids*)  
fish, freshwater, vitamin A content, India, 62.  
foetal, growth and function (sheep), 1025.  
Liver function, hippuric acid excretion test, effect of pantothenic acid, 493.\*  
Liver,  $\beta$ -glucuronidase, effect of vitamin B<sub>12</sub> (rabbit), 86.  
glycogen (see *Glycogen, liver*)  
glycogen content, effect of vitamin B<sub>1</sub> and vitamin B<sub>12</sub> (rat), 936.  
glycogen deposition, effect on phosphoric content (rabbit), 117.  
inactivation of pterins, effect of diet, 686.\*  
effect of nutritional deficiency (rat), 270.\*  
iron metabolism, clinical importance (man), 689.  
lesions in riboflavin deficiency, effect of aureomycin (rat), 363.  
lipids (see *Lipids, liver*; *Fat, liver*)  
metabolism of thyroid hormones, 115.\*  
methionine content, effect of nicotinic acid and poisoning by carbon tetrachloride (guinea pig), 76.  
mitochondrial pyruvate formation *in vitro* (rat), 728.  
structure and nitrogen content, effect of vitamin B<sub>1</sub> and riboflavin deficiencies (rat), 937.  
vitamin K content (cattle), 641.  
nucleic acids (see *Nucleic acids*)  
oxidase(s), effect of vitamin B<sub>12</sub> deficiency and fasting (rat), 656.  
monoamine-, effect of thyroxine and triiodothyronine (guinea pig, rabbit, rat), 945.  
xanthine, activity, effect of animal protein factor deficiency (rat), 380.  
phosphatase (see under *Phosphatase*)  
phospholipids (see under *Phospholipids*)  
phosphorus fractions, effect of starvation (rabbit), 433.  
protection, role of vitamins, 622.\*  
protein (see *Protein, liver*)  
protein and ribonucleic acid synthesis during refeeding (rat), 450.  
protein formation *in vitro*, effects of growth hormone and insulin (rabbit), 1028.  
regeneration, effect of aminopterin (rat), 83.  
effect of nicotinic acid and derivatives (rat), 647.  
effect of vitamin B<sub>12</sub> deficiency (rat), 951.  
removal, effect on carotene utilisation (rabbit, rat), 923.  
riboflavin, radio-active, content, normal and with 2-acetylaminofluorene in diet (rat), 942.  
riboflavin and vitamin B<sub>6</sub> content, in vitamin B<sub>6</sub> deficiency, effect of protein intake and food restriction (rat), 648.  
role in metabolism, 448.  
transmethylase activity, effect of vitamin B<sub>12</sub> in diet (rat), 951.  
tributyrylase, effect of vitamin C *in vitro* (guinea pig), 90.  
vitamins (see under *Vitamins and specific vitamins, e.g., Riboflavin; Vitamin B<sub>12</sub>*)

- Liver**  
weight, and vitamin A content, effect of aureomycin (rat), 346.  
effect of protein intake, methionine and adrenal removal (rat), 130.
- Liver homogenates**  
embryonic, production of quinolinic acid from hydroxytryptophanic acid, 77.  
enzymes, effect of linoleate deficiency (rat), 451.  
enzymic conversion of folic acid to citrovorum factor, effect of various substances *in vitro*, 82.  
fractions, cholesterol formation, effect of starvation (rat), 451.  
 $\alpha$ -glycerophosphate metabolism (rat), 727.  
3-hydroxyanthranilic acid metabolism, 77.  
oxidation of succinate, effect of nicotinamide in diet (rat), 76.  
oxidation pathways, effect of fasting and low protein diet (rat), 76.  
oxidative metabolism, effect of threonine deficiency (rat), 1026.  
phosphorylation, effect of vitamin B<sub>1</sub> and riboflavin deficiencies (rat), 937.  
effect of vitamin B<sub>1</sub> deficiency (rat), 940.  
rutin and quercetin metabolism, 354.
- Liver slices**  
acetate metabolism, effect of adrenal removal (rat), 728.  
effect of necrosis produced by diet (rat), 637.  
alanine metabolism (rat), 154.  
cortisone metabolism, effect of ascorbic acid deficiency (guinea pig), 352.  
fat and cholesterol formation, effect of pituitary removal and diet (rat), 451.  
fat formation, in obesity of different types (mouse, rat), 155.  
glucose breakdown, after fasting and alloxan diabetes (rat), 44.  
glucose metabolism, effect of insulin *in vivo* (rat), 691.  
pathways (rat), 153.  
glycogen and fatty acid formation, effect of diet of rats, 449.  
ketone formation, effect of ascorbic acid deficiency (guinea pig), 956.  
octanoate metabolism (rat), 728.  
palmitic acid oxidation, effect of high fat intake by rats, 728.  
phospholipid metabolism (rat), 1029.  
potassium content, effect of calcium in medium, 452.  
utilization of glucose, effect of diet (rat), 449.  
value in metabolic studies, 1024.
- Liver tissue**, fat breakdown, effect of growth hormone (rat), 984.
- Liver, defatted**, effect on toxicity of mineral oil (rat), 89.  
dried, effect on haemoglobin production in vitamin B<sub>12</sub> deficiency (rat), 951.  
preparations, prevention of amyloidosis (mouse), 1049.  
growth factors, unidentified, for chickens, 832.
- Liver extract**  
concentrated, effect on blood protein and urea in surgical patients, 213.  
crude, treatment of liver cirrhosis, 510.  
crude and purified, effect on liver fibrosis produced by ligation of bile duct (rat), 951.  
effect on fatty liver production by diet (rat), 1005.  
effect on thyroid (rat), 685.  
fish, seal and whale, nitrogen, minerals and B vitamins content, 333.  
treatment of anaemia, 216.  
in old age, 1096.
- Liver extract**  
treatment of liver disorders (man), 217.  
use in health and disease, 563.\*
- Liver hydrolysate(s)**, fish, seal and whale, nitrogen, minerals and B vitamins content, 333.
- Liver oils**, fish (see under *Fish* and specific fish liver oils, e.g., *Cod liver oil*)
- Livestock** (see also specific animals, e.g., *Cattle*)  
cobalt requirement and function, 853.\*  
deficiencies, mineral and vitamin, French West Africa, 263.  
diseases, food loss as a result, 1149.
- Livestock disorders**  
blood parasite diseases, effect on supplies of protein for man, 186.  
enzootic goitre, histological study, 263.  
fluorosis, sources, signs, prevention and tolerance to fluorine, 1155.  
physiological, prevention with copper and cobalt, 841.\*
- Livestock, fattening**, use of hormones, 224.\*  
feed, economy in America (U.S.), spatial equilibrium model, 839.
- Livestock feeding**  
antibiotics, 224\*, 270\*, 1102, 1103.  
possible dangers, 1103.  
application of recent research, 224.  
artificially dried feeds, 514.\*  
biuret and urea, 804.  
blood, slaughterhouse, dried, 894.  
effect of dietary protein, 800.\*  
Europe, problems of self sufficiency, FAO and EAAP report, 258.  
fodders, dehydrated, 223.\*  
gourds, 1105.  
green, oats, wheat or rye, with beans, 1103.\*  
Hungary, shortage of protein, 1106.  
industrial by-products, French West Africa, 258.  
least-cost rations, simplex method of calculation, 544.  
maize, 802\*, 1103.\*  
USSR, 1103.\*  
minerals, 514.\*  
Netherlands, possible economies, 257.  
pasture, reseeded, 224.\*  
placenta extracts, 1106.  
potent biological substances, effect on composition of products, 271.\*  
recent developments, 1099.\*  
recent results, use in advisory work, 224.\*  
research, aid to underdeveloped countries, 800, 800.\*  
rice straw, 223.  
rock phosphate, 110.  
strong-smelling substances, poisons and drugs, effect on animal products, 271.  
sugar beet tops, significance of oxalic acid, 222.  
urea, review, 1106.\*
- Livestock, feeding trials**, methods, 889.  
growth, effect of antibiotics, 804.\*  
health, relation of mycobacterium, 560.\*  
mineral and vitamin deficiencies, diagnosis and effect on supplements, 842.  
nutritional deficiencies, 547\*, 842.\*  
physiology, progress (book), 554.  
rearing, relation to animal protein deficiency in diet Africa, 190.  
requirements and metabolism of water, review, 224.\*  
research in New Zealand future, 272.\*  
riboflavin requirements, 75.\*
- Livestock management**, and the consumer, 1148.\*
- Livestock production**, New Zealand, future, 272.\*  
problems, 560.\*
- Livestock products**, quality, relation to feeds, 271.\*
- Lizard** (see under *Reptiles*)
- Lobster** (see under *Crustaceans*)
- Locust** (see under *Insects*)
- Loligo** (see under *Molluscs*)
- Longevity**, effect of diet (mouse), 169.  
effect of dietary fat (rat), 426.  
effect of disease and obesity, 270.\*  
relation to vitamin intake (rat), 853.\*
- Lucerne (*Medicago sativa*)**  
citrulline, 50.  
composition and yield, effect of maturity, 338.  
composition, effect of fertiliser and locality, 915.\*  
cube mixtures, for lambs, 1121.  
digestibility, effect of maturity, 606.  
dried, carotene content, 625.  
estimation, 624.  
digestibility, effect of drying temperature, 606.  
effect of grinding and cubing, 606.  
early or delayed grazing for milk production, 561.\*  
for pigs, effect on reproduction, 240.  
fresh, digestibility, 220.  
method of curing, effect on feeding value (dairy cattle), 523.  
non-saponifiable material,  $\beta$ -carotene face, provitamin activity (rat), 1164.\*  
nutrients in different portions, 561.\*  
oestrogenic activity (mouse), 686.  
pellets, stored, composition, effects of spontaneous combustion, 607.  
source of growth factors for chickens, 536.  
supplement to poor rice diet, effect on calcium and phosphorus utilisation (rat), 143.  
nutritive value (rat), 168.  
utilisation by steers as grazing, soiling or hay, 803.
- Lucerne ash**, for sheep, 273.\*
- Lucerne hay**, supplement to cows on pasture, 1115.
- Lucerne leaf flour**, supplement to poor rice diet, nutritive value (rat), 464.
- Lucerne leaf meal**, supplement to poor rice diet, effect on body composition (rat), 168.
- Lucerne meal**, carotene content, during storage, effect of fats and oils, 920.  
effect of moisture content during storage, 632.  
dried artificially, detection of adulteration with naturally dried meal, 883.  
effect on vitamin A storage in liver (chicken), 559.\*  
for chickens, effect of large amounts, review, 1187.\*  
for pigs, digestibility and nutritive value, 612.  
for turkeys, effect on hatchability and fertility of eggs, 254.  
growth-inhibiting property (pig), 560.\*
- Lucerne pasture**, for pigs, optimum level of protein in supplement, 244.  
intake by bacon pigs, 825.
- Lucerne seeds**, value, nutritive value, 513.
- Lucerne and cocksfoot pasture**, effect of grazing, 273.\*
- Lung**, role in fat metabolism (rat), 135.
- Lung homogenate**, oxygen consumption, inhibition by *iso*-nicotinic acid hydrazide, effect of vitamin B<sub>12</sub> (rabbit), 945.
- Lupins**  
Egyptian (*Lupinus termis*), seeds, composition, 48.  
sweet, digestibility and feeding value, review, 621.  
silage, 621.  
yellow, seed meal, for pigs and cows, 528.\*  
seeds, proteins, 48.\*  
fractions, 335.

- Lupin meal, for laying hens, 542.
- Lymph, amino acids, free (dog), 977.\*
- flow, effect of fats (rat), 135.
- protein concentration (rabbit, rat), 421.
- triglycerides, uptake of absorbed palmitic acids (rat), 102.
- Lymphocytes (see under *Blood, white cells*)
- Lympholisation (see *Drying, freeze*)
- Lysine
- available, relation to protein quality in animal products, 997.
  - availability in Torula yeast (chicken), 559.\*
  - deficiency (dog, rat), 1001, 1002.\*
  - effect on bone healing (rat), 703.
  - effect on organs (rat), 423.
  - effect on reflexes (rat), 703.\*
  - effect on tyrosinase activity in feather pulp (turkey), 1162.\*
  - hydroxy-, effect on micro-organisms, 1040.
  - in collagen, 43.
  - in milk, availability, effect of processing, studies *in vitro*, 612.
  - in protein concentrates, estimation, 537.\*
  - incorporation in proteins of red cell stroma and haemoglobin, effect of anaemia, 655.
  - intake, and production of caries (rat), 424.
  - requirement, function of productive energy of diet (rat), 561.\*
  - minimum, relation to protein level (rat), 1162.\*
  - of chickens, 272\*, 1141.
  - of infants, 1163.\*
  - of man, 699.
  - of turkeys at different ages, 1141.
  - supplement to bread containing non-fat milk solids (rat), 1162.\*
  - value as supplement to vegetable diet (man), 421.
- Lysocyme, amino acids, 309.
- estimation, 586.
- in tissues, effect of ascorbic acid deficiency (guinea pig), 91.
- MADAGASCAR, children, vitamin C deficiency, role of worm infestation, 208.
- Magnesium
- absorption, effect of vitamin D (rat), 65.
  - in sheep, 695.
  - chlorophyll fraction, in clover and ryegrass, 620.
  - deficiency, syndrome (man), 1072.\*
  - effect on magnesium content of hay, 51.
  - effect on protein requirement of guinea pig, 997.
  - estimation, 595.
  - in blood, 26, 315, 316, 850\*, 879, 880.
  - in body fluids, 24.
  - in drinking water, 595.
  - in food and water, 879.
  - in milk, 880.
  - in mineral waters, 24.\*
  - in plant material, 593.
  - in tissues, 315.
  - in tissue ash, 879.
  - in urine, 315.
  - in blood, 880.
  - (cow), 274.\*
  - (man), 26.
  - during milk fever, effect of prepartum milking or mastectomy, 1154.
  - effect of treatment, 548.
  - effect of magnesium liming of pastures (cow), 843.
  - low, caused by high ammonia level in rumen (cattle), 264.
  - effect of magnesium oxide (cattle), 274.\*
  - in cows, 1167.\*
  - total and ultrafiltrable (child), 108.
- Magnesium
- in pasture, effect of magnesium liming, 843.
  - in plant ash, estimation by flame spectrophotometer, 850.\*
  - in plants and soils, Norway, 46.\*
  - intake, low, effect on wound healing after teeth extraction (hamster), 557.\*
  - metabolism, effect of oxalic acid in beet leaves (sheep), 222.
  - effect of phytate phosphorus intake (bull), 519.
  - in myxoedema treated with triiodothyronine (man), 143.\*
  - in tetany, hypomagnesaemic (calf), 852.\*
  - requirement, of rats, effect of calcium intake and cold, 1013.
- Magnesium ascorbate, with vitamin E, treatment of blood vessel disorders (man), 198.
- Magnesium oxide, prevention of grass tetany (cow), 1153.
- Maize
- calcium, carotene, phosphorus and protein contents, effect of maturity, 909.
  - chemically treated, effect on egg production, bodyweight and mortality (poultry), 1146.
  - composition and nutrient uptake, 909.\*
  - cooked with lime, nutritive value, 643.
  - effect on fat production (pig), 825.
  - for beef cattle, effect on quality of meat, 518.
  - for fattening pigs, effect on gains when fodder yeast replaces fishmeal, 1128.
  - for horses, 224.
  - for livestock, 802\*, 1103.\*
  - USSR, 1103.\*
  - for pigs, 1127.\*
  - for poultry, under Philippine conditions, 851.\*
  - green, silage, composition, Sweden, 339.
  - high- and low-protein, nutritive value (chicken, rat), 1167.\*
  - high-protein, for cows, 231.
  - nicotinic acid, availability for pigs, effect of alkaline hydrolysis, 647.
  - nutritive value for rats, relation to protein content, 464.
  - nutritive value of isoleucine as supplement (rat), 129.
  - raw, lime-treated or boiled, supplement to nicotinic acid-free, low-casein diet (rat), 1163.\*
  - shelled, for beef cattle, effect of high-temperature drying, 500.\*
  - storage, effect on feeding value (rat), 464.
  - sugar content, selection by production trials, 909.\*
  - syrup, sugars, 206.
  - treated, toxicity for chickens, 263.\*
- Maize and maize offals, digestibility in relation to nutrient content, 801.
- Maize bread, Venezuela (arepa), protein, digestibility (rat), 601.
- Maize cobs, nutritive value for heifers, 560.\*
- roughage for fattening cattle, 228.
- silage, feeding value, effect of maturity, 897.
- for pigs, 1127.
- Maize diet, production of pellagra (man), 1077.
- Maize distiller's dried solubles, in calf starting rations, 1107.
- Maize molasses (hydrol), for beef cattle, 560.\*
- Maize oil, supplement to rations for chickens, effect on growth and preference, 535.
- Maize silage, for cows, 1117.
- amount of hay required for maximum milk production, 223.
  - comparison with beet leaf silage, 234.
  - in winter, supplements required, 1117.
  - for fattening cattle, 1110.
  - effect of urea supplement, 564.\*
  - for pigs, 1127.
  - nutritional limitations for bred sows, 590.\*
- Maize stalks, use in making silage, 1103.
- Maize starch, hydrolysis, effect of acid concentration, 871.
- intake, effect on incidence of diabetes after alcohol (rat), 130.
- Maize steep liquor, effect on mould growth, 897.
- Maize straw, nutritive value, 1102.
- Malaria (see also under *Immunity, resistance to disease*)
- and nutrition (man), 510.
  - relation to serum proteins, Uganda (man), 105.
- Malaya
- anaemia, iron-deficiency, incidence, 507.
  - bilis (*Stolephorus* spp.), composition, 616.
  - children, kwashiorkor, 771.
  - infant feeding, breast, effect on weight at one year, 1054.
  - milk, human, vitamin B<sub>12</sub> content, 1075.
  - Malic acid, estimation, 850.\*
  - in wine, fruit wine, grape juice and fruit juice, 23.
- Malic enzyme, inhibition by fluorocitrate, 386.\*
- Malformations, congenital, production by pteroylglutamic acid deficiency (rat), 62.
- Malnutrition (see also *Deficiency diseases*)
- and calcification of pancreas (man), 482.
  - and toxemia of pregnancy (woman), 770.
  - chronic, nitrogen metabolism and fat absorption (man), 418.
  - effect on bone calcification, 188.
  - effect on iron deposition in liver (man), 192.
  - effect on liver composition (infant), 707.\*
  - in chronic illness, 768.
  - in mothers, relation to kwashiorkor in infants, 191.
  - malignant (see *Kwashiorkor*)
  - pathogenesis of amyotrophic lateral sclerosis (man), 487.
  - production of liver disorders (man), 270.\*
  - protein deficiency, Brazil, 852.
  - relation to subsequent bone malformation (rat), 564.\*
  - treatment by diet, effect on body composition (man), 508.
- Malpighia punctifolia* (see *Cherry, West India*)
- Malt sprouts, protein and crude fibre digestibility (pig), 221.
- Maltose, estimation, 884.
- in commercial foods, 306.
- Mammals, intestinal morphology, relation to diet, 101.
- Mammary gland (see also *Udder*)
- and hormones (woman), 1038.\*
  - effect of vitamin E (guinea pig), 639.
  - endocrine control, 1107.\*
  - growth, effect of endocrine glands, 560.\*
  - homogeneous, incorporation of phosphate into phosphoprotein (rabbit), 726.
  - lactose formation, 852.\*
  - lactose metabolism, *in vitro*, 307.
  - nucleotides (cow, goat), 740.
  - oxidation of acetate and glucose *in vitro* (rat, sheep), 1027.
  - pathways of glucose breakdown (rat), 726.
  - phospholipids, metabolism, 275.\*
  - (rabbit), 451.

- Mammary gland**  
respiration and composition, during pregnancy and lactation (guinea-pig), 726.  
slices, iodine metabolism (rat), 729.  
respiration in pregnancy and lactation (guinea-pig), 272.\*
- Mandarin (*Citrus nobilis*, Lour.)**, composition, 49.
- Manganese**  
deficiency, effect on growth, reproduction and skeletal development (pig), 1120.  
in crops, 851.\*  
signs in pigs, 721.  
effect on bone formation (chicken), 444.  
importance for growth and reproduction of pigs, 561.\*  
in grass, 891.  
in pasture, effect of soil, Germany, 338.  
in plants, 333.  
in tissues, effect of manganese and vitamin B<sub>1</sub> levels in diet (rat), 361.  
intake, effect on deposition of B vitamins in tissues (pig), 564.\*  
effect on haemoglobin formation (sheep), 721.
- Maunian's**, yeast, estimation, 307.
- Mammitol**, effect on calcium metabolism (rat), 414.
- Mammos**, effect on calcium utilisation (rat), 123.  
with leuca extract, effect on scurvy (guinea-pig), 89.
- Manure (see Fertilisers)**  
growth factor (see *Cow manure*)
- Mare's** milk, composition, 42.  
production and composition, USSR, 514.
- Margarine**  
copper, estimation, 1167.\*  
physico-chemical properties, 877.  
trans fatty acids, 610.
- Marketing**, co-operative, for agricultural producers, 1166.\*
- Marrow**, bone  
cells, effect of vitamin B<sub>2</sub> deficiency (rat), 367.  
growth, *in vitro*, effect of metabolites, 204.  
changes, in early diagnosis of pernicious anaemia, 1081.  
collection, technique (laboratory animals), 887.  
fatty acids, polyunsaturated, effect of anaemia (rabbit), 110.  
from rats, effect after X-ray exposure (mouse), 172.  
homogenates, glycolysis, anaerobic, effect of  $\alpha$ -tocopherol (rat), 68.  
in anaemia, in infants, premature, 506.  
nucleic acids, effect of aminopterin (rat), 374.\*  
sideroblastic, in anaemia, chronic refractory, case reports, 1096.\*
- Marsupial(s)**, stomach, micro-organisms, hydrogenation of unsaturated fatty acids, 616.
- Marten**, food habits, significance, 830.
- Mastication**, effect on digestion of foods (man), 963.
- Mauritius**, grasses, local and imported, composition, 1167.\*
- Meals**, amino acid composition, America (U.S.), 328.
- Meal worm** (see under *Insects*)
- Meat** (see also specific meats, e.g., *Pork*)  
carcass composition (see under *Cattle*; etc.)  
collagen, effect of heating, 35.\*  
cooking, 35.\*  
digestibility, effect of tenderising method, 963.  
effect of  $\gamma$ -rays, 848.\*  
export trade, New Zealand, 272.\*
- Meat**  
from cows or sheep killed by  $\gamma$ -rays, effect on dogs, 172.  
frozen, thawing before cooking, 894.\*  
hydroxyproline content, 588.\*  
lead and fat, cholesterol content (different species), 681.  
protein, amino acid composition, 332.  
breakdown, effect of connective tissue collagen, 604.  
quick-freezing, 604.  
review, 43.\*  
ripening by papain, histological studies, 325.  
role in diet, 906.\*  
treatment with enzymes, 604.\*  
treatment with proteolytic enzymes, 894.  
vitamin B<sub>1</sub> and nicotinic acid contents, effect of feeding cattle and of cooking, 939.
- Meat and bone meal**, Hawaiian, for poultry, 249.
- Meat and wool industries**, New Zealand, future, 272.\*
- Meat extract**, amino acids and other nitrogenous compounds, 614.  
analysis, 614.
- Meat hygiene**, FAO report, 562.\*
- Meat production**, per acre, New Zealand, 890.\*
- Meat products**, review, 43.\*
- Meat scraps**, for poultry, different extraction methods compared, 1137.
- Meconium**, sialic acid (man), 108.\*
- Medicine**, annual review, 1157.\*
- Meganytiophanes norvegica** (see under *Crustaceans*)
- Medicago sativa** (see *Lucerne*)
- Mellilot**, white (*Melilotus albus*), composition, 909.
- Men**  
amino acid and nitrogen requirements, 690.  
body measurements, France, 456.  
body surface, measurements and estimation from Du Bois formulae, India, 116.  
bodyweight, changes with age and marital status, 456.  
colour of body fat, 773.  
energy output and food intake, 116.  
energy requirements, 407.  
height, in Galicia, 1034.  
leucine and isoleucine requirements, 422.  
lysine requirement, 699.  
methionine requirement, effect of cystine, 422.  
methionine and threonine requirements, 128.  
mineral and vitamin requirements, standardised diet for metabolic studies, 757.  
percentage of ash in skeleton, 679.  
phenylalanine and tyrosine requirements, 422.  
protein requirement, on vegetable proteins, India, 695.  
vitamin requirements, 491\*, 770.
- Menadiol** (see *Vitamin K*)
- Menière's disease**, treatment with nicotinic acid, 1077.
- Menstrual cycle**, and iodine metabolism (woman), 1016.  
glycogen in endometrium (woman), 457.  
Mental ability, retarded, in children, synergistic action of glutamate and vitamins B<sub>1</sub> and C, 55.
- Mental activity**, effect of vitamin C, 209.  
role of nicotinic acid in health and disease, review, 200.\*
- Mental disorders**  
and phenylketonuria, 799.  
effect on tongue, ultraviolet fluorescence, 491.
- Mental disorders**  
oligophrenia, phenylpyruvic, case report, 799.\*  
psychological changes in kwashiorkor, 771.  
psychoneurosis, in liver cirrhosis with portal collateral circulation (man), 1069.  
schizophrenia, glutamic acid metabolism, 128.\*
- Mental efficiency**, in old age, effect of vitamins, 193.
- Mental responses**, effect of diet, 270.\*  
effect of vegetarian diet (man), 270.\*
- Mercury**, estimation in biological and mineral materials, 26\*, 880.\*
- Metabolism** (see also under specific headings e.g., *Calcium Metabolism*)  
basal (see under *Energy exchange*)  
disturbances, and infection (mouse), 850.\*  
in children with non-apparent infection, 483.  
intermediary, effect of drugs, 851.\*  
studies, apparatus (see under *Apparatus*)  
tissue (see under *Tissue(s)*)
- Metal(s)** (see also *Minerals* and specific metals, e.g., *Mercury*)  
alkali, role in pyridoxal transport *in vivo*, 369.  
in tissues (man), 851.\*  
ions, effect on loss of vitamin A from liver oil concentrates during storage, 929.
- Metanovosin**, new muscle protein (lamb, rabbit), 402.
- Methanol**, in fruit juices, 335.
- Methionine**  
deficiency (dog, rat), 1001, 1002.\*  
effect on reflexes (rat), 703.\*  
deprivation, effect on organs (rat), 423.  
effect on fat absorption (rat), 968.  
effect on liver weight after adrenal removal (rat), 130.  
effect on muscle degeneration (chicken), 559.\*  
effect on resistance to tuberculosis (guinea-pig), 357.  
effect on response to folic acid (chicken), 651.  
effect on toxicity of ethionine (rat), 1163.\*  
estimation, 597, 874.  
in proteins, 588.  
fate when injected (rat), 1021.  
for *Bacterium coli*, effect of copper on growth, 84.  
for hens, effect on egg size and composition, 86.  
for mink on purified diet, 1163.\*  
for poultry, prevention of cannibalism and feather picking, 1141.  
supplement to maize and barley rations, 250.  
free, in blood and liver (rabbit), 675.  
hydroxy analogue, biological equivalence, 559.\*  
in blood, during pregnancy and lactation (woman), 498.  
in fish protein, 333.  
in liver, effect of nicotinamide and poisoning by carbon tetrachloride (guinea-pig), 76.  
in milk, effect of processing, studies *in vitro*, 612.  
in soya bean protein, effect of locality, season and variety, 913.  
intake, high, effect on iron metabolism (rat), 1184.\*  
relation to pantothenic acid metabolism, 80.  
lipotropic action, effect of other substances in diet (rat), 702.  
influence of thyroxine (rat), 114.

- Methionine**  
metabolism (mouse), 130.  
and uric acid formation (chicken), 130.  
in liver cirrhosis (man), 597.  
requirement, effect of cystine (man), 422.  
of chickens, 273\*, 589\*, 1141.  
effect of productive energy of  
ration, 558\*, 831.  
of man, 128.  
of pigs, 527.  
of turkey poult, 534.  
supplement to maize and soya bean  
meal diet (chicken), 1146.  
supplement to muskrum diet for rats,

Nitrogen, fractions, in groundnut milk, effect of souring, 48.  
in pasture, relation to feeding value, 563.\*  
in silage, grass, laboratory studies, 608.  
glycine (see under *Glycine*)  
in ammoniated molasses, utilisation by cattle and sheep, 561.\*  
in ammonium products, utilisation by cows, 231.  
utilisation by rumen bacteria, 231.  
in bean (*Vicia faba major*) plants, effect of maturity, 912.  
in beef and pork, and calculation of lean content, 43.  
in enamel of teeth, effect of ageing, 557.\*  
in leaves and peptides, 275.\*  
in plants, estimation, 850.\*  
in pork, lean, 322.  
in tissue cell fractions, relation to vitamin K content (chicken), 936.  
in urea, gelatine, casein and soya bean, utilisation by lambs, 560.\*

## Nitrogen

loss after surgical trauma, effect of hormones (man, rabbit), 996.  
Nitrogen metabolism  
after burn (man), 695.  
relation to mineral balance (man), 996.  
after kidney removal (dog), 999.\*  
after stomach removal (man), 696.  
during lactation (sow), 527.  
pregnancy, role of placenta (rat), 738.  
effect of antibiotics (calf), 560.\*  
effect of cortisone and pantothenic acid in pantothenic acid deficiency (phloridised rat), 947.  
effect of different proteins (cat), 1162.\*  
effect of environmental temperature (rat), 127.  
effect of neoprythiamine, 74.  
effect of protein and salt intakes (rat), 439.  
effect of vitamin A, massive doses (rat), 921.  
effect of vitamin B<sub>12</sub> in treatment of adrenal hyperactivity (man), 784.  
in cows, 274.\*  
in malnutrition and kwashiorkor (child), 418.  
in steers, effect of urea, biuret and soya bean meal, 560.\*  
in surgical patients, 1010.  
in vitamin D<sub>3</sub> deficiency (dog), 78.  
length of collection periods (pig), 1125.  
normal and in immobilisation, 271.\*  
on poor rice diet, effect of groundnut curd supplement (child), 124.  
on poor vegetarian diet, (man), 418.  
rumen microorganisms, 276.\*  
Nitrogen, non-protein (see also *Purines*; *Urea*)  
and amino-acid, in blood, of grazing calves, 397.  
and protein, separation, 586.  
constituents, in lobster tissues, 174.  
for lambs, 523, 524.  
in blood, effect of antibiotics and surface-active agent (calf), 226.  
in blood and saliva, relation to caries incidence (child), 557.\*  
utilisation by ruminants, effect of sulphur, 272.\*  
Nitrogen, requirements, of animals, 854.\*  
of man, 699.  
Nitrogen retention  
apparent and true (rat), 886.  
effect of carbohydrate and testosterone (man), 690.  
effect of carbohydrates in low amino acid diets (rat), 422.  
effect of chlorbutyryl (sheep), 810.  
effect of energy intake, in chronic liver disease (man), 997.  
effect of hormones (chicken), 559.\*  
effect of nicotinic acid and tryptophan (rat), 1162.\*  
effect of penicillin (pig), 529.  
effect of protein level of ration (pig), 1125.  
effect of riboflavin intake (man), 1163.\*  
effect of urea (lamb), 560.\*  
excess, of sows during pregnancy, 823.  
in ageing women, 1162.\*  
in boys, effect of type of breakfast, 695.  
in pigs, effect of penicillin and streptomycin, 825.  
in ulcer patients, effect of sleep, 996.  
in undernutrition after severe injury (man), 418.  
in viral hepatitis (man), 125.  
maintenance after burn (man), 213.  
of children, 417.  
on amino acids or whole egg (rat), 1163.\*  
on maize and soya bean meal diets, effect supplementary tryptophan, methionine and lysine, (pig) 823.

## Obesity

- produced by pituitary tumours, body composition and energy exchange (mouse), 751.  
 production by gold thioglucose, mechanism (mouse), 751.  
 production by high-fat diets (rat), 750.  
 relation of fat content to fat-free weight (mouse), 750.  
 review, 798.\*  
 treatment by diet, 218.  
 treatment with fruit juice and fasting, 790.  
 with diabetes, glycogen turnover in liver (mouse), 694.  
*Ochromomys malhamensis*, vitamin B<sub>12</sub> and methyl synthesis, 270.\*  
 Octanoic acid, oxidation, in liver, effect of diet (rat), 451.\*  
 Odour, effect on feed intake (rat), 1042.  
 Oedema  
 fluid, protein composition (man), 678.  
 in liver cirrhosis, water balance (man), 723.  
 in protein malnutrition, pathogenesis, 563.\*  
 muscular, in army recruits, effect of army rations, Algeria, 485.  
 nutritional, in Bantu, South Africa, 192.  
 in children, India, 1071.\*  
 17-ketosteroids in urine (man), 985.  
 pathogenesis, 484.\*  
 produced by egg albumin, effect of fasting (rat), 468.  
 effect on complement titre (rat), 93.  
 produced by sodium excess, relation to blood pressure (man), 438.  
 treatment with cation exchange resins (man), 217.  
 Oestrogens (see *Hormones, sex*)  
 Oils (see also *Fats; Lipids*) and specific oils, e.g., *Olive oil*  
 copper, estimation, 1107.\*  
 effect in preventing encephalomalacia (chicken), 357.  
 effect on carotene in alfalfa meal during storage, 920.  
 fish, body, for chicks, 273.\*  
 fish liver (see *Fish liver oil* and specific liver oils, e.g., *Cod liver oil*)  
 in soya beans, effect of variety, Colombia, 912.  
 mineral, effect on cholesterol absorption (rat), 430.  
 with low fat intake, toxicity, effect of liver residue and dietary fat (rat), 89.\*  
 vegetable, for making cheese and curds, 324.  
 estimation of soya and cottonseed in mixture, 21.  
 heated, toxicity (rat), 109.  
 Oilseeds, oil estimation, 21.  
 Oil yellow (see under *Dyes, artificial*)  
 Old age (see also *Ageing*)  
 anaemia, treatment with liver extract, 1096.  
 atherosclerosis (man), 272.\*  
 blood, vitamin B<sub>12</sub> content (man), 204.  
 blood composition, effect of diet (man), 564.\*  
 blood picture (man), 741.  
 blood sugar tolerance tests, in diagnosis of diabetes, 791.  
 cardiac patient, nutrition, 798.\*  
 diabetes, acidotic, 1161.\*  
 diet, 480, 1161.\*  
 diet and health, Netherlands, 1168.\*  
 diet and social study, U.K., 760.  
 diet and social survey, hospital patients, Australia, 760.  
 diet study, 760.  
 effect on nutritional status (man), 193.  
 heart disorders, treatment with embryonic heart extract (man), 1098.

## Old age

- in the modern world (book), 269.  
 medical, social and dietary study, U.K., (book), 1159.  
 metabolic effects of male sex hormone (man), 163.  
 metabolic responses to cold (man), 459.  
 nutrition, 1062.\*  
 nutritional problems, 849.\*  
 physical and mental efficiency, effect of vitamin treatment (man), 193.  
 protein digestion and absorption (man), 1038.  
 serum proteins and lipids (man), 742.  
 skeletal morphology, effect of diet (man), 564.\*  
 work capacity of chest (man), 163.  
 Oleate, effect on biotin availability for *Clostridium arabinosum*, 949.  
 Olive oil, marketing, FAO Commodity Policy Study, 562.\*  
 tetradecenoic acid, 21.  
 Onions, production of anaemia (guinea pig, rat), 170.  
 Onyali (see *Purpura, thrombocytopenic*)  
 Operations (see *Surgical patients*)  
 Opessum, blood protein-bound iodine and body temperature, 115.  
*Opuntia ficus indica* (see *Prickly pear*)  
 Orange(s), preservation with diphenyl, 606.  
 Orange juice, Valencia, carotenoids, state of combination, 57.  
 vitamin C content, recommended standard, 1086.  
 Orange peel, dried, ammoniated, for sheep, 234.  
 silage, ammoniated, for dairy cattle, 234.  
 Orchard grass (see *Cocksfoot*)  
 Organs, ascorbic acid content, effect of pantheonic acid (guinea pig), 91.  
 lipid content and rate of growth (rabbit), 979.  
 protein and nitrogen contents, normal and in disturbances of blood protein (mouse), 109.\*  
 weight, effect of biotin deficiency (rat), 372.  
 effect of starvation, influence of adrenal (mouse), 110.  
 effect of vitamin B<sub>6</sub> deficiency (rat), 649.  
 Orotic acid, as growth factor for rat, relation to other B vitamins, 95.  
 in animal protein factor deficiency (rat), 96, 960.  
 production of fatty liver (rat), 380.  
 tri-Orthocresyl phosphate, antagonist to vitamin B metabolism (calf), 269.\*  
 Ossification (see under *Bone*)  
 Osteomalacia and Osteoporosis (see under *Bone disorders*)  
 Otaria californiana (see *Sea Lion*)  
 Ovary, hilus cells, alkaline phosphatase, 962.\*  
 pantheonic acid content (cod), 372.  
 removal, effect of aureomycin on vitamin A utilisation (rat), 345.  
 effect of sex hormones on nicotinic acid metabolism (rat), 1163.\*  
 Overfeeding, and diabetes problems, America (U.S.), 1092.\*  
 character of tissue formed (man), 479.  
 metabolism, 270.\*  
 Oviduct, growth, oestrogen-induced, effect of vitamin B<sub>12</sub> and folic acid (chicken), 86.  
 Ovumucoid, egg white, duck, 563.\*  
 Oxalic acid, estimation in blood, 593.  
 in grasses, tropical, 338.  
 in sugar beet leaves, beet leaf silage, dried leaves and Trobriako, metabolism in ruminants, 222.  
 effect on calcium, phosphorus and magnesium metabolism (sheep), 222.

## Oxalic acid

- in sugar beet products, effect on available calcium and phosphorus of rations, 1119.  
 in sugar beet tops, significance in animal feeding, 222.  
 metabolism (rat), 381.  
 Oxidase(s), amino acid, plant and animal, 665.\*  
 lipid (see *Lipoxidase*)  
 succinate, in heart muscle, effect of energy intake in pregnancy (pig), 605.  
 xanthine, activity of liver, effect of animal protein factor deficiency (rat), 380.  
 estimation in milk, 882.  
 in cream and milk, skimmed, 901.\*  
 in liver, effect of amino acid analogues (rat), 961.  
 Oxidation, biological, review, 96.\*  
 phosphorylating, and vitamin B<sub>6</sub> deficiency, 271.\*  
 Oxidised flavour (see *Flavour, oxidised*)  
 Oxygen  
 absorption, measurement, apparatus, 321.  
 consumption (see *Tissue(s), respiration* and under *Energy exchange*)  
 estimation, in blood, 319, 601.\*  
 poisoning, effect of methylene blue and vitamin B (rat), 557\*, 638.  
 uptake by intestinal mucosa, effect of aminopterin (guinea pig, rat), 949.  
 p-Oxyphenol, effect on laying hens, 740.  
 Oxytetracycline (see under *Antibiotics*)  
 PALA, *Hilea ilsha* (see under *Fish*)  
 Palatability, effect of feed texture, 273.\*  
 Palm, fruits, for pigs, 886.  
 palmyra (*Borassus flabellifer*, L.), kernel, carbohydrates, 618.  
 wine, in human nutrition, Africa, 270.\*  
 Palmitic acid, absorption and distribution in lymph triglycerides (rat), 102.  
 oxidation by liver slices, effect of high fat intake (rat), 728.  
 Panama  
 children, nutritional problems, 471.\*  
 supplementary feeding scheme, 759.  
 diet study, 1057.  
 feeding standards, man, 1053.  
 nutritional requirements of population, 756.  
 Pancreas  
 alpha cells, function (guinea pig, rabbit, rat), 412.  
 relation to cholesterol metabolism (rabbit), 986.  
 amylase, influence of pituitary (rat) 385.  
 damage produced by ethionine, effect on iron absorption (mouse, rat), 149.  
 disorders, calcification and cirrhosis, in malnutrition (man), 482.  
 cystic fibrosis, effect of  $\alpha$ -tocopherol on creatinuria, 1075.  
 in infancy, relation to absorption of fat-soluble vitamins, case report, 1076.  
 fibrocystic disease, relation to birth-weight of infant and diet of mother, 769.  
 siderosis, production in treatment of anaemia, chronic (mouse), 797.  
 distribution of zinc (rabbit, rat), 444.  
 effect of fat intake (rat), 136.  
 enzymes, effect of amino acids (rat), 661.  
 exocrine, daily variations, 849.\*  
 in baby pigs, 960.  
 extractable glucagon (man), 406.\*  
 islets, in lizards, 753.\*  
 lipotropic substances (see *Lipotropic substances; Lipocin*)  
 normal and after alloxan, (snake), 753.\*

- Nitrogen, urea, estimation in blood (animals), 589.
- utilisation, by beef cattle on winter ration, effect of added carbohydrate, 220.
- during restricted energy intake (rat), 419.
- effect of fat and protein in restricted diet (rat), 419.
- Nitrogen fertiliser, effect on grasses, with or without clover, 338.
- effect on pasture composition and yield, 224.\*
- effect on pea composition and yield, 48.\*
- effect on yield and composition of grass sward, 50.
- Nitrogen-free extract, in feedstuffs, estimation, 564.\*
- n-Nonadecanoic acid, in beef perinephric fat, 332.
- Non-protein nitrogen (see *Nitrogen, non-protein*)

 atherosclerosis (man), 272.\*  
 blood, vitamin B<sub>12</sub> content (man), 204.  
 blood composition, effect of diet (man), 564.\*  
 blood picture (man), 741.  
 blood sugar tolerance tests, in diagnosis of diabetes, 701.  
 cardiac patient, nutrition, 798.\*  
 diabetes, acidosis, 1101.\*  
 diet and health, Netherlands, 1168.\*  
 diet and social study, U.K., 790.  
 diet and social survey, hospital patients, Australia, 760.  
 diet study, 760.  
 effect on nutritional status (man), 193.  
 heart disorders, treatment with embryonic heart extract (man), 1098.

## Old age

- in the modern world (book), 269.  
 medical, social and dietary study, U.K., (book), 1159.  
 metabolic effects of male sex hormone (man), 163.  
 metabolic responses to cold (man), 459.  
 nutrition, 1062.\*  
 nutritional problems, 849.\*  
 physical and mental efficiency, effect of vitamin treatment (man), 193.  
 protein digestion and absorption (man), 1038.  
 serum proteins and lipids (man), 742.  
 skeletal morphology, effect of diet (man), 504.\*  
 work capacity of chest (man), 163.  
 Oleate, effect on biotin availability for *Lactobacillus arabinosus*, 949.  
 Olive oil marketing, FAO Commodity Policy Study, 562.\*  
 tetradecenoic acid, 21.  
 Onions, production of anaemia (guinea pig, rat), 170.  
 Onyals (see *Purpura, thrombocytopenic*)  
 Operations (see *Surgical patients*)  
 Opessum, blood protein-bound iodine and body temperature, 115.  
*Opuntia ficus indica* (see *Prickly pear*)  
 Orange(s), preservation with diphenyl, 606.  
 Orange juice, Valencia, carotenoids, source of combination, 57.  
 vitamin C content, recommended standard, 1086.  
 Orange peel, dried, ammoniated, for sheep, 324.  
 silage, ammoniated, for dairy cattle, 234.  
 Orchard grass (see *Cocksfoot*)  
 Organs, ascorbic acid content, effect of panthothonic acid (guinea pig), 91.  
 lipid content and rate of growth (rabbit), 979.  
 protein and nitrogen contents, normal and in disturbances of blood protein (mouse), 109.\*  
 weight, effect of biotin deficiency (rat), 372.  
 effect of starvation, influence of adrenal (mouse), 110.  
 effect of vitamin B<sub>6</sub> deficiency (rat), 649.  
 Orotic acid, as growth factor for rat, relation to other B vitamins, 95.  
 in animal protein factor deficiency (rat), 96, 960.  
 production of fatty liver (rat), 380.  
 tri-Orthocresyl phosphate, antagonist to vitamin B<sub>6</sub> metabolism (rat), 269.\*  
 Ossification (see under *Bone*)  
 Osteomalacia and Osteoporosis (see under *Bone disorders*)  
*Otaria californiana* (see *Sea Lion*)  
 Ovary, hilus cells, alkaline phosphatase, 962.\*  
 panthothonic acid content (cod), 372.  
 removal, effect of aurocytochrome on vitamin A utilisation (rat), 345.  
 effect of sex hormones on nicotinic acid metabolism (rat), 1163.\*  
 Overfeeding, and diabetes problems, America (U.S.), 1092.\*  
 character of tissue formed (man), 470.  
 metabolism, 270.  
 Ovulnet, growth, oestrogen-induced, effect of vitamin B<sub>12</sub> and folic acid (chicken), 86.  
 Ovumucoid, egg white, duck, 563.\*  
 Oxalic acid, estimation in blood, 593.  
 in grasses, tropical, 338.  
 in sugar beet leaves, beet leaf silage, beet leaves and Trebhalako, metabolism in ruminants, 222.  
 effect on calcium, phosphorus and magnesium metabolism (sheep), 222.

## Oxalic acid

- in sugar beet products, effect on available calcium and phosphorus of rations, 1119.  
 in sugar beet tops, significance in animal feeding, 222.  
 metabolism (rat), 381.  
 Oxidase(s), amino acid, plant and animal, 605.\*  
 lipid (see *Lipoxidase*)  
 succinic, in heart muscle, effect of energy intake on pregnancy (pig), 665.  
 xanthine, activity of liver, effect of animal protein factor deficiency (rat), 380.  
 estimation in milk, 882.  
 in cream and milk, skimmed, 901.\*  
 in liver, effect of amino acid analogues (rat), 961.  
 Oxidation, biological, review, 96.\*  
 phosphorylating, and vitamin B<sub>6</sub> deficiency, 271.\*  
 Oxidised flavour (see *Flavour, oxidised*)  
 Oxygen  
 absorption, measurement, apparatus, 321.  
 consumption (see *Tissue(s), respiration and under Energy exchange*)  
 estimation, in blood, 319, 601.\*  
 poisoning, effect of methylene blue and vitamin B<sub>6</sub> (rat), 537\*, 638.  
 uptake by histamine nitrocellulose, effect of aminopyridine (guinea pig), 949.  
*p-Oxypropionophenone*, effect on laying hens, 740.  
*Oxytetracycline* (see under *Antibiotics*)  
 PAZA, *Hilea isha* (see under *Fish*)  
 palatability, effect of food texture, 273.\*  
 Palm, fruits, for pigs, 828.  
 palmyra (*Borassus flabellifer*, L), kernel, carbohydrates, 618.  
 wine, in human nutrition, Africa, 270.\*  
 Palmitic acid, absorption and distribution in lymph triglycerides (rat), 102.  
 oxidation by liver slices, effect of high fat intake (rat), 728.  
 Panama  
 children, nutritional problems, 471.\*  
 supplementary feeding scheme, 759.  
 diet study, 1057.  
 feeding standards, man, 1053.  
 nutritional requirements of population, 750.  
 Pancreas  
 alpha cells, function (guinea pig, rabbit, rat), 412.  
 relation to cholesterol metabolism (rabbit), 996.  
 amylose, influence of pituitary (rat) 385.  
 damage produced by ethionine, effect on iron absorption (mouse, rat), 149.  
 disorders, calcification and cirrhosis, in malnutrition (man), 482.  
 cystic fibrosis, effect of  $\alpha$ -tocopherol on creatinuria, 1075.  
 in function, relation to absorption of fat-soluble vitamins, case report, 1075.  
 fibrocystic disease, relation to birth-weight of infant and diet of mother, 769.  
 silicosis, production in treatment of chronic, chronic (man), 797.  
 distribution of zinc (rabbit, rat), 444.  
 effect of fat intake (rat), 136.  
 azymses, effect of amino acids (rat), 901.  
 exocrine, daily variations, 849.\*  
 in baby pigs, 960.  
 extracellular glucagon (man), 406.\*  
 islets, in livers, 753.\*  
 lipotropic substances (see *Lipotropic substances; Lipocain*)  
 normal and after alcohol, (snake), 753.\*

**Pancreas**

- removal, blood composition (rabbit), 272.\*  
or damage, effect on fat metabolism (dog), 504, 97.  
role in cholesterol absorption (rat), 140, 429.  
secretion, effect of diet (sheep), 385.  
tributyrinase, effect of vitamin C *in vitro* (guinea pig), 90.  
trypsin and lipase, effect of dietary protein (rat), 97.  
**Pancreatin**, effect on fat absorption and nitrogen retention, in fibrocytic pancreatitis (chick), 696.  
**Pandatus borealis** (see under *Crustaceans*)  
**Panicum miliare** (see *Millet*)  
**Pantheine**, as growth factor for *Lactobacillus helveticus*, 370.  
**Pantetheine** analogues, synthesis and biological activity, 80.  
**Pantothenic acid** (see also *Coenzyme A*)  
antagonists, 80.\*  
(rat), 650.  
biochemical and physiological role, review, 946.\*  
biosynthesis by intestinal bacteria and utilisation (rat), 948.  
deficiency, and pituitary removal (rat), 1162.\*  
clinical and biochemical effects (man), 202.  
effect of coenzyme A precursors on liver coenzyme A (rat), 1163.\*  
effect of cortisone and pantothenic acid on glucose and nitrogen excretion (phloridiazined rat), 947.  
effect on corticosteroid excretion (rat), 947, 1164.\*  
effect on production of corticosteroids by adrenal, *in vitro* (rat), 946.  
effect on response to stress (dog), 938.  
effect on sensitivity to insulin, normal and in diabetics (rat), 947.  
effect on stomach secretion and motility (man), 202.  
effect on viability (chick), 948.  
effect on water balance (rat), 567.\*  
malformations in foetus (rat), 947, 1162.\*  
deprivation, effect on heart muscle (rat), 359.  
effect on resistance to *Corynebacterium* infection (rat), 370.  
excretion of pantothenic acid, effect of aureomycin (rat), 79.  
histological changes in intestine and nerve tissues (baby pig), 370.  
in pregnancy, effect of sex hormones (rat), 937.  
effect on ascorbic acid content of organs (guinea pig), 91.  
effect on beriberi, experimental (pigeon), 72.  
effect on blood pressure, 1161.\*  
effect on hippuric acid excretion, 495.  
effect on intestinal movement after removal of spinal cord medulla (rat), 371.  
effect on lipids and glycogen in tissues (rat), 80.  
effect on reproduction (pig), 650.  
effect on shock production by insulin, 1078.  
effect on streptomycin tolerance, (man), 498.  
estimation, 1168.\*  
in human milk and colostrum 203.  
in ovaries (cod), 372.  
in saliva (man), 977.  
intake, effect on cholesterol in blood and tissues (rat), 371.  
effect on organs and tissues after adrenal removal, 371.

**Pantothenic acid**

- intake, effect on weight and cholesterol content of adrenals after stress (rat), 340.  
lipotropic activity, effect of thyroxine (rat), 371.  
metabolism, relation of methionine intake, 80.  
phosphorylation by *Lactobacillus arabinosus*, 372.  
requirement, for reproduction (rat), 370.  
of guinea pig, relation to ascorbic acid, 1163.\*  
of pigs, baby, 370.  
effect of aureomycin, 561.\*  
role in adrenal function, 946.  
role in reproduction, review, 650.  
treatment of diabetes, 2047, 272.\*  
utilisation, by micro-organisms, 372.  
**Pantothenic acid derivatives**, fatty acid, long-chain, synthesis, 650.\*  
in sea urchin, eggs and embryos, 947.  
**Papain**, digestive action when activated or not, 98.  
ripening of meat, histological studies, 325.  
**Papio urvatus** (see *Baboon*)  
**Paprika** (*Capiscum annum*), composition, 914.  
**Paracentrotus lividus** (see under *Echino-dermes*)  
**Parakeratosis**, in pigs, effect of zinc, 1153.  
**Paradiplosis humilis** (see under *Fish*)  
**Paralysis**, posterior, in pigs, suspected copper or vitamin A deficiency, 844.  
**Parasites** (see also *Worms*)  
control by grazing management, 851.\*  
infestation, and nutrition, 460.\*  
civilian and military populations, Forinos, 1038.  
effect on vitamin A in liver (mouse), 60.  
intestinal, and nutrition, 558.\*  
of beef cattle, effect of forage consumption and protein level, 273.\*  
**Parasitism**, relation to nutritional state, 853.\*  
**Parathyroid(s)**  
disorders, hyperparathyroidism, differential diagnosis, 111, 510.  
hypoparathyroidism and osteomalacia, case report, 1074.\*  
relation to kidney and bone disorders (man), 404.  
hormone, effect on bone formation (toad), 557.\*  
effect on bone mineral (rat), 1012.  
role in calcium and phosphorus metabolism, review, 404.  
insufficiency, calcium tolerance test (man), 983.  
physiology, review, 111.  
removal, effect of calcium intake and phosphate on response to parathyroid extract (rat), 557.\*  
effect of vitamin D on growth and bone development (rat), 353.  
effect on calcium and phosphorus metabolism (rat), 63.  
effect on production of abnormalities by vitamin A excess (rat), 61.  
tetany, treatment with vitamin D<sub>2</sub>, 490.  
role in calcium and phosphorus metabolism, 558.\*  
**Paresis**, parieturient (see *Cows, disorders, milk fever*)  
**Parotid gland**, extract, effect on calcification of dentine and bone (rabbit), 1012.  
**Parsnip(s)**, carbohydrates, 618.\*  
**Parturition**, citric acid in maternal and cord blood (woman), 399.  
electrolytes in maternal and cord blood (woman), 108.  
serum proteins (woman), 972.

**Paspalum acrobiculatum** (see under *Millet*)

- Pasteurisation, milk (see under *Milk*)  
**Pastor(s)** (see also *Grasses*)  
alpine, feeding value, 804.  
for young cattle, 1110.  
for young dairy stock, Italy, 1114.  
late, replacement of protein by urea, 231.  
alta tessino, for wintering pregnant ewes, 661.\*  
and digestor supplements for cows, effect on composition of milk, 1116.  
and silage, without concentrates, for dairy cattle, 1114.  
and fodder production, North-west Europe, survey, 805.  
autumn, composition, relation to weight losses in cows, 1122.  
brush, for beef cattle, 273.\*  
composition, and nutritive value, Italy, 915.  
botanical and chemical, effect of maturity, New Zealand, 619.  
botanical and yield, effect of seed grain and nitrogen fertiliser, 224.\*  
effect of changes on utilisation and nutritive value, 1167.\*  
consumption, by grazing cows, 851.\*  
measurement, review (cattle), 602.\*  
copper compounds, 916.  
copper deficient, for sheep, effect on fleece, 1124.  
different types, effect of supplement of maize on worm burden (steer), 1111.  
effect on milk production (cow), 233.  
yield of digestible nutrients, 233.  
dry matter production rate, 619.  
effect of haying and grazing animals, New Zealand, 805.\*  
effect of molybdenum and other minerals, Australia, 339.  
effect on fat content of milk, 850.\*  
evaluation in terms of milk production, technique, 1115.  
fatty acids, unsaturated, effect on milk fat (cow), 1118.  
for beef cattle, effect of supplements, 273.\*  
for calves, 225.  
for cows, economics of feeding, 257.\*  
effect on milk acidity, 899.  
importance, Italy, 1114.  
with low- or high-protein concentrates, Australia, 1113.  
for pigs, baby, source of iron, 263.  
during pregnancy, 1132.  
intake of greenfeed, 825.  
moveable pen for controlled feeding trials, 821.  
for poultry, 835.  
replacement of fishmeal in ration, 248.  
for turkeys, effect of rate of stocking on health and growth of birds, 1135.  
grazed, estimation of total digestible nutrients, 1109.  
growth, measurement, 619.  
hill, composition, effect of fertiliser, 620.  
management of sheep, 819.  
investigation techniques with dairy cows, 273.\*  
irrigated, stock carrying capacity (America, U.S.), 804.  
indigo, for pigs, 273.\*  
low-quality, utilisation, effect of supplements (cattle, sheep), 804.  
lucerne, for pigs, optimum level of protein in supplement, 244.  
lucerne and cocksfoot, effect of grazing, 273.\*  
magnesium content, effect of magnesium application, 843.  
management, in control of worm infestation (sheep), 1157.\*  
minerals, effect of soil type, Netherlands, 51.

- Pasture(s)  
native grass, and supplements for beef cattle, America (U.S.), 273.\*  
permanent and temporary, growth of dairy heifers, 273.\*  
quality and quantity of intake, method of estimation, 890.  
rotational and strip grazing compared (cow), 1190.  
sovi, nutritive value, Australia, 513.  
stage of maturity, effect on milk yield (cow), 233.  
summer, effect on blood composition (cow), 394.  
Tift Sudan and Star Millet compared for dairy cows, 273.\*  
trace element deficiencies, Tasmania, 916.\*  
tropical, review, 620.\*  
utilisation, 895.\*  
and nutritive value, effect of changes in chemical composition, 1167.\*  
by cows, grazing or cutting, 811.  
vitamin D content, 1167.\*  
winter, for dairy heifers, 273.\*  
temporary, value in fattening spring lamb, 273.\*  
yield, composition and digestibility, effect of mineral-rich herds, 1100.  
Pasture and soil, New Zealand, copper and molybdenum content, 275.\*  
Pasture plants, cobalt content, Switzerland, 620.  
Peach, acids, organic, effect of maturity, 913.  
Pearl(s) (see *Brachidontes*)  
Pearl(s), enzymes, starch-splitting, 49.\*  
goitrogen content (chicken), 170.  
Pears  
composition and yield, at different stages of growth, 50.  
effect of nitrogen fertiliser, 48.\*  
cooking, effect of salt or phosphates, 665.  
refrigeration, quality, effect of enzyme inactivation and storage temperature, 326.\*  
southern (see *Cowpeas*)  
Pectin, in sunflower heads, 336.  
Pellagra (see also *Nicotinic acid deficiency*)  
development, effect of nicotinic acid and tryptophan intakes, 200.  
experimental, production by maize diets (man), 1077.  
infantile (see *Kwashiorkor*)  
new biochemical and physiological aspects, 1077.\*  
with psychosis, case report, 493.  
Penicillin (see under *Antibiotics*)  
Penicillin glucuronide (see *Millet*, *pearl*)  
Pentadecanoic acid, 14-methyl-, in beef fat, 614.  
n-Pentadecanoic acid, in shark (*Galeorhinus galeus*) liver oil, 616.  
Pentosan(s), in feedingstuffs, effect on digestibility, 337.  
Pepper (*Piper nigrum*), composition, 914.  
Pepsinogen, in blood, 400.\*  
Peptidase, in white cells, estimation, 881.  
in normal subjects and patients with leucemia, 881.  
Peptides, chemistry, review, 17.\*  
chromatography, 309.  
desalting, 309.  
estimation, 873.  
in lysocaine, 309.  
in urine, 873.  
in blood, incorporation into milk (goat), 1038.  
in pituitary tissues (cattle, pig), 402.  
in protein nutrition, significance, 848.\*  
in suint and sweat, 309.  
in urine (man), 873.  
N-terminal groups, identification, 309.  
nitrogenous constituents, 275.\*  
separation, 18.  
Perilymph, amino acids (horse), 678.  
Peristalsis (see *Intestine*, *motility*)  
Peroxidase, estimation, in milk, 881.  
in milk, effect of ultrasonic vibrations, 603.  
Peroxide(s), estimation, 24.  
Peroxyl radical, estimation in fats, 599.  
Perry, review, 336.\*  
Perspiration (see *Sweat*)  
Peru  
children, feeding and care, 471.  
growth, 1034.  
cream, composition and bacteriology, 42.  
diet studies, infants and mothers, 471.  
fish, composition, 45.  
goats, 273.\*  
skulls of ancient men, spongy hyperostosis, relation to anemia, 775.  
Pesticides, contamination of foods, 270.\*  
pH (see *Hydrogen ion concentration*)  
*Phacelia tanacetifolia*, composition, 909.  
*Phalaris* staggers, in sheep, 547.  
*Phaeoheros citreus* (see *Kiwia*)  
*Phaseolus acutifolius* (see under *Legumes*)  
*Phaseolus radiatus* (see *Legumes*, *gram*)  
*Phaseolus vulgaris* Roxburgh (see *Legumes*, *gram*, *green*)  
Phoscaint(s), calcium deficiency and reproduction, 839.  
feeding, effect on resistance to climatic stress, 543.  
nicotinic acid requirement, 559.\*  
phosphorus requirement, 1147.  
Phenol, 2,6-di-tert-butyl-4-methyl-, effect on carotenoid utilisation (chicken), 923.  
Phenothiazine, effect on cobalt-deficient lambs, 843.  
effect on thyroid weight (sheep), 685.  
Phenylalanine  
detection, 589.  
estimation, in protein hydrolysates, 589.  
requirement, of chickens, 831.  
of infants, 175.  
of women, 999.  
Phenylendiamine, diphenyl-*p*-, anti-oxidant in fish oil, effect on vitamin E metabolism (chicken), 934.  
detection in alfalfa meal, 55.  
effect on vitamin A in liver and blood (chicken), 345.  
N,N'-diphenyl-*p*-, effect on carotenoid utilisation (chicken), 923.  
effect on reproduction (turkey), 934.  
effect on utilisation of carotene by cow and production of oxidised flavour in milk, 60.  
Phenylketonuria, case reports, 799.  
treatment with diet devoid of phenylalanine, 1165.\*  
Philippines  
cows, feeding problems, 523.  
diets in government institutions, nutritive value, 478.  
egg production, variations due to location, season and breed, 543.  
foods, composition and nutritive value, 918.  
vegetable, composition tables, 333.  
forages, composition and digestibility, 851.\*  
milk, human, protein content, 329.  
poultry feeding, maize, 851.\*  
use of enriched rice, 198.  
Phosphatase(s)  
acid and alkaline, estimation in stomach, 1165.\*  
in frog, 173.\*  
acid, estimation, in blood, 881.  
alkaline, estimation, 317.\*  
in blood (child), 666.  
(man), 666.  
in osteoblastic dysplasia, effect of vitamin D (child), 197.  
Phosphatase(s)  
alkaline, in blood, maternal and infant, at parturition, 490.  
in bones and teeth, effect of fluorine (rat), 147.  
in cream and milk, skimmed, 901.\*  
in liver, normal and in cirrhosis (rat), 87.\*  
in ovary, 962.\*  
in oviduct (woman), 962.\*  
in serum, as criterion of rickets, 195.  
low, in blood and urine, case report, 490.  
glucose-6-phosphate, in liver, effect of nicotinamide (rat), 942.  
in cheese ripening, 613.  
in placenta (woman), 736, 1035.  
in saliva, relation to caries (man), 787.  
specificity, 387.  
Phosphatase test, cheese, 28.\*  
Phosphate(s)  
clearance (rat), 437.  
condensed, in sausages, effect of cooking and storage, 35.  
separation and estimation, 27.  
effect on response to parathyroid extract (parathyroidectomised rat), 557.\*  
effect on white clover, composition and yield, New Zealand, 339.\*  
for pigs, different sources compared, 528.  
hexose (see *Hexose phosphate*)  
in blood, variation (sheep), 413.  
incorporation into phosphoprotein, by mammary gland homogenate (rabbit), 726.  
inorganic, and total acid-soluble, in blood in folie acid deficiency (rat), 82.\*  
estimation, 270.\*  
in blood (cattle), 316.  
intake, high, effect on guinea pigs, 143.  
metabolism, effect of xanthuronic acid, 944.\*  
organic, separation, 24.  
poly-, metabolism (rabbit, rat), 438, 716.  
re-absorption, tubular, effect of vitamin D excess (dog), 930.  
rock, for livestock, 1106.  
soft, with colloidal clay, source of phosphorus for pigs, 853.\*  
Phosphatide(s), chemistry, review, 22.\*  
estimation, electrophoresis, 1102.\*  
in blood, (man), 272.\*  
Phospholipids (see also *Lecithin*; *Lipids*)  
absorption (rat), 380.  
acetal, in adipose tissue (rat), 070.  
deposition in aorta, in atherosclerosis (rabbit), 142.  
egg yolk, fatty acid composition, 905.  
formation, effect of copper deficiency (rat), 1019.  
in central nervous system (rat), 438.  
in liver metabolism, 558.\*  
in aorta, in atheromatosis (rabbit), 272.\*  
in brain, distribution, 110.\*  
in eggs, changing during incubation, 43.  
in fish, 616.  
in mammary gland, metabolism, 275.\*  
in milk, 592.  
effect of species, breed, season and lactation (buffalo, cow, goat, sheep), 901.  
metabolism, effect of cholesterol (rabbit), 141.  
in liver slices (rat), 1029.  
of skin *in vitro* (rat), 1030.  
placenta, properties (man), 591.  
products of hydrolysis, puper chromatography, 850.\*  
separation, 22, 591, 592, 878.  
turnover, in blood, liver and aorta, effect of cholesterol-high diet (rabbit), 272.\*  
normal and in hyperlipaemia (man), 135.

- Phospholipins**  
utilisation in muscular work (cat, frog, man, rat), 141.  
volatile fatty acid content, 402.
- Phosphoric acid**, prolonged intake, effects (rat), 1022.  
source of phosphorus for ruminants, 561.\*
- Phosphorus** (see also *Calcium and phosphorus*)  
absorption, effect of beryllium (pig), 435.  
site (sheep), 103.  
availability, from different sources, estimation *in vitro* (cattle), 890.  
technique of estimation with pigs, 560.\*  
balance (see *Phosphorus metabolism*; *Phosphorus retention*)  
deficiency, and sterility in cattle, review, 1153.\*  
cattle, Australia, 842.  
osteomalacia in cows, 274.\*  
distribution, after injection (cat), 1029.  
in newborn, effect of vitamin B<sub>12</sub> deficiency (rat), 1103.\*  
of single dose in tissues (rat), 1013.  
estimation, 26, 27, 595, 881, 1164.\*  
in biological materials, 316.

in plant materials, 27.  
excretion, effect of vitamin B<sub>1</sub>, co-carboxylase and glycerophosphates (rabbit), 644.  
for ruminants, phosphoric acid as source, 561.\*  
for turkeys, availability from different sources, 537, 559.\*  
fractions, in liver, effect of starvation (rabbit), 439.  
in anchovy fillets, squid and tuna, canned, 907.  
in blood, during milk fever, effect of treatment, 548.  
effect of glucose or fructose (man), 412.  
effect of insulin (sheep), 123.  
effect of range feeding (sheep), 58.  
in bone, turnover (cat, rabbit, rat), 1013.  
in cartilage, epiphyseal, effect of vitamin B (rat), 929.  
in egg yolk, turnover, 162.  
in goat and sheep carcasses, 331.  
in liver, effect of glycogen deposition (rabbit), 417.  
in maize, effect of maturity, 909.  
in milk and cheese, 903.  
buffalo, 909.  
in sardines, America (U.S.), Japan, Portugal and Scandinavia, 907.  
inorganic, in blood (man), 975.  
(rat), 437.  
changes during milk fever, effect of preparation, milking or mastectomy, 1154.  
effect of glucose in normal and diabetic women, 691.  
effect of insulin (rabbit), 123.  
effect of sugars (man), 412.  
in cerebrospinal fluid (man), 678.\*  
intake, effect on acid base balance (guinea pig), 1022.  
effect on calcium retention (rat), 1167.\*  
low, effect on semen production of interrelations with copper and molybdenum, 564.\*
- Phosphorus metabolism**  
effect of age (cattle), 273.\*  
effect of *p*-amino benzoic acid (rat), 274.\*  
effect of oxalic acid in beet leaves (sheep), 222.
- Phosphorus metabolism**  
effect of vitamin B<sub>12</sub>, 377.  
effect of vitamin D, 274.\*  
massive doses (cattle), 560.\*  
in contracting muscle (frog), 1030.\*  
in mammary gland (rabbit), 451.  
in sheep, 714.  
of liver cell fractions *in vitro*, effect of copper deficiency (rat), 1019.  
role of parathyroid, 558.\*
- Phosphorus**, phytic acid, effect on calcium, phosphorus and magnesium metabolism (bull), 519.  
in cattle feeds, India, 519.  
in jola, effect of stage of growth, 52.  
metabolism in ruminants, 519.  
phytin, estimation, in feedstuffs, 908.  
in feedstuffs, 908.  
radio-active, uptake by epithelia, normal and in anaemia (rat), 156.  
uptake by mammary tumours (woman), 731.  
rate of accretion in bone (infant), 430.  
requirement, of pheasants, 1147.  
of pigs, 560.\*  
of range beef cattle (America, U.S.), 808.  
of turkey, 356.  
retention, effect of urea (lamb), 560.\*  
secretion into digestive tract (cattle, pig, sheep), 569.  
secretion into intestine during sugar absorption (rat), 388.  
selection in alloxan diabetes (rat), 462.  
supplement for range cattle, consumption, 503.\*  
total and radio-active, estimation in plants, 595.  
turnover, in adrenal, effect of cold (rat), 1029.\*  
in brain (vertebrates), 1030.  
uptake, by bone, relation to growth (rat), 437.  
by liver nucleic acids, effect of azo dye (rat), 167.  
by placenta (woman), 272.\*  
by testes and thyroid, effect of pituitary hormones and iodine deprivation (chicken), 437.  
utilisation, from different sources (lamb), 560.\*  
(pig), 561.\*
- Phosphorylation**, by liver homogenates, effect of vitamin B<sub>1</sub> and riboflavin deficiencies (rat), 937.  
effect of vitamin B<sub>1</sub> deficiency (rat), 940.
- Effect of vitamin K *in vivo*** (rat), 935.  
efficiency, effect of tocopherol deficiency (rabbit), 1164.\*
- Enzymic**, vitamin B<sub>12</sub> analogues, effect on tyrosine decarboxylase, 568.  
respiratory, effect of thyroxine (guinea-pig, rat), 404.
- Physical fitness**, of boys, effect of vitamin B<sub>12</sub>, 208.
- Physical performance**, at high altitude (dog, man), 688.  
effect of sex, age and intelligence (child), 688.  
effect of vitamin preparation (man, rat), 53.  
in old age, effect of vitamins, 193.
- Physics**, biological and medical, advances (book), 1167.
- Physiology**, annual review, (book) 1157.\*  
**Physique**, corpulence index, for adults, 189.
- Phytase**, intestinal, prevention of rickets (rat), 353.
- Phytic acid**, effect on absorption of minerals, 1167.\*

## Pig(s)

- intestinal micro-organisms, 744.  
effect of antibiotics and housing, 242.  
intestinal destruction of antibiotics, 531.  
litters, sex distribution and mortality, 532.  
manganese deficiency, 721.  
metabolism and heat production in gilts and castrated males, effect of aureomycin, 408.  
methionine and cystine requirement, 527.  
mineral deficiency, effect on dermographism, 714.  
muscle fibre, diameter, 822.  
nitrogen retention, effect of penicillin and aureomycin, 825.  
on maize and soya bean meal ration, effect of amino acids, 823.  
studies, length of collection periods, 1125.  
pantothenic acid requirement, effect of aureomycin, 561.\*  
phosphorus absorption, effect of boryllum, 435.  
protein, and amino acid requirements, evaluation, 272.\*  
vitamin and energy requirements, 275.\*  
rearing, effect of environmental temperature, 1124.  
respiratory rate, effect of feeding, 687.  
selenium poisoning, effect of arsenicals, aureomycin and linseed oil meal, 561.\*  
slaughter losses from live pig to unsmoked side, 828.  
suckling and fattening, effect of copper, 1166.\*  
tissues, deposition of B vitamins, effect of level of manganese intake, 564.\*  
tryptophan requirements, effect of antibiotics and protein level, 242.  
vertebrae, number and size, relation to body length, 1133.  
vitamin E deficiency, 1167.\*  
water requirement, 1166.\*  
weanling weight, relation to size of litter, 240.

## Pig(s), weight gains

- and efficiency, effect of antibiotics and hormones, 243.  
effect of virus pneumonia, 261.  
effect of protein level and aureomycin, 561.\*  
and reproduction, importance of manganese, 561.\*  
effect of antibiotics and restricted ration, 530.  
effect of deep litter or concrete floor, 828.  
effect of protein intake, chlortetracycline and vitamin B<sub>12</sub>, 658.  
from 134 to 174 days, 532.  
red Spanish brood, 531.

Pill (see *Canarium octatum*)

- Pine tree, needles, treatment of vitamin A deficiency in calves, 926.  
Pineapple residues, nutritive value (sheep), 1165.  
Pipestone acid, estimation in plant extracts and urine, 879.

## Piperine, estimation in pepper, 314.\*

## Pituitary

- disorders, in children, effect of cortisone on growth, 1034.  
serum proteins (man), 984.  
effect of vitamin A deficiency (rat), 630.  
extract, effect on growth (rat), 405.\*  
effect on phosphorus uptake of testes and thyroid (chicken), 437.  
regulation of ketogenesis, 405.\*  
relation of pyridoxine, 360.  
role in fat metabolism (bacon), 683.  
role in fatty infiltration of liver in alcohol poisoning, 725.\*

## Pituitary

- role in foetal growth (rat), 738.  
tumours, producing obesity, effect on body composition and energy exchange (mouse), 751.  
Pituitary, anterior  
adrenocorticotrophic hormone, effect of pantothenic acid deficiency on sensitivity, normal and in diabetes (rat), 947.  
effect on adrenal ascorbic acid (rat), 93.  
influence of ascorbic acid *in vitro* (rat), 662.  
effect on blood lipids (rabbit), 115.  
effect on corticosteroid formation, by adrenal *in vitro* (pig), 958.  
*in vitro*, normal and in pantothenic acid deficiency (rat), 946.  
effect on hypertension produced by deoxycorticosterone acetate (rat), 382.\*  
effect on vitamin C content of adrenals (guinea pig), 270\*, 958.  
effect on vitamin C in liver and lymphoid tissue (rat), 382.  
treatment of distemper in ferrets, 659.  
treatment of leukaemia in children, 204.  
with fructose, effect on blood sugar, 601.\*  
with vitamin C, treatment of rheumatic infections, 209.  
growth hormone, content, effect of age and plane of nutrition (heifer), 426.\*  
relation to growth rate and age (pig), 984.  
development of resistance (rat), 115.  
effect after castration and pituitary removal (rat), 374.  
effect in chickens, 686.  
effect in muscular dystrophy (child), 979.  
effect on cartilage (rat), 985.  
effect on fat breakdown by liver *in vitro* (rat), 984.  
effect on fat formation, in genetically obese mice, 1006.  
effect on fat metabolism (rabbit), 685.  
effect on growth and efficiency (pig), 1130.  
effect on lesions in choline deficiency (rat), 984.  
effect on milk production (mouse), 1167.\*  
effect on protein metabolism of liver *in vitro* (rabbit), 1028.  
effect on vitamin C in liver and lymphoid tissue (rat), 382.  
for heus, effect on egg production, 838.  
nature and action (book), 269.  
role in metabolic changes in pregnancy (rat), 738.  
with vitamin D, effect on rats on low-calcium, normal-phosphorus diets, 1162.\*  
hormones, effect on nitrogen loss after surgery (man, rabbit), 996.  
effect on vitamin A in blood and milk (cow), 60.  
ketogenic hormone, relation to fattening (pig), 985.  
lactogenic hormone, effects on pigeon rabbit, 405.  
thyrotrophic hormone, effect on hyperthyroidism (man), 272.\*  
effect on iodine metabolism of thyroid *in vitro* (rat), 155.  
effect on vitamin A alcohol and ester in blood and milk (cow), 271.\*  
Pituitary, anterior and posterior, peptides (cattle, pig), 402.

## Pituitary, posterior

- distribution of iodine (rabbit), 1017.  
distribution, inactivation by liver, effect of diet, 686.\*  
effect of nutritional deficiency (rat), 270.\*  
Pituitary inhibitor, *p*-oxypropionophenone, effect on nitrogen loss after surgery (man, rabbit), 996.  
Pituitary removal  
and castration, effect of growth hormone, oestrogens and folic acid on organs (rat), 374.  
and pantothenic acid deficiency (rat), 1162.\*  
effect of adrenal cortex hormones on salt and water excretion (rat), 982.\*  
effect on fat formation in liver slices, influence of diet (rat), 451.  
effect on fat metabolism (chicken), 686.  
effect on pancreatic amylase (rat), 385.  
effect on teeth and salivary glands (rat), 171.\*  
effect on tryptophan metabolism (rat), 944.  
effect on vitamin B<sub>1</sub> depletion from tissues (rat), 73.  
xanthurenic acid excretion, effect of tryptophan (rat), 423.  
Placenta  
amino acids transfer (woman), 735.\*  
calcium transfer (rat), 1037.  
creatinine and creatinine content (woman), 736.  
extracts, use in animal feeding, 1106.  
foetal and maternal, composition (rabbit), 737.  
fructose and glucose transfer (monkey, woman), 1035.  
(rabbit, rat, sheep), 458.  
iodide transfer (guinea pig, rabbit, rat), 1035.  
metabolism, effect of vitamin E (woman), 1075.\*  
mineral transfer and distribution in foetus, 563.\*  
permeability to sugars (goat), 557.\*  
phosphatases (woman), 736.  
in cell fractions (woman), 1035.  
phospholipids, properties (man), 591.  
phosphorus uptake (woman), 272.\*  
sugar transfer (woman), 1035.  
thiaminase content (woman), 778.  
transaminase activity (woman), 405.  
vitamin B<sub>12</sub> content (woman), 1084.  
zinc transfer (rat), 150.  
Plankton and algae, use as food aid in medicine, 847.  
Plant(s)  
analysis, modern methods (book), 845.  
barium and strontium content, 339.\*  
cellulose, digestion *in vitro*, effect of lignification, 561.\*  
composition, effect of environment, 911.  
edible, new and improved, 908.\*  
manganese content, 338.

protein, evaluation, 275.\*  
protein supplements, animal or vegetable, effect on growth and egg production, 248.  
restricted, effect on growth and laying performance, 248.  
role of vitamin E, review, 934.\*  
seaweed meal, 541.  
standards, 269.\*  
tallow, effect on growth and efficiency and effect of meat scraps in ration, 1137.  
thiouracil and thyroprotein, effect on resistance to coccidiosis, 550.  
vitamin A from different sources, 349.  
vitamin B<sub>12</sub>, effect on meat quality, 379.  
retention by cockerels, 269.\*

**Poultry feeding (laying hens)**  
advantages of intensive systems, 259.  
antibiotics, 550.\*  
Avasan (fungicide), effect on egg quality, 1146.  
arsenic supplement, 539.

## Poultry feeding (laying hens)

cereals fumigated with ethylene dibromide, 550.  
chemically treated seeds, 1146.  
different rations and feeding systems, 1145.  
dried whey, 559.\*  
effect of bovine or porcine growth hormone, 838.  
effect of deficient diet on fertility of eggs and growth of chickens, 832.  
effect of p-oxypropiophenone, 740.  
effect of vitamin K on prothrombin time of newly hatched chickens, 357.  
effect on egg quality, 255.  
effect on sex ratio of progeny, 838.  
energy content of ration, 1144.  
goosepoll inactivated with phloroglucinol, 542.  
high wheat rations, effect of leucine supplement, 558.\*  
leuca grain in an all-mash ration, 837.  
lupin meal, 542.  
pasture with or without protein supplement, 248.  
polleted rations, 541.  
protein level and diet restriction, 248.  
riboflavin, effect on hatchability and hatched-down, 364.  
sunflower, linseed, castor seed and groundnut meals, 542.  
vitamin B<sub>12</sub>, effect on hatchability, 1145.  
**Poultry, growth (see Chickens, growth; Chickens, feeding; Poultry, feeding)**  
haemoglobins, separation, 609.  
interaction between heredity and environment, 337.  
laying hens, breed and strain, adaptability to different systems of management, 1143.  
effect of climate and housing, 254.  
effect of progesterone by mouth, injection or implant on egg production and moult, 1145.  
effect of vitamin B<sub>12</sub>, 559.\*  
performance testing, effect of variety and location, 1146.  
laying pullets, effect of length of daylight, 1144.  
management, house for confined rearing and laying, 837.  
rearing, range or confinement for laying pullets, 273.\*  
requirements, digestible nutrients, 269.\*  
methionine, relation to energy level of ration, 831.  
therapeutics, recent advances, 500.\*  
utilisation of dietary energy, 275.\*  
**Poultry keeping, on the farm, basic requirements, 540.\***  
**Poultry meat (see also Chicken meat)**  
flavour and aroma, effect of diet, 1143.  
fresh and frozen stored, effect of grain, fish solubles, vitamin B<sub>12</sub> and aureomycin in diet, 379.  
protein, amino acid composition, 332.  
**Prawn (see under Crustaceans)**  
Prenalcliferol, stereochemistry, 63.  
Pre-celampain (see under Pregnancy disorders)

**Pregnancy (see also Gestation; Reproduction)**  
Emories refer to women unless otherwise stated.  
and purpuration, blood volume, 1034.  
and reproductive history, Hawaii, 735.\*

 clover-and-grass, effect of preservatives on storage losses and feeding value, 327.  
 composition, losses during harvest, and value for dairy cows, effect of stage of growth, 1102.  
 digestible energy and composition, relationship, 1102.  
 for cows, behaviour when self-feeding, 273.\*  
 effect on milk acidity, 899.  
 for horses, 1107.  
 grass, amino acids and nitrogen fractions, laboratory studies, 608.  
 composition and digestibility, effect of adding molasses (sheep), 607.  
 Conservit (sulphur dioxide powder) as preservative, 608.  
 digestibility, effect of chopping or lacerating (cattle), 511.  
 dry matter compared with that of grass, 897.  
 effect of glycol compound, 897.  
 for beef cattle, review, 809.\*  
 for cows, 522\*, 1117.  
 for winter fattening of beef cattle, 227.  
 losses, effect of method of preservation, 853.\*  
 microbiology, 609.  
 nitrate content, effect of fertiliser, 515.  
 nutritional limitations for bred sows, 560.\*  
 nutritive value, effect of species and stage of maturity, 853.\*  
 sodium metabisulphate as preservative, 39, 561\*, 608, 897.  
 wilted, losses compared with hay, 39.  
 grass and legume, made with sodium metabisulphate, 39.  
 lupins, sweet, 621.  
 maize, green, composition, Sweden, 339.  
 maize cobs, feeding value, effect of maturity, 897.  
 maize stalks with added succulents, 1103.  
 marrowfat kale, losses, effect of size of silo, 39.
- Silage  
 orange peel, ammoniated, for dairy cattle, 234.  
 place in farm economy, 1148.  
 preservation with metabisulphite and acetic acid, 1166.\*  
 quality, Belgium, 608.\*  
 review, 805.\*  
 rice straw, composition, 223.  
 Sudan grass, composition, digestibility and feeding value, 339.\*  
 for dairy cows, 273.\*  
 sunflower, composition, digestibility and feeding value, 339.\*  
 treated with urea, for beef cattle, 273.\*  
 without concentrates, for dairy cattle, 1114.  
 Silage making, 896.\*  
 and use, Switzerland, 805.  
 effect of preservatives on carotene content, 350.  
 effect of yeasts, 327.\*  
 experiments with acids, losses, 39.  
 sugar content of materials, 327.\*  
 use of carbohydrate-rich substances, salts and A.I.V. fluid, 327.  
 use of glycerol compound, 327.  
 use of Rymersholm silage-phosphate, 222.  
 with bacterial enzymes, 897.  
 Silica, estimation in urine, 596.  
 indicator in digestibility trials with pigs, 512.  
 Silkworms (see under *Insects*)  
 Simplex method for calculating least-cost rations for livestock, 544.  
 Sindrops poliorencial infantil (see *Kwashiorkor*)  
 Singapore, Chinese infants, growth and influence of nutrition, 766.  
 women, South Indian and Chinese, incidence of breast feeding, 758.  
 Sitosterol, absorption, 272.\*  
 effect on blood lipids, 272\*, 140.  
 and lipoproteins (man), 140.  
 effect on cholesterol in liver (mouse), 432.  
 effect on cholesterol, cholesterol, and lipoproteins (man), 1008.  
 in coronary disease (man), 140.  
 $\beta$ -Sitosterol, effect on absorption of cholesterol (rat), 869.  
 effect on blood lipids in hypothyroidism (man), 271.\*  
 effect on cholesterol absorption, and on blood cholesterol in coronary artery disease (man), 851.\*  
 Skelton (see also *Bone*)  
 cartilage, effect of testosterone and growth hormone (rat), 985.  
 disorders, role of riboflavin deficiency during pregnancy (rat), 363.  
 effect of calcium intake during pregnancy and lactation (sheep), 435.  
 effect of copper deficiency (pig), 721.  
 effect of lypophyllin deficiency or excess (rat), 423.  
 effect of vitamin A excess after adrenalectomy (rat), 348.  
 femur, growth (rabbit), 735.  
 growth, effect of hormones, 558.\*  
 of long bones (chick), 160.  
 incorporation of sulphur, organic and inorganic (rat), 722.  
 morphology, in old age, effect of diet, 564.\*  
 ossification, Banta and Indian children, Africa, 456.  
 radiological study (sheep), 275.\*  
 weight of ash (man), 670.  
 Skin, amino acids, normal and in disorders, 110.  
 and vitamins, 621.\*  
 and vitamin A absorption (rat), 270.\*  
 encephalocyst, during formation of new tissue (crab), 57.\*

## Skin disorders

- abscesses, sterile, effect on vitamin A metabolism (rat), 347.  
 acne vulgaris, treatment with vitamin A, 149.  
 allergy, treatment with growth factors (child), 498.  
 dermatitis, and eczema, treatment with fruit juice and fasting, 790.  
 seborrhoeic, treatment of anaemia with biotin (infant), 779.  
 eczema, in infants, association of kwashiorkor and rickets, 1065.  
 goat's milk replacing cow's milk, 503.  
 prevention in artificial feeding, 178.  
 metabolism of fatty acids, unsaturated, 1158.\*  
 herpes zoster, treatment of neuralgia with vitamin B<sub>12</sub>, 308.  
 in vitamin B<sub>6</sub> deficiency (dog), 78.  
 Norwegian itch, treatment with vitamin A, 488.  
 nutritional, in tropics, 772.\*  
 pemphigus, treatment with potassium *p*-aminobenzoate, 779.  
 pruritus ani, treatment with  $\alpha$ -tocopherol, 777.  
 treatment with vitamin B<sub>12</sub>, 497.  
 warts, treatment, 1073.  
 Skin, effect of biotinic acid ester, 778.\*  
 epidermis, effect of vitamin A (guinea-pig, rat), 347.  
 fat metabolism, effect of choline (rat), 138.  
 in diabetes, histochemical studies, 1161.\*  
 moisture exuded, estimation (cattle), 602.  
 phospholipid metabolism *in vitro* (rat), 1030.  
 sebaceous glands, effect of vitamin B<sub>6</sub> deficiency (mouse), 940.  
 sterols, effect of squalene (mouse), 142.  
 succinic dehydrogenase activity, effect of cold and ascorbic acid (rat), 393.  
 thickness in cattle, European and Zebu, 518.  
 Sleep, induced, as adjunct to diet treatment of ulcers (man), 1094.  
 Snails (see under *Molluscs*)  
 Snakes (see under *Reptiles*)  
 Soapwort, (*Saponaria officinalis*), toxicity, 205.\*  
 Sodium  
 absorption (rat), 102.  
 effect on duodenal cells, 726.\*  
 body, in heart disease (man), 861.\*  
 depletion, acid base balance (man), 143.  
 composition of saliva, role of adrenal (sheep), 982.  
 estimation, in biological fluids, 596.\*  
 in blood, 596, 881.  
 in milk, 880.  
 in plant ash, 850.\*  
 exchange, in muscular dystrophy (man), 144.  
 excretion, effect of high salt intake (bullock), 220.  
 in sweat (man), 678.\*  
 in aqueous humour, normal and in scurvy (guinea-pig), 91.  
 in blood (man), 108.  
 effect of adrenal cortex hormones (rabbit), 111.\*  
 high, in brain damage (man), 145.  
 in infant disorders, 145.  
 in adults, Pakistan, 677.  
 rod cells, effect of coumarin and flavono derivatives (guinea-pig, horse), 960.  
 in cheese, low-salt, 331.  
 in coffee, cocoa and tea, per cup, 337.  
 in fish, British Columbia, 907.  
 in milk (ass, cow, woman), 901.  
 in tissues, concentration and turnover, effect of diet (rat), 145.  
 distribution, 271.\*

## Sodium

- intake, effect on saliva (sheep), 715.  
 high, effect on sodium and potassium metabolism during transmissible gastro-enteritis (pig), 841.  
 low, effect on composition of aorta (rat), 145.  
 planning of diets, 213.  
 preparation of meals for treatment of hypertension, 1098.  
 restricted effect on electrolytes in ileum and faeces (dog), 439.  
 treatment of liver cirrhosis, 509.  
 metabolism, after kidney removal (dog), 999.\*  
 role of bone (rat), 145.  
 radio-active, distribution (cattle), 400.  
 measurement of specific activity in bone, 322.  
 migration across intestinal and bladder mucosa (man), 848.\*  
 total circulating (man), 319.  
 total exchangeable, in hypertension (man), 1014.  
 in infants and children, 715.  
 measurement and distribution (man), 848.\*  
 proportion in digestive tract (man, rabbit), 1014.  
 transport and role in ruminant digestion, 559.\*  
 Sodium bentonite, for chickens, 558.\*  
 Sodium chloride (see also *Salt*)  
 estimation in sweat (man), 596.\*  
 Sodium ethyl oxalacetate, treatment of pregnancy disease in ewes, 548.  
 Sodium fluoride, caries-inhibiting value, 789.  
 effect on growth of turkeys, 537.  
 Sodium gluconate, absorption, comparison with glucose and gluconate (rat), 967.  
 Sodium metabisulphite, conservation of alfalfa silage, 561.\*  
 conservation of grass silage, 561.\*  
 for silage making, 39, 327.  
 Sodium propionate, treatment of acetonaemia (cow), 548.  
 Sodium silicofluoride, caries-inhibiting value, 789.  
 Sodium sulphate, effect on growth (chicken) 831.  
 effect on muscle degeneration (chicken), 559.\*  
 Soil(s), barium and strontium content, 339.\*  
 cobalt content, Denmark, 46.  
 cobalt deficiency, New Zealand, 275.\*  
 hydrogen ion concentration, effect on vitamin content of turnip leaves, 623.  
 mineral deficiencies, Australia, 338.\*  
 Solids-not-fat, milk (see under *Milk*)  
 Somatotrophin (see *Pituitary, anterior, growth hormone*)  
 Sorbic acid, estimation in foods, 603.\*  
 fungicide for foods, 603.\*  
 Sorbitol, as sweetening substance, for diabetic patients, 791.  
 effect on calcium metabolism (rat), 414.  
 effect on caries production (hamster), 557.\*  
 for diabetes, test of suitability, 16.  
 metabolism (rabbit), 121, 271.\*  
 (man), 603.  
 L-Sorbos, conversion to ascorbic acid (rat), 90.  
 Sorghum (see also *Millet*)  
 composition and nutritive value, Africa, 617.  
 for chickens, 250.  
 jole, hydrocyanic acid and phytic acid phosphorus contents, effect of stage of growth, 52.

## Sorghum

- juvar, composition and nutritive value (rat), 464.  
 juvar, husk, for cattle, 853.\*  
 protein, nutritive value (rat), 166.  
 Sorghum distiller's dried solubles, in calf starting rations, 1107.  
 Sorghum gluten feed, digestibility and feeding value (sheep), 221.  
 Sorghum silage, for milk production, comparison with maize silage, 232.  
 Soup preparations, meat content, estimation, 28.  
 Soup, vegetable, composition, 914.\*  
 South Africa  
 age and racial groups, nutritional status and diet pattern, 1167.\*  
 anaemia, pernicious, in Bantu, case report, 507.  
 Bantu, adults, haemoglobin concentration, 104.  
 atherosclerosis, 853.\*  
 metabolism of calcium and iron, 853.\*  
 nutrition and foetal and child development, 1167.\*  
 oedema, malnutrition, 192.  
 rickets, incidence, 853.\*  
 women, iron metabolism, 1167.\*  
 children, kwashiorkor, dietary and socio-economic study, 1070.  
 coronary disease and fat intake, 851.\*  
 diet, blood cholesterol and coronary heart disease, 560.  
 feeding standards (man), 750.  
 foods, composition, 1167.\*  
 infants, feeding, breast, in communities, 1054.  
 scurvy, 1086.  
 kwashiorkor, 1167.\*  
 survival, food and feed resources (book), 573.  
 South America (see *America, South*, and specific countries, e.g., *Argentina*)  
 South Pacific, fish, poisonous, 1091.\*  
 Sows (see also *Pigs*)  
 calcium and phosphorus metabolism, during lactation, 435.  
 disorders, culture of uterine contractions, relation to diet, 1151.  
 effect of pasture during pregnancy on size of litter and survival to weaning, 1132.  
 fecundity and embryonic mortality, 1030.  
 lactating, supplementary fat in ration, 561.\*  
 milk production, 1124.  
 relation to performance of pigs, 560.\*  
 milk yield, effect of suckling behaviour of piglets, 1125.  
 nitrogen balance, during lactation, 537.  
 during pregnancy and lactation, 823.  
 pedigree Large White, reproduction, 1132.  
 pregnant and lactating, effect of auro-mycin, 561.\*  
 metabolism, methods of study, 240.  
 reproduction, phenomena associated with early weaning, 561.\*  
 weight loss during lactation, 239.  
 Soxhlet extractor, improved, 305.  
 Soya, in nutrition, review, 912.\*  
 Soya bean  
 dried water extract as source of protein for baby pigs, 564.\*  
 for children, treatment of kwashiorkor, Uganda, 487.  
 proteins, effect on reproduction and lactation (rat), 657.  
 methionine content, effect of locality, season and variety, 913.  
 raw, for cows, 1119.  
 yield and oil and protein content, effect of variety, Columbia, 912.

- Soya bean cake, quality, evaluation, 38.  
 Soya bean flour, effect on bread, 36.  
 supplement to milled diet, 617.  
 Soya bean meal, extracted, quality, evaluation, 38.  
 for broilers, partly replaced by feather meal, 273.\*  
 for pigs, compared with cottonseed meal with different supplements, 560\*, 1137.  
 effect of antibiotics, vitamin B<sub>12</sub> and cobalt, 564.\*  
 for turkeys, effect of replacing by cottonseed meal, 1137.  
 groundnut meal and cottonseed meal, blended, for pigs, 561.\*  
 hexane- or trichloroethylene-extracted, for pigs, effect on growth and reproduction, 1128.  
 protein, nutritive value (rat), 166.  
 Soya bean oil, estimation in mixture, 21.  
 treated with phytic acid, toxicity (rat), 749.  
 unsaponifiable matter, 21.  
 Soya bean sterols (see under *Sterols*)  
 Soya milk, iron content, 41.  
 Spain  
 agriculture, index numbers, 259.\*  
 cattle improvement by selective breeders' associations (book), 1160.  
 colours in foods, permissible, 891.  
 dates, dried, composition, 913.  
 food costs and food industry, development, 1064.  
 height of men in Galicia, 1034.  
 pigs, capacity for fattening, red Spanish breed, 531.  
 preservatives, in flour and flour products, 883.  
 spices, composition, morphology and microscopically, legislation and impurities, 914.  
 vitamin A content of foods, 927.  
 Spasmodic, minerals in blood and cardiovascular fluid (man), 873.\*  
 Specific dynamic action (see under *Energy exchange*)  
 Speech defect, excretion of vitamin B<sub>1</sub> in urine, 564.\*  
 Spinoglycin, estimation in milk, 592.  
 Spices, composition, morphology and microscopically, legislation and impurities, Spain, 914.  
 Spinach, protein, nutritive value (rat), 420.  
 Spinal cord (see *Nervous system, central*)  
 Spleen  
 activity, effect of vitamin D (rat), 63.  
*Sparganosis* (larvae), 45.  
 disorders, abscesses, production by folic acid deficiency (rat), 270.\*  
 enlargement, with anaemia and hepatomegaly, Arabia, 193.  
 $\beta$ -glucuronidase, effect of vitamin B<sub>12</sub> (rabbit), 86.  
 in diet, protection against X-ray damage to skin (rat), 465.  
 role in iron absorption and storage (rat), 1017.  
 Sprue  
 enzymes, in duodenal secretion and faeces, 785.\*  
 non-tropical, fat absorption (man), 132, 133.  
 relation to disorders of circulation (man), 668.  
 syndrome, review, 792.\*  
 treatment with folic acid, 203.  
 tropical, foetile epithelium, cytological changes, 1081.  
 vitamin B<sub>12</sub>, radio-active, excretion test, 1082.  
 Squalene, effect on fatty acid formation in blood (man), 707.  
 effect on skin sterols (mouse), 142.  
 Squid (see under *Molluscs*)  
 Standard of living, evaluation of components, 765.\*  
 Stannous fluoride, in dentrifice, effect on fluoride in urine (child), 587.\*  
 Stars  
 analysis, differential thermal, 585.\*  
 estimation, 871.  
 in barley and malt, 307.  
 in cereals, 557\*, 585.  
 in woody tissues, 585.  
 in rye flour and rye and wheat bread, breakdown, effect of moisture and capillary material, 36.  
 iodine absorption, estimation, 307.\*  
 maize, hydrolysis, effect of acid concentration, 871.  
 of different origins, as sago, digestibility *in vitro*, 748.  
 structure, study methods, 307.\*  
 sweet potato, digestibility (rat), 748.  
 Starch equivalent, roughage, relation to lignin content and material insoluble in dilute hydrochloric acid, 890.  
 versus net energy, 800.  
 Starvation (see also *Fasting*; *Under-feeding*)  
 after surgical operation, 790.\*  
 effect on liver composition (guinea pig), 481.  
 effect on liver phosphorus fractions (rabbit), 433.  
 effect on metabolism of adipose tissue *in vitro* (rat), 450.  
 organ weights, influence of adrenal (mouse), 110.  
 protein breakdown (rat), 909.  
 refeeding, protein and ribonucleic acid in liver (rat), 450.  
 Statistical methods, double reversal (switch-back) trials, with more than two treatments, 889.  
 estimation of safe dose of chemicals in foods, 888.  
 factor analysis of properties of foods, 888.  
 for microbiological assays on large plates, 29.  
 in medicine, 320.\*  
 observer errors in measurement of leg length differences, 320.  
 sampling, errors in diet survey, estimation by electronic computer, 888.  
 value of repeated observations, 889.  
 slope-ratio assays, nomograms, 31.  
 Stearic acid, metabolism during lactation (goat), 843.\*  
 Steatorrhea  
 creatinuria, effect of tocopherol (child), 1163.\*  
 definition, 505.  
 diagnosis, 505.  
 4- and 12-day fat balance periods, 214.  
 etiology and mechanism, review, 793.\*  
 in kwashiorkor, 563\*, 1071.  
 relation to disorders of circulation (man), 668.  
 role of massive diverticulosis of small intestine, 783.\*  
 treatment by diet, 605.  
 with megaloblastic anaemia and coeliac disease, case report, 204.  
 Stere(s) (see *Cattle, beef*)  
 Sterility (see also *Fertility*; *Reproduction*)  
 in cattle, 1121.\*  
 Steroids, adrenal, cortico-, excretion, in pancreatic acid deficiency (rat), 947.  
 metabolism, effect of searvy (guinea pig), 959.  
 production, *in vitro*, effect of pancreatic acid deficiency (rat), 946.  
 synthesis, effect of ascorbic acid and ultraviolet light, 383.  
 Steroids  
 cortico-, metabolism in liver, mechanism of ascorbic acid-dehydroascorbic acid participation, 1164.\*  
 secretion, effect of pancreatic acid deficiency, 1164.\*  
 keto-, in urine (man), 975.  
 17-keto-, excretion, in normal and undernourished subjects, 563.\*  
 in tropics (man), 684.\*  
 in urine, effect of undernutrition (human), 985.  
 in adults, Pakistan, 677.  
 related to vitamin D, effect on calcium fixation, 270.\*  
 separation, 24.\*  
 sex, effect on tryptophan metabolism (rat), 369.  
 A<sup>2</sup>-Steroids, conversion to provitamin D, 632.  
 Steroid derivative, activated clay and cholesterol, rickets-preventing substance, 632.  
 Sterol(s) (see also specific sterols, e.g., *Cholesterol*)  
 absorption (rat), 389.  
 and effect on fat digestibility (rat), 709.  
 chemistry and biochemistry, 549.\*  
 estimation, 592.  
 excretion, faecal, on fat-free diet (rat), 592.  
 metabolism (rabbit), 1165.\*  
 plant, detection in butter, 597.  
 effect on blood lipids, 272.\*  
 effect on lipid excretion, 1164.\*  
 soya bean, absorption and metabolism (rat), 1009.  
 effect on cholesterol metabolism (rabbit, rat), 710.  
 effect on plasma cholesterol (man), 1163.\*  
 Stomach (see also *Digestive tract*)  
 acidity (see also *Stomach secretion*)  
 effect of hunger dystrophy, 484.  
 estimation (man), 885.\*  
 without tube, 597, 598.  
 bovine, compartments, post partum development, 564.\*  
 cancer (see under *Cancer*)  
 disorders, cascade stomach, production of anaemia, 507.  
 in children, incidence in parents, their siblings and grandparents, 793.  
 mucosa, atrophy, biopsy examination, 207.  
 with surgery, nitrogen and mineral balances, role of pyloric stenosis (man), 1010.  
 emptying time, effect of different ions (man), 965.  
 effect of environmental temperature (rat), 667.  
 effect of ion exchange resins (man), 99.  
 for milk or apples with and without bread (child), 964.  
 fundus and pylorus, vitamin B<sub>12</sub>-binding factor (man, pig), 849.\*  
 hunger contractions, effect of glucagon (man), 98.  
 lesions caused by phenylquinolinecarboxylic acid, effect of vitamin P, 384.  
 micro-organisms, hydrogenation of unsaturated fatty acids (mammals), 415.  
 motility, effect of acid in duodenum (man), 965.  
 mucin extract, effect on blood lipids (rabbit), 1008.  
 mucosa, changes in anaemia, pernicious, 849.\*  
 extracts, proteolytic activity, 270.\*

- Stomach**  
mucosa, histological picture and vitamin B<sub>12</sub>-binding substance concentration (man), 499.  
in iron deficiency anaemia, 506.  
muscle, composition, 849.\*  
operations, effect on blood cells, 504.\*
- Stomach removal**  
acid base balance (man), 723.  
and related operations, effect on nitrogen and fat assimilation (dog), 387.  
complete deficiency syndrome, 794.  
diet treatment, 794.  
effect of intrinsic factor on vitamin B<sub>12</sub> absorption (rat), 376, 952.  
effect on iodine absorption (man), 966.  
effect on metabolism (man), 696.  
effect on vitamin B<sub>12</sub> absorption (rat), 376.  
followed by low blood sugar (man), 693.  
haematological studies (man), 504.\*  
incidence of anaemia, megaloblastic, and use of vitamin B<sub>12</sub> (man), 1080.  
partial, post-cibal signals, relation to sideropenia and anaemia, 215.  
production of anaemia, megalocytic (man), 1080.  
production of anaemia, megaloblastic, 781.  
total, effect on iron absorption, 507.  
vitamin B<sub>12</sub> excretion in urine (man), 206.  
treatment of anaemia, 797.
- Stomach, role in control of drinking**, 445.\*  
ruminant, function of reticulum, 100.
- Stomach secretion** (see also *Stomach, acidity*)  
achlorhydria, effect on digestive tract epithelium, 500.\*  
vitamin B<sub>12</sub> excretion in urine (man), 206.  
acid, utilisation of salicylic acid and vitamins, 1167.\*  
anacidity (man), 904.\*  
effect of carbonated water (man), 98.  
effect of coffee, filtered or unfiltered (man), 387.  
effect of histamine and insulin (man), 964.  
effect of insulin (man), 387.\*  
effect of pantothenic acid deficiency (man), 202.  
effect of vitamin D (rat), 635.  
electrophoresis, 320, 337.  
estimation, without tubes, 885.  
intrinsic factor, evaluation, 1164\*.  
1165.\*  
protein constituents (dog), 98.  
proteolytic activity, 270.\*  
vitamin B<sub>12</sub>-binding substance, relation to mucosa histology (man), 499.
- Stomach, topography** (cattle), 90.\*
- Tube**, 885.
- Ulcer** (see under *Ulcer*)
- Storage**  
alfalfa meal, effect of fats and oils on carotene content, 920.  
loss of carotene, effect of moisture content, 633.  
alfalfa pellets, effects of spontaneous combustion, 607.  
butter, development of off-flavour, 640.  
flavour, effect of copper, 324.  
oxidised flavour, effect of ascorbic acid, 333.  
cereals, and legumes, effect on vitamin B complex, 360.  
mould growth, effect of oxygen and carbon dioxide concentration, 604.\*  
effect on quality, 604.\*  
cold (see *Refrigeration*)  
confectionery, 384.  
crops, green, dried, prevention of carotene loss, 351.  
effect on carotenoids of orange juice, 625.
- Storage**  
effect on vitamins in multivitamin preparations, 918.  
eggs, effect on vitamin B<sub>12</sub> content, 379.  
feedstuffs, effect on vitamin A content, 61.  
fish liver oil, vitamin A in liver as criterion of stability (chicken), 346.  
fish, insect pests, Uganda, 324.\*  
forages, dried, effect on carotene content, 351.  
groundnuts, effect on proteins, 38.  
hake, (*Merluccius merluccius*), effect on composition, 907.  
linseed meal, effect on composition and properties, 896.  
liver oil concentrates, loss of vitamin A, effect of metal ions, 920.  
milk sweets, Indian, 35.\*  
pears, anoxys, starch-splitting, 49.\*  
peas, Southern, effect on ascorbic acid content, 384.  
potatoes, 37, 851.\*  
sweet, effect on moisture and vitamin contents, 63.  
poultry meat, quality, effect of grain.  
fish scables, vitamin B<sub>12</sub> and aureomycin in diet, 379.  
problems, 33.\*  
tomatoes, effect on galacturonic acid content, 584.\*  
wheat, effect of moulds, 36.
- Straw** (see also under specific type, e.g., *Oat, straw*)  
alkali-treated, for cows, 622.\*  
for ewes, 625.  
nutritive value, 853.\*  
as substitute for hay, effect on digestibility of ration (sheep), 802.  
absorption by cattle, effect of valeric and isovaleric acids, 966.  
rice, utilisation of nitrogen, calcium and phosphorus, 853.\*  
treatment preparatory to feeding, 1104.  
treatment with alkali, 1104.
- Streptococcus plautorum**, utilisation of pantothenic acid, 372.
- Streptococcus faecalis**, growth, effect of pyridoxamine and  $\alpha$ -ketosides, 945.  
synthesis of pyridoxal-5-phosphate, 943.
- Streptomyces B-1354**, production of unidentified growth factor, 559.\*
- Streptomyces hachijensis**, fermentation waste liquor, isolation of vitamin B<sub>12</sub>, 375.
- Streptomycin** (see under *Antibiotics*)
- Stress**  
adrenal function, effect of ascorbic acid and glutathione (mouse, rat), 93.  
effect of vitamin B<sub>12</sub> deprivation on reaction (rat), 270.\*  
effect on ascorbic acid in adrenals (infant, rat), 383.  
effect on ascorbic acid in blood (rat), 383.  
effect on response of riboflavin and pantothenic acid deficiency (dog), 938.  
exposure to cold, effect of vitamin B complex, vitamin B<sub>12</sub> and ascorbic acid on blood and urine composition (man), 778.  
metabolism, role of fat, 1162.\*  
recovery of adrenals, effect of diet on cholesterol content (rat), 340.  
thyroid, nutritional studies (rat), 1162.\*
- Strongyloides** spp. (see under *Helminths*)
- Strontium**, absorption from intestine, effect of amino acids (rat), 1163.\*  
accumulation in bone, effect of calcium and phosphorus intake (rat), 713.  
estimation, in whisky, 696.\*  
in plants and soils, 339.\*  
metabolism (rat), 713.  
in man, 713.
- Strontium**  
retention in bone (mouse, rabbit, rat), 713.  
Succinyl, 854, 892.  
Succinate, formation from propionate, by carbon dioxide fixation in rumen epithelial tissue (sheep), 270.\*  
oxidation, by liver homogenates, effect of nicotinamide in diet (rat), 76.
- Suckling** (see under *Lactation*)
- Sucrose** (see also under *Sugar*)  
effect on enamel solubility from tooth, 1090.  
effect on incidence of diabetes after alloxan (rat), 121.  
estimation, in chocolate, 16.  
intake, high, production of caries, effect of calcium content of maternal diet (cotton rat), 1050.  
intraperitoneal injection, effect on body water and electrolytes (rat), 446.  
Sudan grass, silage, composition, digestibility and feeding value, 339.\*
- Sugar(s)** (see also *Carbohydrates* and specific sugars, e.g., *Glucose*)  
absorption by intestine *in vitro* (hamster), 448.  
by small intestine *in vitro*, 102.  
intestinal mechanism (rabbit), 101.  
secretion of phosphorus compounds (rat), 388.  
amino- (see *Amino-sugars*)  
amorphous breakdown, in cancer (mouse), 157.\*  
blood (see *Blood sugar*)  
brown, mineral and vitamin content, 913.  
cause, for baby pigs, 825.  
effect on blood potassium and phosphorus, in health and liver disorders (man), 412.  
effect on calcium utilisation (rat), 122.\*  
effect on glycogen formation in liver (rat), 694.  
effect on protein content of liver (rat), 27.  
effect on vegetative tone when injected (man), 119.  
estimation, 16, 306, 583, 871.  
in cereals, 557.\*  
in fruits, fresh and candied, and jams, 306.  
in honey, marmalade and wine, 871.  
in maize syrup, 306.  
in urine, 584.  
in woody tissues, 585.  
exchange, in isolated perfused nider (cow), 153.  
fermentation by yeast, effect of vitamin B<sub>12</sub>, 941.  
for baby pigs weaned at early age, 526.  
free, in codling muscle, estimation, 850.\*  
in bananas, 48.\*  
in cereals, 585.  
in cocoa beans, 337.  
in coffee, milk, sherry and fruit juices, 870.  
in diet or in solution, effect on alcohol intake (rat), 462.  
in fruit, 335.  
in hazelnuts, 913.  
in lens, conversion to ascorbic acid, *in vivo* (bovine guinea pig, rabbit), 89.  
in maize, basis for selection, 900.\*  
in maize syrup, 306.  
in rice and wheat flour, effect of cooking, India, 326.  
in silage making, 327.\*  
intake, effect on caries production (hamster), 557.\*  
high, effect in rats, 415.  
effect of calcium-phosphorus ratio on caries production (rat), 557.\*  
mucoprotein components, separation and estimation, 873.

- Sugar(s)  
 placental transfer (goat), 557.\*  
 (monkey, woman), 103.\*  
 production of castor oil (rat), 414.  
 reducing, estimation, in citrus juices, 871.  
 in sorbitol, 16.  
 role in caries production, 501.  
 separation, 16, 306, 584, 870.  
 tolerance (see *Blood sugar, tolerance*)  
 utilisation, by *Tachyrodus molitor* larvae, 468.  
 effect of acclimatisation to cold (rat), 413.  
 Sugar beet, composition and yield, Netherlands, 47.  
 for pigs, 1127.  
 Sugar beet leaves, and leaf silage, oxalic acid, metabolism in ruminants, 222.  
 Sugar beet products, containing oxalic acid, effect on available calcium and phosphorus of rats, 1119.  
 minerals and B vitamins, 336.  
 Sugar cane products, minerals and B vitamins, 336.  
 Sugar phosphates, separation, 870.  
 N<sub>1</sub>-Sulphamyl-N<sub>2</sub>-n-butylcarbamide, effect on islets of Langerhans in diabetes (man), 792.  
 treatment of diabetes, 792, 1093.  
 Sulphadiazine, production of haemorrhagic syndrome (chick), 69, 559.\*  
 toxicity, effect of age, nutritional state and intake of vitamins (chicken), 622.  
 Sulphate(s) (see also under *Sulphur*)  
 estimation, 536.  
 inorganic, effect on molybdenum toxicity (rat), 1163.\*  
 estimation, in biological fluids, 881.  
 in blood (cow), 330.  
 in colostrum, 330.  
 in milk, (cow, woman), 330.  
 utilisation (rat), 722.  
 interrelation with copper and molybdenum in copper deficiency in sheep and cattle, 843, 1162.  
 supplement to low-sulphur diet of chickens, effect on growth, 559.\*  
 Sulphite, utilisation when injected (rabbit), 1021.  
 Sulphonamide(s), effect on egg shell thickness (hen), 838.  
 treatment, production of nutritional deficiencies (man), 1070.  
 Sulphur  
 deficiency, soils, New Zealand, 915.  
 deposition in bone (rabbit), 722.  
 effect on utilisation of non-protein nitrogen (ruminant), 279.\*  
 estimation, in biological material, 27.  
 fate in chickens when given by mouth or injected, 722.  
 from methionine and cysteine, metabolism (chicken embryo), 741.  
 from methionine sulphoxide, metabolism (rabbit, rat), 722.  
 in hair, African, normal and in kwashiorkor, 270.\*  
 in wines, Italy, 917.  
 incorporation by *Torula*, 1040.  
 injected as methionine and cysteine, distribution in tissues (rat), 1021.  
 injected as taurine, metabolism (rat), 1003.  
 inorganic, metabolism (dog, guinea pig), 160.  
 (chickens), 559.\*  
 intake, and acid in urine (man), 1021.  
 metabolism, body pigs, 1162.\*  
 in rumen (sheep), 671.  
 of rumen micro-organisms *in vitro*, 441.  
 relation of fluorine (chicken, rat), 1163.\*  
 Sulphur  
 organic and inorganic, incorporation into cartilage, bone and teeth (rat), 722.  
 radio-active, bone metabolism (dog), 848.\*  
 uptake, in scurvy (guinea pig), 270.\*  
 requirement, of connective tissue cells *in vitro*, 447.  
 of lambs in terms of methionine, sodium sulphate and elemental sulphur, 1121.  
 role in metabolism, 150.\*  
 uptake by vascular tissue, 272.\*  
 Sulphuric acid, pure or with chlorobenzolsulphonic acid, toxicity (rat), 1048.  
 Sulphydryl compounds, effect on acetoin formation from pyruvate and acetaldehyde, 930.\*  
 Sulphydryl group(s), estimation, 874.  
 in wheat proteins, 47.  
 in wheat proteins, effect on baking quality, 47.  
 Sunflower seeds, pectin and polysaccharides, 336.  
 Sunflower meal, for laying hens, 542.  
 Sunflower silage, composition, digestibility and feeding value, 339.\*  
 Sunlight, effect on vegetable lipids, 896.  
 relation to cancer incidence, America (U.S.), 787.  
 Suprarenal (see *Adrenal*)  
 Surface-active agents  
 effect on digestibility of all-hay ration (heifer), 1104.  
 effect on growth (turkey), 254.  
 for poultry, effect on growth, efficiency and mortality, 1140.  
 polyoxyethylene (20) sorbitan monoesterate, fate in rats, 1024.  
 Tween 40, effect on biotin availability for *Lactobacillus arabinosus*, 949.  
 Surgical operations, gastro-intestomy, production of anaemia, megaloerythroid, 1080.  
 laparotomy, effect on vitamin B<sub>12</sub> metabolism (woman), 777.  
 taussilectomy, haemorrhage, control by vitamins K and C (child), 786.  
 Surgical patients  
 amino acid excretion (man), 128.  
 blood protein and urea, effect of liver extract and protein hydrolysate, 213.  
 diet, treatment after gastrectomy, 794.  
 fat infusions as source of energy (child), 790.  
 infusions of protein hydrolysates, effect of addition of sugars, 956.  
 iron and magnesium balance during gastro-intestinal drainage, 1010.  
 metabolic balances with parenteral feeding, 696.  
 mineral and nitrogen metabolism, 1010.  
 nitrogen loss, effect of hormones, 996.  
 nutrition, 213\*, 558.\*  
 post-operative care, dehydration and starvation, 790.\*  
 treatment of pain with vitamin B<sub>12</sub>, 784.  
 wound healing, delayed, metabolism of vitamin C, 209.  
 Suslik, *Spermophilus* sp., response to change in environmental temperature, 410.  
 Sweat  
 collection (man), 600.\*  
 composition, during acclimatisation to heat (man), 434.  
 peptides (man), 309.  
 rate, relation to body temperature when heat loss is small (man), 1164.\*  
 salt concentration, effect of exercise (man), 978.  
 sodium and potassium excretion (man), 678.\*  
 sodium concentration (man), 977.  
 Sweat glands, rate of response to salt depletion (man), 438.  
 Swede turnips, for cows, comparison with fodder beet, 1117.  
 Sweden  
 agricultural productivity, estimation, 256.  
 breast feeding, duration, 271.\*  
 children, welfare service, 178.  
 Sweet potatoes (see *Potatoes, sweet*)  
 Sweetening substances, non-caloric, use in weight reduction, 1092.\*  
 sorbitol, for diabetic patients, 701.  
 Swill (see *Waste products*)  
 Switzerland  
 (cheese), amino acids and fatty acids, 903.  
 Commission for Nutrition, Food Laws and Food Control, Third Report, 502.  
 fodder, drying, 606.\*  
 fruit juice industry, development, 481.  
 hay and pasture plants, cobalt content, 620.  
 silage making and use, 805.  
 Syphilis, serological reactions, effect of vitamin B<sub>12</sub>, 1077.  
 TACHYSTEROOL, and vitamin D precursor, interconversion, 63.\*  
 Tadpole (see under *Amphibians*)  
 Tallow, beef (see *Beef tallow*)  
 Tamarind, role as supplement to poor rice diet, 168.  
 Tanganyika, cattle, fluorosis, 264.  
 livestock, mineral imbalance, 853.\*  
 Tankage, for pigs, 273.\*  
 Tannin, estimation, in foods, 24.  
 in acorn, toxicity when injected (calf, mouse, rabbit), 1160.  
 in cocoa, coffee and tea, per cup, 837.  
 Tannin, cattle and sheep, trace element deficiencies  
 cobalt deficiency in lambs, 262.  
 goitre (man), 795.  
 endemic, in children, antithyroid substance in milk, 784.  
 Taurine, cystinesulphonic acid as precursor (rabbit), 1021.  
 metabolism (rat), 703, 1003.  
 Tea, composition and properties, review, 917.\*  
 effect on dental caries (rat), 1163.\*  
 sodium, caffeine and tannin content per cup, 337.  
 Tea leaves, vitamin P content, 985.\*  
 Technique, laboratory, approved (book), 266.  
 Teeth  
 and diet, lecture, 788.  
 attrition, effect of urbanisation, Greenland, 210.  
 calcification, effect of salivary gland extract (rabbit), 1012.  
 calcium and alkaline phosphatase, effect of fluorine (rat), 147.  
 Teeth, caries  
 America (U.S.), children, 787.  
 college students, 787.  
 students and schoolchildren, 788.  
 and diet, recent research, 787.\*  
 Australia, 788.  
 control by addition of fluorine to drinking water, 501\*, 789.  
 control by addition of fluorine to drinking water or milk (child), 789.  
 review, 501.\*  
 control by restriction of carbohydrate intake, problems associated with education programme, 789.  
 detection (man), 601.\*  
 early histological changes (rat), 752.

- Teeth, caries**  
 effect of diet (rat), 752.  
 after salivary gland removal (hamster), 557.\*  
 and environment (rat), 171.  
 effect of ethylenediamine tetra-acetate and food intake (rat), 557.\*  
 effect of fluorine, 788.  
 effect of food ash (hamster), 171.  
 effect of maize diets of different fineness (rat), 171.  
 effect of pituitary removal (rat), 171.\*  
 effect of sugar, 501.  
 (hamster), 557.\*  
 effect of tea (rat), 1163.\*  
 effect of topical fluoride in district with fluoride-bearing water supply, 502.  
 evaluation without descalcification (rat), 601.  
 France, children, 1089.\*  
 in children, effect of fluorine in drinking water, 1089.  
 prevention, dental clinics, 1089.\*  
 prophylaxis, 1089.  
 in fluoride and non-fluoride areas, 850.\*  
 incidence, effect of frequency of feeding (rat), 752.  
 effect of lysine intake (rat), 424.  
 effect of whole wheat ash (hamster), 711.  
 in different strains (rat), 557.\*  
 relation of non-protein nitrogenous constituents of saliva and blood (child), 557.\*  
 relation to calcium: phosphorus ratio of diet (rat), 1050.  
 Netherlands, 1108.\*  
 on high-sucrose diet, effect of calcium content of maternal diet (cotton rat), 1050.  
 prevention, by sodium and stannous fluoride in dentifrice, 557.\*  
 by sodium silicofluoride and fluoride, 780.  
 production, by sugar, effect of calcium: phosphorus ratio (rat), 557.\*  
 effect of sucrose on enamel (man), 1090.  
 relation to composition of teeth and diet (rat), 466.  
 relation to diet, discussion, 788.  
 relation to *Lactobacillus acidophilus* in mouth (hamster), 743.\*  
 relation to phosphatase content of saliva (man), 787.
- Teeth, cholesterol and lipid contents (man), 980.**  
 composition (hamster), 682.  
 relation to diet and blood composition (cotton rat, rat), 270.\*  
 dentine, and enamel, amino acids (man), 981.  
 calcification, effect of extract from saliva (rabbit), 1013.  
 effect of parotid gland extract (rabbit), 1012.  
 effect of fluorides *in vitro*, 147.  
 electron microscopy, 558.\*  
 in tryptophan deficiency, 557.\*  
 depigmentation, effect of methylene blue and vitamin E as supplements to low-fat (rat), 933.  
 development, effect of aureomycin (hamster), 557.\*  
 on diets containing fish liver oils, effect of vitamin E (rat), 67.  
 disorders (see *Teeth, caries*); and for periodontal disease, under *Mouth conditions*  
 effect of nutrition, 558.\*  
 effect of tryptophan deficiency (rat), 557.\*  
 enamel, effect of fluoridation on solubility (man), 1090.  
 effect of sucrose on solubility (man), 1090.
- Teeth**  
 enamel, electron microscopy, 558.\*  
 fluorine uptake (man), 557.\*  
 nitrogen content, effect of ageing, 557.\*  
 pigmentation, effect of rachitogenic high-calcium diet in vitamin E deficiency (rat), 557.\*  
 extraction, wound healing, effect of magnesium intake (hamster), 557.\*  
 fluoride content, in areas with low fluoride in drinking water, 1091.  
 formation, radio-autography, 558.\*  
 growing, deposition of calcium (rat), 713.  
 health, effect of education campaign among schoolchildren, U.K., 1089.  
 in artificial mouth conditions, effect of glucose, 156.  
 in children, self-cleansing action of mouth, 1089.  
 in rickets, effect of cortisone (rat), 634.  
 incisors, eruption, effect of thyroid (rat), 695.  
 incorporation of sulphur, organic and inorganic (rat), 722.  
 mottling, in fluoride and non-fluoride areas, 850.\*  
 organic matrix, chemistry, 558.\*  
 proteins, amino acid content in fluorosis (rat), 557.\*  
 survey, Guatemala, children, 211.  
 North Borneo, 211.  
 Pukapuka (Danger Island), Polynesians, 787.\*  
 Siam, children, 1090.  
 Temperature, body (see under *Energy exchange*)  
 Temperature, environmental (see also *Cold*; *Heat*; *Climate*; *Tropics*; etc.)  
 effect on body lipids (mouse, rat), 137.  
 effect on heat regulation and specific dynamic action in hedgehog and suslik, 410.  
 effect on nitrogen metabolism (rat), 127.  
 effect on protein requirement (rat), 126.  
 effect of response of pigs to thiouracil, 827.  
 effect on stomach emptying time (rat), 607.  
 effect on thyroid activity (cattle), 409.  
 physiological response of cattle, 852.\*  
 range, effect on cattle, 409.  
 responses of body fluid, review, 723.\*  
*Tenebrio molitor* (see *Insects*)  
 Terramycin (see *Antibiotics*)  
 Testes (see under *Sex organs*)  
 Testosterone (see under *Hormones*, *sex*)  
 Tetany, hypomagnesaemic, effect of magnesium sulphate applied to grass (cow), 851.\*  
 post-operative, treatment with vitamin D<sub>2</sub>, insensitivity (man), 490.  
 produced by pyloric stenosis, case report (man), 1094.  
 2-Tetrahydroxybutyl-5-methyl-4-carb-ethoxyfuran, prevention of alloxan diabetes (rat), 692.
- Thailand (see *Siam*)**  
 Thiobamine, in cocoa, per cup, 337.  
**Thiouracil**  
 bacterial, production of vitamin B<sub>1</sub> deficiency (hen), 74.  
 in mollusc flesh, 74.  
 in placental tissue, human, 778.  
 in *Venerupis decussata* extract, effect of ketenes, 645.  
 Thiobamine (see *Vitamin D<sub>2</sub>*)  
 Thiamine, ali-, new derivative of vitamin B<sub>1</sub>, 939.\*  
 dihydro-, synthesis and reaction, 644.\*  
 niopry-, effect on nitrogen metabolism (rat), 74.  
 oxy-, phosphoric esters, properties, 644.\*
- Thiaminokinase, activation, effect of serum and insulin, *in vitro*, 72.**  
**Thioctic acid, effect on growth (chicken), 1138.**  
 metabolism (man), 1024.  
**Thiomethyl group(s), estimation, 874.**  
**Thiourea**  
 effect on phosphorus uptake of thyroid (chicken), 437.  
 effect on response to sex hormones (chicken), 114.\*  
 effect on thyroid, relation to protein intake (chicken, mouse), 113.  
 for pigs, effect on gain, efficiency and carcass at high or low temperatures, 827.  
 Thirst, behaviour, effect of nerve sections (dog), 462.\*
- Threonine**  
 deficiency, oxidative metabolism in liver (rat), 1026.  
 in cheese, ripening, 613.  
 requirement, of infants, 175.  
 of man, 128.  
 of women, young, 756.  
 Thrombosis, relation to lipaemia, 849.\*  
 Thymine (*Thymus vulgaris*), composition, 915.  
 Thymus, activity, effect of vitamin D (rat), 65.  
 calf, growth factors for chickens, 559.\*  
 research, review, 986.\*  
 Thyroglobulin, effect on rice moth larvae, 468.  
 Thyroid: the entries are divided into two groups:  
 (a) those relating to the thyroid as an organ;  
 (b) those relating to thyroid preparations, activity, effect of old age (rat), 719.  
 effect of environment (cattle), 409.  
 in wild deer, 684.  
 normal and in ascorbic acid deficiency, effect of exposure to cold (guinea-pig), 662.  
 relation to protein intake (chicken, mouse), 113.  
 and iodine metabolism (man), 849.\*  
 and thyrotrophin, effect on hypothyroidism with goitre, 796.\*  
 anti-thyroid substance, in milk, Tasmania, 794.  
 in pears (chicken), 170.  
 biopsy, technique, 886.  
 copper and zinc content (man), 594.  
**Thyroid disorders**  
 astasia uptake (man), 848.\*  
 blood lipids (man), 107.  
 goitre, activity of thyroid nodules (man), 404.  
 America (U.S.), history, 795.  
 Chile, children, 215.  
 copper in thyroid (man), 720.  
 endemic, Australia (man), 704.\*

 condition of schoolchildren as index, 1095.  
 etiology (man), 1094.  
 Guatemala, 795.  
 Jugoslavia, livestock, 263.  
 pyridine co-enzymes and proteolytic activity of thyroid (rat), 113.  
 Tasmania, antithyroid substance in milk, 794.  
 iodine metabolism (man), 1016.  
 Venezuelan Andes, 272.\*  
 Germany (book), 552.  
 children, effect on growth and development, 215.  
 in infants, newborn, case reports, 705.  
 Peru, Chile and Argentina, 272.\*  
 production by diet (rat), 112.  
 production by iodine in treatment of asthma, 795.

## Thyroid disorders

- goitre, production by kelp, 275.\*  
simple, Finland, incidence (man), 215.  
Spain, and among Jews, 1166.\*  
Tasmania (man), 795.  
treatment with iodized salt, 1167.\*  
treatment with thyroglobulin, 796.  
hypertyroidism, detection with radio-active iodine (man), 148.  
effect of iodide and thyrotropin (man), 272.\*  
effect of vitamin B<sub>12</sub> (rat), 86.  
experimental, influences of diet (rat), 113.  
release of thyroid hormone, effect of iodide (man), 684.  
hypo- and hypertyroidism, absorption of vitamin B<sub>12</sub> (rat), 1163.\*  
hypothyroidism, blood lipids, effect of  $\beta$ -sitosterol (man), 271.\*  
experimental, effect of vitamin A (rat), 630.  
with goitre, effect of thyrotropin and dried thyroid, 796.\*  
in children, 1094.  
myxoedema, protein formation, effect of triiodothyronine (man), 271.\*  
696.  
treatment with triiodothyronine, 796.  
effect on magnesium balance (man), 143.\*  
Thyroid, effect of chlorotetracycline (chicken), 836.  
effect of cobalt (child), 111.  
effect of adult and iron (mouse, pregnant woman, rat), 112.  
effect of fluorine (man, rat), 440.  
effect of *Bovis fructus* (rat), 685.  
effect of underfeeding (rat), 983.  
effect of vitamin A deficiency (rat), 630.  
epithelium, mitotic activity, effect of fluoride (rat), 1019.  
function, and iodine uptake, 271.\*  
evaluation (man), 886.\*  
in chickens, 563.\*  
in teleost fish, 173.  
Thyroid hormone(s) (see also *Thyroxine*)  
constituents, new, 114.\*  
3:3'-alliodothyronine and 3:3':5'-tri-iodothyronine, 984.\*  
metabolism in liver, 115.\*  
review, 115.\*  
synthesis, effect of iodine intake (rat), 114.  
Thyroid, influence on iodine uptake by salivary glands (man), 718.  
iodinated compounds, separation, 311.\*  
iodine metabolism, effect of fluorine (rat), 148.  
*in vitro*, effect of thyroid-stimulating hormone given *in vivo* (rat), 155.  
iodine turnover, high, without thyrotoxicosis, 506.  
iodine uptake, in 24 hours, variability (man), 112.  
in infants, premature, 983.  
phosphorus uptake, effect of pituitary hormones and iodine deprivation (chicken), 437.  
physiology, 115.\*  
pyridoxine co-enzymes and proteolytic activity (rat), 113.  
relation to adrenal in cold adaptation, 403.\*  
removal, effect of thyroxine on renal clearance of iodine (rat), 148.  
role in fat metabolism (haddock), 683.  
slices, iodine metabolism (dog, man), 729.\*  
stress, nutritional studies (rat), 1102.\*  
weight, effect of phenothiazine (sheep), 685.  
Thyroidectomy (see *Thyroid removal*)

- Thyroid, active substances, effect on coccidiosis in poultry, 550.  
dried, effect on eruption of incisors (rat), 685.  
effect on nicotinamide metabolism (rat), 943.  
Thyrotropin (see also *Iodinated protein*)  
effect on growth of chickens, 833.  
effect on oxygen consumption (chicken), 887.  
Thyrotrophic hormone (see under *Pituitary, anterior*)  
Thyroxine (see also *Thyroid*)  
binding capacity of serum (man), 113.  
effect on basal metabolism and respiratory phosphorylation (guinea-pig, rat), 404.  
effect on glycogen and ascorbic acid contents of interscapular fat (rat), 91.  
effect on growth and feed efficiency (pig), 243.  
effect on growth of pigs receiving antibiotics, 244.\*  
effect on lipid content of liver (rat), 949.  
effect on lipotropic activity of pantothenic acid (rat), 371.  
effect on lipotropic activity of vitamin B<sub>12</sub> (rat), 377.  
effect on metabolic response to environmental temperature (rat), 989.  
effect on oxidase, monoamino-, of liver (guinea-pig, rabbit, rat), 945.  
effect on response to sex hormones (chicken), 114.\*  
effect on rice moth larvae, 468.  
effect when given with glucose (rat), 122.\*  
influence on lipotropic effect of methionine (rat), 114.  
labelled, synthesis and uses, 848.\*  
liberation from iodinated casein, liver as site (rat), 983.  
prevention of goitre, comparison with triiodothyronine (chicken), 685.  
production and mobilisation, effect of vitamin A, 345.  
secretion rate, and plasma cholesterol (rat), 405.\*  
in turkey poult, 405.\*  
separation and estimation, 314.\*  
treatment of glycogen storage disease (infant), 693.  
Thyroxine analogues, effect on thyroxine binding by serum protein (man), 114.  
metabolic activity *in vitro*, 405.\*  
Timothy hay, amino acids, effect of maturity, 50.  
Tin, estimation in fish and meat conserves, 595.\*  
Tissue(s) (see also *Cells* and specific tissues, e.g., *Brain tissue*; *Muscle*)  
abnormalities, production by vitamin B<sub>12</sub> deficiency in maternal diet (infant rat), 375.  
active transport and metabolism of electrolytes, 850.\*  
ascorbic acid content, effect of amino acids, sulphur (rat), 91.  
effect of casein in diet (guinea-pig), 956.  
cells, amino acid metabolism, *in vitro*, 727.\*  
culture medium, 152.  
fibroblasts, inositol requirement, *in vitro* (mouse), 1088.  
glutamine requirement, *in vitro*, 737.  
in inflammatory disorders, effect of vitamin B<sub>6</sub> deficiency, 368.  
cell fractions, vitamin K, distribution (chicken), 936.  
chopper, 601.\*

- Tissue(s)  
coenzyme A content, normal and in scurvy (guinea-pig), 956.  
connective, chemistry, 1161.\*  
culture, amino acids from casein hydrolysate, 1165.\*  
effect of excess vitamin A, 630.  
basal requirement (man), 156.  
dephosphorylation of vitamin phosphates *in vitro* (rat), 270.\*  
epithelium, corneal, mitochondria, effect of vitamin A deficiency (mouse), 921.  
uptake of radio-active phosphorus, normal and in anaemia (rat), 156.  
formation, character after overfeeding (man), 478.  
glucose metabolism *in vitro*, effect of pH, 1027.\*  
histological changes in hyperglycaemia produced by dehydroascorbic acid (rat), 959.  
lesions produced by dicoumarol derivative, effect of vitamin E (rabbit), 935.  
lymphoid, vitamin C content, effect of adrenal and pituitary hormones (rat), 382.  
lysozyme activity, effect of ascorbic acid deficiency (guinea-pig), 91.  
menstrual, disorders, with haemorrhage, part played by vitamin E, 1075.\*  
metabolism, effect of potassium, 726.\*  
oxygen consumption, effect of vitamin E deficiency (rabbit), 67.  
role of lactic acid, 271.\*  
mineralised, microstructure and histochemical characteristics, 558.\*  
mouth, protein metabolism (rat), 164.  
osmotic regulation, *in vitro*, effect of insulin (rat), 1028.\*  
oxygen consumption *in vitro*, effect of insulin *in vivo* (rat), 123.  
protein turnover, 1028.  
respiration, effect of plant juices in diet, 1164.\*  
ribonucleic acids content, effect of vitamin A deficiency (rat), 57.  
salacious, vitamin D precursors, identification (guinea-pig, mouse), 929.  
vitamin A alcohol and ester, partition (rat), 925.  
vitamin E content, effect of vitamin E intake (rat), 687.  
Tissue homogenates, nicotinamidase activity (rabbit, rat), 365.  
Toad (see under *Amphibians*)  
Tobacco, effect on epithelial tissue of vitamin-deficient mice, 623.\*  
Tobacco seed cake, for cattle, 853.\*  
Tocopherol(s) (see also *Vitamin E*)  
deficiency, effect on blood haemolysis, *in vitro* (child), 775.  
in pelleted diets (mouse, rat), 933.  
phosphorylation efficiency (rabbit), 1164.\*  
effect on activity of cytochrome c reductase, 68.  
effect on cretinism in steatorrhea (child), 1163.\*  
estimation, in cereals, 355.  
in blood, in pregnancy (woman), 107.  
in colostrum and milk, 640.  
in egg yolk, effect of supplements (turkey), 254.  
in milk and butter, seasonal variation, India, 927.  
metabolism, effect of liver disease (man), 558.\*  
prevention of encephalomalacia (chicken), 357.  
supplement to mushroom diet for rats, 932.  
treatment of heart disorders (man), 776.

- $\alpha$ -Tocopherol, effect on glutathione in blood (man), 776.  
 effect on glycolysis by bone marrow homogenates (rat), 630.  
 effect on muscle degeneration (chicken), 559\*.  
 effect on sensitivity of muscle to potassium (frog), 639.  
 estimation in blood (man), 931.  
 for horses, effect on reproduction and racing performance (rat), 630.  
 treatment of cardiovascular and renal diseases (man), 776.  
 treatment of cystic fibrosis of pancreas and biliary atresia, effect on creatinuria, 1075.  
 treatment of heart disease, congenital, 776.  
 treatment of pruritus ani, 777.  
 $\alpha$ -Tocopherol succinate, treatment of cat and dog disorders, 639.  
 $\gamma$ -Tocopherol, separation from bran, 355.  
 $\eta$ -Tocopherol, in rice, 635.  
 $\alpha$ -Tocopheryl phosphate, effect on carotenes and vitamin A in blood (dog), 636.  
 effect on reduction of cytochrome c by ascorbic acid, 832.  
 estimation by paper chromatography, 635.  
 Tomato(es)  
   composition, South America, 40.  
   galacturonic acid content, effect of storage, 584\*.  
   solids, estimation, 883.  
   vitamin C content, 94.  
 Tomato juice, vitamin C content, recommended standard, 1086.  
 Tomato puree, preservatives, microbiological study, South America, 49.  
 Tongaland, palm wine in human nutrition, 270\*.  
 Tongue, condition, for nutritional status assessment, 766.  
 ultraviolet fluorescence, in mental disorders, 491.  
 Tortoise meat, for silver foxes, 830.  
*Torula utilis* (see under *Yeasts*)  
 Trace elements (see also *Minerals* and individual elements, e.g., *Cobalt*) and blood formation in infants, 1065.  
 deficiencies, in non-pasture plants, Tasmania, 503\*.  
   in pastures, Tasmania, 916\*.  
 effect on growth and blood composition (heifer), 562\*.  
 effect on growth of calves on adequate ration, 1111.  
 effect on vitamin content of turnip leaves, 953.  
 for fattening cattle, relation to protein level, urolasas and quality of hay, 1109.  
 for plants and animals, congress report, 328\*.  
 from feed to food, 610\*.  
 in animal nutrition, review, 711\*.  
 in cereals and vegetables, tables, 616.  
 in feedstuffs, East Africa, 333.  
 in foods, 270\*.  
 in plant and animal nutrition, bibliography, 1167\*.  
 toxic, in foods, review, 328.  
 with phenothiazine, effect on resistance to worm infestation (lamb), 1156.  
 Transaminase(s), activity, in liver, effect of iso-nicotinic acid hydrazide and vitamin B<sub>6</sub>, 270\*.  
   in placenta, maternal and foetal blood (woman), 495.  
   effect on sex hormones (rat), 97\*.  
   glutamic oxalacetic and glutamic pyruvic, estimation in blood, 817\*.  
   in cheese, ripening, 903.  
 Transamination, effect of vitamin B<sub>6</sub> (rat), 649.  
 electrophoretic studies, 78.  
 reactions with  $\alpha$ -keto acids, effect of pyridoxamine, 945.  
 Transferrin (iron-binding globulin), detection in blood and urine, 308.  
 Transmethylase, betaine-homocysteine, in liver, effect of protein intake (rat), 962.  
   in liver, effect of vitamin B complex deficiency (rat), 377.  
   effect of vitamin B<sub>12</sub> in diet (rat), 951.  
 Trassi, fermented food, vitamin B<sub>12</sub> content, 88.  
 Trauma (see *Injury*)  
 Tree leaves, nutritive value, 853\*.  
 Trefoil, birdsfoot (see under *Legumes*)  
 Triazines, 1: 2-dihydro-s, activity in formation of citrovorum factor from pteroylglutamic acid, 652.  
 Tributyrinase, in liver and pancreas, effect of vitamin C *in vitro* (guinea pig), 90.  
 Tricarboxylic acid cycle, effect of ascorbic acid and ferrous ions, 90.  
 oxidation, effect of vitamin E, 1163\*.  
 Trichloroethylene, metabolism in calves, 725.  
 Trichonymy, fermentation waste liquor, isolation of vitamin B<sub>12</sub>, 375.  
*Trichosurus vulpecula* (see *Possum*)  
 n-Tridecanoic acid, in butterfat, 613.  
 N, N', N'' Triethylene phosphoramidate, effect on tumour growth, influence of diet (rat), 732.  
*Trifolium subterraneum* (see *Clover, subterranean*)  
 Triglycerides, digestion by pancreatic lipase *in vitro*, 97.  
 hydrolysis, 666.  
   structure, estimation with pancreatic lipase, 1163\*.  
*Trigonotis foenum-graecum* (see *Fenugreek*)  
 Triiodothyronine, effect on oxidase, monoamine-, of liver (guinea pig, rabbit, rat), 945.  
   effect on protein formation, normal and in myxoedema (man), 271\*, 696.  
   prevention of goitre, comparison with thyroxine (chicken), 685.  
   treatment of myxoedema, 796.  
   treatment of non-myxoedematous hypometabolism, 114\*.  
 Triolein, metabolism (monkey), 705.  
 Tripalmitin, unhydrolysed, absorption (rat), 1164\*.  
 Triplets, subvular, diagnosis from phenotypic and physiological characteristics (cattle), 1109.  
 Tritium, estimation of body water, 850\*.  
 labelled compounds, synthesis, 848\*.  
 Tromalyl, masturium preparation containing antibiotic, for pigs, 242.  
 Tropics (see also *Climate*; *Heat*)  
   blood composition (man), 1168\*.  
   cattle, behaviour, 1112\*.  
   children, feeding, sources of proteins, 270\*.  
   malnutrition, 189.  
   deficiency diseases, 558\*.  
   effects of cooling and overheating (buffalo, goat, sheep), 117.  
   growth of European-type calves, 225.  
   infants, feeding, 552.  
   17-ketosteroid excretion (man), 684\*.  
   liver disease, production by malnutrition (man), 270\*.  
   nutrition and anaemia, 1096.  
   nutritional disorders of skin, 772\*.  
   vitamin C in potatoes and sweet potatoes, 1168\*.  
*Trypanosoma evansi*, infection, effect of fasting (rat), 460.  
   effect of milk (rat), 460.  
 Trypsin  
   digestion of casein, effect of hydrogen peroxide, 386.  
   digestion of proteins, specificity, 961.  
   in pancreas, effect of dietary protein (rat), 97.  
 Tryptophan deficiency  
   effect on bones and teeth (rat), 557\*.  
   effect on dentine, 557\*.  
   histological effects (rat), 700.  
 Tryptophan, effect on anthranilic acid excretion in riboflavin deficiency (rat), 363.  
   effect on biotin metabolism (rat), 270\*.  
   effect on bone development (rat), 423.  
   effect on excretion of xanthuroic acid after adrenal or pituitary removal (rat), 423.  
   effect on indole excretion (rat), 368.  
   effect on survival time, liver glycogen and protein metabolism (adrenal-experimented rat), 1002.  
   efficiency as nicotinic acid precursor (man), 1162\*.  
   estimation, 874, 1168\*.  
   in proteins, 588.  
   in culture medium, effect on nicotinic acid content of plants, 77.  
   in eggs, germinal disc and yolk, effect of fertilisation, 905.  
   in food, utilisation (rat), 1163\*.  
   in milk, effect of processing, studies *in vitro*, 612.  
   intake, low, effect on nicotinic acid requirement (man), 200.  
   interrelation with vitamin B complex metabolites, effect of adrenal and pituitary removal (rat), 944.  
   effect of biotin, vitamins B<sub>1</sub> and B<sub>2</sub> (rat), 358.  
   effect of sex steroids (rat), 360.  
   role of riboflavin and vitamin B<sub>3</sub> (rat), 77.  
   significance of 2-amino-3-hydroxy-acetophenone (man), 422.  
   metabolites, in urine (cat, dog, man, rat), 1002.  
   relation to nicotinic acid in diet (chicken), 366.  
   requirement, effect of carbohydrate in diet (rat), 700.  
   of man, 1102\*.  
   of pigs, 242.  
   of young women, 1053.  
   role in maintaining pyridine nucleotides, nitrogen balance and growth (rat), 1162\*.  
   stability during alkaline hydrolysis of proteins, 850\*.  
   with nicotinic acid, formation of pyridine nucleotide, effect of 3-acetylpyridine 365.  
   with vitamin B<sub>12</sub>, lipotropic action (rat), 376.  
 D-Tryptophan, metabolism (man), 128.  
   utilisation by chickens, 559\*.  
 D- and L-Tryptophan, utilisation (man), 201.  
 Tryptophanase, synthesis, microbiological, vitamin B<sub>6</sub> requirement, 944.  
*Tubercle bacillus* (see *Mycobacterium tuberculosis*)  
 Tuberculosis  
   experimental, resistance, effect of diet (guinea pig), 164.  
   effect of fatty acid esters in diet (mouse), 460.  
   effect of folic acid (rat), 374.  
   effect of vitamin B<sub>6</sub>, methionine and Corbhornon (guinea pig), 357.  
   treatment with rutin (guinea pig), 385.

## Tuberculosis

- incidence, effect of nutrition, 483.\*  
 pulmonary, effect on vitamin C metabolism (man), 786.  
 sanatorium diets, 798.
- Tumour(s)** (see also *Cancer*)  
 adrenocarcinoma, transplantable, production by diet (rat), 730.  
 carcinoma, mouse-ascites, amerochrome breakdown of sugars, 167.\*  
 cells, inositol requirement, *in vitro* (man), 1088.  
 composition, electrolytes (man), 452.  
 effect of deoxyribonucleic acids (mouse, rat), 157.  
 effect of triethylene phosphoramide, influence of diet (rat), 732.  
 effect on plasma amino acids after evisceration (rat), 731.  
 effect on plasma proteins (mouse), 157.  
 Ehrlich ascites, incorporation of glycine, effect of X-rays (mouse), 848.\*  
 glycine and serine formation *in vitro*, 731.  
 growth, effect of cobalt (rat), 112.  
 effect of choline and amino acids (rat), 731.  
 hepatoma, incorporation of plasma protein (rat), 730.  
 production by butyrate (mouse), 558.\*  
 production by carcinogen, effect of diet (rat), 270.\*  
 relation to fat in diet (mouse), 730.  
 incidence, effect of Amino Acid colour (mouse, rat), 730.  
 liver, and nestle metabolism (rat), 731.  
 malignant cells, vitamin B complex requirement, 241.  
 mammary, incidence, effect of high fat intake (rat), 730.  
 induced by methylcholanthrene, effect of lactation (mouse), 730.  
 uptake of radio-active phosphorus (woman), 731.  
 sarcoma, effect of iodine compounds (rat), 158.  
 transplantable, effect of choline chloride on response (chicken), 1162.\*  
 Tung meal, detoxicated, nutritive value (rat), 749.  
 Tungsten, effect on weight loss due to molybdenum deficiency (rat), 1164.\*  
 radio-active, fate in body (mouse), 1021.  
 Turkey, vetch, litter, composition and feeding value (sheep), 803.  
 production and uses, 803.
- Turkey(s)**  
 amino acid requirements, 273.\*  
 artificial light, effect on feed intake, growth, fertility and hatchability, 273.\*  
 blood sugar, effect of insulin with or without glucagon, 991.  
 carcass quality, growth and feathering, effect of length of day, 1138.  
 disorders, enteritis in embryos, production by vitamin E deficiency, 933.  
 perosis, effect of vitamin E and inorganic phosphorus intake, 356.  
 dressing percentage and yield of edible meat, strains compared, 1142.  
 embryo (see *Embryo*)  
 fattening, effect of diethylstilboestrol and thionauril, 568.\*
- Turkeys, feeding**  
 animal fat, at different levels of protein, 1138.  
 antibiotics and arsenical supplements, 539.  
 antibiotics, at high level, 559.\*  
 barley, whole or hulls, 834.  
 cottonseed meal, to replace soya bean meal, 259, 1137.  
 effect on hatchability and fertility of eggs, 254.

## Turkeys, feeding

- grain, fish solubles, vitamin B<sub>12</sub> and B complex and antibiotics, 668.  
 high- and low-density rations, effect on quality of meat, 36.\*  
 low-protein ration, effect of amino acid supplements, 1142.  
 pasture, effect of rate of stocking, 1135.  
 vitamin E, nicotinic acid and grass juice, 272.
- Turkeys, growth, effect of diethylstilboestrol**, 539.  
 effect of sodium fluoride, 537.  
 growth factor, unidentified, sources, 536.  
 phosphorus utilisation from different sources, 537.  
 reproduction, effect of 4-nitro-phenyl-arsonic acid, 1145.  
 effect of vitamin E, N, N'-diphenyl-paraphenylenediamine and fish liver oil, 534.  
 requirements for lysine and crude protein at different ages, 1141.  
 wild, food habits, 1147.
- Turkey poults, disorders, curled tongue, relation to physical condition of diet**, 261.  
 feeding, detergents, 254.  
 penicillin, effect of water intake on response, 836.  
 sodium butonite, 558.\*  
 growth, effect of energy to protein ratio in diet, 559.\*  
 response to unidentified factors, effect of protein level and tallow, 559.\*  
 methionine requirement, 534.  
 phosphorus availability from different sources, 559.\*  
 riboflavin requirement, 559.\*  
 thyroxine output, 405.\*  
 vitamin B<sub>12</sub> and choline requirements, 378.
- Turkey meat, effect of grain, vitamins B<sub>12</sub> and B complex and antibiotics**, 658.  
 quality, effect of ration, 36.\*  
 yield of different strains compared, 1142.
- Turnip greens, composition, effect of fertility, soil, season and weather**, 911.
- Turnip leaves, vitamin content**, 623.
- Turtle (see under Reptiles)**
- Twins**  
 monozygous, grazing habits and grass consumption, Netherlands (cattle), 522.  
 growth in temperate and tropical countries (cattle), 225.  
 number of observations required, 889.  
 monozygous and fraternal, uniformity trials, 275.\*
- Tyrosine**  
 effect on phenylalanine requirement of women, 999.  
 estimation in proteins, 588.  
 metabolism, abnormal, in scurvy, role in catenar formation (guinea pig), 600.  
 role of catalase, 666.\*
- Tyrosine decarboxylase, effect of enzymic phosphorylation of vitamin B<sub>6</sub> analogues**, 368.
- Udder (see also Mammary gland)**  
 isolated and perfused, sugar exchange (cow), 163.
- Uganda**  
 blindness and other diseases, incidence, 772.  
 children, Buganda and Luo, growth and incidence of disease, 472.  
 kwashiorkor, treatment with milk and soya bean, 487.  
 rates of admission to hospital, 487.

## Uganda

- diet study, children, boarding school, 182.  
 infants, weaning, kwashiorkor incidence, 472.  
 kwashiorkor, 771.  
 serum proteins, relation to diet and malaria (man), 105.  
 Ulcer, peptic, diet treatment, 793, 1094.  
 relation to coronary sclerosis (man), 1165.\*  
 treatment, 504.\*  
 with alkali, complications, review, 1409.  
 with milk and alkali by intragastric drip, 794.  
 with vitamin U, 501.\*  
 upper digestive tract, treatment with milk by intragastric drip, 793.
- Ultrasonic vibrations, effect on milk enzymes**, 603.
- Ultraviolet light, effect on formation of corticosteroids by adrenal gland homogenates**, 382.  
 effect on mortality of young pigs, 842.  
 effect on vitamin D in tissues (rat), 270.\*  
 in food industries, 33.\*  
 sterilisation, milk, 324.\*
- Underfeeding (see also Starvation; Under-nutrition; Food intake, restricted)**  
 after calving, effect on establishment of lactation (cow), 1167.\*  
 during early lactation, effect on milk yield, and mineral and nitrogen balances (cow), 1113.  
 effect on bone structure and tissue composition (pig), 403.  
 infants, Australia, 470.  
 survival and weight loss, effect of vitamin B<sub>12</sub> (rat), 657.
- Undernutrition, bodyweight loss, effect of vitamin B<sub>12</sub> (rat)**, 645.  
 in infants, treatment, 212.  
 resistance, effect of arsenoxones (rat), 403.
- Union of Soviet Socialist Republics**  
 fluorosis, incidence near a superphosphate factory, 212.  
 fodder plants of meadows and pasture, 513.  
 fodder crops, new varieties, 1104.  
 horses, feeding, 806.  
 livestock feeding, maize, 1103.\*  
 mares, milk production and composition, 514.  
 milk, medicinal use, history, 1091.\*  
 milk production, methods for increasing, 1114.\*  
 pigs, feeding, 1130.\*  
 for meat or for land, 1130.  
 pork production per 100 hectares arable land, 1130.\*  
 sheep, karakul, mountain pasture, 238.  
 pasture management in pre-lambing period, 239.  
 pasture, free range, 239.  
 water, drinking, fluorine content, effect on incidence of fluorosis and caries (man), 1090.
- United Kingdom**  
 agricultural production (book), 267.  
 agriculture, capital investment, present and future, 840.  
 science and practice (book), 1161.  
 beef and veal production, seasonality, 1149.  
 beef production, economic survey, 256.  
 butter, home-produced and imported, vitamin A and carotenoid contents, 631.  
 children, dental caries, and fluorine in drinking water, 1089.  
 subcutaneous fat, 481.  
 underweight, social and economic background, 1065.

## United Kingdom

- coal miners and clerks, energy balance and diet study, 179.  
 Commonwealth (see specific territories, e.g., Canada)  
 diet studies, long-term periods, 474.  
 pregnant women, 269.\*  
 diet study with clinical observations, mental hospital, 1061.  
 domestic food consumption and expenditure, 1953, report by National Food Survey Committee, 474.  
 "human needs" diet, 765.  
 infants, feeding, vitamins and medications, 489.  
 welfare foods, consumption, 1073.  
 men, young, subcutaneous fat, 481.  
 milk and milk products, marketing, 185.\*  
 milk production, costs, 255.  
 National Food Survey, findings, lecture, 179.\*  
 old people, diet and social study, 760.  
 schoolchildren, dental health, education campaign, 1089.  
 sheep industry, review, 526.\*  
 United States of America (see America (U.S.))

## Urea

- addition to maize silage, effect on growth of fattening cattle, 808.  
 and molasses, for cattle, 273\*, 853.\*  
 clearance tests, effect of protein intake (man), 125.  
 effect on calcium, phosphorus and nitrogen retention (lamb), 560.\*  
 effect on nitrogen metabolism (cattle), 560.\*  
 effect on protein in urine (rat), 1003.  
 estimation, 874.  
 in blood and urine, 312.\*  
 excretion, effect of excitement and diet (kangaroo rat, rat), 131.\*  
 for cattle, 231, 273\*, 516\*, 1108.\*  
 treatment of silage, 273.\*  
 for cows, 1117.  
 on late Alpine pasture, 231.  
 for lambs, 524, 561\*, 1121.  
 for livestock, 804.\*  
 review, 804\*, 1108.\*  
 hydrolysis by rumen micro-organisms, reduction of rate by coating urea particles, 504.\*  
 in blood, effect of large meals of blood and beef protein (man), 995.  
 nitrogen utilisation by lambs, 560.\*  
 poisoning of ruminants, ammonium carbonate as possible cause, 264.  
 utilisation, by pigs, 424.  
 by rumen micro-organisms *in vitro*, effect of source of energy, 1041.  
 by ruminants, 849.\*  
 effect of carbohydrate, 560.\*  
 with short-chain fatty acids, for ruminants, 504.\*  
 Urea, N-[4-methylbenzenesulphonyl]-N'-butyl-, treatment of diabetes, 1093.  
 Uric acid, clearance, in pregnancy (woman), 1035.  
 distribution of labelled carbon from methionine (chicken), 130.  
 estimation, 272\*, 589.\*  
 excretion, on protein-free diet, effect of glycine and sex hormones (rat), 116.  
 formation, effect of vitamin B<sub>12</sub> deficiency (chicken), 1164.\*  
 in blood, in pro-oliguria (woman), 676.  
 in blood and urine (infant), 131.\*  
 metabolism, effect of protein intake (rat), 386.  
 Urine (see also under Water metabolism and under specific constituents)  
 acidity, relation to sulphur intake (man), 1021.  
 amino acids (man), 1000.

## Urine

- γ-aminobutyric acid (man), 310.  
 biotin derivatives excretion (man), 1078.  
 calculi (see Calculi, urinary)  
 collection (infant), 31.\*  
 apparatus (cow), 887.  
 composition, effect of fluoridated water (child), 716.  
 in exposure to cold, effect of vitamin B complex, vitamin B<sub>12</sub> and ascorbic acid (man), 778.  
 normal (man), 672.  
 sugar, fractionation, 415.  
 fractions, in diabetes (man), 415.  
 Uroilitiasis, in dogs, disease of calcium and phosphorus metabolism, 845.  
 Uterus, contractions, failure in sows, relation to diet, 1151.  
 endometrium, metabolism *in vitro* (woman), 1027.  
 weight, response to stilboestrol, effect of diet (mouse, rat), 1164.\*  
 Vaccinium uliginosum (see Blueberry)  
 Valeric acids, effect on utilisation of straw by cattle, 906.  
 supplement to rations of lambs and steers, 560.\*  
 Valine, effect on enzyme formation by pancreas (rat), 97.  
 requirement, of men, 699.  
 of women, young, 756.  
 D-Valine, utilisation by rats, 1003.  
 Vanaspiti, composition, 563.\*  
 Vanilla (*Vanilla planifolia*), composition, 914.  
 Veal, production in U.K., seasonality, 1149.  
 Vegetables (see also specific vegetables, e.g., Cabbage)  
 ascorbic acid content, America (U.S.), 94.  
 dried, carotene content, 631.  
 effect of γ-rays, 848.\*  
 fresh or frozen, lipids, crude, effect of sunlight, 896.  
 frozen, composition, America (U.S.), Hawaii, 918.  
 off-flavour, 38.  
 nutritive value, effect of canning, 848.\*  
 trace elements, tables, 616.  
 winter, vitamin C content, China, 94.  
 Vegetable fats (see Fats, vegetable)  
 Vegetable foods, value for rats, 747.  
 Vegetable oils (see Oils, vegetable)  
 Vegetable protein (see Protein, vegetable)  
 Vegetable soup, composition, 914.\*  
 Venerupis decussata (see under Molluscs)  
 Venzuela  
 arapa, maize bread, protein, digestibility (rat), 601.  
 coffee, nicotinic acid content, nutritional importance, 648.  
 concentrate industry, 341.  
 diet studies, institutions, 762.  
 goitre, endemic, 272.\*  
 kwaishiorok, 190.  
 Venostasin, horse chestnut extract, treatment of vascular disorders, 493.  
 Vetch, bitter (*Vicia ervilia*), green, hay, straw and silage, composition and feeding value (sheep), 803.  
 production and uses, Turkey, 803.  
 Giessen, feeding value (sheep), 223.  
 Vicia ervilia (see Vetch, bitter)  
 Vigofac, for fattening ducks, 835.  
 Vitamin(s)  
 action, recent research, lecture, 340.  
 addition to foods, 1161.\*  
 adsorption from diet, effect of charcoal (chicken), 341.  
 and adrenal function, 1161.\*  
 and bone, recent research, 621.\*  
 and fetal growth, 1072.  
 Vitamin(s)  
 and hormones, 379.\*  
 advances in research (book), 556.\*  
 and infection, 558.\*  
 and liver protection, 622.\*  
 and nutrition, recent research, 770.\*  
 and resistance to fowl typhoid (chicken), 558.\*  
 and the nervous system, 621.\*  
 and the skin, 621.\*  
 antivitamins, antimetabolites and chemotherapies, 622.\*  
 biosynthesis, in higher animals, 52.\*  
 clinical use (animals), 622.\*  
 coenzymes related to, in health and disease (man), 1161.\*  
 Vitamin deficiency (see also Deficiency diseases; Scurvy; Rickets; and under specific vitamins)  
 and alcoholism, 269.\*  
 and predisposition to infection, 558.\*  
 carbon incorporation into proteins, 271.\*  
 diseases, India (child), 189.  
 effect of tobacco on epithelial tissue (mouse), 623.\*  
 effect on antibody production (rat), 53.  
 effect on eye, 488\*, 771.\*  
 effects, 271.\*  
 in livestock, French West Africa, 262.  
 in poultry, prophylaxis and treatment, 341.\*  
 production during treatment with sulphonamides (man), 1070.  
 soldiers, Chinese Republican Army, effect of vitamin supplements, 1060.  
 Vitamin(s), distribution within tissues of foodstuffs (Review article), 277.  
 effect on blood cholesterol, 1167.\*  
 effect on rabbits infected with *Candida albicans*, 622.  
 effect on reticulo-endothelial system and liver (rabbit), 53.  
 effect on toxicity of sulphathiazole (chicken), 622.  
 fat-soluble, absorption, relation to cystic fibrosis of pancreas in infant, case report, 1075.  
 effect on atherosclerosis (hen), 340.  
 evaluation, 52.\*  
 review, 52.\*  
 for calves, 1108.  
 for foxes, effect on fertility, 622.  
 for infants, use, U.K., 489.  
 for poultry, effect on growth of pollinating and storage of diet, 341.  
 suggested standards for Europe, 538.  
 formation, in digestive tract (ruminants), 489.\*  
 in ruminants, 1167.\*  
 identification by refractive indices, 621.  
 in animal nutrition, recent research, 622.\*  
 in blood of poultry affected with coryza, cholera or Newcastle disease, 340.  
 in cabbage, raw and cooked, 54.  
 in foods, animal, 553.\*  
 effect of processing, 623.\*  
 of animal origin, Philippines, 918.  
 in health and disease, 189.\*  
 in mussels (*Mytilus mundahuensis*, sururu), Brazil, 908.  
 in national diet, Chile, 193.  
 in residue from cod liver oil manufacture, 1089.  
 in sugar, brown, 913.  
 in turnip, Norway, 623.  
 in turnip greens, effect of locality, soil, season and weather, 911.  
 in turnip leaves, effect of soil conditions and trace elements, 623.  
 in yeast, effect on growth and carotene utilisation (rat), 622.  
 injected, effect on survival of chicks with high mortality syndrome, 1162.\*

## Vitamin(s)

- intake, effect on growth, longevity and wellbeing (rat), 853.\*  
 effect on intake of sugar or alcohol (rat), 170.\*  
 metabolism, effect of antibiotics (man), 193.  
 in germ-free rats, 358.  
 recent research, 621.\*  
 relation to sulfolipic acid, with reference to stomachic, acid secretion and adrenal function, 1167.\*  
 requirements, of fish, 623.  
 of man, 491\*, 770.  
 of onion maggot fly (*Hydomya antiqua*), larvae, 938.  
 standardised diet for metabolic studies (man), 767.  
 role in antibody production, 340\*, 558.\*  
 role in non-specific sterility of cattle, 639.  
 role in pathological processes, 340.\*  
 stability in liquid multivitamin preparations, 918.  
 synthesis by *Bacterium coli* variants (different species), 936.  
 treatment, in old age, effect on physical and mental efficiency (man), 193.  
 of delfium tremens, 290.  
 of enteritis (pig), 558.\*  
 unidentified, problems, 273.\*  
 utilisation, effect of aureomycin (pig), 1166.\*  
 water-soluble, requirement of salmon, 1162.\*  
 review, 52.\*  
 Vitamin A concentrates, consumption, by pregnant women, U.K., 269.\*  
 Vitamin phosphates, dephosphorylation in tissues (rat), 270.\*  
 Vitamin A (see also *Carotene*; *Carotenoids*)  
 absorption, by skin (rat), 270.\*  
 during pregnancy (woman), 194.  
 effect of aureomycin (rat), 58.  
 from aqueous and oil solutions after depletion (chickens), 924.  
 from stabilised suspensions in oil or water (rat), 58.  
 action, review, 57.  
 activity of oil from hepatocarcinomas of crustacean (rat), 924.  
 and aureomycin, effect on growth, depletion and survival times (rat), 346.  
 and carotenoids, recent research, 625.\*  
 and rickets (sheep), 348.\*  
 balance in infants, 194.  
 carotenoids and plasma lipoproteins, 1165.\*  
 chemistry and physiology, 56\*, 344.\*  
 commercial preparations, potency, 629.  
 complex formation with blood protein, 53.  
 Vitamin A deficiency  
 effect of chromoproteins of crustacea (rat), 923.  
 effect of protein-rich diet (rat), 344.  
 effect on cholesterol and *p*-aminobenzoic acid metabolism (rat), 628.  
 effect on cholesterol in blood and liver (rat), 347.  
 effect on corneal epithelium, histological changes (mouse), 921.  
 effect on electro-retinogram (man), 1072.  
 effect on energy exchange (rat), 58.  
 effect on eyes (monkey), 348.  
 effect on mitochondria of corneal epithelial cells (mouse), 921.  
 effect on ribonucleic acids in tissues (rat), 57.  
 effect on subsequent life pattern (rat), 564.\*  
 effect on thyroid and pituitary (rat), 630.  
 eye signs, identity with signs produced by vitamin A excess (pigeon), 922.

## Vitamin A deficiency

- histopathology (lamb), 853.\*  
 hydrocephalus (rat), 58.  
 in calves, treatment with pine needles, 926.  
 in cattle, beef, Canada, 628.  
 in infants, 557.\*  
 case reports, 487.  
 in rats, 1168.\*  
 in sheep, case reports, 628.  
 ophthalmia (calf), 628.  
 predisposing factor in infections in young animals, 274.\*  
 sensitivity of tissues (rat), 627.  
 treatment with foods containing vitamin A, Spain, 927.  
 Vitamin A, depletion, effect of aureomycin (rat), 346.  
 time in calves, 59.  
 deprivation, effect on vitamin A absorption from aqueous and oil solutions (chicken), 926.  
 deterioration in mineral and vegetable oils, cause, 563.\*  
 effect on bleeding and coagulation times, normal and in vitamin C deficiency (guinea-pig), 956.  
 effect on epiglottis (guinea-pig, rat), 347.  
 effect on growth and capillary resistance (guinea-pig), 662.  
 effect on hypothyroidism (rat), 630.  
 effect on iodine, protein-bound, in blood (man, rat), 345.  
 estimation, 55, 56, 342, 563\*, 624, 1167.\*  
 in blood, 343.  
 in butter, 631.  
 in fat and oil, 919.  
 in foods, 919.  
 in liver and infant foods, 919.  
 Vitamin A excess, effect of antibiotics (rat), 1162.\*  
 effect on bone, embryonic, *in vitro* (chicken), 489.  
 effect on heart fibroblast mitosis *in vitro* (chick embryo), 60.  
 effect on organised tissues *in vitro*, 630.  
 effect on pigs, 275.\*  
 effect on skeleton after adrenalectomy (rat), 348.  
 effect on vestibular chronaxie (pigeon), 922.  
 eye signs, identity with signs produced by vitamin A deficiency (pigeon), 922.  
 production of abnormalities (para-thyroidectomised rat), 61.  
 production of foetal malformations (rat), 60, 348.  
 toxicity (child), 194.  
 and effect on growth (baby pig), 348.  
 Vitamin A, for cows, protection of calves against white scours, 546.  
 for poultry, effectiveness of different sources, 340.  
 for sheep, 628.\*  
 formation in *Gambusia holbrooki*, 626, 626.\*  
 function (rat), 1164.\*  
 hydrolysis and esterification *in vitro*, 1162.\*  
 in blood, effect of carotene intake (calf), 560.\*  
 (cow), 59.  
 effect of pituitary hormones (cow), 60.  
 effect of range feeding (sheep), 58.  
 effect of test dose (man), 772.  
 effect of  $\alpha$ -tocopheryl phosphate (dog), 636.  
 in colitis (man), 773.  
 in idiopathic hypercalcaemia (infant), 1072.  
 in liver disease, 270.\*  
 relation to vitamin A and carotene intake after depletion (chicken, child), 1163.\*

## Vitamin A

- in blood, seasonal changes (horse), 925.  
 significance (man), 342.  
 sow and young pigs, 925.  
 in blood and liver, effect of diphenyl-phenylethylamine, 345.  
 effect of lipotropic substances (calf), 926.  
 in blood and milk, effect of thyrotropic hormone, 271.\*  
 in butter, seasonal variation, India, 927.  
 Netherlands, 640.  
 in butterfat from herds throughout lactation, 631.  
 in colostrum (mare), 926.  
 in feedstuffs, preservation, 1162.\*  
 in fish fat, South America, 43, 44, 45.  
 in fodders, importance and estimation, 631.  
 in foods, Spain, 927.  
 in ghee, losses in preparation, 61.  
 in human fat, 773.  
 in invertebrates, marine, 349.  
 in liver (baby pig), 925.  
 criterion of stability, availability and amount in diet (chicken), 346.  
 effect of aureomycin (rat), 58.  
 or vitamin D (rat), 640.  
 effect of carotene intake (cow), 59.  
 effect of parasite infestation (mouse), 60.  
 normal and in disease (man), 773.  
 reserves and storage (see below under *reserves*; *storage*)  
 in milk (buffalo, cow), 349.  
 effect of low intake of carotene (cow), 59.  
 seasonal variation, India, 927.  
 in molluscs, 45, 46, 626.  
 in saliva (man), 977.  
 in sea-bass fat, 44.  
 in shark tissues and liver oil, 349.  
 in silver halos (*Mytilus galeatus*) fat, 45.  
 in snail fat, Port, 46.  
 in tissues, relation to protein in blood, 345.\*  
 intake, periodic, effect on requirement (rat), 920.  
 labelled, synthesis, 848.\*  
 loss from liver oil concentrates during storage, effect of metal ions, 920.  
 massive doses, effect on calcium, phosphorus and nitrogen metabolism (rat), 921.  
 metabolism, and acetin fats (rat), 1162.\*  
 effect of anti-oxidants (rat), 627.  
 effect of choline (chicken), 346.  
 effect of hormones, 852.\*  
 effect of mode of administration (calf, rabbit, rat), 59.  
 effect of octachloronaphthalene (rat), 346.  
 effect of sterile abscesses (rat), 347.  
 in polyarthritides and liver cirrhosis (man), 488.  
 of cows, 1167.\*  
 production from carotene, effect of carotene deficiency (cow), 927.  
 requirement, effect of periodic intake (rat), 920.  
 of calves, 926.  
 reserves, reduction by dentocotomy (chicken), 629.  
 stability in feedstuffs, effect of storage, 61.  
 in halibut liver oil emulsions, 343.  
 storage in liver, effect of alfalfa meal (chicken), 559.\*  
 effect of aureomycin (rat), 346.  
 effect of fish solids (chicken), 559\*, 924.  
 effect of reticulo-endothelial system (rat), 629.  
 treatment, of ueno vulgaris, 195.  
 of Norwegian itch, 488.

- Vitamin A  
utilisation, by chickens, 629.  
effect of anuroonyin (rat), 345, 1163.\*  
normal and deuterioisotomised chickens, 629.  
when given by mouth or parenterally, 563.\*
- Vitamin A acetate, geometric isomers, potency (rat), 56.
- Vitamin A alcohol, acetate and palmitate, utilisation, 563.\*  
and ester, partition in kidney, liver and plasma (rat), 925.
- Vitamin A aldehyde, geometric isomers, potency (rat), 56.
- Vitamin A isomers, hindered cis, neo- $\beta$ -isomer, 56.\*  
in eyes (prawn), 56.  
of *Meganyctiphanes norvegica*, 270.\*
- Vitamin A palmitate, effect of excess (rat), 1163.\*  
solubility, effect of ionic surface-active agents, 624.\*
- Vitamin A precursors, echinenone, isolation, 620.
- Vitamin A<sub>1</sub>, in freshwater fish liver, India, 62.  
in shark liver oil, 631.
- Vitamin A<sub>2</sub>, in freshwater fish liver, India, 62.  
in shark liver oil, 631.
- Vitamin B complex (see also specific components, e.g., *Nicotinic acid*)  
effect on blood and urine composition during exposure to cold (man), 778.  
effect on carotene utilisation (rat), 922.  
for poultry, effect on growth, 359.  
in milk, relation to breed and stage of lactation (cow), 1167.\*  
in pork, effect of chilling rate and frozen storage, 70.  
metabolism in liver, relation of vitamin B<sub>12</sub>, methionine and choline (rat), 1162.\*  
relation to vitamin T, 95.  
treatment of hepatitis, acute, 491.
- Vitamin B complex components (see also specific components, e.g., *Nicotinic acid*)  
absorption by ruminant (sheep), 642.  
addition to 70 per cent. extraction flour, 895.  
availability, effect of adsorbents and minerals, 564.\*  
deficiency, effect on absorption of vitamin B<sub>12</sub> (rat), 1162.\*  
deposition in tissues at different manganese intakes, (pig) 604.\*  
effect on breakdown of serine and threonine in cheese ripening, 613.  
effect on growth (rat), 359.  
effect on growth of fibroblasts *in vitro* (mouse), 937.  
effect on intestinal flora of infants, 1165.\*  
effect on toxicity of antibiotics to bacteria, 642.  
estimation, 564\*, 641.  
in mixtures and pharmaceutical preparations, 642.  
for poultry, effect on growth and feed utilisation, 658.  
formation, by *Haemophilus coli*, relation to resistance to antibiotics, 642.  
recent research, 642.\*  
in blood and intestinal tract, relation to human diseases, 778.\*  
in bread, enriched, effect of light, 938.  
America (U.S.), 910.  
in collards, effect of nitrogenous fertiliser, 643.  
in feather meal, 939.  
in groundnuts, effects of variety, season and locality, 335.
- Vitamin B complex components  
in luscid meal, 896.  
in liver extracts and hydrolysates from fish, seal and whale, 333.  
in maize, effect of cooking with lime, 643.  
in millets and sorghums, 617.  
in rice, Czechoslovakia, 47.  
in sugar beet and sugar cane products, 336.  
in tissues, effect of phosphorus and zinc intake (calf), 654.\*  
in yeast extract, 643.  
interrelation with tryptophan, 642.\*  
massive doses, treatment of migraine, 778.  
prevention of necrotising arteritis (dog), 272.\*  
requirement of malignant cells, 341.  
stability, 563.\*  
in solution of crystalline vitamin B<sub>12</sub>, 375.
- Vitamin B complex deficiency (see also *Beriberi*; *Pellagra*; *Polyneuritis*)  
effect on small intestine (man), 200.  
effect on transmethylation in liver (rat), 377.  
polyneuritic diseases, review, 200.\*  
produced by isonicotinic acid hydrazide in treatment of tuberculous meningitis, 780.  
Shibi-Gatchaki, clinical observations, Japan, 491.
- Vitamin B<sub>1</sub> (see also *Cocarboxylase*; *Thiaminase*)  
and derivatives, separation, quantitative, 360.  
and related compounds, physico-chemical studies, 939.\*  
antagonism to acetylcholinomimetic curarising drugs, 73.\*
- Vitamin B<sub>1</sub> deficiency (see also *Beriberi*; *Polyneuritis*)  
and heart disease (man), 492.  
conditioned reflex activity, 777.\*  
effect of ascorbic acid, massive doses (rat), 940.  
effect on alcohol consumption (rat), 358.  
effect on phosphorylation in liver homogenates (rat), 937, 940.  
effect on red cell metabolism (rat), 1164.\*  
effect on skin (mouse), 940.  
excretion of methylglyoxal (rat), 72.  
in horses, relation to horsetail poisoning, 274.\*  
phosphorylating oxidation, 271.\*  
production by bacterial thiaminase (hen), 74.  
production by pyridoxamine (pigeon), 644.  
relation to incidence of heart enlargement in labourers, Indonesia, 1076.
- Vitamin B<sub>12</sub>, depletion from tissues, effect of pituitary and adrenal removal (rat), 73.  
deprivation, effect on cocarboxylase in metaphyseal cartilage (rabbit), 71.  
effect on heart muscle (rat), 359.  
effect on rate of learning and behaviour (rat), 270.\*  
discovery, history (Review article), 1.  
effect on acetoin formation from pyruvate and acetaldehyde, 939.\*  
effect on anaesthesia by procaine, 777.  
effect on blood pressure, arterial, in disease (man), 1076.  
effect on bodyweight loss in under-nutrition (rat), 646.  
effect on cocarboxylase in tissues, normal and in scurvy (guinea-pig), 361.  
effect on fermentation of sugars by baker's yeast, 941.
- Vitamin B<sub>2</sub>  
effect on glycogen in liver (rat), 936.  
effect on growth (rat), 361.  
effect on growth of fibroblasts *in vitro* (mouse), 937.  
effect on heart, isolated (tortoise), 644.  
effect on hypertension, experimental, neurogenic (rat), 940.  
effect on phosphorus excretion (rabbit), 677.  
effect on phosphorus metabolism (rat), 274.\*  
effect on tryptophan metabolism (rat), 358.  
estimation, 70, 358, 360.  
in mixtures with riboflavin, 936.  
in pharmaceutical products, 643.  
in vitamin mixtures, 69.  
excretion, by dog, 71.  
effect of bracken in diet (man), 200.  
effect of fat intake (infant), 402.  
in patients with speech defect, 564.\*  
in tropical diseases (man), 199.  
normal and in liver disease, effect of vitamin B<sub>2</sub> (man), 496.  
in beef, effect of freezing, thawing and cooking method, 893.  
in beef and veal, effect of freezing, 604.  
in cheese, Italy, 643.  
in digesta, effect of nature of feed (sheep), 275.\*  
in egg, effect of diet and breed of hen, 359.  
in foods, Denmark, 54, 55.  
thermal destruction, 645.\*  
in hams, effect of groundnuts in ration, 614.  
in meat, effect of moist and dry heat cooking, 939.  
in milk, human, Malaysia, 1075.  
raw and boiled, 938.  
in tissues, effect of cortisone and vitamin B<sub>2</sub> deprivation (rat), 73.  
effect of X-ray exposure (rat), 358.  
in vitamin preparations, effect on vitamin B<sub>2</sub> estimation, 653.  
intake, children, America (U.S.), 492.  
metabolism, effect of cortisone (rat), 73.  
effect of curds as supplement to rice diet (child), 492.  
effect of laparotomy (woman), 777.  
effect of vitamin B<sub>2</sub> disulphide, 200.  
in intestinal obstruction, 73.\*  
molecular changes, spectrophotometric studies, 271.\*  
phosphorylation, effect of insulin *in vitro*, 72.  
effect of vitamin B<sub>2</sub> (rat), 64.  
requirement, during establishment of conditioned reflexes (rat), 940.\*  
of baby pig, 71.  
of rat, effect of penicillin, 644.  
of yeast, marine, 70.  
stability, effect of blood plasma, protein, amino acids and salts, 70.  
synthesis by thiamineless mutants of *Neurospora*, effect of vitamin B<sub>2</sub>, 645.  
treatment of beriberi, experimental, 72.\*  
treatment of enterotoxaemia (pig), 74.  
treatment of syphilis, effect on serological reactions, 1077.  
uptake by yeast cells, 941.  
utilisation by chickens, genetic variations, 659.\*
- Vitamin B<sub>2</sub> analogues, destruction by sulphurous acid, 362.  
effect on decarboxylation of  $\alpha$ -ketobutyric acid, 73.
- Vitamin B<sub>3</sub>, antagonists, 73.\*  
in bracken, heat-stability, 200.  
in Japanese fern, functionation, enzyme activity of fractions, 73.
- Vitamin B<sub>3</sub> derivatives, separation, quantitative, 360.

- Vitamin B<sub>2</sub> disulphide, effect on vitamin B<sub>1</sub> metabolism, 200.
- Vitamin B<sub>2</sub> hydrochloride, effect on vitamin B<sub>1</sub> stability, 655.
- Vitamin B<sub>2</sub> hydrochloride and inosinophosphate, production of fatal shock, 72.
- Vitamin B<sub>2</sub>-1-5-naphthalenedisulphonate, biological activity, 643.
- Vitamin B<sub>2</sub> phosphate esters, separation by electrophoresis, 70.
- Vitamin B<sub>2</sub> phosphoric acids, dephosphorylation, catalysis, 72.
- Vitamin B<sub>2</sub> pyrophosphate, in tissues, effect of pyritinoline (pigeon), 644.
- treatment of coma, diabetic, 493, 777.
- Vitamin B<sub>2</sub> triphosphate, formation and enzymic hydrolysis, 940.
- inhibition of coenzyme, 362.
- Vitamin B<sub>2</sub> (see *Adenine*)
- Vitamin B<sub>2</sub> deficiency
- effect of  $\omega$ -methyl analogues (rat), 368.
- effect of isonicotinic acid hydrazide (rat), 368.
- effect on blood and tissue cells in inflammatory disorders, 368.
- effect on nitrogen metabolism (dog), 78.
- effect on weight of heart, liver and kidneys (rat), 649.
- excretion of cystathionine (rat), 1164.\*
- histamine levels (rat), 850.\*
- in general medical practice, America (U.S.), 495.
- in infants, follow-up study, 495.
- production of convulsions, 1078.
- in rabbits, 1162.\*
- induced by doxypyridoxine, effect on agglutinin production (rabbit), 367.
- effect on bone marrow and blood cells (rat), 367.
- production of arteriosclerosis (dog, monkey), 1165.\*
- production of skin lesions (dog), 78.
- relation to serum protein and non-protein nitrogen in pregnancy (rat), 1163.\*
- riboflavin and vitamin B<sub>2</sub> in intestines, kidney and liver, effect of protein intake and food restriction (rat), 648.
- Vitamin B<sub>2</sub> deprivation, effect on carbohydrate metabolism of tissues *in vitro* (rat), 79.
- effect on glutaminase in liver (rat), 78.
- effect on *Starchomycetes cerevisiae*, 369.
- Vitamin B<sub>2</sub>, effect on inhibition of oxygen consumption produced by isonicotinic acid hydrazide (bacteria, tissue homogenate) 945.
- effect on neuritis produced by isoniazide (rat), 79.
- effect on protein metabolism in pregnancy (rat), 943.
- effect on pyrimidine toxicity (mouse), 79.
- effect on thiamineless mutants of *Neurospora*, 645.
- effect on transaminase activity of liver, 270.\*
- effect on tryptophan metabolism (rat), 358.
- effect on xanthurenic acid excretion index in nervous system disorders, 490.
- estimation, 78, 648.
- in alcohol intoxication, acute (man), 203.
- in legumes, effect of germination, 623.
- in tissues, effect of food and protein intakes (rat), 648.
- in transamination between glutamine and pyruvate (rat), 649.
- metabolism, effect of food and protein intakes (rat), 648.
- effect of vitamin B<sub>2</sub> (rat), 68.
- in pregnancy (woman), 203.
- in women, 496.
- Vitamin B<sub>3</sub>
- oxidation, enzymic, by animal tissues, 943.
- relation to pituitary and adrenal, 369.
- requirement of *Escherichia coli*, for tryptophanase synthesis, 944.
- role in cheese ripening, 34.
- role in tryptophan metabolism (rat), 77.
- treatment of anaemia, hypochromic (man), 1078.
- treatment of arthritis, experimental (rat), 649.
- treatment of epilepsy, 203.
- with methionine, methylation of nicotinic acid and nicotinamide (man), 779.
- Vitamin B<sub>3</sub> analogues,  $\omega$ -methyl, effect on growth and convulsions (rat), 368.
- phosphorylation, enzymic, effect on tyrosine decarboxylase, 368.
- Vitamin B<sub>3</sub> antagonists, 79.\*

- effect on coenzyme A in tissues (rat), 377.
- effect on dehydrogenase activity of liver (rat), 951.
- effect on distribution of <sup>32</sup>P in newborn (rat), 1163.\*
- effect on liver regeneration and nucleic acid metabolism (rat), 951.
- effect on uric acid synthesis (chicken), 1164.\*
- in hen, effect on chicken embryo development, 376.
- Vitamin B<sub>3</sub> deficiency
- in man, 270\*, 496, 497.\*
- in pregnancy, effect on liver enzymes in newborn (rat), 656.
- maternal, effect on young (rat), 375.
- production by inadequate intake (man), 1079.
- Vitamin B<sub>3</sub> deprivation, effect on glycine biosynthesis (guinea pig, rat), 657.
- effect on liver coenzyme A (rat), 656.
- distribution in body after injection (man), 783.
- effect in carbon disulphide poisoning, 88.\*
- effect on anaemia, experimental (mouse), 1164.\*
- effect on basophilic stippling of red blood cells *in vitro*, 85.
- effect on biological value of casein and whole wheat flour protein (rat), 656.
- effect on biological value of rice and wheat flour proteins (rat), 657.
- effect on blood and urine composition during exposure to cold (man), 778.
- effect on carotene utilisation (rat), 922.
- effect on carotenoid utilisation (chicken), 559\*, 923.
- effect on chickens and laying hens, 559.\*
- effect on egg hatchability, 378.
- effect on  $\beta$ -glucuronidase in tissues (rabbit), 86.
- effect on glutathione in tissues, in hyperthyroidism (rat), 80.
- effect on glycogen in liver (rat), 938.
- effect on growth (pig), 658.
- of children, Guatemala, 1163.\*
- of fur animals, 240.
- of premature infants, 1088.
- of undernourished children, India, 208.
- effect on liver disease produced by diets deficient in labile methyl groups (rat), 80.
- effect on liver fibrosis produced by ligation of bile duct (rat), 951.
- effect on glutathione synthesis (rat), 951.
- effect on oviduct response to stilboestrol (chicken), 86.
- effect on phosphorus metabolism, 377.
- effect on protein utilisation (chick, rat), 378, 1167.\*
- effect on regeneration of corneal nerve fibres (rabbit), 952.
- effect on sugar tolerance test and blood glutathione in diabetes and obesity (man), 784.
- effect on survival and weight loss in underfeeding (rat), 657.
- effect on thromboplastic activity of blood, 375.
- effect on toad heart poisoned by cyanide, *in vitro*, 657.
- effect on vitamin B<sub>1</sub> and riboflavin excretion, normal and in liver disease (man), 496.
- effect on weight loss induced by cortisone (mouse), 1165.\*
- estimation, 83, 84, 557\*, 653.
- in blood, 84, 498, 784, 1161.\*
- in feedingstuffs, 653, 950.
- in sea water, 375.
- in urine, 1081.
- in vitamin preparations, effect of vitamin B<sub>3</sub>, 653.
- with *Escherichia coli* var. *saenacharophila*, 653.
- excretion, after parenteral injection, normal and in blood disorders (man), 783.
- in anaemia, pernicious, effect of intrinsic factor intake, 1083.
- in urine, in acholuridia, pernicious anaemia and total gastrectomy, 206.
- normal and in pernicious anaemia, 1083.

Vitamin B<sub>12</sub>  
 excretion, reduced, case reports, 499.  
 test of intrinsic factor preparations, 500.  
 excretion test, diagnosis of pernicious anaemia, 1082.  
 in pernicious and megaloblastic anaemias and sprue, 1082.  
 reproducibility and effect of age (man), 1082.  
 for *Bacterium coli*, effect of copper on growth, 84.  
 for boys, effect on physical fitness and growth, 208.  
 for chickens, effect on growth and food utilisation, 658.  
 effect on intermediary metabolism, 377.  
 for goats, effect on yield of milk, butterfat and casein, 952.  
 for hens, effect on egg size and composition, 86.  
 for horses, debilitated, 659.  
 for laying pullets, effect on hatchability, 1145.  
 for nursery schoolchildren, effect on growth and health, 1079.  
 for pigs, baby, and chickens, sewage sludge as source, 245.  
 effect on tissue composition, 88.  
 effect with penicillin on growth, 87.  
 on ration of soya bean meal, 564.\*  
 with bacitracin, 378.  
 with and without terramycin, 658.  
 for poultry, effect on meat quality, 379.  
 for turkeys, effect on growth and food utilisation, 658.  
 formation, in ruminants, 564.\*  
 in blood, after parenteral injection, normal and in blood disorders (man), 783.  
 combination with protein, 84.  
 effect of ageing (man, rat), 1084.  
 effect of folic acid in pernicious anaemia, 780.  
 in anaemia, megaloblastic, 1079.  
 effect of penicillin, Africa, 408.  
 pernicious, 1084.  
 in blood disorders, 1085.  
 in old age (man), 204.  
 in pregnancy and lactation (woman), 498, 1084.  
 in vegetarians, effect of auromycin, 1080.  
 relation to folic acid in urine in megaloblastic anaemia (man), 204.  
 white cells, normal and in leucemia (man), 1085.  
 in cod liver residues, 1086.  
 in eggs, fresh and stored, 379.  
 in feed for mice, 939.  
 in foods of animal origin, 379.  
 in grapes and wine, 88.  
 in milk, 953.  
 human, 785.  
 in neutral solution, destruction by light, 950.  
 in press water, herring, 379.  
 in sewage, 270.\*  
 in *traxes*, Java, 88.  
 incorporation in proteins of red cell stroma and haemoglobin, effect of anaemia, 655.  
 isolation and chemistry, 557.\*  
 isolation from trichonymy formentations, 375.  
 lipotropic activity, effect of thyroxine (rat), 377.  
 lipotropic effects, 558.\*  
 massive doses, effect on reproduction and lactation (rat), 657.  
 metabolic function, 557.\*  
 metabolism, normal and in disease, 782.

Vitamin B<sub>12</sub>  
 methionine and choline, relation to metabolism of B vitamins in liver (rat), 1162.\*  
 recent research, 655.\*  
 reduction products, structure, 655.  
 valency of cobalt, 655.  
 relation to animal protein factor, 1167.\*  
 in casein (rat), 659.  
 relation to antibiotics in nutrition, 564.\*  
 requirement, of chickens, 952.  
 of turkey poult, 378.  
 retention, effect of diarrhoea (man), 1085.  
 review, 655.  
 role in human nutrition, 497.  
 in micro-organisms, 557.\*  
 saturation studies (man), 1164.\*  
 separation from tetracycline by paper chromatography, 950.\*  
 stability, effect of vitamin B<sub>1</sub> hydrochloride, 655.  
 structure, recent results, 950.\*  
 supplement, in vitamin E deficiency, effect on reproduction (rat), 933.  
 to infant food of mixed cereals, 1163.\*  
 supplies, role of intestinal bacteria (animals, man), 204.\*  
 synthesis, in cobalt deficiency, effect of cobalt and calcium (sheep), 87.  
 treatment of adrenal hyperactivity, effect on nitrogen metabolism (man), 784.  
 treatment of anaemia, 205.\*  
 after stomach removal (man), 1080.  
 and neuro-anaemic syndrome, 205.\*  
 macrocytic, 205.  
 of pregnancy, Nigeria, 507.  
 pernicious, 206, 409, 1081.  
 Addisonian, 205.  
 without intrinsic factor, 499.  
 treatment of diabetes, 204\*, 272.\*

 treatment of haemophilia, 784.  
 treatment of nerve disorders, 208, 784.  
 treatment of nonrigid from herpes zoster, 208.  
 treatment of pain after surgical operations, 784.  
 treatment of skin disorders, 497.  
 treatment of sprue, effect on gastric mucosa cells, 1081.  
 uptake by liver, effect of intrinsic factor (man), 1083.  
 in liver disease, 1165.\*  
 in spinal cord degeneration disease, 782.  
 use in food products, 849.\*  
 with glycine and tryptophan, effect on fatty liver (rat), 376.  
 with saponin from *Quillaja saponaria*, effect on growth (chicken), 657.  
 Vitamin B<sub>12</sub>-active substances, excretion by sheep, 87.  
 formation in ruminants, 564.\*  
 in rumen liquor and faeces, availability (chicken, rat), 87.  
 Vitamin B<sub>12</sub> analogues, absorption (man, rat), 206, 1080.  
 benzimidazole, biosynthesis, 950.  
 desdimethyl, growth-promoting activity (chicken), 85.  
 isolation, 1164.\*  
 in commercial processes, 375.  
 Vitamin B<sub>12</sub> antimetabolites, 850.\*  
 Vitamin B<sub>12</sub>-binding substance, in fundus, pylorus and duodenum (man, pig), 849.\*  
 in gastric juice, relation to mucosa histology (man), 499.  
 in tissues, location (man, pig), 376.  
 in tissues and secretions, effect on availability of vitamin B<sub>12</sub> (chicken, rat), 270.\*  
 Vitamin B<sub>12</sub> components, in sewage sludge, 654.  
 microbiological activity, 654.

Vitamin B<sub>12</sub> derivatives, synthesis by propionic acid bacteria, effect of auromycin, 653.  
 Vitamin B<sub>12</sub>-polypeptide complex, amino acid compounds, 85.  
 Vitamin B<sub>12</sub>, related compounds, anti-vitamin B<sub>12</sub> activity, 850.\*  
 related substances, 557.\*  
 Vitamin B<sub>12</sub>, effect on food heart poisoned by cyanide, *in vitro*, 557.  
 Vitamin B<sub>12</sub>, compounds with proteins, formation, 497.\*  
 Vitamin B<sub>12</sub>, identification, 654.  
 Vitamin B<sub>12</sub> (see *Orotic acid*).  
 Vitamin B6 (see *Folic acid*; *Pteroylglutamic acids*).  
 Vitamin B7, estimation, 271.\*  
 Vitamin B7 derivative, biologically active, synthesis, 271.\*  
 Vitamin C (see also *Ascorbic acid*)  
 bound, in ascoria juice, isolation, 1164.\*  
 control of haemorrhage, after tonsillectomy (child), 786.  
 Vitamin C deficiency (see also *Scurvy*)  
 bleeding and coagulation times, effect of vitamins A and D (guinea pig), 955.  
 effect on protein replacement in central nervous system, 341.  
 effect on resistance to bacterial infection (guinea pig), 663.  
 effect on retina (guinea pig), 661.  
 effect on wound healing and heteroplastic bone formation (guinea pig), 661.  
 in guinea pigs, 1108.\*  
 role of worm infestation in production (child), 208.  
 treatment with D-ascorbic acid (man), 500.  
 Vitamin C, deprivation, effect on glycine biosynthesis (guinea pig, rat), 657.  
 effect on trypsinase in liver and pancreas (guinea pig), 90.  
 effect on adrenal, thymus and preputial glands (castrated rat), 92.  
 effect on energy output (man), 200.  
 effect on guinea pigs infected with *Mycobacterium tuberculosis*, 274.\*  
 effect on hypertension produced by deoxycorticosterone acetate (rat), 382.  
 effect on mental activity, 209.  
 effect on nucleoprotein content of granulation tissue (guinea pig), 958.  
 effect on semen quality, in (bull), 663.  
 for breast-fed infants, 1165.\*  
 from oxidation of L-glutono-γ-lactone, 380.\*  
 in adrenal, effect of cortisone and adrenocorticotrophic hormone (guinea pig), 270.\*  
 in ageing, review, 208.\*  
 in blackcurrants, different varieties, 954.  
 in eye, lens (bovine, guinea pig, rabbit), 957.  
 in foods, Denmark, 54, 55.  
 in fruits, French (Gibson), 477.  
 in fruits and vegetables, China, 94.  
 in liver and lymphoid tissue, effect of adrenal and pituitary hormones (rat), 382.  
 in milk and milk products, 663.  
 in plants, seasonal variation, 664.  
 in potatoes and sweet potatoes, in tropics, 1168.\*  
 in saliva (man), 377.  
 in some slivers of L-lysine, 384.\*  
 metabolism, in infants, Bantu, South Africa, 1086.  
 in surgical patients with delayed wound healing, 209.  
 in tuberculosis, pulmonary (man), 786.  
 recent research, 660.\*

## Vitamin C

- requirement, effect of cortisone (guinea-pig), 270.\*
- of sportsmen during exercise, 1087.
- stable, in ration for guinea-pigs, 1168.\*
- treatment of nephritis, effect on water metabolism, 500.
- treatment of rascourse disease, 274.\*
- treatment of rheumatic fever (child), 558.\*
- treatment of rheumatic infections, 209.
- iso* Vitamin C (see *Ascorbic acid, d-arbo-*)
- Vitamin C<sub>2</sub> (see *Vitamin P*)
- Vitamin D
- absorption, relation to dosage (rat), 633.
- antagonism of carotene and vitamin A, 1167.\*
- complex formation with blood proteins, 53.
- Vitamin D deficiency (see also *Rickets*; and for *Osteomalacia* see under *Bone disorders*)
- and renal osteomalacia (woman), 197.
- effect on amino acids in urine (infant), 774.
- effect on dermatoglyphism (pig), 714.
- in cats, 1162.\*
- production of haemoglobinuria by vitamin K injection (rat), 1163.\*
- response time to doses by mouth (chicken), 353.
- treatment with vitamin D preparations (cow, pig), 931.
- Vitamin D<sub>1</sub> derivation, effect of cortisone on bone growth (rat), 929.
- effect on calcium metabolism and growth (rat), 928.
- distribution in sheep, 275.\*
- effect on bleeding and coagulation times, normal and in vitamin C deficiency (guinea-pig), 955.
- effect on blood calcium, high (child), 489.
- effect on calcium metabolism (rat), 633.
- effect on growth and bone ash (chicken), 559.\*
- effect on growth and bone development (parathyroidectomised rat), 353.
- effect on growth and capillary resistance (guinea-pig), 662.
- effect on growth on diets with different amounts of calcium and phosphorus (rat), 634.
- effect on magnesium absorption (rat), 65.
- effect on metabolism of rachitic cartilage (rat), 563.\*
- effect on phosphorus content of epiphyseal cartilage (rat), 929.
- effect on phosphorus metabolism (rat), 274.\*
- effect on phosphorylation of vitamin B<sub>1</sub> (rat), 64.
- effect on stomach secretion (rat), 635.
- effect on thymus and spleen (rat), 63.
- estimation, 62, 352.
- in oils containing vitamins A and D, 1168.\*
- in pharmaceutical preparations, 352.
- excess, effect on tubular re-absorption of phosphate (dog), 930.
- in children, 271.\*
- in infant feeding, 1165.\*
- production of calcified sclera nodules (man), 775.
- treatment with cortisone, case report (infant), 775.
- vascular and extravascular disease (rabbit), 1167.\*
- for man, mefenbutem and poison, 489.
- fortification of milk, effect on incidence of rickets, America (U.S.), 488.
- prevention of rickets, 196.
- in eggs, utilisation by chicks, 273.\*
- in milk (cow, woman), 355.
- in Milkotal, infant food, 1165.\*

## Vitamin D

- in pasture, 1167.\*
- in tissues, effect of ultraviolet irradiation (rat), 270.\*
- intake by children from cod liver oil, clinical study, U.K., 488.
- high, therapeutic use, 196.
- in infancy, 195.
- in infants with hypercalcaemia, idiopathic, 1011.
- massive dose, effect on kidney function (dog), 64.
- effect on nitrogen excretion (rat), 930.
- effect on physiological behaviour of calcium and phosphorus (cattle), 560.\*
- prevention of rickets (rat), 353.
- relation to citrate oxidation (rat), 1164.\*
- responses, effect of anurocytin (rat), 353.
- role in calcium utilisation during growth (rat), 63.
- treatment of osteoblastic dysplasia (child), 197.
- treatment of osteomalacia of unknown etiology, case report, 1074.
- treatment of rickets in children, dosage, discussion with case reports, 1074.
- with growth hormone, effect on rats on low-calcium, normal-phosphorus diet, 1162.\*
- Vitamin D emulsion, for cows, effect on milk yield and growth of calves, 929.
- Vitamin D precursor, and tachysterol, interconversion, 63.\*
- in sebaceous tissues (guinea-pig, mouse), 929.
- irradiation by ultraviolet light, formation of provitamin D, 352.
- prevention from  $\Delta^5$ -steroids, 632.
- Vitamin D preparations, stability, 930.
- Vitamin D<sub>2</sub>
- activity, modification by antibiotics (chicken), 65.
- and precalciferol, stereochemistry, 63.
- effect on calcium and phosphorus metabolism (rat), 63.
- estimation, 928.
- in pharmaceutical preparations, 351.
- in presence of vitamin A, 62.
- excess, in children, case reports, 196.
- massive doses, toxicity (dog), 354.
- renal action, 850.\*
- snaphonisation and inactivation, 632.
- treatment of rickets (infant), 105.
- treatment of tetany, post-operative insensitivity, 490.
- Vitamin D<sub>2</sub>11, crystalline, structure and preparation, 928.
- Vitamin D<sub>3</sub>, antirachitic action, effect of antibiotics (chicken), 353.
- estimation, 928.
- hypersensitivity, case reports (infant), 1073.
- in milk, for infants, prophylactic use, 196.
- in pregnancy, effect on phosphatase content of infant blood, 490.
- treatment of rickets (infant), 195.
- Vitamin E (see also *Tocopherols* and under *Wheat germ*)
- activity, *in vivo*, effect of fish liver oils in diet (rat), 67.
- Vitamin E deficiency, and mineral intake (mouse), 434.
- and tricarboxylic acid cycle oxidation, 1163.\*
- effect of casein and vitamin B<sub>12</sub> on reproduction (rat), 933.
- effect of rachitogenic high-calcium diet on tooth enamel pigmentation (rat), 557.\*
- effect on amino acids, free, in muscle (rabbit), 356.

## Vitamin E deficiency

- effect on dipeptidase activity of muscle (rabbit), 932.
- effect on embryo eye (turkey), 559\*, 933, 1162.\*
- effect on incorporation of glycine and formate into glycine, serine and methionine of muscle (rabbit), 1163.\*
- effect on myosin (rabbit), 355.
- effect on oxidation of intermediates of tricarboxylic acid system in enzyme systems (rabbit), 68.
- effect on oxygen consumption of tissues (rabbit), 67.
- effect on oxygen toxicity (rat), 557.\*
- effect on protein replacement in central nervous system, 341.
- effect on red cell haemolysis, *in vitro* (chicken, rat), 636.
- effect on sodium formate and glycine metabolism (rabbit), 356.
- in chickens, effect of yeast, protein and amino acids, 66.
- in chickens and ducklings, produced by excessive amounts of cod liver oil, 66.
- in lactation, effect on protein in muscle of young (rat), 637.
- in lambs, prevention with diphenyl-*p*-phenylethylamine, 560.\*
- in pigs, 1167.\*
- effect on liver and composition of fat, 67.
- liver necrosis, respiratory decline, effect of injected vitamin E (rat), 1163.\*
- produced by  $\alpha$ -resol (laying hens), 935.
- production of anaemia in monkeys, 1162.\*
- production of muscular dystrophy, effect on creatine quotient (rabbit), 636.
- production of perosis (chicken), 843.
- relation to muscular dystrophy (calf), 832.\*
- role in production of aorta lesions (guinea-pig, rabbit), 356.
- Vitamin E, effect on blood coagulation (man), 770.
- effect on blood sugar tolerance in dietary liver necrosis (rat), 380.
- effect on coenzyme A content of liver in dietary necrosis, 371.
- effect on growth and incidence of perosis (turkey), 356.
- effect on growth and vitamin A content of liver (rat), 640.
- effect on hatchability of eggs (turkey), 559.\*
- effect on incorporation of precursors into creatinine in urine (rabbit), 637.
- effect on lactation (woman), 775.
- effect on mammary gland (guinea-pig), 639.
- effect on metabolism of placenta (woman), 1075.\*
- effect on oxygen poisoning (rat), 638.
- effect on reproduction (turkey), 934.
- effect on resistance to tuberculosis (guinea-pig), 357.
- effect on tissue lesions produced by dicoumarol derivative (rabbit), 935.
- effect on vitamin B<sub>6</sub> metabolism (rat), 68.
- effect on xanthomatous biliary cirrhosis (man), 1163.\*
- estimation in blood, 931.
- excess, histological study (guinea-pig), 638.
- for turkeys, 272\*, 559.\*
- in ageing, review, 198.\*
- in blood, in kwashiorkor, 558.\*
- in liver disease, 198\*, 270.
- in pregnancy (woman), 198.

## Vitamin E

- in brewer's yeast, effect on chickens, 559.\*
- in butter, Netherlands, 640.
- in linseed meal, effect of storage, 896.
- in miller's offals and compound feeds, 66.
- in wheat flour, effect of aeration or chlorine dioxide, 1046.
- intake, effect on vitamin E content of organs (rat), 637.
- metabolism, effect of fish oil (chicken), 558\*, 934.
- triethoxyethyl phosphate as antagonist (calf), 260.\*
- protection against liver necrosis, 558.\*
- recent research, 636\*, 931.\*
- relation to cholesterol metabolism, 557.\*
- relation to mouse "paralysis", 1165.\*
- review, 636.\*
- role in mesenchymal tissue disorders with haemorrhage, 1075.\*
- role in nutrition, 66\*, 636.
- role in pig nutrition, annotated bibliography, 935.\*
- role in poultry nutrition and disease, review, 273\*, 934\*, 1163.\*
- supplement to low-fat diet, effect on reproduction (rat), 933.
- treatment of blood vessel disorders (man), 198.
- Vitamin E antagonists, relation to lipid peroxides, 67.\*
- Vitamin K derivative, water-soluble, synthesis, 932.\*
- Vitamin K' (see *Fatty acids, unsaturated*)
- Vitamin K' (see *Biotin*)
- Vitamin K' (see *p-Aminobenzoic acid*)
- Vitamin K
- action and precursor, 60.
- control of haemorrhage after tonsillectomy (child), 786.
- effect on bilirubin in plasma (premature infant), 1088.
- effect on blood prothrombin activity in lead poisoning (man), 501.
- effect on blood prothrombin time (chicken, hen), 357.
- effect on colon microflora (rat), 640.
- effect on haemorrhage during treatment with dicoumarol, 787.\*
- effect on lipids in fatty liver (rat), 69.
- effect on phosphorylation *in vivo* (rat), 935.
- effect on thromboplastin in plasma, 787.\*
- in legumes, effect of germination, 623.
- in liver mitochondria (cattle), 641.
- in tissue cell fractions (chicken), 936.
- production of haemoglobinuria in vitamin D deficiency (rat), 1163.\*
- treatment of hypoprothrombinaemia in infants, newborn, 786.
- treatment of rhesus negative women during pregnancy, 501.
- treatment of rheumatoid arthritis, 1161.\*
- Vitamin K derivatives, synkavit, toxicity, effect of cysteine and glutathione (rat), 936.
- Vitamin K preparations, use with new anticoagulants, 849.\*
- Vitamin K<sub>1</sub>, synthetic, effect on Factor VII content of blood (infant), 210.
- Vitamin K<sub>2</sub>, conversion to vitamin K<sub>1</sub> *in vivo*, 936.
- estimation, 640, 1168.\*
- Vitamin K<sub>2</sub>, and antibiotics, 641.
- Vitamin M (see *Folic acid*; *Pteroylglutamic acid*)
- Vitamin P (see also *Quercetin*; *Rutin*)
- effect on gastric lesions caused by phenylquinoline-carbonic acid, 384.
- in leaves of tea plant, 385.\*
- Vitamin P-active substances, in fermented drinks, 960.

## Vitamin T, effect on growth (rat), 95.

- of premature infants, 1088.
- effect on iron absorption (man), 210.
- effect on reproduction and growth (rat), 385.
- relation to vitamin B complex, 95.
- Vitamin U, treatment of peptic ulcer, 501.\*
- Vomiting, in pregnancy (see under *Pregnancy disorders*)
- with ketosis, in children, treatment, 1097.
- War (see also *Army*)
- prisoners, dystrophy, nutritional, effects on sympathetic nervous system, 484.
- pathology, post mortem, 1070.
- nutritional amblyopia, Korea, 492.
- nutritional state, USSR, follow-up study in Germany, 484.
- Waste, plant, beef in army, America (U.S.), 892.
- Waste products, for pigs, 1129.\*
- slaughterhouse blood, preservation and use for livestock, 894.
- Water (see also *Dehydration*)
- absorption, effect of hormones (dog), 969.
- from intestinal loop (dog), 390.
- portal and lymphatic routes (rat), 969.
- added to buttermilk, detection, 882.\*
- and electrolytes, 445.\*
- and salts, choice in shock (rat), 1023.\*
- balance, during acclimatisation to heat (man), 434.
- effect of pantothenic acid deficiency (rat), 557.\*
- body, and fluid metabolism in children, 271.\*
- distribution, effect of potassium depletion (dog), 1014.
- effect of protein deficiency (rat), 724.
- estimation (cattle), 599.
- (man), 319.
- (pig), 885.\*
- (sheep), 885.\*
- with antipyrine, 885.
- with tritium, 850.\*
- exchangeable, in infants and children, 715.
- extracellular, estimation, 30, 271\*, 400, 600, 850\*, 885.
- in health and disease (man), 885.
- in heart disease (man), 851.\*
- in obesity (man), 1164.\*
- in rats, 401.
- insensible loss after burns (man), 445.\*
- response to heat and cold, review, 723.\*
- shifts after intraperitoneal injection of sucrose (rat), 446.
- carbonated, effect on stomach secretion (man), 98.
- diuresis, diurnal variation (child), 445.
- in protein deficiency (rat), 270.\*
- response of kidney to water load (horse), 161.
- drinking, fluoridation, 502\*, 1089.\*
- America (U.S.), 1089.\*
- as public health measure (book), 1159.
- Australia, recommendations, 789.
- effect of magnesium and calcium fluoride, 789.
- effect on caries, 211, 501.\*
- effect on enamel solubility from teeth (man), 1090.
- review, 501.\*
- fluorine content, and caries, America (U.S.) (man), 788.
- U.K., (child), 1089.
- effect of state, 557.\*

## Water

- drinking, fluorine content, effect of topical fluorine on caries incidence, 502.
- relation to caries and fluorosis (man), 1090.
- iodine and calcium content, Canary Islands, 215.
- review, 339.\*
- evaporation from skin (cow), 562.\*
- exchange, effect of fasting or salt depletion (rabbit), 146.
- excretion, effect of pituitary removal and adrenal cortex hormones (rat), 982.\*
- in foods (see *Aliments*)
- Water intake
- by cows, effect of protein content of ration and environmental temperature, 1118.
- control by hypothalamus, 98, 445.\*
- effect of adding carbohydrate to milk diet (rat), 1044.
- effect of brain lesions (rat), 724.
- effect of hypothalamic lesions (dog), 1023.
- restricted, effect on nitrogen excretion, 1165.\*
- effect on utilisation of fat and protein (rat), 445.
- with low calorie diet, effect on body temperature during work, 1165.\*
- role of taste in regulation (rat), 151.
- Water, loss, during exposure to cold (mouse), 980.
- during hot work in mines (man), 150.
- insensible, in children, 445.
- replacement in children, scheme, 212.
- through skin (man), 1022.
- Water metabolism (see also *Dehydration*)
- disorders, diagnosis and treatment, 510.
- effect of water intake and diet (man), 1165.\*
- effect of riboflavin and choline deficiencies (rat), 363.
- in hypertension (rat), 851.\*
- in infections, 558.\*
- in liver damage with oedema (man), 723.
- in nephritis, effect of vitamin C and calcium chloride, 500.
- natives of Belgian Congo, 976.
- of *Gerrillus gerrillus*, 724.
- Water, requirements, and metabolism, canals and donkeys, 1022.
- of livestock, review, 224.\*
- calculation (man), 885.
- cattle in tropics, 1111.\*
- pigs, 1165.\*
- stomach, in camel, 1165.\*
- transfer by intestinal preparation *in vivo*, effect of temperature (rat), 1164.\*
- Water-weed, Canadian (*Elodea canadensis*), composition, 909.
- Weight (see also *Body measurements*; *Growth*; *Infants, birthweight*)
- loss, in anaemia, perniciosis, 1096.
- in undernutrition, effect of vitamin B<sub>1</sub> (rat), 645.
- effect of vitamin B<sub>12</sub> (rat), 637.
- induced by cortisone, effect of vitamin B<sub>12</sub> (mouse), 1165.\*
- men, relation to body fat and energy intake, 406.
- standard for stature, 270.\*
- Weight reduction, by diet, long-term study, 508.
- role of sweetening substances, non-caloric, 1092.\*
- West Africa (see under *Africa* and specific territories, e.g., *Nigeria*)
- West Indies (see specific territories, e.g., *Jamaica*)
- Whale, sperm, fat, use in nutrition of ruminants and non-ruminants, 564.\*

- Whole by-products, value as feedingstuffs (chicken), 249.\*
- Whole liver oil, unsaponifiable matter, 45.
- Whole liver residues, extracts and hydrolysates, nitrogen, minerals and B vitamins content, 333.
- Whole meal, for pigs, 1126.
- Whole oil, physicochemical properties, 877.
- Whole solubles, condensed, for chickens, 535.
- dried, for hens, effect on riboflavin and vitamin B<sub>12</sub> contents of egg, 359.
- for pigs, 245.
- Wheat
- neurone layer, active principle, absorption spectrum for quantitative analysis, 334.
- and sheep, relative returns per acre, Australia, 1150.
- and wheat by-products, for chickens, 834.
- and wheat offals, digestibility (pig, ruminants), 801.
- chemically treated seed, effect on egg production, bodyweight and mortality (poultry), 1146.
- chlorine, distribution, 909.
- for cattle fattening, comparison with maize, 1111.
- fumigated, ethylene dibromide residues, 805.
- glutelin, amino acids, 333.
- in diet of patients with myotonia, 1168.\*
- in high-energy rations for chickens, 250.
- lipids, extraction, 590.
- lipoxidase, 47.\*
- mouldy, digestibility and feeding value for pigs and sheep, 802.
- physioid and chemical properties, 910.\*
- protein content, Australia, 47.\*
- riboflavin content, normal and rust-infected grains, 364.
- storage, effect of moulds, 36.
- Wheat bran (see *Bran, wheat*)
- Wheat flour, enrichment, 895.
- improves, review, 605.
- lipids, in bread making, 604.
- extraction, 590.
- polysaccharides, 617.
- proteins, biological value, effect of amino acids with or without vitamin B<sub>12</sub> (rat), 657.
- effect of treatment with chlorine dioxide or nitrogen trichloride, 1046.
- sugars, effect of cooking, India, 326.
- vitamin B content, effect of aeration or chlorine dioxide, 1046.
- whole, protein, biological value, effect of vitamin B<sub>12</sub> (rat), 650.
- Wheat germ, vitamin B content, 66.
- Wheat gluten, and ecodine disease, review, 793.\*
- lipids, extraction, 590.
- Wheat pollards, nutritive value, 1103.
- Wheat protein (see also under *Wheat flour*; *Wheat gluten*)
- amino acid composition, 617.
- chemistry, 18.
- nutritive value (rat), 166.
- sulphydryl groups, effect on baking quality, 47.\*
- Wheat protein hydrolysate, for fattening cattle, 564.\*
- Why
- dried, effect on growth, egg production and hatchability, 559.\*
- for chickens, 833.
- for turkeys, effect on hatchability and fertility of eggs, 254.
- lactose utilisation (calf, chicken, pig, rat), 42.
- treated with solvents, effect on growth of chickens, 249.
- effect on bread, 39.
- Why
- for infants, 177.
- for pigs, 1166.\*
- human, proteins, separation, 42.
- production, Netherlands, 42.
- proteins, effect of hydrogen peroxide, 334.
- galactose and hexosamine, 900.
- separation, 42.
- ricotta, from ewe milk, composition, 904.
- utilisation, production of riboflavin, 75.
- Whitewool (*Atalaya hemiglaucum*) fruit, toxicity for horses, 1156.\*
- Wine(s), composition, Italy, 917.
- keto-acids, 593.
- sugars, 870.
- vitamin B<sub>12</sub> content, 88.
- vitamin P-active substances, 960.
- Women
- amino acid requirement, 756, 999, 1053.
- ascorbic acid, utilisation, 1087.
- bodyweight, changes with age and marital status, 456.
- calcium and phosphorus metabolism, 564.\*
- diet practices, America (U.S.), 1162.\*
- elderly, protein nutrition, 1163.\*
- energy requirement, 469.
- lactating (see under *Lactation*)
- nutritional status, relation to that of men, 553.
- parturition (see *Parturition*)
- pregnant (see under *Pregnancy*)
- sulphur amino acids requirements, 1053.
- young, tryptophan requirement, 1053.
- Wool (see also under *Ewe*; *Sheep*; *Lamb*)
- amino acid composition, relation to quality (sheep), 682.
- characteristics, relation to copper status of sheep, 843.
- fibres, primary and secondary, reaction to changes in nutrition, 1123.
- fleece structure of lambs, effect of restricted feeding of ewes during pregnancy, 821.
- fleece weight, clean, estimation, 821.
- relation to bodyweight (Merino sheep), 821.
- variation, environmental (sheep), 237.
- growth, effect of diet restriction (sheep), 238.
- growth and production, effect of pregnancy, lactation and number of lambs, 1123.
- production, effect of constant daylight and darkness rhythm, 275.\*
- effect of phase of nutrition, 524.
- effect of source of dietary protein (ewe), 237.
- ewes fed indoors or outdoors, 821.
- fleece weight and quality, effect of face cover of ewe and hogget, 1124.
- hill sheep, effect of anthelmintics, 550.
- per unit area of skin (sheep), 1124.
- quality, effect of copper, 1124.\*
- effect of season and nutrition, 1123.
- in improved Texel sheep, 851.\*
- solensised, 150.\*
- thickness, effect of intensity of feeding (sheep), 524.
- world production, 1953-54, 544.
- yield of clean wool from unwashed fleece, 820.
- Work, capacity, effect of acclimatisation to altitude, 1164.\*
- of children, effect of age, sex and bodyweight, 271.\*
- effect on glucose metabolism (rat), 413.
- metabolic cost, relation to body type and fat content (man), 407.
- night and shift, in healthy and diseased persons, 849.\*
- Work performance (see *Energy output*; *Exercise*; *Physical performance*)
- Workers, in hot humid mines, adaptation, 434.\*
- industrial, coal miners and clerks, energy balance and diet study, U.K., 179.
- energy cost of operations, 117.
- feeding, Kenya, 180.
- jute, India, diet study, 1060.
- with tuberculosis, feeding, 798.
- women, nutritional status, America (U.S.), 761.
- miners, African, water and electrolyte losses, 150.
- port, Africa, Portuguese territories, diet studies, 183.
- World's food, and population, 185.\*
- Worm(s)
- Ascaridia galli*, in chickens, effect of leucine on resistance, 265.
- Haemonchus contortus*, growth of larvae, effect of mineral intake of lambs, 469.
- Hymenolepis diminuta*, amino acid oxidases, 469.\*
- Worm infestation and vitamin C deficiency (child), 208.
- control by grazing management (sheep), 1157.\*
- effect of cobalt deficiency (sheep), 1156.
- effect of restricted diet (poultry), 845.
- excretion of eggs, effect of roughage in ration (calf), 550.
- Oesophagostomum columbianum*, in sheep, effect of grazing green oats, 265.
- on different types of pasture, effect of maize supplement (steer), 1111.
- resistance, effect of trace elements and phenothiazine (humb), 1156.
- Wound healing
- contraction, role of collagen formation in scurvy (guinea pig), 957.
- delayed, effect of vitamin C, 200.
- effect of cod liver oil, 774.\*
- effect of vitamin C deficiency (guinea pig), 961.
- nucleoprotein in granulating tissue, effect of vitamin C (guinea pig), 958.
- protein metabolism, review, 695.\*
- XANTHINE OXIDASE (see *Oxidase, xanthine*)
- Xanthurenic acid, effect on phosphorus metabolism (rat), 649, 944.\*
- excretion, effect of deficiency of riboflavin or vitamin B<sub>2</sub> (rat), 645.
- excretion index, in nervous system disorders, 496.
- formation, effect of 5-hydroxy-anthranilic acid (rat), 944.
- production of hypervolaemia, mechanism, 944.\*
- relation to diabetes (rat), 79.
- Xanthurenic acid derivatives, in fruit fly, 944.
- Xenopus laevis (see under *Amphibians*)
- Xerophthalmia (see *Eye disorders*)
- X-ray exposure
- effect on ascorbic acid in tissues (rat), 381.
- effect on ascorbic acid metabolism (rat), 381.
- effect on fat metabolism (monkey), 706.
- effect on riboflavin in tissues (rat), 75.
- effect on tissue weights (rat), 680.
- effect on vitamin B<sub>12</sub> and nicotinic acid in tissues (rat), 358.
- protective effect of rat bone marrow (mouse), 172.
- protective effect of spleen in diet (rat), 465.
- treatment of cancer, effect of diet (woman), 1098.
- X-ray photography, in diagnosis of rickets in pigs, 931.

## YEAST(s)

- amino acid composition, 897.  
 as protein source, review (animals, man), 337.\*  
 baker's, amino acid synthesis, 897.\*  
 fermentation of sugars, effect of vitamin B<sub>1</sub>, 941.  
 brewer's, antipernicious anaemia principle, treatment of anaemia, macrocytic, 1080.\*  
 effect on exudative diathesis and leg weakness in chickens, 66.  
 for pigs, 528, 1128.  
 vitamin E and vitamin E-like factor, effect on chickens, 559.\*  
 cell multiplication, role of intermediary carboxylic acids, 851.\*  
 effect on caries incidence (rat), 752.  
 effect on carotene utilisation (rat), 922.  
 effect on phosphorus metabolism (rat), 274.\*  
 fodder, for fattening pigs, 1128.  
   to replace fishmeal, effect of maize in ration, 1128.  
 food, for children, Guinea, 471.  
 in histiot-deficient medium, fat production, 609.  
 in silage making, 327.\*

## Yeast(s)

- marine, *Cryptococcus laurentii*, vitamin B<sub>12</sub> requirement, 70.  
 nitrogen, absorption (man), 995.  
 post-sulphite, for fattening pigs, 1128.  
 preparation with sulphuric acid alone or containing chlorobenzene-sulphonic acid, toxicity (rat), 1048.  
 production of liver necrosis (rat), 1048.  
*Saccharomyces carlsbergensis*, utilisation of pantothenic acid, 372.  
*Saccharomyces cerevisiae*, uptake of vitamin B<sub>12</sub>, 941.  
 vitamin B<sub>12</sub> deprivation, effect on nucleic metabolism, 369.  
 seaweed extracts as substrates, 328.  
 sulphite, lead content, 270.\*  
 Tornla, and liver necrosis (rat), 1163.\*  
 availability of lysine for chickens, 559.\*  
*Torula utilis*, acetate incorporation into peptides and proteins, 461.  
 sulphur incorporation and turnover of glutathione, 1040.  
 treatment in diabetes (man), 415.  
 Yeast extract, nutritive value, 643.  
 Yeast mannan (gum), estimation, 307.

- Yellow fat disease, in fur animals, 274.\*  
 Yoghurt, modified, effect on intestinal flora, 1063.  
 treatment of constipation, 506.  
 Yolk sac, involution, effect on carotene in blood (chicken), 344.  
 Yugoslavia (see *Yugoslavia*)
- Zinc, value of isoleucine as supplement (rat), 129.
- Zinc  
 absorption and placental transfer (rat), 150.  
 deficiency, effect on male genital system, 445.\*  
 distribution in pancreas (rabbit, rat), 444.  
 estimation, 27.  
   in fish and meat conserves, 595.\*  
   in thyroid tissue (man), 594.  
   in tissues, 315.  
   in blood (man), 27\*, 109\*, 317.  
   in eye of seal, 981.  
   in thyroid and other tissues (man), 594.  
 prevention of parakeratosis in pigs, 1153.

# NUTRITION ABSTRACTS & REVIEWS

ISSUED UNDER THE DIRECTION OF THE COMMONWEALTH  
AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL  
RESEARCH COUNCIL, AND THE REID LIBRARY

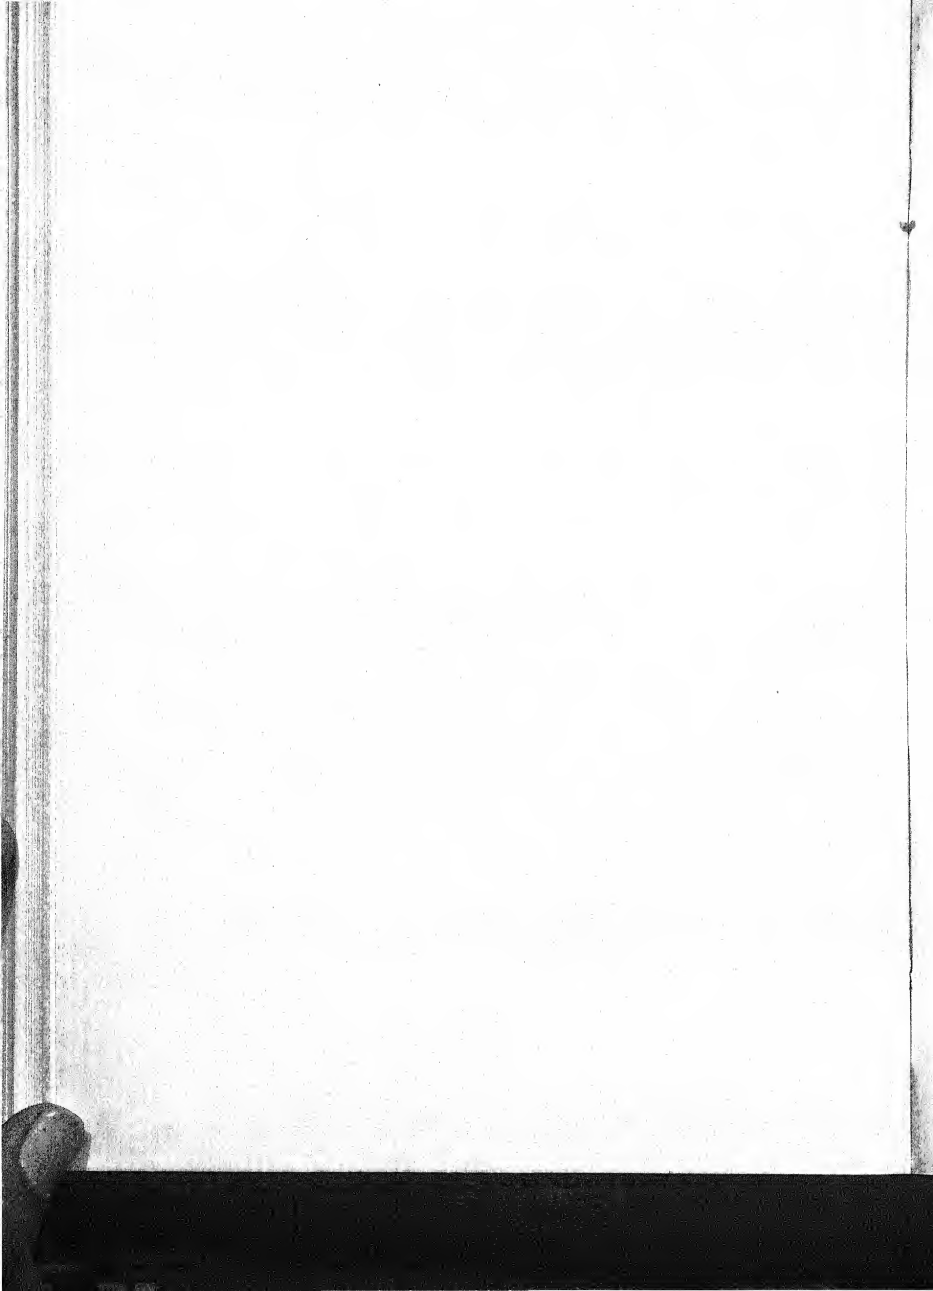

VOLUME 27  
1957

ABERDEEN:

PUBLISHED BY THE COMMONWEALTH BUREAU OF ANIMAL NUTRITION,  
ROWETT RESEARCH INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND

---

PRINTED AT THE ABERDEEN UNIVERSITY PRESS LTD.

# NUTRITION ABSTRACTS AND REVIEWS

## COMMITTEE OF MANAGEMENT

*Chairman:* COL. E. BIRNIE REID, O.B.E., T.D., C.A.

*Representing the Commonwealth Agricultural Bureaux Council:*

DR. V. ARMSTRONG.

MR. J. E. C. COVENTRY.

SIR HERBERT HOWARD.

*Representing the Medical Research Council:*

PROFESSOR SIR RUDOLPH PETERS, M.C., M.D., F.R.S.

PROFESSOR B. S. PLATT, C.M.G., PH.D., M.B.

HARRIETTE CHICK, D.B.E., D.Sc.

*Representing the Reid Library:*

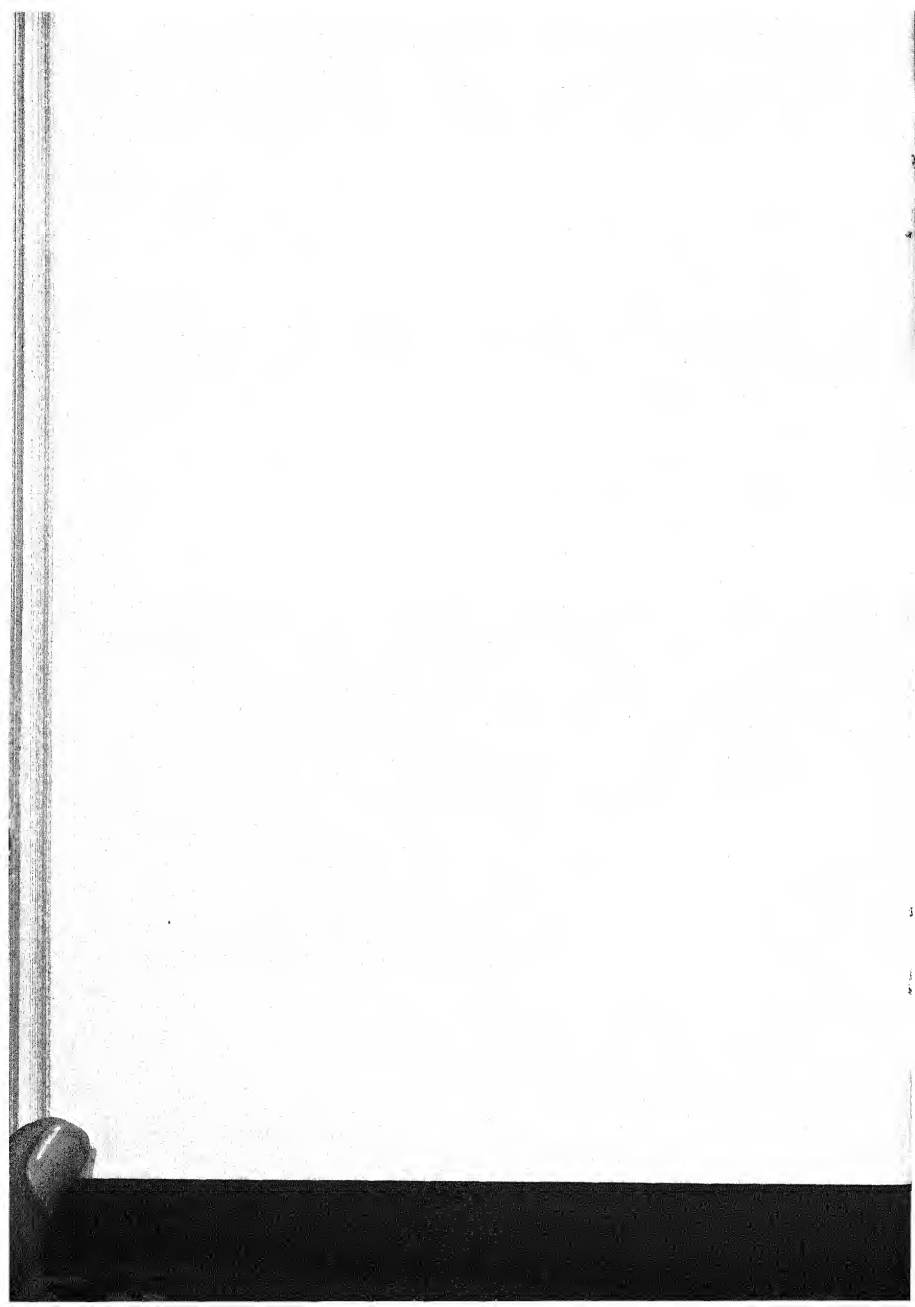

PRINCIPAL Sir THOMAS TAYLOR, C.B.E., Q.C., M.A.,  
LL.B., D.D., LL.D.

PROFESSOR E. W. H. CRUICKSHANK, M.D., D.Sc., M.R.C.P., F.R.S.E.

PROFESSOR V. C. WYNNE-EDWARDS, M.A., F.R.S.C., F.R.S.E.

All communications should be addressed to the Secretary, NUTRITION ABSTRACTS AND REVIEWS, ROWETT INSTITUTE, BUCKSBURN, ABERDEENSHIRE, SCOTLAND.

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from the Royal Society, Burlington House, London, W.1.

## CONSULTING EDITORS

LORD BOYD ORR, Newton of Stracathro, Brechin, Angus.

HARRIETTE CHICK, D.B.E., D.Sc.

## EDITORS

D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen (*Chairman*).

I. LEITCH, Commonwealth Bureau of Animal Nutrition, Aberdeen.

E. M. HUME, Lister Institute, London.

J. A. B. SMITH, Hannah Dairy Research Institute, Kirkhill, Ayr.

A. M. THOMSON, Department of Midwifery, University of Aberdeen.

## OVERSEAS CORRESPONDENT

PROFESSOR H. H. WILLIAMS, Cornell University, U.S.A.

### *Secretary :*

D. HARVEY, Commonwealth Bureau of Animal Nutrition, Rowett  
Institute, Bucksburn, Aberdeenshire.

## TABLE OF CONTENTS

	PAGE
Committee of Management . . . . .	iii
Editors . . . . .	v
Review Articles	
Secular Change in Height and Weight of British Children, including an Analysis of Measurements of English Children in Primary Schools: 1911-1953. A. W. Boyne, F. C. Aitken and I. Leitch	1
Potential Agricultural Production of Canada. P. O. Ripley . . .	201
The Amino Acid Requirements of Adult Man. William C. Rose . .	681
The Nutritive Value of Herbage for Poultry. S. J. Cowlishaw and D. E. Eyles . . . . .	983

## ABSTRACTS

	PAGES		PAGES
<b>1. TECHNIQUE</b>		<b>3. VITAMINS</b>	
Chemical		General . . . . .	53, 346, 694, 1037
APPARATUS . . . . .	19, 301, 649, 997	Vitamin A . . . . .	55, 349, 695, 1039
ANALYTICAL METHODS		" D . . . . .	63, 359, 707, 1044
General . . . . .	19, 302, 649, 997	" E . . . . .	65, 362, 713, 1047
Carbohydrate Constituents	20, 302, 650, 998	" K . . . . .	70, 364, 717, 1050
Nitrogenous . . . . .	22, 305, 653, 999	" B Complex: General . . . . .	71, 366, 718, 1051
Lipoid . . . . .	26, 311, 659, 1003	" B <sub>1</sub> (Aneurin, Thiamine)	72, 368, 720, 1053
Other Organic . . . . .	27, 314, 661, 1006	Riboflavin . . . . .	76, 374, 726, 1057
Inorganic . . . . .	30, 315, 662, 1008	Nicotinic Acid (Niacin) . . . . .	77, 377, 728, 1059
Hydrogen Ion Concentra- tion . . . . .	— 318, — 1012	Vitamin B <sub>6</sub> (Pyridoxine, Adermin)	78, 380, 731, 1060
Enzyme Activity . . . . .	32, 318, 664, 1012	Pantothenic Acid . . . . .	80, 383, 733, 1062
Miscellaneous . . . . .	33, 319, 664, 1012	Biotin . . . . .	— 385, 736, 1064
Microbiological . . . . .	33, 320, 665, 1013	p-Aminobenzoic Acid . . . . .	80, 385, 737, 1065
Clinical and Experimental . . . . .	33, 320, 665, 1013	Folic Acid (Pteroylglutamic Acid)	81, 386, 737, 1067
Cooking, Sterilisation and Pres- ervation of Food . . . . .	37, 324, 669, 1019	Vitamin B <sub>12</sub> . . . . .	82, 387, 739, 1069
Culture of Micro-Organisms for Food . . . . .	— — 674, —	Other B Vitamins . . . . .	87, 394, 745, 1073
<b>2. CHEMICAL COMPOSITION OF FOODSTUFFS</b> (except Vitamins, for which see Section 3)		Vitamin C (Ascorbic Acid) . . . . .	88, 395, 746, 1073
Energy Value, Proximate Prin- ciples and Inorganic Constitu- ents		Other Vitamins . . . . .	93, 403, 752, 1078
GENERAL . . . . .	40, 329, 675, 1022	<b>4. PHYSIOLOGY OF NUTRITION</b>	
FOODSTUFFS OF ANIMAL ORIGIN		Enzymes . . . . .	94, 403, 755, 1079
General . . . . .	— — 677, 1023	Digestion and Absorption . . . . .	95, 408, 757, 1081
Milk and Milk Products . . . . .	41, 330, 677, 1023	Composition of Body Fluids and Tissues	
Eggs . . . . .	43, 333, 680, 1026	BLOOD . . . . .	103, 417, 766, 1090
Meat (all kinds) . . . . .	43, 333, 680, 1026	LYMPH, CEREBROSPINAL FLUID, ETC. . . . .	108, 426, 774, 1100
Fish . . . . .	45, 335, 681, 1027	TISSUES . . . . .	110, 427, 774, 1101
Other Types . . . . .	— 337, 683, 1028	Ductless Glands and Hormones	113, 430, 779, 1105
FOODSTUFFS OF VEGETABLE ORIGIN		Energy Exchange and Specific Dynamic Action . . . . .	116, 437, 784, 1112
General . . . . .	46, 337, 683, 1029	Carbohydrates . . . . .	120, 442, 788, 1118
Cereals . . . . .	47, 338, 684, 1029	Proteins and Protein Derivatives	125, 447, 795, 1124
Roots . . . . .	— 339, 687, 1031	Fats and Other Lipids . . . . .	134, 458, 807, 1133
Leafy Vegetables . . . . .	48, 339, 688, 1031	Minerals	
Legumes . . . . .	48, 339, 688, 1031	GENERAL . . . . .	144, 469, 820, 1140
Fruits . . . . .	49, 340, 689, 1032	CALCIUM AND PHOSPHORUS AND STRONTIUM . . . . .	144, 469, 821, 1141
Other Types . . . . .	50, 341, 691, 1033	MAGNESIUM . . . . .	— 471, 826, 1146
Pasture, Hay and Silage	50, 342, 692, 1034	SODIUM, POTASSIUM, AND SODIUM CHLORIDE . . . . .	146, 472, 826, 1146
MISCELLANEOUS . . . . .	52, — 693, 1036	HALOGENS . . . . .	149, 473, 827, 1147
		IRON AND COPPER . . . . .	152, 474, 828, 1148

General Metabolism and Feeding Habits of Animals other than Mammals and Birds . . . . .	188, 510, 867, 1193

## 5. HUMAN DIET IN RELATION TO HEALTH AND DISEASE

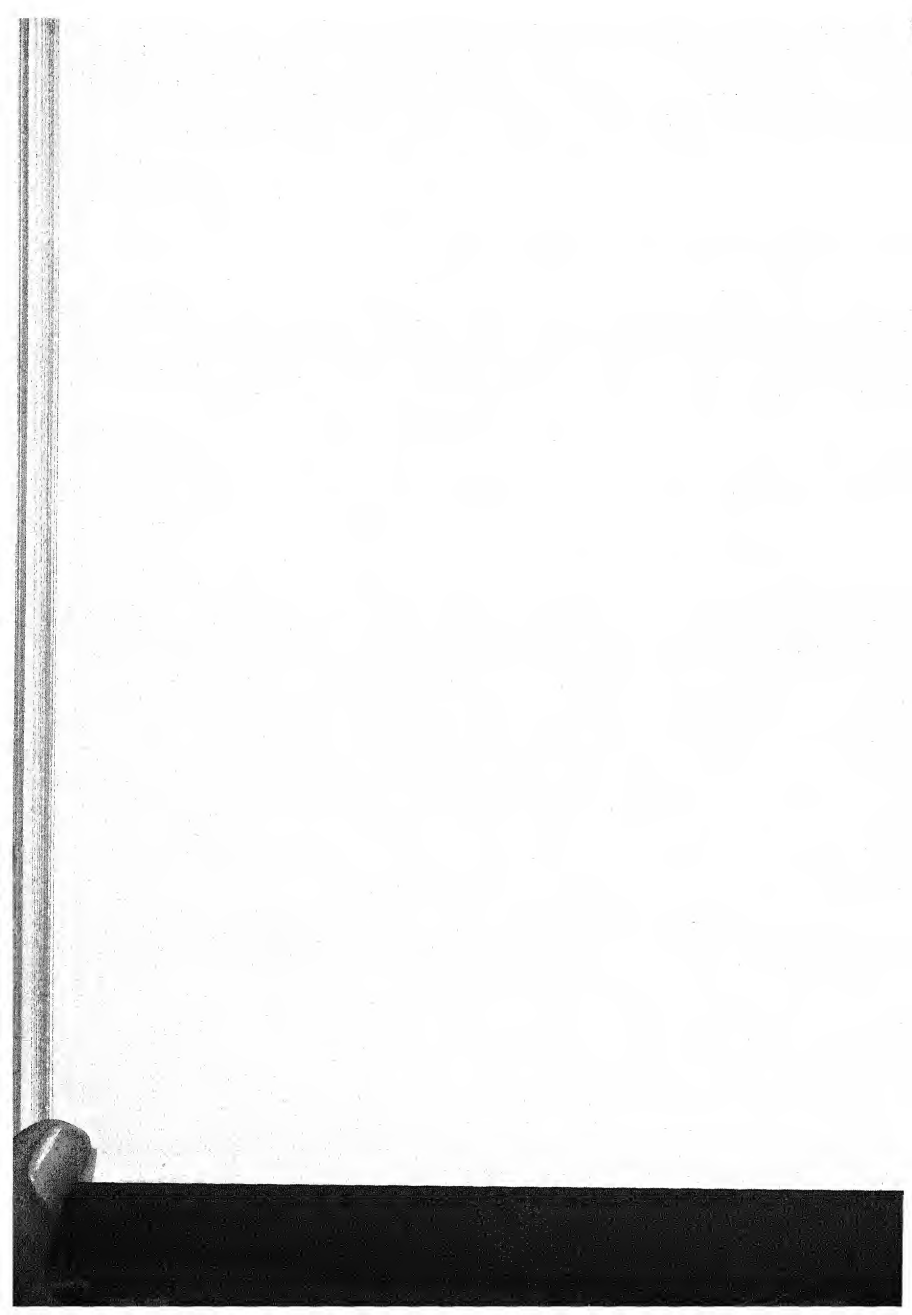

Diet	
REQUIREMENTS . . . . .	190, 513, 874, 1198
FEEDING OF INFANTS AND CHILDREN . . . . .	191, 513, 875, 1200
DIETARY SURVEYS AND INDIVIDUAL STUDIES . . . . .	194, 516, 877, 1203
GENERAL STUDIES: DIET PLANNING: EDUCATION . . . . .	198, 522, 882, 1207
Food Economics and Statistics . . . . .	200, 525, 884, 1214
Diet in Etiology of Disease	
METHODS OF ASSESSING STATE OF HEALTH . . . . .	200, 526, 885, 1215
GENERAL STUDIES . . . . .	200, 526, 885, 1215
DEFICIENCY DISEASES	
General . . . . .	201, 528, 887, 1218
Vitamin A . . . . .	203, 531, 894, 1221
" D . . . . .	205, 531, 895, 1222
" E . . . . .	206, 533, 900, 1225
" B Complex . . . . .	208, 534, 901, 1225
" C . . . . .	217, 542, 912, 1232
Other Vitamins . . . . .	218, 546, 913, 1234
DENTAL DISEASES . . . . .	218, 546, 914, 1235
POISONS: PATHOGENIC ORGANISMS: FOOD LAWS . . . . .	220, 548, 916, 1237
IMMUNITY . . . . .	220, 549, 916, 1238
RADIATION . . . . .	— 549, 917, —

## Therapeutic and Preventive Dietetics

GENERAL . . . . .	221, 550, 917, 1238
DIABETES . . . . .	222, 550, 918, 1239
GASTRO-INTESTINAL CONDITIONS . . . . .	223, 551, 920, 1240
THYROID DISEASE . . . . .	224, 552, 921, 1242
ANAEMIA . . . . .	225, 553, 923, 1243
OTHER CONDITIONS . . . . .	227, 554, 925, 1245

## 6. FEEDING OF ANIMALS

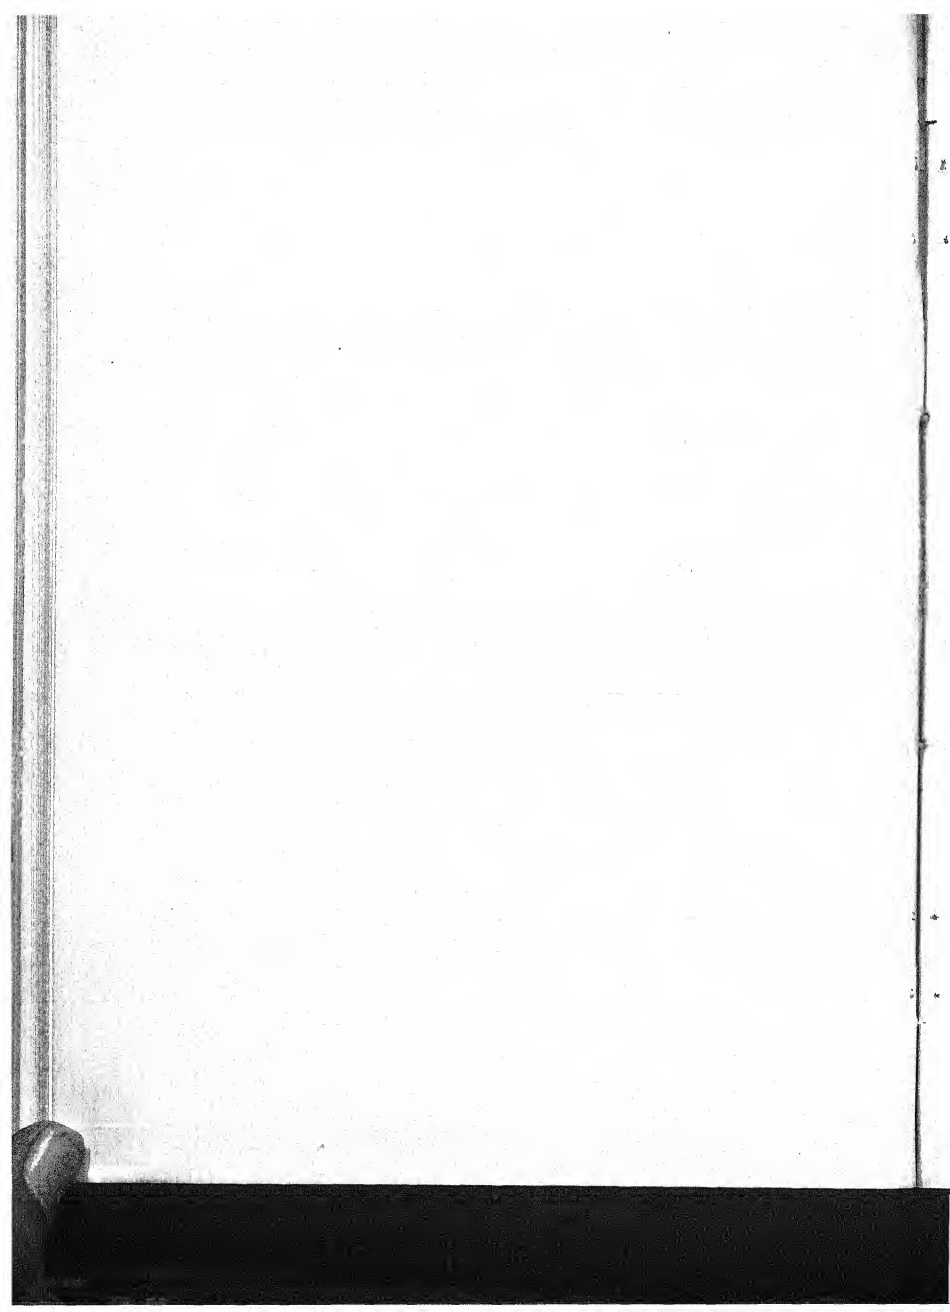

General, including Digestibility Trials . . . . .	229, 556, 929, 1248
Horses . . . . .	— 561, 933, —
Cattle	
GROWTH AND FATTENING . . . . .	234, 562, 934, 1256
MILK PRODUCTION . . . . .	240, 569, 937, 1260
REPRODUCTION . . . . .	245, 576, 940, 1265
Sheep . . . . .	246, 576, 942, 1265
Pigs . . . . .	249, 580, 945, 1269
Goats, Rabbits and other Mammals . . . . .	257, 582, 955, 1278
Poultry	
GROWTH AND FATTENING . . . . .	258, 594, 956, 1282
EGG PRODUCTION . . . . .	265, 599, 962, 1290
Other Birds . . . . .	— 601, 963, 1293
Food Economics and Statistics . . . . .	268, 601, 963, 1294
Diet in Etiology of Disease	
GENERAL . . . . .	271, 604, 966, 1297
DEFICIENCY DISEASES . . . . .	272, 607, 967, 1299
DISEASES OF METABOLISM . . . . .	273, 607, 969, 1300
POISONS OCCURRING IN FOOD . . . . .	274, 608, 970, 1301
MICRO-ORGANISMS OCCURRING IN FOOD . . . . .	— — — — —
IMMUNITY . . . . .	276, 610, 972, 1302
7. BOOK REVIEWS . . . . .	276, 610, 972, 1304
8. SYMPOSIA, PROCEEDINGS AND CONGRESS REPORTS . . . . .	279, 614, 975, 1308
9. FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS . . . . .	289, 626, 980, 1317
10. DEPARTMENTAL AND OTHER REPORTS . . . . .	289, 627, 980, 1318

550, 918, 1245.

## Children

- metabolism, 125\*, 437, 448, 800, 1107,  
1134.  
γ-radiation, Sweden, 549.  
requirements, 978.\*  
Chile, fishmeal, vitamins, 1057.  
Chimyl alcohol, absorption (rat), 836.  
Chinchilla, disorders, staphylococcal enter-  
ococci, 271.  
Chlorella, formation of carotenoids, 1040.  
Chloretone, effect on ascorbic acid and  
inorganic phosphorus in tissues, 91.  
effect of ascorbic acid formation, 89, 407.  
Chloride, absorption, 763.  
body (man), 111.  
distribution, 620\*, 1147, 1154.  
estimation (man), 30.\*  
estimation, 30\*, 316, 1010.  
exchangeable, 620.\*  
in blood, estimation, 19.  
in milk, diagnostic value, 679.\*  
in saliva, 109, 427.  
interaction with sodium and potassium,  
686.  
requirement, man, 1200.  
Chloris gayana, composition, 981.\*  
Chlorogenic acid, identification, in coffee,  
40.\*  
Chlorophyll, effect on biological activity  
of vitamin C (guinea pig), 58.  
estimation, in olive oil, 665.  
metabolism, 480, 1157.  
Chlortetracycline (see under *Antibiotics*)  
cholesterol, metabolism, 1139.  
3-β, production of gall stones, 156.  
Cholestyrenes, 4-4, metabolism, 1139.  
toxicity, 1312.\*  
Cholesterol (see also *Lipids*)  
absorption, 412\*, 616\*, 762, 1310.\*  
7-dehydro-, absorption, 284.\*  
digestion (man), 286.\*  
distribution in body, 814, 977\*, 1311\*,  
1314.\*  
effect on aorta, 142, 287\*, 531, 819, 820,  
1314\*, 1315.\*  
effect on blood coagulation, 760, 814.  
effect on blood composition, 100, 141,  
466, 813, 1139, 1312.\*  
effect on tissue composition, 466.  
endogenous, excretion, 464.  
epi-, metabolism (rat), 1139.  
esterase (see under *Esterase*)  
estimation, 27, 281\*, 313, 661, 976\*,  
1005, 1006.  
excretion, 465, 815.  
formation, 80, 139\*, 481\*, 487, 616\*, 814,  
1138, 1311\*, 1314.\*  
free and esterified, separation, 1006.\*  
in adrenal, 1064, 1315\*, 1314.\*  
in bile, 732.  
in blood, clinical, 139, 140, 229, 281\*,  
424, 464, 517, 526, 527, 620\*, 771,  
772, 781, 816, 817, 926, 928, 1098,  
1135, 1136, 1138, 1309\*, 1313\*,  
1315\*, 1318.\*  
general, 140, 141, 143, 286\*, 287\*, 354,  
464, 465, 620\*, 659, 772, 814, 817,  
818, 1098, 1137, 1138, 1139, 1309\*,  
1310\*, 1311\*, 1313\*, 1314\*, 1318.\*  
in foods, 675.  
in liver (rat), 286\*, 464, 811, 1131, 1310\*,  
1311\*, 1318.\*  
intake, high, effects, 141, 620\*, 813,  
1039.  
metabolic effects, 141, 1311.\*  
metabolism, 130\*, 140, 143\*, 154, 280\*,  
467, 487\*, 488, 615\*, 815, 817, 844,  
1137, 1138, 1164, 1310\*, 1314.\*  
production of atherosclerosis, 142, 816\*,  
899, 1313.\*  
Cholic acid, metabolic effects, 1311.\*  
in blood in atherosclerosis (man), 105.  
Choline, breakdown by intestinal micro-  
organisms (pig), 180.

## Choline

- deficiency, fatty liver, 162, 287\*, 1311\*,  
1313\*, 1314.\*  
metabolism, 464, 734, 836, 1155, 1311\*,  
1313\*, 1314.\*  
effect on blood composition, 1139, 1310.\*  
estimation, 29.  
ethionine as antimetabolite, 1310.\*  
formation, 81, 280\*, 1071.  
metabolic effects, 91, 138, 265, 622\*,  
1314.\*  
requirement, chickens, 260.  
rat, 810.  
treatment of liver disorders (man), 894.  
Choline esters, in biological material, 52.\*  
Cholinesterase, estimation in blood, 32.  
in blood, 281\*, 406, 757.  
Chondroitin sulphate, metabolism (rat),  
480.  
role in calcification, 281.\*  
Chromatography, column, apparatus, 301,  
686.  
methods, 27, 305, 309, 349, 619\*, 650,  
1001, 1006.  
paper, 20, 301, 302, 309, 312, 313, 316,  
619\*, 649, 650\*, 652, 657, 660, 721\*,  
908, 1001, 1005, 1033.\*  
Chromic oxide, estimation, in faeces, 31,  
1010.  
excretion, tests, 622\*, 705, 1249, 1250,  
1316.\*  
Chromium, absorption and distribution,  
1309.\*  
in whisky, estimation, 31.\*  
Chromogens, excretion, in cattle, 622.\*  
hydrolysis by phosphatases, in analysis,  
33.\*  
Chronic, vestibular, effect of vitamin B<sub>12</sub>,  
89, 721.  
effect of vitamin B<sub>12</sub>, 85.  
Chrysanthemum, in plums, 341.\*  
Chylomicrons, in lymph, origin, 110.  
Chymotrypsinogen, activation by trypsin,  
899.  
Cider, composition, 1032.\*  
Cirrhosis, liver (see under *Liver disorders*)  
Citrate or Citric acid, in lemon juice  
toxicity, 863.  
estimation, in whisky, 662.\*  
metabolism, 405, 432, 615\*, 709, 734,  
1045, 1311.\*  
relation to calcium metabolism, 469,  
1099.  
treatment of rickets, 1223.  
Citric (see *Vitamin P*)  
Citrogenous, in cartilage, rachitic, 709.  
Citrovorum factor (see *Leucostic citro-*  
*vorum factor*)  
Citruelline, metabolism, 286.\*  
production from ornithine, 736.  
Citrus by-products, for cows, 242.  
for pigs, 620\*, 1315.\*  
for poultry, 620.\*  
Citrus fruit(s) (see *Grapefruit*; *Lemon*;  
*Orange*)  
Citrus hybrids, ascorbic acid, 1305.\*  
Citrus juices (see also *Juices*, e.g., *Orange*  
*juice*)  
Climate (see also *Cold*; *Heat*; *Temper-*  
*ature*; *Tropics*)  
effect on conformation and behaviour of  
livestock, 234.  
Clover (see also *Legumes*)  
composition, 50, 232, 343.  
dried, carotene, 358.  
for sheep, 274, 628\*, 629\*, 966.  
ludino, silage, digestibility and feeding  
value, 1251.  
*Trifolium repens*, poisoning of calves, 609.  
white, production of goitre, 274.  
Clover hay, nutritive value, 1251.  
Clupeine, separation from salmon, 23.  
Cobalamin (see *Vitamin B<sub>12</sub>*)  
Cobalamins, actio-, conversion products,  
53.\*

- Cobalt, deficiency, in sheep, 272\*, 289\*, 290\*, 388, 605, 626\*, 942, 980\*, 1299.  
 estimation, 31, 282\*, 316, 1010.  
 excretion, 283\*, 976\*.  
 for pigs, 629\*.  
 in foods, 676, 684\*.  
 metabolic effects, 151, 162, 179, 388, 434, 475, 564, 787, 942, 981\*, 1181, 1310\*.  
 production of myxoedema, case report, 923\*.  
 prophylactic use in pregnancy, 923.  
 radio-active, in blood and tissues, 976\*, 1064.  
 secretion by pancreas, 831.  
 utilisation (cattle), 621\*.  
 Cobalt chlorophyllin, in nervous system, treatment of neuritis and neuralgia, 976\*.  
 Cobalt compounds, haemopoietic activity, 976\*.  
 Cocarboxylase (see also *Vitamin B<sub>1</sub>*)  
 deficiency, 1055.  
 estimation, 1053.  
 in blood, 1226.  
 in liver, 366.  
 inhibition by pyrophosphate, 1055.  
 metabolic effects, 1079.  
 treatment of rheumatoid pain, 1266.  
 Cockfoot, digestibility and nutritive value, 623\*, 1251, 1252.  
 Cocoa, effect on body composition and growth, 862.  
 Cocoa beans, composition, 340, 691.  
 Cocoa residues, for cows, 243.  
 Coconut, composition, 690.  
 Coconut meal, for cows, 1262.  
 for poultry, 1288.  
 Cod liver oil (see *Fish liver oils*)  
 Coelenterates, sea anemone, *Gyrostoma* sp., composition, 874.  
 Coeliline disease (see also *Stenotrochae*)  
 psychic factor, 224\*.  
 treatment, 1242.  
 Coenzymes, formation from vitamin B complex constituents, 281\*.  
 Coenzyme A (see also *Pantothenic acid*)  
 action, 384, 794, 1064, 1311\*.  
 acyl-, formation, 366.  
 antagonist, 978\*.  
 formation, 733.  
 in liver, 383, 384, 906, 1313\*.  
 in muscle, insect, 385.  
 in tissues, 367, 1311\*.  
 Coenzyme F, relation to vitamin B<sub>12</sub>, 282\*.  
 Coffee, composition, 40\*, 1032, 1039.  
 Coffee meal, for cattle, 288\*.  
 Coffee substitutes, use in hot industrial conditions, 1213.  
 Cold, acclimatisation, 438\*.  
 effect on food intake and selection, 615\*, 1114.  
 effect on iodine requirement, 1314\*.  
 effect on metabolism, 398, 434, 446, 616\*, 619\*, 749, 1075, 1105, 1313\*.  
 resistance, 430, 808, 1063.  
 Cold storage (see *Refrigeration*)  
 Cold, common, treatment, 545.  
 Colitis, ulcerative (see under *Digestive tract disorders*)  
 Collagen, composition, 52, 689, 1312\*.  
 formation, 280\*, 307, 1103.  
 in skin, in hyperkeratosis (calf), 60.  
 Colloidal clay, source of phosphorus for cattle, 564.  
 Colon (see under *Intestines*)  
 Colostrum: all entries refer to cow's colostrum unless otherwise stated.  
 buffalo, composition and properties, 678.  
 composition and properties, 678.  
 effect on antibody response (pig), 1303.  
 goat, vitamins, 357.  
 human, vitamins, 77, 357.  
 protein, absorption (kid, lamb), 416.  
 Colostrum  
 rabbit, vitamins, 357.  
 trypsin inhibitor (pig), 1080\*.  
 Colour(s), estimation, in wheat flour, 319.  
 Colouring matter, estimation, in foods, 1013.  
 Coma, diabetic (see under *Diabetes*)  
 hepatic (see under *Liver disorders*)  
 prolonged, treatment, case report, 554.  
 Composition, leaves, ascorbic acid and carotene, 54.  
 Condiments, for pigs, 948.  
 Congenital disorders, renal glycosuria (man), 1120.  
 Connective tissue, composition, 619\*, 1102, 1103.  
 Convulsions, in children, pyridoxine deficiency, 538.  
 Cook Islands (see under *Polynesia*)  
 Cooking, effect on beef, 38\*.  
 foods, effect on vitamins, 348, 402, 720, 725, 750, 751.  
 vessels, minerals dissolved, 1036.  
 Copper, catalytic action, 353.  
 deficiency, in infants, 530, 978\*.  
 in animals, 86, 272\*, 290\*, 564, 981\*, 1104, 1150, 1300.  
 effect on decomposition of vitamin B<sub>12</sub>, 388.  
 effect on iodine values of phosphatides and butterfat, 1025.  
 effect on sedimentation in bottled apple juice, 1032\*.  
 estimation, 282\*, 316, 662.  
 fertilisers, for pasture, 1035.  
 for pigs, 283\*, 621\*, 627\*, 628\*, 947, 952, 970, 1319\*.  
 free, in butter, estimation, 1319\*.  
 in blood, clinical, 115, 545, 620\*, 849, 1100\*.  
 in blood and liver, many vertebrates, 289\*.  
 in enzymes, effect of molybdenum, 319.  
 in foods, 676, 1310\*.  
 in liver, in hepatolenticular degeneration, 287\*.  
 in milk, 626\*.  
 in pasture, 344.  
 metabolism, 152\*, 164, 290\*, 475\*, 621\*, 627\*, 1151, 1310\*.  
 poisoning, 475\*, 608, 609.  
 requirement, of cattle, 628\*.  
 of sheep, 1266.  
 role in keratinisation, 1041.  
 tolerance (poultry), 625\*.  
 Coprophagy, nutritional significance (rat), 1309\*.  
 Coprofaecal formation, effect on cholesterol absorption, 1310\*.  
 Coprosterol, in faeces, effect of diet, 466.  
 Corn, American (see *Maize*)  
 Cornea (see under *Eye*)  
 Cortisone (see under *Adrenal cortex, hormone(s)*)  
 Cotton rat, blood picture, 417.  
 Cottonseed, composition, 673, 691\*.  
 Cottonseed kernels, composition, 50.  
 Cottonseed meal, for pigs, 949, 1275, 1319\*.  
 gossypol, estimation, 1007.  
 removal, 673.  
 moisture, estimation, 33.  
 Cottonseed oil, distillation residues, toxicity (rat), 810.  
 for poultry, 1292.  
 gossypol, estimation, 29.  
 Coumarin, toxicity (dog, rat), 864.  
 Coumarin derivatives, vitamin K as antidote, 717.  
 Cow(s) (see also *Cattle*)  
 disorders, deficiencies, 361, 966, 1318\*.  
 general, 604, 627\*, 966, 1298.  
 metabolic, 273, 274\*, 607, 617\*, 629\*, 713, 969, 1300, 1301, 1318\*.  
 poisoning, 971.  
 Cow(s)  
 effect of hormones, 572, 784.  
 Cow(s), feeding: entries refer to effect on milk yield and/or milk fat content; for other aspects see *Cattle, feeding*.  
 antibiotics, 573\*, 1319\*.  
 cereals, 289\*, 573\*, 1261, 1262.  
 concentrates, 240, 242, 269, 570, 572, 629\*, 704, 937, 938, 939, 1240, 1262, 1318\*.  
 general, 240, 242, 243, 285\*, 288\* 289\*, 290\*, 369, 570, 571, 573, 574, 575, 621\*, 623\*, 627\*, 628\*, 629\*, 938, 939, 969, 1240, 1260, 1261, 1262, 1263, 1316\*.  
 minerals, 617\*, 627\*, 941.  
 pasture, 245, 290\*, 556, 570, 571, 620\*, 628\*, 931, 932, 938, 966, 1253, 1261.  
 silage, 233, 242, 273, 288\*, 290\*, 570, 571, 627\*, 1251, 1261, 1262, 1263, 1318\*.  
 standards, 617\*, 621\*, 1260, 1318\*.  
 vitamins, 60, 617\*, 623\*, 704.  
 Cows, lactation (see also *Milk production*)  
 management, 174, 245, 569, 574, 575, 1264.  
 metabolism, 117, 283\*, 357, 470, 498, 616\*, 617\*, 1143.  
 milk production and yield (see *Milk production*)  
 performance and selection, 244, 245, 280\*, 374, 617\*, 618\*, 621\*, 938\*, 940, 969\*, 1178\*, 1260, 1264, 1319\*.  
 physiology, 174, 288\*, 421, 624\*, 940, 1178\*, 1248, 1319\*.  
 rumen (see under *Rumen*)  
 urine collection, apparatus, 288\*, 301\*.  
 utilisation of diet components, 288\*, 939, 938, 1240, 1263.  
 Cow manure, in poultry rations, 290\*.  
 Cozymase, in brain, tissue culture (guinea-pig), 397.  
 Crab (see under *Crustaceans*)  
 Cramp, treatment with, pantothenol, 906.  
*Crataegus* sp. (see *Hawthorn*)  
 Cream, fat, estimation, 1004.  
 fatty acids, 332.  
 Creatine, distribution in invertebrates, 1195.  
 estimation, 311, 658, 659, 663.  
 excretion (infant), 874.  
 formation, 280\*, 616\*, 745, 1038.  
 in blood, 106\*.  
 in muscle, 390.  
 metabolic effects, 623\*.  
 metabolism, 436, 616\*, 715, 1039\*.  
 Creatinine, clearance, clinical, 806, 874, 885.  
 estimation, 311.  
 Cresols, alkyl-, anti-oxidants for vitamin A, 62\*.  
 Cretinism (see under *Thyroid disorders*)  
*Critidia fasciculata*, requirements for folio acid and chitridia factor, 387.  
 Crops, deficiency diseases, effect on yield, 607.  
 prevention of losses by drying, 39\*.  
 production and uses, Sweden, 1294.  
*Crotalaria fulva*, poisoning (cattle, horse), 1301.  
 Cruciferae, leaves, ascorbic acid and carotene, 54.  
 methylxylosyl sulphoxide, 339.  
 Crustaceans, crab, composition and energy value, 683.  
 nerve, calcium content, 512.  
*Daphnia* and *Cyclops*, calcium turnover, 869.  
 marine, vitamin A isomers, 284\*.  
 prawns, composition, 683, 1028.  
 shrimps, carotene and vitamin A, 280\*.  
 composition, 628\*.  
 vitamin A isomers, 280\*.  
 woodlice, *Porcellio scaber*, feeding pattern, 572.

placental transfer, 173, 1174.  
protein-bound, estimation, 33, 281\*,  
310, 663.  
in blood, 425, 474, 495, 619\*, 625\*,  
772, 1100.  
radio-active, estimation, in thyroid,  
624\*, 1018.  
for assessing thyroid function, 225\*,  
322.  
for destruction of thyroid, 433.  
for labelling protein, 1013.  
preferential secretion by thyroid, 781.  
requirement, of man, 1309.\*  
of mouse, 1314.\*  
uptake by thyroid, clinical, 151, 922,  
1107.  
experimental, 741, 807.  
Iodine number, estimation, 1003.  
of body fat (cattle), 333.  
of milk, formula for calculating, 573.  
Iodised salt, control of goitre, 552, 977.\*  
in bread making, Australia, 224.  
review, 552.\*  
stability of potassium iodide, 922.\*  
Iodocasein (see under *Iodinated proteins*)  
Iodotyrosine, di- (see *Thyroxyne*)  
mono-, metabolism (man), 114.  
Ionophoresis, apparatus, 281.\*  
Ions, inorganic, mobility in paper chromatography, 803.  
Ipil-iplil (*Leucaena glauca*), meal, for poultry, 258.  
Iraq, diet study, 881.  
Iron, absorption (man), 474, 758, 909, 978\*,  
1145, 1150, 1243, 1319.\*  
experimental, 152, 769, 828, 829, 1149,  
1150.  
tolerance test (man), 474.  
availability, in palm and cane *gur*, 1033.  
body stores, clinical evaluation, 1015.\*  
deficiency, anaemia (see under *Anaemia*)  
effect on bone marrow, 981.\*  
latent, in blood donors, 553.  
metabolism, 1150.  
role in production of anaemia in infants,  
923.  
effect on riboflavin production by yeast,  
720, 1058.  
estimation, 31, 282\*, 317, 1010.  
food enrichment, 977.\*  
in blood, in achlorhydria with megaloblastic erythropoiesis, 924.  
in anaemia of pregnancy and puerperium, 1239.  
in liver disorders, 281.\*

## Iron

- in eggs, 43.  
in grasses, 290.\*  
in hair (man), 779.  
in lymph, 110.\*  
in serum, clinical (man), 107, 426, 620\*,  
1100\*, 1149.  
in animals, 108, 773, 830.  
in spinach, 1031.  
in spleen, in marrow (guinea pig), 747.  
inorganic, utilisation, 621.\*  
intake, excessive (rat), 830, 1150.  
metabolism, 152, 164, 287\*, 401, 408\*,  
475, 829, 852, 1150, 1310\*, 1311\*,  
1313.\*  
clinical, 281\*, 830, 1149, 1227, 1318.\*  
prophylactic use in pregnancy, 923.  
radio-active, in study of anaemia, 144.\*  
requirement of man, 190.  
siderosis, in Bantu, South Africa, 1247.  
storage, in marrow, premature infants,  
923.  
stores, significance in later life, 855.\*  
supply of foetus, relation to ferritin and  
to mother's haemoglobin (woman),  
849.  
treatment of anaemia, 225, 224, 923, 925,  
utilisation, 1141, 1172.  
Iron-binding capacity, of blood, estimation,  
33, 317.\*  
in anaemia, pernicious (man), 426.  
in animals, 773.  
Iron saccharate, effect of prolonged administration (rat), 830.  
Irradiation (see also *Infrared light*; *Light*;  
*Sunlight*; *Ultraviolet light*)  
effect on acceptability of foods, 324.  
for food preservation, 1019.\*  
for food sterilisation, 1019.\*  
ionised, effect on nutritive value of food,  
1318.\*  
softening of apples and carrots, 473.\*  
 $\gamma$ -Irradiation, diet for chickens, toxicity  
and effect on growth, 618.\*  
diet for rats, effect on cytochrome oxidase  
in liver, 619.\*  
effect on vitamin B complex components  
in beef, 618.\*  
Isoniazid (see *isoNicotinic acid hydrazide*)  
Isotopes (see also under specific elements,  
e.g., *Iodine*, *radio-active*)  
emitting  $\beta$ -rays, estimation, 301.\*  
emitting  $\gamma$ -rays, detection, 997.\*  
in carcasses, disposal, 669.  
radio-active, detection, 1013.\*  
in analytical procedures, 262.\*  
in biological studies, 144\*, 620.\*  
in metabolism studies, 117, 322\*, 668,  
1013\*, 1140.\*  
Israel, children, physique during siege, 168.  
teeth, fluorine content, 1237.  
Italy, agriculture, 233\*, 269, 560.  
leishmaniasis, case report, 887.  
dairy products, consumption, 963.  
diet study, 1204.  
diet study with clinical observations,  
1313.\*  
human milk bank, operation, 875.\*  
leishmaniasis, case report, 887.  
milk production and consumption, 603.

JACK fruit (see under *Breadfruit*)

- Jamaica, diet study with clinical observations, 520.  
tropical ankylostoma, treatment, 1247.  
veno-occlusive disease, relation to  
*Senecio* and *Crotalaria* (man), 1301.  
Japan, anaemia, aplastic and hypoplastic  
(man), 620.\*  
children, diet survey, 881.\*  
malnutrition and rickets, 891.  
goitre, incidence, 922.  
vitamin B<sub>2</sub> deficiency, 537.

## Japan

- copper intake and excretion from foods,  
1319.\*  
diet study, 521, 981\*, 1319.\*  
effect of food habits on longevity, 620.\*  
energy exchange, basal, 981.\*  
food consumption, 620.\*  
foods, copper content, 1319.\*  
National Nutrition Survey, 620.\*  
rickets, collected papers, 596.  
Java (see *Indonesia*)  
Javelina, wandering pattern, 592.  
Jawar (see *Millet*)  
Joghurt (see *Yoghurt*)  
Jola, Jowar, Juar (see *Millet*)  
Jugoslavia, diet study with clinical observations, 517.  
goitre, endemic, in horses, 967.  
rearing of Tsaipei sheep, economics, 1296.  
scurvy, case reports, 912.  
Kare(s), anti-thyroid substance, 48.  
composition and yield, effect of fertilisers, 688.  
fodder, Estonia, 560.\*  
Kaschin-Bek's disease (see under *Bone disorders*)  
Kefir, enrichment with ascorbic acid, 912.  
Kenaf seed meal, toxicity for cattle, 629.\*  
Kenya, cattle, thyroid function and reproduction, 618.\*  
poultry, growth, potentialities, 958.  
Keratin, in wool, effect of alkali, 1308.\*  
Kerrikerus, production in premature infants by vitamin K, 914.  
Keto-acids (see *Ketone bodies*)  
Ketone bodies, absorption, from rumen,  
1089.  
estimation, 281\*, 314, 426, 601, 977.\*  
formation, 162, 468, 480.  
in animal tissues, 778.\*  
in blood, 1092.  
metabolism, 153\*, 747, 840, 1313.\*  
precursors (cattle), 1121.  
in urine (man), 805.  
Ketone sugars, estimation, 21.  
Ketosis, in cattle, blood picture, 607.  
in pregnant ewes, treatment, 1300.  
in ruminants, cause and prevention,  
629\*, 970, 1318.\*  
Kid(s) (see *Kidney*)  
Kidney, calcium, cystine, diet treatment  
(man), 282.\*  
oxalic acid, origin (man), 282.\*  
relation to vitamin A (man), 282.\*  
cystinyl-glycinase (pig), 1080.\*  
effects of age and overfeeding, 855\*,  
1319.\*  
effects of protein or urea (man), 1124.  
effect of pyrogenic reaction (man), 472.  
excretion and reabsorption, 454, 711,  
1144, 1224.  
function, effect of diet (man), 479.  
effect on metabolism of vitamin B<sub>2</sub>  
analogues (man), 538.  
in diabetes and renal rickets, 469.\*  
in early days of life, 283.\*  
in hypercalcaemia, 1234.  
in nutritional deficiencies (rat), 479.  
in scurvy (man), 542.  
role in calcium metabolism, 470.\*  
weight, effect of sodium, potassium and  
chloride interaction (rat), 472.  
Kidney disorders, anuria, acute, diet  
treatment, 555.  
calcification by vitamin D<sub>2</sub>, 712.  
colic, production by vitamin D, case  
report, 1224.  
damage, in potassium depletion, 147.\*  
in fluoride poisoning, 149.  
production by injected sucrose (man),  
446.  
epithelium swelling, vitamin A deficiency,  
698.\*

## Kidney disorders

- failure, chronic, diet treatment, 555.  
glomerulonephritis, acute, treatment by diet, 555.  
in atherosclerosis, effect of magnesium (rat), 1314.\*  
in children, malnourished, 529, 1219.\*  
in kwashiorkor, 529.  
insufficiency, salt deficiency syndrome, 1246.\*  
lesions, produced by 2-amino-2-methyl-1-propanol (rat), 1190.  
myoglobinuria, treatment, 373.  
nephritis, experimental, effect of diet (rat), 863.  
nitrogenous constituents of urine (man), 806.  
treatment, 900.  
nephrotic syndrome, treatment, 228, 555.  
vitamin B<sub>12</sub> excretion (man), 1238.  
Kittens (see *Cats*)  
Kohlrahi, antithyroid substances, 48.  
Koji, extract, trehalose, 1036.  
Kudzu, tropical, agricultural value, 1031.  
Kwashiorkor, 285\*, 528\*, 610\*, 1219.\*  
and thrombocytopenic purpura, 1219.  
as public health problem, 1218.  
Belgian Congo, incidence, 530.  
blood coagulation, effect of vitamins 1235.  
blood composition, 407, 981\*, 1092, 1213.\*  
blood picture and bone marrow, 285\*, 890, 1219.  
bone development, 202.  
Capo Verde Islands, case report, 530.  
case reports, 587.  
changes in liver, 202\*, 668, 880, 1311.\*  
composition of mother's milk, 280.\*  
encephalitis-like syndrome, 203.  
epidemiology and prevention, Central America, 888.  
finger nails, Muehleke's lines, 1219.  
hair changes, 890, 981.\*  
India, case reports, 891.  
incidence, 530.  
isohaemagglutinin titres, 855.  
Italy, case report, 887.  
kidney lesions, 529.  
Nigeria, 889.  
nitrogen metabolism, 1125.  
pancreatic enzymes, 1084.  
potassium depletion, 529.  
protein and fat balances, during recovery, 888.  
resemblance to nutritional oedema in rats, 1157.  
role of lactose, 123.  
severe, clinical effects, India, 530.  
South Africa, follow-up study, 890.  
Southern Rhodesia, incidence, diet and biochemistry, 1220.  
treatment, 202, 1309.\*  
with amino acids, 285\*, 528.  
with diet, 202, 203, 889, 1220.  
Kynurenine, formation, 1131.\*  
3-hydroxy-, excretion, 906.  
hydroxy-, in nicotinic acid deficiency (rat), 729.  
metabolism (rice moth), 1197.  
Kynurenine sulphate, in nicotinic acid deficiency (rat), 729.

## LABIATAE, leaves, vitamins, 54.

## Lactalbumin, preparation, 653.

## Lactase, in intestine and other tissues, 794

Lactation (cow) (see also *Milk production*)Lactation (woman) (see also *Infant feeding, breast*; *Milk, human*)

## alveolar carbon dioxide (woman), 170.\*

## anaemia, iron-deficiency, in tropics (woman), 1244.

## blood composition (woman), 1178.

## Lactation

- calcium metabolism, 1144.  
carotene requirement, cattle, 357.  
changes in liver (rat), 496, 853.  
composition of mammary gland (rat), 176.  
effect of emulsifiers (rat), 850.  
effect of fatty acids in rumen (goat), and drugs (cow), 852.  
effect of nitrate (cattle), 924.\*  
effect of phosphorus intake (ewe), 577.  
effect on diabetes (dog), 792.  
hormones (cattle), 624\*, 1178.\*  
in guinea pigs, quantitative data, 1318.\*  
in mice, 1179.  
in women, Nigeria, 852.  
induced by hormones (goat), 955, 1178.\*  
iodine metabolism (rat), 151.  
length, relation to age at first calving, 937.\*  
"let down" evaluation (rat), 1180.  
milk formation (cow), 174, 853, 940, 1179.  
nitrogen metabolism (pig), 285\*, 945.  
physiology, review, 174\*, 498.\*  
physiology and biochemistry (book), requirements (rat), 497.  
transfer of chlortetracycline (rat), 851.  
utilisation of injected calcium (goat), 822.  
vitamin supplements for women, effect on intelligence of children, 535.  
Lactic acid or lactate, estimation, 28, 1008.  
in silage, 312.  
fate in rumen, 416, 624.\*  
for sheep, 577, 939.  
formation, 452, 939.  
by red cell homogenates, effect of carotene, 1222.  
in milk, effect of vitamin K, 365.  
in saliva, relation to lactobacilli, 178.  
in blood (man), 440, 786.  
effect on oxygen consumption, 615\*, 616.\*  
in rumen, 415, 622.\*  
metabolism, 122, 615.\*  
in pregnancy (woman), 1315.\*  
in rumen, 288.\*  
Lactobacilli, anaerobic, in faeces (man), 501.  
in saliva, lactic acid production, 178.  
Lactobacillus arabinosus, vitamin B<sub>6</sub> deficiency, 1060.  
Lactobacillus bifidus, in faeces of infant chimpanzees, 501.  
synthesis of vitamin B<sub>1</sub>, 369.  
Lactobacillus casei, effect of folic acid, 1068.  
effect of riboflavin and flavin derivatives, 374.  
Lactobacillus casei factor (see *Pteroyl-glutamic acid*)  
Lactobacillus fermenti, estimation of vitamin B<sub>1</sub>, 368.  
Lactobacillus leichmannii, nucleic acid metabolism, role of vitamin B<sub>12</sub>, 84.  
Lactobacillus leichmannii 313, growth substances, 283.\*  
Lactoglobulin, preparation, 653.  
Lactones, conversion to ascorbic acid, 748.  
Lactose, effect on absorption of calcium and strontium, 412.  
effect on digestive tract, 1082.  
and on tissue galactosidase, 794.  
estimation, 21.  
formation, 174, 1160, 1180.  
lipotropic effect, 123.  
nitrogenous derivative, in mammary tissue, 1180.  
toxicity, 123, 124.  
Laevulose (see *Fructose*)  
Lamb (meat) (see *Mutton*)  
Lamb(s) (see also *Sheep*)  
behaviour, 1266.  
birthweight, 493, 578, 942.

## Lamb(s)

- blood composition, 623\*, 773, 1266.\*  
carcass composition, 623\*, 628\*, 944.  
carcass quality, 247, 623\*, 944.  
development, importance of first feed, 246.  
disorders, cerebella ataxia, owes on peavine silage, 1298, 1316.\*  
cobalt deficiency, 1290.  
corticotrophic, effect of chlortetracycline, 247.  
lameness and unthriftiness, lead mining area, U.K., 608.  
muscular dystrophy, 65, 303.  
nematode infestation, 1302.\*  
"stiff lamb" disease, 1318.\*  
fattening, economics, 1296.  
hormones, 247, 283\*, 290\*, 577, 624\*, 628\*, 944, 1318.\*  
feeding, antibiotics, 247, 621\*, 1267.  
general, 246, 577, 621\*, 622\*, 943, 1265, 1318.\*  
pasture, 290\*, 576, 970\*, 1265, 1267.  
growth, 65, 246, 247, 249, 1265, 1266\*, 1267.  
hairiness of tail in relation to subsequent weight loss, 480.  
Karakul, birthweight, 246.  
of low vitality, 104, 118.  
mineral metabolism, 623.\*  
newborn, body size and muscle fibre diameter, 169.  
weight loss, 942.  
nitrogen metabolism, 797.  
requirements, 1318.\*  
rumen inoculum, 178.  
toxicity of californio, 206\*, 628.\*  
unthriftiness, New Zealand, 979.\*  
vitamin A metabolism, 1318.\*  
Lanosterols, separation, 1006.  
Lanthionine, estimation, 1308.\*  
Lard, distillation residues, toxicity (rat), 810.  
for pigs, 585.  
2, 6-di-tert-butyl-p-cresol, estimation, 1007.  
Lathyrism,  $\beta$ -aminopropionitrile, toxicity, for turkeys, 624\*, 865.  
effect on reproduction of poultry, 1180.  
experimental, in rats, 186, 287\*, 619\*, 865, 879\*, 1110, 1191.  
pathology (rat), 864, 865.  
Lathyrus,  $\beta$ -aminopropionitrile, estimation, 1007.  
Lathyrus odoratus, toxicity (rat), 186.  
Lead, estimation, distribution in tissues and excreta (man), 31.  
in food, 662, 1011.  
in teeth, enamel (man), 113.\*  
in yeast, 342.  
poisoning, protective substances (rabbit), treatment, 1248.  
Leaf protein (see *Protein, leaf*)  
Leaves, edible, West Africa, 46.  
nitrogenous constituents, 627.\*  
tree, as fodder, 280.\*  
Lecithin (see also *Phospholipids*)  
effect on behaviour (rat), 468.\*  
effect on vitamin A storage (rat), 981.\*  
formation, 810.  
in blood, 818.  
in fat emulsions, decomposition, 673.  
metabolism, 141.  
separation from lysolecithin, paper chromatography, 313.  
soya bean, effect on antibody production (mouse, rat), 976.  
Legumes (see also specific legumes, e.g., *Pean*)  
Bengal gram, supplement to poor rice diet, 861.  
treatment of kwashiorkor, 202.  
birdsfoot trefoil, for sheep, 629.\*  
composition, 46, 48, 49, 337, 683.

## Legumes

- for pigs, 629.\*  
leaf protein concentrates, nutritive value, 506.  
protein value for rats, 181.  
seeds, germinating, riboflavin, 377.  
vitamins, 54, 75, 308, 725, 981.\*  
Leiner's disease (see under *Skin disorders*)  
Lemmings, rearing and feeding, 594.  
Lemons, ascorbic acid, 1308.\*  
Lemon juice, composition, 690.  
toxicity (mouse, rat), 863.  
*Lens esculenta* (see  *Lentil*)  
Lens eye (see under *Eye*)  
Lentils, composition, 688.  
Lepedacea, hay, for cattle, 939.  
Leucæmia, blood sugar tolerance (man), 1118.  
lymphocyte, treatment (mouse), 386.  
treatment (child), 908.  
vitamin B<sub>12</sub> metabolism (man), 283\*, 287\*, 341.  
*Leucaena glauca* (see *Lipil ipil*)  
Leucine, metabolism, 286.\*  
supplement to wheat, for poultry, 265.  
isoLeucine, availability (rat), 1130.  
deficiency (rat), 131.  
metabolism, 286.\*  
requirements, man, 1312.\*  
pigs, 621\*, 947.  
norLeucine, formation of casein (cow), 615.\*  
Leucocytes (see *Blood, white cells*)  
*Leuconostoc citrovorum* factor, conversion to disintegrable amine, 738.  
in brewing, 739.\*  
in liver (monkey), 1309.\*  
labile, in urine (man), 745.  
metabolism, in goat, 539.  
production from folic acid, 386, 1315.\*  
treatment of anaemia, megaloblastic (infant), 539.  
Leucovorin, conversion to 10-hydroxymethyl, 81.  
Light (see also *Sunlight*)  
effect on carotenoid formation by *Chlorella*, 1040.  
effect on poultry, 599.  
effect on reproduction, 290\*, 578, 624.\*  
infrared (see *Infrared light*)  
ultraviolet (see *Ultraviolet light*)  
Ligue-Fanon syndrome, metabolism, 978.\*  
Lignin, detection, 282.\*  
digestibility, 930.  
effect on digestibility of cellulose *in vitro*, 629.\*  
estimation, 29.  
in straw, chemistry, 51.  
in wheatgrass, 1034.  
tracer in digestibility trials, 1318.\*  
Linoleic acid, estimation, 312.  
trans-isomers, in fatty acid deficiency (rat), 812.  
Linolenic acid, estimation, 312.  
metabolism (rat), 812.  
Linsaid cake, for cows, 937.  
Linsaid meal, effect on selenium toxicity (pig), 163.  
for cattle, 290.\*  
Lipase, estimation, in small intestine, 318.  
in blood, review, 1081.\*  
in digestive tract, distribution, 94, 404.  
in milk, human, review, 750.\*  
lipoprotein (man), 615\*, 1309.\*  
of different origins, selectivity, 404.  
Lipids (see also *Fats*; *Oils*; *Cholesterol*; *Phospholipins*)  
adrenal, 749.  
and cold, 807.\*  
aorta, effect of cholesterol, 819.  
blood (see *Blood lipids*; *Blood fat*)  
chemistry, 134\*, 807.\*  
chromatography, 1311.\*

## Lipids

- containing phosphorus, formation in gut (rat), 763.  
digestion and absorption, 280\*, 761.\*  
energy value, 661.  
estimation, 27, 290\*, 661, 997.  
formation, 118, 284\*, 615\*, 718, 1312.\*  
in baking, 1020.  
in brain (monkey), 112, 729.\*  
in central nervous system, foetus (man), 280.\*  
in cottonseed, composition, 691.\*  
in electron transport, 1309.\*  
in flour, baking properties, 1020.  
in food, effect on blood coagulation (man), 103.  
in groundnuts, 691.  
in haddock, 45.  
in jejunal contents (dog), 761.  
in lymph, intestinal, composition, 615\*, 1134.  
in meconium (man), 100.  
in nephrosis and after ethionine (rat), 287.\*  
in tissues, infrared analysis, 281.\*  
intake, effect on blood composition, 140.  
liver (see also *Fat, liver*)  
effect of cholesterol with free fatty acids (rat), 141.  
effect of pantothenic acid and throxine (rat), 383.  
metabolism, 134\*, 467.  
and arteriosclerosis, 220, 1314.\*  
effect of vitamin B<sub>12</sub>, 975.\*  
milk (see *Milk fat*)  
oxidation, effect of tocopherol, 619.\*  
paper chromatography, 312.  
peroxides, toxicity, rat, 618.\*  
phosphorylation, in choline deficiency, 734.  
rumen micro-organisms, 627.\*  
yeast, isolation and affinity to tocopherol, 717.  
Lipins (see *Lipids*)  
Lipoic acid (see *Thioctic acid*)  
Lipoproteins, deterioration, 1021.\*  
estimation, 281\*, 315, 1004.  
in blood (see under *Blood*)  
in urine (man), 427.  
macromolecular, in atherosclerosis, review, 1136.\*  
metabolism, 619\*, 817.  
Lipotropic substances (see also specific substances, e.g., *Choline*)  
cystine and methionine, 1131.  
effect on blood lipids (man), 139, 927.  
lactose (rat), 123.  
prevention of nutritional oedema (rat), 1157.  
reduction of blood cholesterol, 229.  
requirements of rats, 143.  
treatment of atherosclerosis, 927.  
Lithium, effect on cellulose digestion by rumen micro-organisms, 622.\*  
estimation, 1011.  
Liver: the entries are divided into two groups:  
(a) those relating to the liver as an organ;  
(b) those relating to the liver as a food, or to liver preparations as therapeutic agent or source of vitamins.  
For constituents such as Liver cholesterol, see *Cholesterol*, in *Liver*.  
acetylating capacity and coenzyme A, 1065.  
amino acids, effect of dietary protein (pig), 285.\*  
biopsy, effect of dysentery and nutritional dystrophy, children, 891.  
effect of malnutrition and rickets, children, 891.  
technique (cattle), 624.\*  
blood content, estimation, 34.  
cells, chemistry, review, 1158.\*

## Liver

- cells, cholesterol metabolism (mouse), 457, 458.  
fractions, protein formation, 841, 1162.  
nucleoli, effect of thyroid, 1109.\*  
protein, electrophoresis, 306.\*  
changes during lactation (rat), 853.  
cholesterol (see under *Cholesterol*)  
cocarboxylase, 366.  
coenzyme A (man), 906.  
role of vitamin B<sub>12</sub> (rat), 733.  
coenzyme A and fatty acids (turtle), 1318.\*  
coenzyme A and lipid, 383.  
composition, 1103.  
effect of malnutrition, children, 889.  
in scurvy, effect of fructose (guinea-pig), 747.  
cytoplastic granules, composition, 615.\*  
diphosphopyridine nucleotide, effect of vitamin B<sub>12</sub> deficiency (rat), 1311.\*  
Liver disorders, amino acid metabolism (man), 451.  
biliary cirrhosis, xanthomatous, vitamin E deficiency, case report, 538.  
blood composition, 107, 281\*, 635, 769\*, 1122.  
carbohydrate metabolism, 287\*, 791, 1110.\*  
cirrhosis, blood copper, effect of ascorbic acid (man), 545.  
folic acid metabolism, 908.  
in dogs, 1318.\*  
in war prisoners, 1216.  
incidence, Gold Coast, 886.  
intestinal micro-organisms (man), 1182.  
ketone body formation (man), 468.  
mitochondrial phospholipins (rat), 287.\*  
Morocco, Moslems, 554.  
nitrogen metabolism (man), 806, 1129.  
production in war prisoners, 538.\*  
prevented by selenite, prevention by cysteine (rat), 831.  
response to water loads (man), 154.  
source of blood ammonia (man), 287.\*  
vitamin B<sub>12</sub> deficiency (monkey), 79, 819.\*  
vitamin B<sub>12</sub> content (man), 908.  
coma, blood ammonia (man), 228.  
treatment, 228\*, 976\*, 1246.  
damage, by ligation of bile duct, effect of thioctic acid, 754.  
by thioacetamide and heliotropin, effect of orotic acid (rat), 394.  
experimental, prevention by liver extract, 615.\*  
in war prisoners, incidence and prevention, 630.  
nutritional (man), 1217.\*  
produced by carbon tetrachloride, effect on digestive tract (rat), 408.  
effect of vitamin B<sub>12</sub>, 283.\*  
fatty liver, choline deficiency (dog), 1155.  
effect of mucopolysaccharides from stomach (rat), 810.  
enzyme treatment (rat), 162.  
contribution of depot and dietary fats (rat), 811.  
effect of amino acids and vitamin B<sub>12</sub> (rat), 1072.  
effect of gastric mucoprotein (guinea-pig), 391.  
effect of human milk fraction (rat), 1312.\*  
ethionine, effect of methionine and other substances (rat), 143.  
pantothenic acid deficiency (rat), 1063.  
produced by diet, effect of oestradiol, 1314.\*  
production (mouse, rat), 1130.

## Liver disorders

- fatty liver, production by rare earths (rat), 1312.\*  
 effect of carnitine (rat), 1313.\*  
 regeneration of liver tissue (rat), 143.  
 vitamin B<sub>12</sub> in mitochondria (rat), 1056.  
 fibrosis, experimental, 185, 233.\*  
 fibrosis and cirrhosis, role of malnutrition, 890.\*  
 hepatitis, acute, treatment by diet, 1246.  
 chronic, glycine metabolism (man), 801.  
 infective, treatment, 1231.  
 hepatocellular degeneration, copper deposition, 287.\*  
 review, 475.\*  
 in children, malnourished, 529, 1219.\*  
 in tuberculosis, vitamin B<sub>12</sub>-binding substances in blood (man), 1231.  
 lithiasis, biliary, diet treatment, 928.  
 metabolism of vitamin B<sub>12</sub>, 976.\*  
 methionine toxicity, prevention by aureomycin, 287.\*  
 necrosis, allyl alcohol, protective substances (rat), 185.  
 effect of animal-protein factor (rat), 1190.  
 effect of cystine and vitamin E, 717.  
 effect of vitamin B<sub>12</sub> (rat), 391.  
 ether-soluble acids in urine (rat), 109.  
 in vitamin E deficiency (rat), 280.\*  
 production by roller-dried skimmed milk (rat), 183.  
 production by yeast proteins, 802.\*  
 pantothenic acid excretion (man), 906.  
 protein metabolism, 287.\*  
 role in tissue atrophy by vitamin E deficiency (rat), 1047.  
 thromboplastin (man), 1235.  
 treatment, 228\*, 554.\*  
 by diet, 548, 894.  
 tumours (see *Tumours*)  
 vitamins, metabolism (man), 620.\*  
 vitamin B<sub>12</sub> excretion (man), 542.  
 vitamin B<sub>12</sub> in blood, 287\*, 542.  
 Liver, effect of aureomycin (rat), 503.  
 effect of diet, 981.\*  
 effect of ethionine (rat), 1132.  
 effect of excess iron (rat), 830.  
 enlargement, in children, relation to diet and malaria, Papua, 1217.  
 enzymes, carbon tetrachloride poisoning (guinea pig), 384.  
 effect of diet and age (rat), 1079, 1311.\*  
 effect of fasting (rat), 348.  
 effect of glucagon, 287.\*  
 effect of thyrotoxicosis (rat), 390, 1311.\*  
 in amino acid deficiency (rat), 1079.  
 in vitamin B<sub>12</sub> deficiency (rat), 371.  
 in vitamin B<sub>12</sub> deficiency (rat), 731.  
 oxidase, cytochrome, effect of  $\gamma$ -irradiated diet, 619.\*  
 transmethylease, effect of orotic acid and vitamin B<sub>12</sub> (rat), 388.  
 fat (see *Fat, liver*; *Lipids, liver*)  
 fat content, effect of nicotinic acid and cystine (rat), 730.  
 fat distribution, choline deficiency (mouse), 1314.\*  
 fish, fat distribution, 62.  
 formation of plasma mucoproteins, 279.\*  
 formation of urea, review, 841.  
 function, in kwashiorkor, 202\*, 666.  
 in older patients, 1315.\*  
 in pregnancy, histidine metabolism and carotenoid conversion, 357.  
 tests, pantothenic acid excretion (man), 906.  
 glucose and glycogen distribution (rat), 429.  
 glutathione (see under *Glutathione*)  
 glycogen (see under *Glycogen*)

## Liver

- hexokinase, effect of fructose (guinea pig), 747.  
 in kwashiorkor, biochemical changes, 1311.\*  
 in protein nutrition, 1308.\*  
 lipids (see *Lipids, liver*; *Fat, liver*)  
 mass, estimation (rat), 619.\*  
 metabolism, relation to size of animal (mammals), 158.  
 nicotinic acid formation (chicken, rat), 279.\*  
 nitrogen (see under *Nitrogen*)  
 nucleic acids (see *Nucleic acids*)  
 phosphatase (see under *Phosphatase*)  
 phospholipids (see under *Phospholipids*)  
 polysaccharides, resembling dextran (rabbit), 1102.  
 potassium (man, rat), 778.  
 protein metabolism, review, 1127.\*  
 regenerating, protein metabolism (rat), 840.\*  
 regeneration, effect of fat intake (rat), 143.  
 effect of gastric mucoprotein, pigs (guinea pig), 391.  
 nucleic acid formation (mouse), 486.  
 removal, partial, iron metabolism (rat), 1150.  
 riboflavin and vitamin B<sub>12</sub>, effect of pantothenic acid deficiency (rat), 1070.  
 role in mobilisation of peripheral fat (rat), 461.  
 role in turnover of plasma phospholipins (rat), 137.  
 squalene (shark), 1028.  
 sterols (see under *Sterols*)  
 storage of carotene and vitamin A (cattle), 356.  
 storage of vitamin A (chicken), 700.  
 succinoxidase, effect of vitamin A deficiency (rat), 618.\*  
 tetrahydrofolic acid metabolism (pigeon), 280.\*  
 transmethylease, effect of cystine and vitamin E in necrosis (rat), 717.  
 effect of orotic acid (rat), 755.  
 tyrosine metabolism, in newborn infants, 978.\*  
 uptake of sugars (rabbit), 701.  
 vitamins (see under specific vitamins, e.g., *Riboflavin*; *Vitamin E*)  
 water and nitrogen, 719.  
 weight, and collagen content, effect of pregnancy and lactation (rat), 497.  
 effect of light, thionin and thyroprotein (chicken), 599.  
 hypothalamic obesity (rat), 280.\*  
 Liver homogenates  
 amino acid oxidase, effect of  $\alpha$ -tocopheryl phosphate (rat), 1049.  
 cholesterol formation, effect of fatty acids (rat), 487.  
 conversion of folic acid to citrovorum factor (chicken), 386.  
 deamination and transamination, effect of vitamin B<sub>12</sub> deficiency (rat), 381.  
 de-iodination of thyroxine and tri-iodothyronine, 279.\*  
 fat metabolism, relation to glycolysis and respiration (pigeon), 161.  
 formation of ascorbic acid (rat), 748.  
 fractions, synthesis of phospholipins, 280.\*  
 glyceride formation (rat), 1164.  
 glycine synthesis (rat), 485.  
 homoserine metabolism (rat), 133.  
 insulinase, effect of vitamin B<sub>12</sub> deprivation (mouse), 372.  
 preneoplastic tissue, effect of vitamin B<sub>12</sub> on respiration (rat), 1071.  
 production of nicotinic acid, 377.  
 respiration, effect of amino acids (rat), 1162.

## Liver homogenates

- respiration, effect of ascorbic acid, 1075.  
 selenophospho-7-phosphate formation, 380.  
 urea formation (rat), 841.  
 xanthine oxidase, inhibition by folic acid, 1068.  
 Liver slices, acetate metabolism, 843.  
 ascorbic acid metabolism (rat), 486.\*  
 amino acid metabolism, effect of protein deficiency (rat), 840.  
 amino acid synthesis (rat), 840, 1163.  
 carbohydrate metabolism, 159, 286\*, 482, 1159, 1160.  
 conversion of folic acid to diazotisable riboflavin (rabbit), 731.\*  
 creatine formation (rat), 1038.  
 formation of phospholipins, effect of X-rays, 487.  
 glycogen formation (guinea pig, rabbit), 159.  
 glycogen metabolism, 483.  
 iron metabolism (rat), 104.  
 metabolism, inhibition by fatty acids (rat), 1313.\*  
 necrotic, oxygen consumption, effect of tocopherol (rat), 67.  
 uptake of methionine (rat), 700.  
 Liver tissue, metabolism, effect of slicing, 481.  
 Liver extracts, effect on acne rosacea, 1225.  
 inactivation of folic acid (chicken), 1068.  
 intravenous, treatment of anaemia, 214.\*  
 prevention of liver damage, experimental, 615.\*  
 proteolysed, vitamin B<sub>12</sub>, 1069.  
 treatment of anaemia, hypochromic and low blood iron (man), 924.  
 treatment of hepatitis, 1231.

 estimation, 29.  
 tolerance (rat), 714.  
 Phenylethylacetic acid, effect on tumour growth (rat), 1051.  
 Phenylhydrazine, effect on conversion of 3-hydroxyanthranilic acid to quinolinic acid, 378.  
 Phenylketonuria (child), 1128.  
 diet treatment, 201, 929\*, 978.\*  
 treatment, case reports, 929.  
 Phenylpyruvic oligoprotein, metabolism (child), 129.  
 Philippines, foods, composition, 337, 675, 676.  
 Philobitis, tropical, Northern Rhodesia, 1247.  
 Phosphatase(s) (see also *Adenosine triphosphatase*)  
 alkaline, effect of ethylenediamine tetra-acetic acid, 757.  
 estimation, 19, 619\*, 1011.  
 for assessing state of intestine (man), 404.\*

**Phosphatase(s)**  
alkaline, in blood, deficit, hereditary (man), 536, 537.  
in kwashiorkor (child), 407.  
in milk, 678.  
in tissues, 68, 95\*, 355, 371, 407, 408\*, 757\*, 1042.  
inhibition by beryllium, 488.  
chemistry, 407.\*  
hydrolysis of chromogens, in analysis, 33.\*  
in blood, 360.  
in bone metabolism, 1312.\*  
in chocolate milk, 332.\*  
in tissues, 718, 1081.\*

**Phosphate(s) (see also *Phosphorus*)**  
condensed, excretion (rat), 825.  
creatinine, estimation, 663.  
deficiency, absorption of glucose *in vitro*, 616.\*  
distribution, barriers between brain, blood and cerebrospinal fluid, 146.  
effect on iron absorption, 763.  
effect on fat formation in yeasts, 674.  
in blood (man), 107.  
in food industry, 324.\*  
incorporation into casein in mammary gland, 1161.  
incorporation in vitamin B<sub>1</sub> phosphates in yeast, 309, 618.\*  
inorganic, absorption (rat), 412.  
estimation, 663, 1011.\*  
metabolism by uterus, effect of aminopterin and oestrogen (rat), 386.  
poly-, effects, 825, 1151, 1312.\*  
pyro-, inhibition of coenzyme B<sub>12</sub>, 1055.  
renal reabsorption, effect of parathyroid hormone (rat), 431.  
soft with colloidal clay, for pigs, 256.  
Phosphate esters, in liver, effect of vitamins, 71.  
Phosphatide(s), chromatography, 28.  
given by vein, effect on blood cholesterol (rabbit), 1137.  
in blood, placental and maternal (woman), 850.  
in butter serum, effect of copper, 1025.  
isolation from butter serum, 1005.  
metabolism, effect of choline (rabbit), 138.  
titration, 28.  
Phosphatide concentrate, for pigs, 1273.  
Phosphocreatine, formation from glycocyamine (rat), 280.\*  
Phosphoglucomutase, in liver and muscle, effect of nicotinamide (rat), 1059, 1060.  
Phospholipins (see also *Lecithin*; *Lipids*)  
animal, review, 1139.\*  
carbonated, for cattle, 623.\*  
chromatography, 301, 313, 660.  
countercurrent distribution, 313.\*  
deterioration, 1021.\*  
estimation, 27, 1005.  
formation, 280\*, 487, 734.  
in bone marrow, 140.  
in blood, 280\*, 659.  
effect of vitamin B<sub>1</sub>, 372.  
in eggs, 680.  
in fish, 335.\*  
in liver, effect of diet, 811.  
in meat, 290.\*  
metabolism, 627\*, 807, 1318.\*  
plant, in foods, 684.\*  
production and use in foods, 324.\*  
relation to oxidative defects in butter, 1319.\*  
role in pathogenesis of high blood cholesterol (rat), 141.  
Phosphopeptides in mammary gland composition, 1104.  
Phosphopyridine nucleotides, (see *Nucleotides*, *pyridine*).  
Phosphoric acid, estimation, in food, 317.

**Phosphorus** (see also *Calcium and phosphorus*)  
acid-soluble, in muscle, separation, 1008.  
availability (cattle), 1146.  
(poultry), 261.  
measurement (cattle, sheep), 622.\*  
balance (see *metabolism*)  
compounds, estimation, 997.  
in milk extracts, 258.\*  
effect on carotene utilisation (rat), 701.  
endogenous, clearance, effect of vitamin D<sub>2</sub> (child), 895.  
in digestive tract (turkey), 1087.  
estimation, 31, 317, 1011.  
for cattle, 564, 622\*, 1257.  
for pigs, 622.\*  
in blood, cattle, 981.\*  
clinical, 281\*, 773, 1122.  
effect of diet, 583, 1122.  
poultry, 1111.  
in foods, 686, 688.  
in tissues, 445, 1145.  
incorporation into various teeth (man), 326.  
inorganic, in blood, estimation, 19.  
in blood cells (man), 1099.  
in tissues, 91.  
intake, effect on pregnant and lactating ewes, 577.  
effect on rabbits, 1281.  
effect on vitamin A in liver, 981.\*  
low, calcium metabolism, 64.  
relation to skeleton (sheep), 627.\*  
loss, index of rice milling, 325.  
metabolic, estimation, in faeces, 667.  
metabolism, 146, 206, 279\*, 363, 400, 431, 471, 532, 621\*, 622\*, 624\*, 629\*, 711, 747, 826, 1107, 1145.  
in goldfish and mussel, 1195.  
phytate, availability to rumen micro-organisms, 503.  
placental transfer, 1177, 1178.  
radio-active, estimation, 317.  
fate in insects, 871.  
reabsorption by kidney, 711.  
requirement, cattle, 622\*, 628\*, 1318.\*  
uptake by teeth, 397.  
utilisation by women, 537.  
Phosphorylase, liver, effect of nicotinamide, 730.  
effect of starvation and amanitin (mouse), 839.  
skin, 757.\*  
Phosphorylation, oxidative, and liver mitochondria in vitamin B<sub>1</sub> deficiency (rat), 280.\*  
effect of biotin and pantothenic acid deprivation (rat), 1065.  
role in amino acid absorption (rat), 760.  
Phosphoserine, in yeast, 342.  
Phosphotransacylase, role of iron, 408.\*  
Physical activity, effect on mentally sub-normal boys, 847.  
effect on visual acuity and vitamin A in blood, 694.  
measurement, 1308\*, 1314.\*  
sex difference (man), 440.  
Physical performance, effect of age, 1315.\*  
test, 1315.\*  
Physiology, annual review (book), 1307.\*  
Physiology and biochemistry, textbook, 1307.\*  
Phytase, in legumes, 688.  
Phytic acid or phytate, in foods, 685.  
effect on calcium and magnesium metabolism (man), 287\*, 469.  
Phytic acid phosphorus (see under *Phosphorus*)  
Phytin, in legumes, 688.  
in oatmeal and wheatmeal, effect on calcium metabolism (rat), 822.  
removal in soya bean protein isolation, 654.  
Pica, in man (book), 1304.  
in pregnancy (woman), 1203.

hazards, to man, Medical Research Council report, 917.  
ionising, effect on ascorbic acid formation *in vitro*, 746.  
effect on vitamin K in foods, 618.\*  
Radio-active isotopes, estimation of blood and water volume, minerals, albumin and thyroxine in body, 34.\*  
in veterinary medicine, review, 1141.  
Radio-activity, whole body, measurement, 1015.
- Radish**, Giessen, silage, nutritive value, 1253.  
vitamin C, 1077.
- Radium**, metabolism, comparison with calcium (dog), 1077.  
Radium D, elimination (rat), 59.  
Ragwort, poisoning of livestock, 274, 1302.\*
- Ramie** pasture, for sheep and goats, Guatemala, 628.\*
- Rape** oil, composition, 692.  
effect on cholesterol metabolism, 817.  
effect on food selection (rat), 1312.\*  
estimation, in edible oils, 26.
- Rapeseed** meal, for poultry, 957.  
nutritive value (rat), 1309.\*
- Rat(s)**, aorta, intubation, 35.\*  
atherosclerosis, spontaneous, 817.  
blood volume and thiocyanate space, 417.  
body composition and basal metabolism, 428.  
body water, sodium and chloride, 1147.  
cannula for sampling caecal contents, 323.  
cotton (see *Cotton rat*)  
different strains, blood electrolytes, 1100.  
embryo mortality, 631.\*  
energy exchange, 117.  
evaluation of milk "let-down", 1180.  
feed utilisation and growth, effect of handling, 187.  
feeding, antibiotics, 186\*, 509\*, 1319.\*  
effect on attractiveness to mosquitoes, 1196.  
fat, 450.  
ratio of apparent digestible energy and nitrogen, 1188.  
food intake and selection, 615.\*  
growth, relation to longevity, 1171.  
relation to number of functional mammary glands, 854.
- Rat(s)**  
optimum calcium and protein intakes, 450.  
paired feeding experiments, and effects of X-ray exposure, 184.  
ratio of body nitrogen to water, 775.  
ratios of known chemical structure, 1176.  
reproduction, effect of environment, 618.\*  
requirements, 85, 449, 621\*, 977\*, 1310.\*  
teeth, composition, 1104.\*  
water-soluble synthetic diet, 184.  
wild and laboratory, feeding behaviour, 558.\*  
young, fluid intake, 616.\*
- Ration(s)**, survival, acceptance, effect of previous feeding (man), 1308.\*
- Redroot**, poisoning of cows, 971.
- Reducing** substances, effect on ninhydrin reaction, 22.
- Reductive** acid, dehydro-, role in browning reaction, 396.
- Refining**, oils, edible, effect on nutritive value, 614.\*
- Refrigeration**, foods, 625\*, 671, 1021\*, 1076, 1316.\*  
freeze-drying (see *Drying, freeze-*)
- Renal** function (see *Kidney function*)
- Rennet**, curdling of milk, 279.\*
- Reproduction** (see also *Fertility*; *Sterility*; *Pregnancy*; *Lactation*)  
after thyroid destruction (mouse), 1109.  
and enzymes in tissues, review, 172.\*  
birth interval and age of mother (woman), 170.  
causes of congenital malformations (man), 172.\*  
congenital malformations (see *Malformations, congenital*)  
disorders, intestinal stasis and threatened miscarriage, treatment (woman), 210.  
effect of diet (rat), 68, 375, 459, 618\*, 850, 1134, 1309.\*  
effect of nutrition (cattle), 348, 354, 357, 576, 621\*, 623\*, 624\*, 703, 940, 942\*, 1318\*, 1319.\*  
(pig), 392, 621\*, 629\*, 1272, 1276, 1277.  
(poultry), 392.  
(sheep), 290\*, 406, 621\*, 629.\*  
effect of phosphorus (rabbit), 1281.  
fertility (woman), 170.  
function of ovary (farm animals), 617.\*  
male reproductive tract, freezing point depression and minerals (ruminants), 618.\*  
menstrual cycle, effect of diet (baboon), 1175.  
food intake (baboon), 1174.  
ova, oxygen uptake (rabbit), 618.\*  
physiology, review, 1171.\*  
prematurity, maternal factors, 172.\*  
prenatal mortality (rabbit), 618.\*  
protein and nucleic acid contents of uterus (rat), 777.  
relation to growth, 846.\*  
requirement (mink), 955.  
(rat), 497, 976.\*  
spermatogenesis, effect of inorganic ions (mammals), 618.\*  
uterus, smooth muscle, vitamin E deficiency (rat), 1047.
- Reproductive** cycle, ovulation, detection by vitamin C retention (woman), 912.
- Reproductive** organs, sympathetic nerves, effect of biotin deficiency (rat), 736.
- Reptile(s)**, lizard, energy exchange, 441.  
snakes, moulting cycle, effect of vitamins, 1037.  
turtles, blood proteins, 619.\*  
meat, poisonous, 1237.\*  
metabolism, 1193.
- Reptile(s)**  
turtles, thyroid function, 510, 867.
- Requirements** (see also under specific nutrients, e.g., *Amino acids*; *animals*, e.g., *Sheep*; and *states*, e.g., *Reproduction*)  
of animals, effects of antibiotics, lecture, 614.\*  
of children, 1199.  
estimation, 875.  
of cows, recommended, revision, 1200.  
of nutrients, 874\*, 893, 977\*, 1200.  
of poultry, laying hens, 624.\*  
of rats and mice, 977.\*
- Resins**, anion exchange, chromatography of proteins, 285.\*  
cation exchange, treatment of nephrotic syndrome, 228.  
ion exchange, detection of trace elements, 282.\*  
in nutrition, 928.\*
- Resistance** to disease (see *Immunity*; *Infection*)
- Respiratory** metabolism (see under *Energy exchange*)
- Retina** (see under *Eye*)
- Retinene**, neo-b, absorption values, 351.
- Rheumatoid** arthritis (see *Arthritis, rheumatoid*)
- Rhodesia**, beef production, 935\*, 936.  
feedings, digestibility, 530.  
foods for favouring native diet, composition, 329.  
pasture improvement, 233.\*
- Riboflavin**, availability, 629.\*  
bacterial decomposition, human faeces, 905.  
breakdown by light, 375.  
chromatography, 726.\*  
crystallography, 374.  
decomposition by ammonia, 375.  
deficiency, clinical, 210, 537, 900, 903.  
effects, general, 71, 76, 367, 375, 378, 727, 1058, 1300.\*  
detection in food, 76.  
effect of ionising radiation, 1315.\*  
effect on metabolism, vitamin, 76, 1068.  
effect on nucleic acid in spleen (rat), 1058.  
effect on toxicity of glycine (chicken), 455.  
effect on vitamin B<sub>3</sub> phosphorylation (man), 892.  
estimation, 374, 629\*, 905, 1057.  
excretion, 367.  
(man), 210, 536, 905.  
for micro-organisms, 374, 727.  
formation, by micro-organisms, 76, 374, 726, 727, 1057, 1058.  
in blood, clinical, 210, 537.  
in brain, 728.  
in foods, 368, 376, 377, 688, 719, 1057.  
in liver, 1070.  
in milk, 77, 376.  
in wines, 1059.  
intake, patients with slowly healing wounds, 1236.  
metabolism, in tuberculosis (man), 538.  
prevention of pulmonary oedema produced by adrenals (rabbit), 728.  
protein-bound, 250.\*  
lecture, 614.\*  
requirement, cat, 1309.\*  
rat, 375.  
treatment of psoriasis, 906.  
utilisation, by women, 537.
- Riboflavin**-like substances, fluorescent, in human urine, 905.
- Riboflavin** nucleotides, in tissues, 367.
- Ribonuclease**, pancreatic, effect of vitamin B<sub>12</sub>, 744.
- Ribonucleic** acid (see *Nucleic acids*)
- Ribose**, utilisation, in diabetes (rat), 1123.
- D-Ribose**, metabolism (man), 1312.\*

- Ribose-5-phosphate, metabolism, in red cells (man), 1311.\*  
 oxidation, effect of vitamin K<sub>3</sub>, 365.  
 Riboside(s), deoxy-, in brewing process, 739.\*  
 Rice, composition, 337, 338, 339, 685.  
 consumers, and nutrition problems, Asia, 198.\*  
 consumption and population trends, 198.\*  
 culinary properties, 327.  
 cultivation, 966.  
 digestibility and utilisation (pig), 621.\*  
 energy value, 685.\*  
 enriched, effect on blood pyruvic acid (man), 981.\*  
 enrichment, 75, 181.  
 index of milling, 328.  
 nutritive value (rat), 181, 860.  
 quality, estimation, 321.  
 sodium, estimation, 1011.  
 Taro teras, multilingual glossary, 1317.  
 vitamins, 75, 725.  
 world supplies, FAO report, 626.\*  
 Rice diet, poor, investigations, 210, 290\*, 981.\*  
 supplements, 84, 1185.  
 replacement by tapioca, effect on liver, 981.\*  
 Ricin, poisoning (mouse), 977.\*  
 Rickets (see also *Vitamin D deficiency*)  
 alkaline phosphatase in teeth (rat), 407.  
 and tetany, case reports, 1233.  
 atypical, production (guinea pig), 1314.\*  
 effect on liver, children, Japan, 891.  
 experimental, effect of fluorosilicate (rat), 1148.  
 effect of vitamin D, 360, 709, 710, 1044.  
 hepatic, case report, 532.\*  
 hereditary, treatment, 898.  
 in dogs, 981.\*  
 in infants, phosphorus in bone, 532.  
 with vitamin D intake supposedly adequate, 532.  
 in sheep, 630.\*  
 in tropics, 531, 532, 1223.  
 occurrence, Japan, collected papers, 890.  
 oxalic acid metabolism (rat), 361.  
 phosphorus, endogenous, clearance, effect of vitamin D<sub>3</sub>, 805.  
 prevention, irradiated milk, 1223.  
 national policy, U.K., 1222.  
 production by diet, 290\*, 628.\*  
 production by vitamin A (rat), 709.  
 protective action of fluorine (rat), 362.  
 protein-sterol complexes in blood (rat), 1044.  
 relation to lung disorders, incidence, 898.  
 renal, kidney function, 400.\*  
 review and prognosis, 205.  
 with phospho-glucose-amino diabetes (man), 203.\*  
 resistance of blood to infection *in vitro* (rat), 1044.  
 resistant to vitamin D, familial primary, 205.  
 inheritance, case report, 1224.  
 phosphorus metabolism, 206, 532.\*  
 skeletal tissue, 895.  
 treatment, 978.\*  
 role of amino combined with calcium (rat), 708.  
 treatment, 1046, 1223.  
 Rickets-preventing substance, Ketone 250, in vegetables, 64.  
 prepared from tummy oil, 63.  
 Roughage (see also *Cellulose*; *Fibre*)  
 dry matter digestibility, in artificial rumen, 288.\*  
 Royal jelly (see under *Insects, bees*)  
 Rubidium, effect on cellulose digestion by rumen micro-organisms, 622.\*  
 fate when injected (man), 144.  
 metabolism (rat), 820, 831, 1141\*, 1309.\*  
 Rumania, diet study, 517.  
 Rumens, absorption, 617\*, 624\*, 627\*, 1089.  
 artificial, dry matter digestion, 288.\*  
 technique in estimating phosphorus availability, validity, 622.\*  
 blood supply, 284.\*  
 breakdown of oxalic acid, 416.  
 concentration of microbial end-products, 704.  
 contents, composition, 415, 764.  
 effect of water-dispersible oil and penicillin, 624.\*  
 in frothy bloat, 966, 1298.  
 surface tension, 101, 764, 1089.  
 development, 100, 101, 564, 1088, 1318.\*  
 digestion, 617\*, 1248.  
 effect of antibiotics, 1318.\*  
 effect of cobalt deficiency, 289.\*  
 effect of spring grass, 977.\*  
 effect of times of feeding, 1089.  
 epithelium, effect of diet, 101, 622.\*  
 fatty acid metabolism, 161, 162, 842.  
 histology, 157.\*  
 fat metabolism, 290.\*  
 fatty acid formation, 102, 288\*, 289, 564, 579, 627\*, 765, 854\*, 1089.  
 fistula, operation, 668.  
 hydrogen ion concentration, 502.  
 on lactate metabolism 288.\*  
 lactic acid formation, 415, 627.\*  
 loss of ions, 615.\*  
 microbial end products, 290\*, 579, 628.\*  
 movements, 284\*, 764.  
 nitrogen metabolism, 102, 289\*, 290\*, 415, 627\*, 705, 1133.  
 passage of urea across mucosa (sheep), 765.  
 physiology, mysteries, 100.\*  
 pouch, formation by operation, 1017.  
 temperature, compared with rectal, 119.  
 total nitrogen content, 764.  
 valeric acid, 1316.\*  
 weight of contents, 932.  
 Rumen micro-organisms, abnormal, 604.  
 antibiotic formation, 1183.  
 cellulases, 1081.  
 cellulose digestion, 179, 303, 502, 503, 564, 622\*, 629\*, 1183.  
 effect of antibiotics, 857.  
 general, 36, 100, 178, 179, 288\*, 289\*, 501, 502, 579, 623\*, 624\*, 628\*, 858, 1267.  
 growth factors, 1311.\*  
 identification, 1013.  
 metabolism, 288\*, 503, 622\*, 624\*, 627\*, 629\*, 977.\*  
 nitrogen metabolism, 179, 289\*, 290\*, 629\*, 981.\*  
 polysaccharides, 502, 627.\*  
 protozoa, 290\*, 627\*, 857.  
 removal, 668.  
 redox potential, 857.  
 requirements, 178\*, 288\*, 629.\*  
 species, 179, 502, 858.  
 Ruminants, absorption of sugar, 1318.\*  
 blood composition, 122, 289\*, 627.\*  
 digestion, disturbances, 969.  
 digestive tract, rate of passage, 1248.  
 disorders, bloat, 624\*, 1318.\*  
 indigestion, 1318.\*  
 ketosis, 1318.\*  
 treatment, 827.  
 feed consumption, 622.\*  
 feeding, antibiotics, 561.\*  
 non-protein nitrogen, review, 134\*, 627.\*  
 purified rations, 1309.\*  
 recent advances, 933.\*  
 urea, 622\*, 629.\*  
 feeding standards (book), 278.  
 heat increments of feeding, 118.  
 production of vitamin B<sub>12</sub>, 629.\*  
 protein digestibility, 627\*, 930, 1318.\*  
 requirements, 1256.  
 stomach, activity and control, 627.\*  
 Rumination, mechanism, 1089.  
 microbiological processes, 981.\*  
 Russia (see *Union of Soviet Socialist Republics*)  
 Russian thistle, composition, energy value and palatability, 345.  
 Rutabaga (see *Turnips*)  
 Rutin, effect on blood pressure (man), 548.  
 effect on toxicity of tetracyclines (guinea pig), 403.  
 metabolism, 754.  
 reaction with vitamin B<sub>12</sub>, 1056.  
 Rye, proteins, 24, 685.  
 winter, as green fodder, 560.\*  
 Rye flour, estimation, in wheat flour, 1012.\*  
 Rye meal, vitamin B<sub>12</sub>, 616.\*  
 Rye silage, for cattle, 621.\*  
 Ryegrass, composition, 343\*, 1034.  
 digestibility and nutritive value, 1251.  
 SACCHARIN, effect on hunger, 1081.  
 reward value, effect of hunger (rat), 859.  
*Saccharomyces* spp. (see under *Yeasts*)  
 Sawflour meal, for poultry, 1286.  
 Sawflour oil, hydrogenated, effect on blood cholesterol (man), 1309.\*  
 Sawflour seed, oil, estimation, 26.\*  
 Saliva, amylase, estimation, 32.\*  
 collection by parotid fistula (sheep), 764.  
 composition, 100, 281\*, 284\*, 427, 474\*, 774, 914, 1011.\*  
 composition and output, in young pigs, 1082.  
 lactic acid production, role of lactobacilli, 178.  
 output, relation to flowrate in drinking water (cattle), 149.  
 role in incidence of caries (rat), 187.  
 Salivary glands, concentration of iodide and thiocyanate, 474.\*  
 effect on calcium metabolism, 470.  
 phosphatase, 408.\*  
 role in thyroxine metabolism, 434.  
 Salivine, separation from chupeps, 23.  
 Salmon (see under *Fish*)  
*Salola kuli* (see *Russian thistle*)  
*Salola subaithylla*, fodder plant for sheep, 248.  
 Salt (see also *Sodium chloride*)  
 deficiency, syndrome in renal insufficiency, 1240.\*  
 depletion, sweat and urine output (man), 147.  
 effect on blood calcium (rat), 1143.  
 effect on vitamin C losses from cabbage during cooking, 402.  
 excretion, in tropics (man), 1154.  
 for poultry, 290.\*  
 habits of use (man), 524.  
 intake, effects (rat), 1147, 1313.\*  
 high, effect on growth and organ weights (pig), 1270.  
 in etiology of essential hypertension (man), 1218.  
 low, treatment of high blood pressure, 927, 1245.  
 pigs, 583.  
 sheep, with parotid fistula, 764.  
 Salt, iodised (see *Iodised salt*)  
 losses in sweat and urine, relation to dehydration and salt depletion (man), 147.  
 poisoning, chickens and pigs, 971.  
 solutions, effect on fasting rats with partial kidney removal, 489.  
 preference, effect of thirst (rat), 834.  
 stability of iodide and iodate, 674.  
 tolerance of sheep, 981.\*  
 Salt substitutes, analysis and value, 52.  
 Salts, inorganic (see *Minerals*)  
 Summa (see *Ghee*)  
 Sanguinarine (see *Argemone oil*)

- Saponin, cactus, effect on sheep and cattle, 1302.  
toxicity for sheep, 608.  
Sarcoid, treatment with cortisone and sodium phytate, 533.  
Sarcosine (see *Taurine*)  
Sardines (see under *Fish*)  
Sardine oil, amino acids, 681.  
Sauces, vitamin C, stabilisation, 92.  
Sauerkraut, composition, 688.  
Saurine, from fish, separation and physiological action, 220.  
Sausages, bacterial degradation, 604.  
standards, 52.\*  
*Schizosaccharomyces pombe*, estimation of inositol, 33.\*  
School meals, Morocco, improvement, 1202.  
Scleroproteins, in organs, effect of age (rat), 112.  
Sclerosis, multiple (see under *Nervous system, central, disorders*)  
Scurvy (see also *Vitamin C deficiency*)  
carbohydrate metabolism (guineapig), 747, 1311.\*  
case reports, 912, 913.  
effect of nicotinamide (guineapig), 89, 401.  
experimental (guineapig), 90, 91, 397, 398, 399, 746, 747, 1314.\*  
function of pancreatic islets, 615.\*  
in infants, phenylalanine and tyrosine metabolism, 280.\*  
infantile, incidence, Germany, 1233.  
kidney function (man), 542.  
Northern Rhodesia, 1247.  
Sea anemone (see under *Ctenophores*)  
Sea urchin (see under *Echinodermata*)  
Sea water, solids, vitamin B<sub>12</sub>, 82.  
Seal, blood copper, 289.\*  
food habits, 1281.  
growth and age at puberty, 493.  
Seal meat, for foxes, 593.  
Seaweed, (see also *Algae*)  
for cattle, 938.  
for livestock, minerals and vitamins 693.  
for poultry, 204.  
minerals, 52.  
nitrogen distribution, 1036.  
Sebum, composition (man), 1103.  
rodents, 774.  
Sedoheptulose-7-phosphate, formation by liver homogenates, 380.  
Seed dressing, containing dieldrin, toxicity for wild and game birds, 971.  
Selenium, damage to liver, effect of cysteine (rat), 831.  
effect on vitamin A utilisation (rat), 701.  
toxicity, 153.  
Semen, biochemistry, review (domestic animals), 174.\*  
phosphorus (bull), 498.  
production, effect of feeding (bull), 624\*, 941.  
Senecio, poisoning, vascular lesions (cattle, horse), 1301.  
Senescence (see *Ageing; Old age*)  
Senility (see under *Old age*)  
Serfish (see *Lepidosteus*)  
Serine, formation, 81, 279\*, 1075, 1162.\*  
incorporation into riboflavin, by *Erethothecium ashbyi*, 76.  
metabolism, 286\*, 1080.  
phosphatidyl, in egg yolk, 618.\*  
*Sesamum indicum* (gingelly) cake, for poultry, 1288.  
*Setaria italica* (see *Millet*)  
*Setaria brachyurus* (see *Marsipipalis*)  
Sewage, methane fermented, production of vitamin B<sub>12</sub>, 740.  
Sewage sludge, for sheep, 944.  
vitamin B<sub>12</sub>-like substances, 388, 975.\*  
Sex hormones (see *Hormones, sex*)  
Sex organs, oxygen concentration (rabbit), 618.\*  
Sex organs  
testes, damage in fat deficiency (rat), 1314.\*  
effect of diet and hormones (rat), 618.\*  
Sexual development, effect of biotin (poultry), 385.  
effect of light (poultry), 624.\*  
Shark liver oils (see *Fish liver oils*)  
Sheep (see also *Lambs; Ruminants*)  
blood composition, 104, 419, 627\*, 768, 977\*, 1092, 1098.  
body picture, 1099.  
body water, estimation, 666.\*  
breeds compared, 246, 247, 249.  
carcase composition, effect of hormones, 44, 94.  
carcase quality, 239.  
estimation, 270.  
carcase yield, 579.  
consumption of digestible nutrients, 290.\*  
cross-breeding, 247.  
digestibility trials, technique, 229.  
digestion, 413, 931.  
digestive tract, absorption, 627.\*  
motility, 414.  
secretion, 414.  
disorders, blood, 606\*, 624\*, 626\*, 680.\*  
"clover disease", Australia, 966.\*  
cobalt deficiency, 626\*, 680\*, 981\*, 1299.  
copper deficiency, 272\*, 1104, 1300.

in laboratory studies, 301.  
Silicon, distribution when injected (rabbit), 831.  
Silicosis, experimental, effect of diet (rat), 1186.  
Silkworms (see *Insects*)  
Sindrom poliacrenal infantil (see *Kwashiorkor*)  
Singapore, energy requirements, man, 1199.  
Sistostol effects, clinical, 140, 464, 928.  
experimental, 142, 286\*, 464, 620\*, 810.

## Skeleton (see also Bone)

- age changes (mouse), 783.  
at metamorphosis, effect of thyroxine (amphibia), 188.  
calcium turnover (mouse), 1145.  
cranial development, effect of diet and illness, 1319.\*  
changes in sarcoidosis (man), 823.  
disorders, hydrocephalus, vitamin A deficiency in mother (rabbit), 697.  
effect of calcium intake and reproductive cycle (sheep), 496.  
effect of thyrotropic hormone (guinea-pig), 1110.  
foetus, appearance of ossification centres (man), 490.  
growth, chemical composition (rat), 359.  
growth and bone mass, relation to malnutrition (child), 493.  
in old age, relation to diet, 1319.\*  
mineral turnover, barium as indicator, 144.  
ribs, growth (rabbit), 494.\*  
skull growth (child), 847\*, 1171.\*  
weight, men, 287.\*  
weight and linear measurements (man), 1314.\*  
Skin, carbohydrate metabolism *in vitro*, 1162.  
carotenoids (chicken), 701.  
collagen, in hyperkeratosis (calf), 60.  
disorders (see also *Tuberculosis, skin*)  
acute rosacea, treatment, 1225.  
dermatitis, ammoniacal, treatment, 908.  
dermatosis, in infancy, case report, 202.  
Lentor's disease, role of nutrition, review, 1248.\*  
psoriasis, treatment, 906.  
role of nutrition, review, 1218.\*  
scabies, Norwegian, treatment, 894.  
thrombocytopenic purpura, in kwashiorkor, 1219.  
treatment with vitamin A, 895.  
treatment with vitamin B<sub>12</sub>, 911.\*  
tropical ulcer, role of diet, 527.  
vascular, effect of vitamin E, 617.\*  
xeroderma pigmentosum in cretins, treatment, 894.  
effect of vitamin A by intracutaneous injection (rabbit), 1314.\*  
embryo, effect of vitamin A excess (chicken), 1042.  
feather development *in vitro*, 488.  
epidermis, thickness, effect of vitamin A (man), 1222.  
hair follicles, effect of biotin deficiency (mouse), 736.  
phosphatase, alkaline (man), 757.\*  
phosphorylase, 757.\*  
sulphur distribution (rat), 1152.\*  
sympathetic nerves, effect of biotin deficiency (rat), 736.  
turgor, index of dehydration (child, rat), 1014.\*  
Skinfold measurements, methods, 200.  
Skinfold thickness, in men, 287.\*  
Smoother wear, composition, energy value and palatability, 345.  
Snails (see under *Salmonella*)  
Snakes (see under *Reptiles*)  
Sodium (see also *Electrolytes*)  
absorption, 763, 970\*, 1089, 1086.  
active secretion from skeletal muscle *in vitro*, 488.\*  
body (man), 1147.  
distribution, 1147.  
effect of salt intake (rat), 1313.\*  
deficiency, adrenal, 287\*, 1106.  
cattle, 627.\*  
depletion, acute, tissue changes (dog), 473.  
alkalosis (man), 1152.  
composition of saliva (sheep), 284.\*  
effect on caesium retention (rat), 821.

## Sodium

- effect on dehydration (rat), 978.\*  
estimation, 19, 32\*, 315, 1011.  
exchangeable, in infants, newborn, 427.  
relation to total sodium (man), 620.\*  
excretion (man), 472, 1146.  
in blood, 430\*, 977.\*  
calculation, 281.\*  
clinical (man), 146\*, 147\*, 550, 773\*, 1015\*, 1092, 1245.  
low, water and electrolyte distribution in tissues (rat), 148.  
in fat, 46.\*  
in foods, 330, 676.  
in tissues, 112, 399, 663, 1146.\*  
in wines, 690.  
intake, clinical, effects, 228, 495, 884\*, 927.  
low, diet planning, American Dietetic Association recommendations, 550.  
interaction with chloride in effect on kidney and adrenal (rat), 472.  
metabolism, 1015.  
effect of hormones, 431, 827.  
role of bone, review, 162.\*  
rate of diffusion (man), 1146.  
ratio to potassium in diet, effect on experimental high blood pressure (rat), 472.  
requirement, man, 1200.  
retention, during continuous infusion (rat), 155.  
Sodium chloride (see also *Salt*)  
absorption, 98, 762.  
preference, effect of blood pressure (rat), 827.  
role in necrotising vascular disease (rat), 1159.  
toxicity (rat), 1146.  
treatment of gastroenteritis in infants, 147.  
Sodium nicotinate, aerosol, inhalation, effect on blood circulation and oxygen saturation (man), 904.  
effect on bronchial mucosa (man), 904.  
Sodium phytate, treatment of sarcoid, 533.  
Sodium salts, in alkalosis (rat), 1153.  
Soil(s), copper, New Zealand, 344.  
relation to plant and animal, 675.\*  
Solid(s) non-fat, milk (see under *Milk*)  
Solutions, hypertonic, effect on vitamin C in blood and cerebrospinal fluid (dog), 1075.  
Somatotropin (see *Pituitary, anterior, growth hormone*)  
Sorbitol, metabolism (man), 790.  
D-Sorbitol, effect on ultraviolet absorption of L-ascorbic acid, 395.  
Sorbitol-1-phosphate, effect on glycogen formation *in vitro*, 483.  
Sorghum (see *Millet*)  
Soups, analysis, 302.  
South Africa, ape-men, occurrence of caries, 219.  
Bantu, atherosclerosis, composition of aorta, 1318.\*  
blood composition, 419, 620.\*  
diet and metabolism, 1318.\*  
iron metabolism and anaemia, 1318.\*  
liver disease, role of nutrition, 890.  
siderosis, 1247.  
Bantu and Europeans, blood cholesterol and magnesium, 1098.  
children, follow-up after kwashiorkor, 890.  
feeding stuffs, composition and digestibility, 337.  
infants, malnourished, morbid anatomy, 202.  
nutrition research, 523.  
South America (see specific countries, e.g., *Argentina*)  
Southern Rhodesia, kwashiorkor, incidence and biochemistry, 1220.

## Southern Rhodesia

- sicklets, case report, 1223.  
Sows (see also *Pigs*)  
apparatus for milking, 1018.  
feeding, general, 617\*, 618\*, 624\*, 620\*, 1272, 1276, 1277.  
silage, 586, 622\*, 1316.\*  
foetal fluids, composition, 1176.  
milk yield, 580, 1270.  
estimation, 580.  
nitrogen metabolism, 285\*, 617\*, 945, 1270.  
reproduction, 586, 617\*, 618\*, 621\*, 624\*, 625\*, 1272, 1276, 1277.  
requirements, 617\*, 1270.  
uterus, blood supply, 172.  
vitamin A deficiency, 621.\*  
Soya bean, glycinin, amino sugars, 1031.\*  
sphingophos, phytin and phytase, 688.  
stigmatosol, estimation, 1006.  
supplement to poor Indian rice diet (rat), 861.  
Soya bean lecithin (see under *Lecithin*)  
Soya bean meal, effect on indican excretion (rat), 508.  
for foxes, 1280.  
for pigs, 949, 1275, 1310.\*  
for poultry, 70, 1250, 1291.  
for sheep, 576.  
growth inhibitor (rat), 1309.\*  
trichloroethylene extracted, toxicity, 275, 609.  
Soya bean meal ash, for sheep, 622.\*  
Soya bean milk, treatment of dermatitis, ammoniacal, 908.  
Soya bean oil, 48.  
detection by  $\delta$ -tocopherol, 713.  
glyceride structure, 688.  
Soya bean proteins, 48.  
nutritive value, 182, 623\*, 797.  
preparation, 19\*, 654.  
Soya bean sterols (see under *Sterols*)  
Soya sauce, composition, 688.  
Spain, agriculture, 964.\*  
diet study, 878.  
egg production and consumption, 964.  
food costs, economic menu, 884.  
goitre, endemic, prevention by iodised salt, 224.  
nutrition and folk medicine, 522.  
Specific dynamic action (see under *Energy exchange*)  
Specific gravity, estimation, 623.\*  
Spectrography, ultramicro-, 282.\*  
Spectrophotometry, basic, 908.\*  
infra-red, 19.\*  
Spermatozoa, mineral and water composition (man), 174.\*  
Spermophil (see *Squirrel, ground*)  
Sphingolipins, estimation, in brain, 27.  
Sphingomyelin, metabolism (rabbit), 141.  
Spinach, iron, 1031.  
Spinal cord (see *Nervous system, central*)  
Spleen, iron content in scurvy (guinea-pig), 747.  
Sprue, absorption, 540, 551, 1086.  
diagnosis and definition, 1313.\*  
diet and faecal fat, 281\*, 1306.\*  
nutritional, diagnosis and treatment, 920.\*  
metabolic balances, 1141.  
steatorrhea and osteomalacia, case reports, 886.\*  
treatment, xylose absorption test, 1341.  
tropical, diet treatment, case report, Belgium Congo, 224.  
treatment, 561.  
Sprue-like syndrome, in children, case reports, 920.  
Squalene, in shark liver, 1028.  
Squirrel, ground (*Sciurus citellus*), heat regulation, 1116.  
Squirreltail grass, composition and palatability, 345.

- Staphylococci, effect of panthanol, 735.  
requirements, 1060.
- Starch, digestibility, for baby pigs, 1086.  
digestion, 270.\*  
estimation, 303, 908.\*  
in cereals, for infant feeding, 37.  
in potatoes, 451.\*  
iodine-binding capacity, estimation, 47.  
plant, isolation, 20.\*  
potato (see *Potato starch*)
- Starch equivalents, in rations for milk production, 621.\*  
relation to net energy, 558.
- Starvation (see also *Fasting*; *Underfeeding*) 1183.\*  
acute, oxygen consumption (rat), 787.  
alkali reserve and white cell count, 1153.  
compared with chronic underfeeding (rat), 505.  
day-old chickens, 625.\*  
effect of vitamin B<sub>12</sub> and refeeding on body composition (rat), 723.  
effect on protein and mineral metabolism in obesity (man), 925.  
effect on small intestine (rat), 1314.\*  
effect on thyroid (rat), 1109.  
effect on vitamin B<sub>12</sub> in tissues (rabbit), 723.  
hypothermia, 616.\*  
in surgical patients, treatment, 925.\*  
intermittent, effect of growth hormone (rat), 615.\*  
muscle composition, 111, 776.  
survival time and loss of weight, now-born rats, 187.
- Statistical methods, analysis of variance in feeding trials, 504.  
evaluation of diet studies, India, 197.  
procedures in poultry research, 625.\*  
feed consumption data for chickens, 625.\*
- Statistics, basis for design of experiments (book), 1306.
- Stearic acid, 2, 2-dimethyl-, absorption (rat), 137.  
metabolism, in adipose tissue, 844.
- Steatorrhea, and hyperparathyroidism, case reports, 551.  
carotene in blood, 1222.  
in sprue, non-tropical, case reports, 886.\*  
plasma tocopherol and red cell haemolysis, 207.  
relation to factor in cow's milk, 978.\*  
relation to sprue-like syndrome in children, 920.
- Steer(s) (see *Cattle*)
- Sterilisation, cold, food, 325.\*  
milk, and beef, by  $\gamma$ -rays, effect on protein value (rat), 506.
- Sterility (see also *Fertility*; *Reproduction*) in cattle and goats, 245.  
treatment with vitamin T (man), 1235.
- Steroids, adrenal cortex, estimation, 284.\*  
production *in vitro*, effect of pantothenic acid, 384.  
effect on protein metabolism, 615.\*  
metabolism, review, 120.\*  
nomenclature, 53.  
utilisation by house-fly larvae, 871.
- Sterol(s) (see also specific sterols, e.g., *Cholesterol*)  
and steryl esters, in liver (rat), 284.\*  
effects on atherosclerosis (rabbit), 1138.  
excretion (rat), 815.  
from chicken embryo, identity, 170.  
soya bean, stigmasterol, estimation, 1006.
- Stillboestrol (see *Hormones*, *sex*)
- Stomach (see also *Digestive tract*)  
absorption of acetic acid and glycerol, 759.  
acid secretion, effect of Indian foods (man), 96.  
acidity (see also *Stomach secretion*)  
effect of vitamin C (man), 912.
- Stomach  
estimation, diagnostic value, 1014.  
in oedema, nutritional, 529.  
test (man), 96.  
activity, effect of exertion (man), 95.  
concentration of iodide and thiocyanate (hamster), 474.\*  
digestion, physiology (book), 1305.  
disorders, achlorhydria, megaloblastic erythropoiesis, 924.  
fat absorption after surgery (man), 441.  
gastritis and carcinoma, intrinsic factor, 215.  
incidence, industrial workers, 920.\*  
mucosa changes, in tapeworm and Addisonian pernicious anaemia, 216.  
hunger contractions, relation to blood sugar (man), 408.  
in hypochromic anaemia (man), 1083.  
motor activity, effect of cerebral cortex injury, 1309.\*  
mucin secretion (man), 95.  
mucosa, calcification by vitamin D<sub>2</sub>, 713.  
extract, effect on fatty liver and liver regeneration, 391.  
effect on uptake of vitamin B<sub>12</sub> by liver slices, 1309.\*  
histology in megaloblastic anaemia, 215.  
mucopolysaccharides (pig), 283.\*  
protein turnover, effect of injury (guinea-pig), 132.  
vitamin B<sub>12</sub>-binding capacity *in vitro* (man), 1220.  
rate of emptying, effect of sham feeding (dog), 408.  
removal, anaemia and vitamin deficiencies (man), 216.  
dumping syndrome, treatment by diet, 1241.  
energy and nitrogen balances (man), 1240.  
fat and nitrogen metabolism (man), 448.  
in cancer, production of nutritional disturbances, 921.\*  
incidences of dumping syndrome and post-prandial discomfort, 561.  
partial, and water restriction (man), 223.  
iron absorption (man), 758.  
production of anaemia, review of cases, 553.  
utilisation of food (man), 976.\*  
value of retaining some mucosa (dog), 409.  
vitamin B<sub>12</sub> absorption, 742.  
vitamin B<sub>12</sub> deficiency (man), 540.  
reticulum and omasal orifice, motility (sheep), 414.  
ruminant, activity and control, 627.\*  
secretion (see also *Stomach acidity*)  
acid output and histamine in urine, 284.\*  
acidity, and amino acids, 235.\*  
at birth (infant), 409.  
effect on transit time in small intestine (man), 97.  
analysis, 35.  
anti-anaemia factor, after pylorus resection (dog), 1070.  
atherpsia (man), 403.  
cyanocobalamin binding, 540.  
digestive action (man), 96.  
effect of size of meal (dog), 1083.  
effect of test substances, 96\*, 409.  
758, 912, 1083\*, 1241.  
electrophoresis, 281\*, 615\*, 976.\*  
fractionation, 607.  
inhibition of vitamin B<sub>12</sub> uptake by intestine, in rat (rat), 975.\*
- Stomach  
secretion, intrinsic factor (man), 287.\*  
mucin, properties, 975.\*  
protein, vitamin B<sub>12</sub>-binding, effect of vitamin B<sub>12</sub>, 975.\*  
vitamin B<sub>12</sub>, effect of hydrogen ion concentration, 1070.  
vitamin B<sub>12</sub>-binding capacity (man), 975.\*  
vitamin B<sub>12</sub>-binding substances (man), 283.\*  
relation to intrinsic factor (man), 215.  
secretory and non-secretory parts, relative importance in rats, 758.  
temperature (man), 96.  
ulcer (see under *Ulcer*)
- Storage, barley, effect on quality of protein (pig, rat), 1276.  
cauliflower, canned, effect on ascorbic acid, 752.  
cold (see *Refrigeration*)  
cottonseed, effect on composition, 673.  
effect on carotene in *Rhodomyia palmata*, 63.  
effect on vitamin B<sub>12</sub> in vitamin B complex solutions, 1069.  
eggs, discolouration, 1292.  
effect on quality, 624.\*  
food, use of ozone, 1019.\*  
foods and vitamin concentrates, effect on vitamin B complex, 1051.  
fruit and vegetables, 673.  
colour change and ascorbic acid loss 1076.  
grass, alfalfa and clover, dried, effect on carotene, 353.  
in cans, effect of vitamins in parwar, 55.  
liver extract, proteolysed, effect on vitamin B<sub>12</sub>, 1069.  
meat, dehydrated, 1020.  
milk, dried, skimmed, effect on composition, 326.  
test for deterioration, 670.  
orange juice, preserving reaction, 762.  
peas, canned, vitamin content, 1076.  
potatoes, effect on ascorbic, dehydroascorbic and diketoglucoic acids, 761.  
raw, effect after dehydration, 38.\*  
sweet, 38.\*  
potato granules, vitamin C stability, 1077.  
rice, effect on culinary properties, 327.  
yoghurt, effect on vitamins, 349.
- Straw (see also under specific type, e.g., *Wheat straw*)  
ensilage, energy value, 1031.  
predigested, for lambs, 1265.  
treatment with alkali, 51.
- Strawberry, composition, 341.
- Streptococcus faecalis*, effect of riboflavin and flavin derivatives, 374.  
*Streptococcus lactis*, production of citrullin from ornithine, 736.  
*Streptomyces olivaceus*, vitamin B<sub>12</sub> production, 83.  
*Streptomyces* (see under *Antibiotics*)  
*Streptomyces mycelium*, feeding value (rat), 183.
- Stress, effect on adrenals, 749.  
effect on cell division, role of vitamin C, 749.  
produced by chronic respiratory disease, effect of diet (poultry), 625.\*  
treatment with antibiotics and vitamins (man), 542.
- Strontium, absorption, 412, 470, 1144.  
effect on bone, 824, 825.  
estimation, 1312.\*  
excretion, 822.  
in bone (man), 430.  
ions, passage through membranes, 470, 1319.\*  
metabolism, 823, 925\*, 824, 1144.

- Strontium**  
 placental transfer (rabbit, rat), 1312.\*  
 radio-active, in bone (man), 779.  
 retention by fish, 809.  
 turnover, comparison with calcium, in bone *in vitro*, 845.
- Succinate**, effect on cold tolerance (mouse), 430.
- Succulents**, for cattle, 568.\*  
**Suckling** (see under *Lactation*)  
 Sueraso, in dromedary (man), 410.  
 Sueraso (see also under *Sugar*)  
 effect on digestibility of protein and fibre (pig), 931.  
 effects, experimental, 866, 623\*, 1192, 1313.\*  
 estimation, 304, 653, 998.  
 in urine (infant), 120.  
 radio-active, for estimation of extra-cellular fluid volume, 1014.
- Sudan**, Nilotic peoples, blood picture, 766.  
 Sudan grass, digestibility for cows, 289.\*  
**Sugar(s)** (see also *Carbohydrates* and *sap*)  
 specific sugars, e.g., *Glucose*  
 absorption, 98, 159, 230\*, 410, 615\*, 624\*, 1318.\*  
 in eels, 1195.  
 amino- (see *Amino-sugars*)  
 blood (see *Blood sugar*)  
 detection, 21, 653, 998.  
 effect on phosphorus in liver and kidney (rat), 445.  
 enrichment with ascorbic acid, 402, 752.  
 estimation, 21\*, 303, 304, 652, 689, 999.  
 fermentation by rumen micro-organisms, 623.\*  
 for pigs, 621\*, 623.\*  
 baby, 1269.  
 identification as saccharoses, 977.\*  
 in foods, 49, 340, 601, 1033.  
 in groundnut shells, 1033.  
 in urine, children, 120, 304, 452, 652.  
 invert (see *Invert sugar*)  
 metabolism, 280\*, 978\*, 980.\*  
 nutritive value, effect of method of preparation, 615.\*  
 pentose, utilisation (rat), 1123.  
 placental transfer, 561.  
 polarography, 652.\*  
 reducing, estimation, 304, 653.  
 response of insects, 180, 870.  
 separation, 279.\*  
 tolerance (see *Blood sugar, tolerance*)  
 uptake by liver (rabbit), 791.
- Sugar beet leaves, silage**, 674.  
**Sugar beet molasses**, for pigs, 1274.  
**Sugar cane**, for cattle, 629.\*  
**Sugar cane bagasse**, for cattle, 621.\*  
**Sugar cane gur**, iron availability, 1033.  
 sugar content, 1033.  
**Sugar cane tops and silage**, for livestock, 290.\*  
**Sulphanilamide**, effect on phosphorus metabolism (horse), 471.  
**Sulphaquinoxaline**, for chickens, 260.  
**Sulphate(s)** (see also under *Sulphur*)  
 distribution in embryonic tissues (rat), 832.  
 effect on copper metabolism, 290.\*  
 fixation by tumours (man), 287.\*  
 in bone metabolism, 365, 1312.\*  
 incorporation into duodenal mucous substances (rat), 133.  
 influence on effects of molybdenum (rat), 832.  
 radio-active, for estimation of extra-cellular water (man), 478.  
 renal reabsorption, effect of amino acids (dog), 464.  
 uptake by colon *in vitro* (guinea pig), 283.\*  
 uptake by connective tissues (mouse), 488.  
 utilisation, 832, 957.  
 in scurvy (guinea pig), 308.
- Sulphides**, in irradiated meat, 333.  
**Sulphonamide(s)**, antidiabetic (see under *Diabetes*)  
 treatment of tropical sprue, 551.  
**Sulphur**, bound, in milk, 1026.  
 compounds, effect on molybdenum toxicity (rat), 153.  
 deficiency, and muscular degeneration in vitamin E deficiency (chicken), 363.  
 estimation in organic compounds, 32, 232\*, 318, 1011.  
 fractions  
 in alfalfa, distribution, 342.  
 in tissues, 477, 1152.\*  
 in urine, 281.\*  
 metabolism, 279\*, 1151, 1152, 1311.\*  
 radio-active, estimation, 663, 665.\*  
 separation, chromatographic, from carilage and bone, 979.\*  
 uptake by mucopolysaccharides, connective tissue *in vitro*, 619.\*  
**Sulphuric acid**, conjugation, effect of scurvy (guinea pig), 398.  
**Sulphydrase**, serine, 1080.  
**Sulphydryl compounds**, in tissues, 456.  
 protection against X-rays, 1151.  
**Sulphydryl groups**, in thyroid, effect of vitamin B<sub>12</sub> deprivation, 741.  
 in tissues, in ascorbic acid deficiency (guinea pig), 280.\*  
**Sunflower** and maize silage, for cattle, 1255.  
**Sunflower meal**, for poultry, 957, 962.  
**Sunflower seed oil**, effect on tissue cholesterol (rat), 1137.  
 estimation, 26.\*  
**Sunlight**, effect on malnourished children, 581.  
 effect on riboflavin in milk, 376.  
**Supranal** (see *Adrenal*)  
 Surface-active agents, effect in diet, experimental, 99, 143\*, 187, 850, 863, 1038, 1189.  
 effect on surface tension in rumen, 1089.  
 in baking technology, 616.\*  
 in diet treatment of liver disease, 548.  
 toxicity, 185, 1189.  
 Surgical patients, after stomach operations, fat absorption, 411.  
 intravenous feeding, 221, 795, 1312.\*  
 metabolism, 122, 448, 795, 1312.\*  
 protein requirements, 222.\*  
 serum protein fractions, 421.  
 treatment, 211, 550\*, 893, 914, 925\*, 1245.  
 fat emulsions, 221, 795, 1312.\*  
 with duodenal fistulae, treatment, 921.  
 Sweat, collection and chloride estimation, 30.\*  
 electrolytes, diagnosis of cystic fibrosis (child), 427.  
 histidine and uronic acid, estimation, 25.\*  
 output, effect of dehydration, salt depletion and pitressin (man), 147.  
 salt depletion, relation to dehydration (man), 147.  
 secretion, in infants, malnourished, 833.  
**Swede turnips** (see *Turnips*)  
**Sweden**, agriculture, 268, 573, 1294.  
 fish consumption, 1212.  
 food consumption, 1214.  
 livestock products, production and use, 1295.  
 milk production in 1955, 1296.  
 women, body measurements, 168.  
**Sweatheat** ("natilla"), composition and nutritive value, Peru, 329.  
**Sweetness**, measurement, 1013.\*  
**Sweet potatoes** (see *Potatoes, sweet*)  
 Switzerland, goitre, endemic, causes and prevention, 921.\*  
 Symbiosis and nutrition, lecture, 718.
- TADPOLE** (see under *Amphibians*)  
**Tallow, beef** (see *Beef fat*)  
**Tamarind**, famine feeding stuff for livestock, 290.\*  
**Tanganyika**, diet study, 882.  
 forage plants, composition and yield, 50.  
**Tapioca** (see also *Cassava*)  
 replacement of rice in diet, 981.\*  
 Tartrate, effect on calcium metabolism, 469.  
**Taste**, preferences, sensitivity, 1308.\*  
**Taurine**, estimation, 658.  
 excretion, 803, 1132.\*  
 fate when injected (rat), 1132.  
 formation from sulphate (chick embryo), 486.  
 metabolism, 1311.\*  
**Tea, flavanols**, 242.\*  
 phenolic substances, water-soluble, fractionation and paper chromatography, 1033.\*  
 prevention of caries (rat), 828, 1192.\*  
 vitamins, 377, 764.  
**Technique**, design of experiments, statistical basis (book), 1306.  
**Teeth**, calcified, preparation of sections, 668.\*  
 caries, composition of saliva, 187, 281\*, 427, 457.  
 control by fluorides, 219, 474, 548, 828, 915, 1236.  
 general, 187, 826, 866, 867, 1110, 1152, 1192.  
 in ape-men, South Africa, 219.  
 incidence, man, 219, 517, 548, 914, 1235, 1237.\*  
 monkeys, 867.  
 primates, 509.  
 production by diet, 79, 188, 218, 610\*, 914, 866.  
 protection by diet, 218, 1192, 1319.\*  
 text-book chapter, 218.\*  
 composition, 113\*, 397, 420, 710, 1104\*, 1237.  
 dentine, amino groups, estimation, 52.  
 calcification, 780\*, 1131.  
 formation, 283.\*  
 deterioration, relation to diet, 1318.\*  
 development, 220, 624.\*  
 disorders (see *Teeth, caries*; and for periodontal disease, under *Mouth conditions*)  
 effect of fluorine, 149\*, 915, 977\*, 1237.  
 effect of protein intake, 436.  
 enamel, fluoride distribution (man), 113.  
 liberation of calcium and phosphorus (man), 285.\*  
 mineralisation (infant), 845.  
 eruption, 546, 847, 1267.  
 mineralisation, 397, 480, 722, 1145.  
 persistence of foodstuffs after eating, 914.  
 phosphatase, 407.  
 wear (sheep), 1207.  
**Temperature**, body (see under *Energy exchange*)  
 environmental (see also *Cold*; *Heat*; *Climate*; *Tropics*; etc.)  
 effects in obesity (mouse), 1191.  
 effect in vitamin B<sub>12</sub> deficiency (rat), 371.  
 effect on birthweight of lambs, 578.  
 effect on blood volume (cow), 768.  
 effect on body water and blood picture (rat), 418.  
 effect on energy exchange, 119, 1319.\*  
 effect on growth of calves, 621.\*  
 effect on haemoglobin concentration (man), 104.\*  
 effect on reproduction (sheep), 290.\*  
 effect on uptake of phosphorus by tissues (rat), 471.  
 effect on water intake (rat), 233.  
 relation to incidence of grass tetany in cows, Netherlands, 969.

- Tenebrio molitor* (see *Insects*)  
 Terramycin (see *Antibiotics*)  
 Testes (see under *Sex organs*)  
 Testosterone (see under *Hormones, sex*)  
 Tetany, in cattle, 907, 969, 1314.\*  
 in children, rachitis, 895, 1223.  
 Thailand (see *Siam*)  
 Thiaminase, bacterial, production of vitamin B<sub>1</sub> deficiency, 373, 534.  
 effect of sulphhydryl group, 736.  
 in mussel, *Mytilus galloprovincialis*, 726.  
 Thiamine (see *Vitamin B<sub>1</sub>*)  
 Thiamine dehydrogenase (see *Dehydrogenase, thiamine*)  
 Thiamine pyrophosphate, estimation, in blood, 720.  
 Thiamine, triphospho-, preparation and properties, 369.  
 Thiamine salts, preparation, 721.\*  
 Thiazolium chloridate derivative, analogue of vitamin B<sub>1</sub>, effect on *Bacterium coli*, 373.  
 Thiazolone, homologues of vitamin B<sub>1</sub>, bromination, 721.\*  
 Thioctic acid, effect on carbohydrate metabolism (man), 837, 911.  
 effect on heart rate, *in vitro* (toad) effect on liver (rabbit), 754.  
 estimation, 1311.\*  
 for poultry, 156, 260.  
 Thiocyanate, concentration by thyroid (hamster), 434.  
 estimation, 281.\*  
 excretion, 239.\*  
 in blood, 773.  
 Thiosulphate, estimation, 663.  
 Thiouracil, effects, experimental, 115\*, 140, 436, 599, 741, 1109.  
 Thiouracil, production of tumours, 1166.\*  
 Thiovaline, effect on rats, 481.  
 Thirst, effect on selection of salt solutions and water (rat), 634.  
 mechanisms (rat), 1164.  
 Threonine, metabolism, 286\*, 1070.  
 Thrombin and prothrombin, amino acids, 104.  
 Thymine, antagonism to thioxyrimidines, 738.\*  
 formation (bacteria), 1181.  
 metabolism, 214.  
 Thymus, effect of isonicotinic acid hydrazide (rat), 380.  
 Thyroid: the entries are divided into two groups:  
 (a) those relating to the thyroid as an organ;  
 (b) those relating to thyroid preparations.  
 activity, estimation, 225\*, 237\*, 288\*, 322, 433, 1107, 1113.  
 in game animals, 1108.  
 antithyroid substances, effect on fattening cattle, 569.\*  
 in Bransie, 48.  
 transmission to children in milk, Tasmania, 552.  
 concentration of thiocyanate, 434.  
 culture *in vitro* (rat), 1165.  
 disorders, calcium metabolism (man), 144.  
 congenital, causes, 1242.\*  
 cretinism, vitamin B<sub>12</sub> in blood, 1231.  
 goitre, control by iodised salt, 224, 977.\*  
 endemic, 517, 552, 620\*, 621, 922, 1242.  
 in livestock, 967.  
 production by antithyroid substances, Tasmania (child), 552.  
 produced by feedstuffs, 274, 1109.  
 with tuberculosis in children, India, 225.  
 Thyroid  
 disorders, hyperthyroidism, blood composition, 361, 1123, 1226.  
 metabolism of tissues *in vitro*, 150\*, 1038.  
 hypothyroidism, cholesterol in blood and liver, effect of sitosterol, 464.  
 protein metabolism (rat), 782.  
 in children, treatment, 1242.  
 in old age, 225.\*  
 in pregnancy, treatment (woman), 1242.  
 metabolism of iodotyrosines (man), 114.  
 myxoedema, production by cobalt, case report, 923.\*  
 production by iodide, 922.\*  
 production by sulphoamides, 1242.\*  
 myxoedema and goitre followed by hyperthyroidism, case report, 433.\*  
 spontaneous goitrous cretinism, iodine metabolism (man), 433.  
 thyrotoxicosis, betaine-homocysteine transmethylease and vitamin B<sub>12</sub> in liver (rat), 390.  
 tocopherol in blood, 900.  
 toxicosis, liver enzymes (rat), 1311.\*  
 effect of cobalt and other substances (chicken), 434.  
 effect of dehydration or starvation (rat), 1109.  
 effect of fluoride (rat), 285.\*  
 effect of oestrogen and food intake (rat), 115.  
 effect of vitamin P (rat), 753.  
 foetal, commencement of functioning (sheep), 781.  
 effect of propylthiouracil given to weights (rabbit), 1109.\*  
 function, in normal and goitrous dams (guinea-pig), 433.  
 function, in old age, 225.\*  
 in turtles, 510.  
 histology, in embryo chicken, effect of vitamin B<sub>12</sub> deficiency in hens, 740.  
 in infant, newborn, 114.\*  
 influence (animals), 114, 249, 398, 433, 435, 475, 615\*, 618\*, 762, 781, 782, 1041, 1109, 1110, 1192, 1194, 1313\*, 1314.\*  
 (man), 616\*, 807.  
 iodine compounds, chromatography, 435.  
 iodine metabolism, 114, 151, 433\*, 547, 741, 781, 867, 1107, 1108.  
 physiology, in fish, 1194.  
 protein, separation and characterisation, 279.\*  
 secretion, effect of cold (rat), 434.  
 self-regulation, 433.\*  
 thyroid-like substances, 599, 1108.  
 Thyroid, dried, effects, clinical, 781.  
 experimental, 435, 782, 820, 1109.\*  
 Thyroid active substances, 115\*, 435, 783.  
 Thyroid hormone (see also *Thyroxine*; *Triiodothyronine*)  
 in blood, 287.\*  
 placental transfer (woman), 495.  
 thyroid-like substances, new compounds, lecture, 614.\*  
 Thyroprotein (see also *Iodinated protein*)  
 effect on growth and organ weights of chickens, 599.  
 production of hypomagnesaemia in cows, 969.  
 Thyrotropic hormone (see under *Pituitary, anterior*)  
 Thyroxine (see also *Thyroid*)  
 analogues, physiological activity, 783.  
 potency, 1107.  
 binding capacity of serum proteins, 23.  
 de-iodination, by liver homogenates, 279.\*  
 by thyroid, 114.  
 Thyroxine  
 effect, 60, 188, 392, 615\*, 939, 1062, 1307.  
 metabolism, 114, 434.  
 placental transfer (rabbit), 173.  
 Tin, estimation, in food, 663.  
 Tissue(s) (see also *Cells* and specific tissues, e.g., *Brain*; *Muscle*)  
 breakdown and regeneration, relation to serum proteins and protein-bound carbohydrate (man), 977.\*  
 cell fractions, metabolism of orotic acid, 1079.  
 cell membranes, transport, review, 1158.  
 composition, 112, 384, 448, 722, 753, 777, 778\*, 839\*, 899, 979, 1156, 1312\*, 1313\*, 1314.\*  
 estimation, 315, 997.  
 connective, effect of  $\beta$ -aminopropionitrile (rat), 979.\*  
 necessity for vitamin C, 1312.\*  
 culture chamber, 669.\*  
 cytotoxic action of folic acid antagonists, 387.  
 medium, 1158.  
 requirements, 157, 838, 976\*, 1158.  
 effect of vitamins, 67, 354, 355, 363, 381, 384, 710, 722, 733, 753, 899, 976\*, 1041, 1042, 1062, 1071, 1312.\*  
 onzymes, 73, 355, 1042, 1081.\*  
 formation, review, 1158.\*  
 metabolism, 67, 287\*, 346, 363, 488, 710, 979, 1071, 1158\*, 1159, 1164, 1167\*, 1312\*, 1313.\*  
 morphology, effect of ageing, 619.\*  
 preparation for analysis, 649.  
 relative growth in mammals, 169.  
 subcutaneous fat, electrical resistance, measurement, 36.  
 vitamins, 355, 364, 389, 700, 723, 728, 730, 1045, 1057.  
 Tissue homogenates, effect of coenzyme A and Krebs cycle metabolites, 794.  
 formation of coenzyme A, 733.  
 formation of nicotinamide, 379.  
 Tissue slices, metabolism, 35.  
 Toad (see under *Amphibians*)  
 $\alpha$ -Tocohydroquinone, treatment of muscular dystrophy (child), 619.\*  
 Tocopherol(s) (see also *Vitamin E*)  
 as anti-oxidant, 713.  
 effect on changes in teeth produced by unsaturated fatty acids (rat), 714.  
 estimation, 281\*, 362, 1047.  
 in blood, and haemolysis (man), 207, 619.\*  
 clinical, 900.  
 in blood and milk of ewes, relation to muscular dystrophy in lambs, 65.  
 in comparative physiopathology, 617.\*  
 in dairy products, index of adulteration, 364.  
 in electron transport, 1309.\*  
 in fat, relation to stability, 714.  
 in heart muscle, 66.  
 in milk and butterfat, effect of feed (buffalo, cow), 61.  
 intake, relation to haemolysis and lipid oxidation (man), 619.\*  
 restricted, effects (man), 207.  
 metabolic effects, 67, 715, 843.  
 Tocopherol, antioxidants, for poultry rations, effect on reproduction (rat), 68.  
 Tocopherol compounds, in vitamin E deficiency, effect on adrenal, 715.  
 $\alpha$ -Tocopherol, anticoagulant effect *in vitro*, 716.  
 effect on blood sugar (man), 1225.  
 effect on dystrophy, muscular (guinea-pig), 363.  
 metabolites in urine (man), 67.  
 treatment of eye disorders (man), 900.  
 treatment of gingivitis (man), 208.

- $\alpha$ -Tocopherol acetate, effect on weight of organs after exercise (rat), 1072.  
 $\delta$ -Tocopherol, in detection of soya bean oil, 713.  
 $\alpha$ -Tocopherol, estimation, 65.  
 $\zeta$ -Tocopherol, biological activity, 716.  
 $\alpha$ -Tocopherylhydroquinone, treatment of dystrophy, muscular, in children, 208, 617.\*  
 $d$ - $\alpha$ -Tocopheryl-5-methyl- $^{14}C$ -succinate, metabolism, 67.  
 $\alpha$ -Tocopheryl phosphate, effect on amino-acid oxidases in liver and muscle (rat), 1049.  
 Tomato(es), vitamin C, 751, 1078.  
 Tortillas, supplement to diet deficient in tryptophan and nicotinic acid (rat), 729.  
*Torula utilis* (see *Yeasts*)  
 Toxicology, in food protection, 1310.\*  
 Trace elements (see also *Minerals* and individual elements, e.g., *Cobalt*) deficiencies, in livestock, 289\*, 607, 1313.\*

excretion (man), 901.  
for pigs, 252.  
intake, effect on vitamin D poisoning (rat), 361.  
preparations, stability towards heat, 71.  
Vitamin B complex components (see also specific components, e.g., *Nicotinic acid*)  
absorption, 540.  
through skin, 54.  
availability to animals, 629.\*  
deficiency, after gastrectomy (man), 216.  
in etiology of lumbar paralysis in sheep and goats, 724.  
incidence, São Paulo, 209.  
role in mental disorders (man), 901.  
water metabolism (rat), 479.

Vitamin B complex components  
deprivation, phosphatases and ribonucleic acid in nervous system (rat), 718.  
effect of ionising radiation, 1315.\*  
effect on acne rosacea, 1225.  
effect on resistance to corynebacterium infection (rat), 71.  
effect on resistance to high altitude (mouse, rat), 366.  
effect on toxicity of  $\beta$ -aminopropionitrile (rat), 186.  
effect on vitamin B<sub>12</sub> stability, 1069.  
estimation, 374, 659\*, 718, 1051.  
excretion, 368, 1311.\*  
for man in warm climate, 1225.  
for pigs, 629.\*  
for poultry, 72, 366.  
formation, *Bacterium coli*, 719.  
in foods, 72, 618\*, 719, 1039, 1051, 1053.  
in liver (rat), 71.  
in milk, 1052.  
interrelations (rat), 71.  
metabolism, 285\*, 719.\*  
supplies and requirements, enrichment of foods, 977.\*  
transformation into coenzymes, 231.\*  
treatment of liver disorders (man), 894.  
with purified diet for sheep, 622.\*  
Vitamin B complex deficiency (see also *Beriberi*; *Pellagra*; *Polynucleinosis*)  
treatment with folic acid and vitamin B<sub>12</sub> (chicken), 85.  
Vitamin B complex deficiency-like syndrome, mouth signs, production by ethylene-diamine tetra-acetate (man), 901.  
Vitamin B<sub>1</sub> (see also *Coccarboxylase*; *Thiamine*)  
and esters, separation from oxythiamine equivalents, 72.  
deficiency (see also *Beriberi*; *Polynucleinosis*)  
clinical, 208, 297\*, 534, 1308.\*  
encephalopathy, cat, 73.  
experimental, 54, 71, 73, 74, 280\*, 370, 371, 372, 373, 615\*, 722, 723, 1053, 1054, 1313\*, 1315\*, 1319.\*  
metabolism, 280\*, 723, 1308\*, 1313.\*  
pathological lesions, dog, 722.\*  
deposition in tissues, effect of manganese (pig), 629.\*  
destruction, thermostable factors, flavonoids and phenols, 1056.  
detection, histological, 72.  
effect of ionising radiation, 1315.\*  
effect on mental ability (man), 535.  
effect on sperm vitality (bull), 618.\*  
effects, general, 75, 366, 370, 371, 372, 382, 615\*, 723, 725\*, 757.  
estimation, 75, 368, 369, 720, 721, 901.  
excretion, clinical, 534, 536.  
effect of diet (man), 209.  
experimental, 367.  
formation, intestinal (rat), 724, 1055.  
*Lactobacillus bifidus*, 369.  
formation and destruction, bacterial, review, 1056.\*  
in blood, clinical, 534, 901, 902.  
in cereals, 75, 368, 616\*, 725.  
in foods, 75, 76, 368, 688, 725, 1057.  
in intestinal contents (sheep), 627\*, 724.  
in liver, experimental, 371, 1055.  
in milk, human, 209, 902, 981.\*  
losses from flour during breadmaking, 75, 368.  
metabolic effects, 73, 284\*, 1311.\*  
metabolism, 74, 91, 279\*, 367, 723, 892, 1053, 1055.  
pyrimidine component, 73.  
reaction with rutin, 1056.  
requirement, man, 535.  
rat, 1056.  
salts, stability in enriched flour, 1319.\*

Vitamin B<sub>2</sub>  
stored with ascorbic acid, effect on vestibular chronaxie, 695.  
thiazolone homologues, bromination, 721.\*  
treatment of myoglobinuria, paralytic (hewe), 372.  
utilisation, poultry, 725.  
Vitamin B<sub>2</sub> analogues, decarboxylation of pyruvate, 1300.  
synthesis and biological properties, 1311.\*  
thiazolium chloride derivative, effect on *Bacterium coli*, 373.  
Vitamin B<sub>2</sub> antagonists, neo-pyrimithamine and oxythiamine, 373.  
Vitamin B<sub>2</sub> esters, polyphosphoric amide in tissues (dog), 1057.  
Vitamin B<sub>2</sub> phosphates, coenzyme activity, 1057.\*  
in liver mitochondria, 1056.  
in yeast, incorporation of phosphate, 369, 618.\*  
separation, chromatographic, 721.  
Vitamin B<sub>2</sub> phosphoric esters, effects, experimental, 270\*, 370, 372.  
separation, 270.\*  
Vitamin B<sub>2</sub> solutions, lyophilisation, 721.  
Vitamin B<sub>2</sub> (see *Adenine*)  
Vitamin B<sub>2</sub> analogues, experimental, 65, 78, 79, 80, 381, 382, 619\*, 731, 732, 1060, 1061, 1308\*, 1309\*, 1310\*, 1311\*, 1312\*, 1315.\*  
in *Lactobacillus arabinosus*, 1060.  
tests, clinical, 533.  
detection, chromatographic, 718.  
effects, clinical, 211, 538, 619\*, 906, 1227.

# NUTRITION ABSTRACTS & REVIEWS

ISSUED UNDER THE DIRECTION OF THE COMMONWEALTH  
AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL  
RESEARCH COUNCIL, AND THE REID LIBRARY

VOLUME 28  
1958

ABERDEEN:

PUBLISHED BY THE COMMONWEALTH BUREAU OF ANIMAL NUTRITION,  
ROWETT RESEARCH INSTITUTE, BUCKSBURN, ABERDEEN, SCOTLAND

---

PRINTED AT THE ABERDEEN UNIVERSITY PRESS LTD.

WEDNESDAY

17th June 1944

1944

Dear Sir,  
I have the pleasure to acknowledge the receipt of your letter of the 14th inst. in relation to the above matter.

Yours faithfully,  
[Signature]

I am, Sir, very truly,  
Your obedient servant,  
[Signature]

## NUTRITION ABSTRACTS AND REVIEWS

## COMMITTEE OF MANAGEMENT

*Chairman:* COL. E. BIRNIE REID, O.B.E., T.D., C.A.

*Representing the Commonwealth Agricultural Bureaux Council:*

DR. V. ARMSTRONG.

MR. J. E. C. COVENTRY.

SIR HERBERT HOWARD.

*Representing the Medical Research Council:*

HARRIETTE CHICK, D.B.E., D.Sc.

PROFESSOR SIR RUDOLPH PETERS, M.C., M.D., F.R.S.

PROFESSOR B. S. PLATT, C.M.G., Ph.D., M.B.

*Representing the Reid Library:*

PRINCIPAL SIR THOMAS TAYLOR, C.B.E., Q.C., M.A.,  
LL.B., D.D., LL.D.

PROFESSOR E. W. H. CRUICKSHANK, M.D., D.Sc., M.R.C.P., F.R.S.E.

PROFESSOR V. C. WYNNE-EDWARDS, M.A., F.R.S.C., F.R.S.E.

All communications should be addressed to the Secretary, NUTRITION ABSTRACTS AND REVIEWS, ROWETT INSTITUTE, BUCKSBURN, ABERDEEN, SCOTLAND.

© *Commonwealth Agricultural Bureaux*

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from the Royal Society, Burlington House, London, W.1.

## CONSULTING EDITORS

LORD BOYD ORR, Newton of Stracathro, Brechin, Angus.  
HARRIETTE CHICK, D.B.E., D.Sc.

## EDITORS

D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen (*Chairman*).  
I. LEITCH, Commonwealth Bureau of Animal Nutrition, Aberdeen.  
E. M. HUME, Lister Institute, London.  
J. A. B. SMITH, Hannah Dairy Research Institute, Kirkhill, Ayr.  
A. M. THOMSON, Department of Midwifery, University of Aberdeen.

## OVERSEAS CORRESPONDENT

PROFESSOR H. H. WILLIAMS, Cornell University, U.S.A.

*Secretary :*

D. HARVEY, Commonwealth Bureau of Animal Nutrition, Rowett  
Institute, Bucksburn, Aberdeen.

Eggs . . . . .	54, 420, 740, 1036	BLOOD . . . . .	130, 483, 799, 1109
Meat (all kinds) . . . . .	55, 420, 740, 1036	LYMPH, CEREBROSPINAL FLUID, ETC. . . . .	140, — 803, 1115
Fish . . . . .	56, 421, 742, 1038	TISSUES . . . . .	141, 491, 804, 1116
Other Types . . . . .	57, 421, — —	Ductless Glands and Hormones	145, 494, 805, 1119
FOODSTUFFS OF VEGETABLE ORIGIN		Energy Exchange and Specific Dynamic Action . . . . .	150, 499, 809, 1127
General . . . . .	57, 422, 742, 1038	Carbohydrates . . . . .	157, 503, 812, 1135
Cereals . . . . .	57, 423, 742, 1039	Proteins and Protein Derivatives	162, 511, 815, 1139
Roots . . . . .	59, 426, — 1040	Fats and other Lipids . . . . .	173, 520, 822, 1149
Leafy Vegetables . . . . .	59, 426, 743, —	Minerals	
Legumes . . . . .	59, 426, 743, 1040	GENERAL . . . . .	184, 529, 831, 1164
Fruits . . . . .	60, 427, 744, 1041	CALCIUM AND PHOSPHORUS AND STRONTIUM . . . . .	184, 529, 831, 1165
Other Types . . . . .	61, 429, 745, 1042	MAGNESIUM . . . . .	187, 532, 834, 1168
Pasture, Hay and Silage . . . . .	61, 429, 746, 1043	SODIUM, POTASSIUM AND SODIUM CHLORIDE . . . . .	188, 533, 834, 1169
MISCELLANEOUS . . . . .	65, 432, 747, 1045	HALOGENS . . . . .	190, 535, 836, 1172
		IRON AND COPPER . . . . .	192, 536, 838, 1173
		OTHER MINERALS . . . . .	194, 537, 841, 1173

## TABLE OF CONTENTS

vii

	PAGES
Acid Base Equilibrium . . . . .	196, 539, 842, 1174
Metabolism of Water . . . . .	196, 539, 842, 1174
Metabolism of Other Substances . . . . .	198, 541, 844, 1176
Metabolism of Cells, Tissues, etc.	
GENERAL PHYSIOLOGY . . . . .	200, 543, 846, 1179
GROWTH AND METABOLISM OF TUMOUR CELLS . . . . .	204, 549, 850, 1189
Metabolism of Growth, Repro- duction and Senescence	
GROWTH . . . . .	206, 551, 853, 1192
REPRODUCTION AND LACTA- TION : MAMMALS . . . . .	208, 552, 855, 1197
REPRODUCTION : BIRDS . . . . .	215, 556, 858, 1201
SENESCENCE . . . . .	215, 557, 859, 1201
Experimental Studies of Im- munity and Micro-organisms	216, 558, 860, 1203
Radiation . . . . .	— — 862, 1206
Miscellaneous Feeding Experi- ments . . . . .	219, 562, 863, 1209
General Metabolism and Feed- ing Habits of Animals other than Mammals and Birds . . . . .	223, 570, 871, 1216

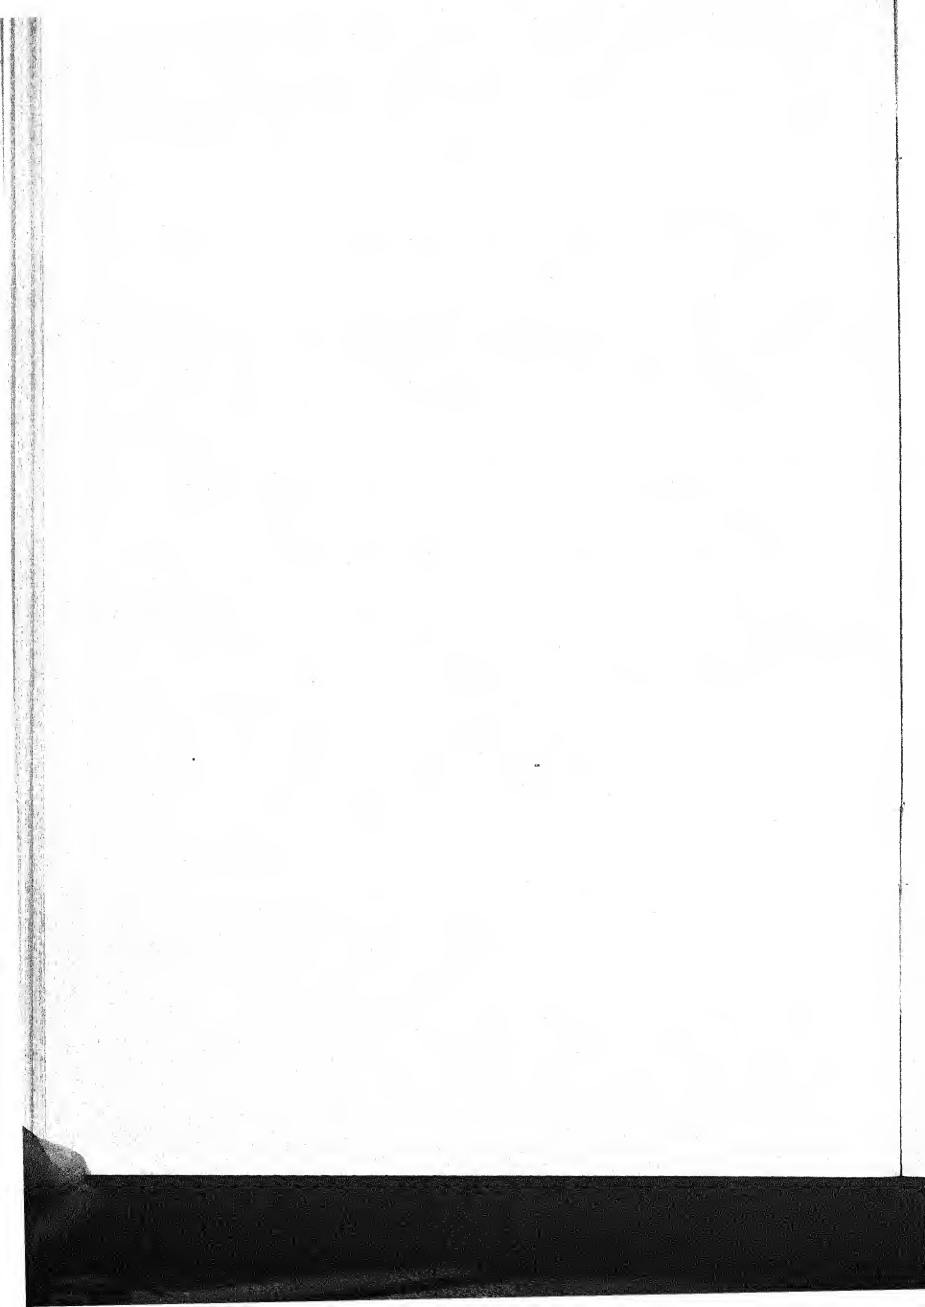

## 5. HUMAN DIET IN RELATION TO HEALTH AND DISEASE

Diet	
REQUIREMENTS . . . . .	233, 574, 875, 1222
FEEDING OF INFANTS AND CHILDREN . . . . .	233, 575, 876, 1222
DIETARY SURVEYS AND INDIVIDUAL STUDIES . . . . .	238, 579, 878, 1224
GENERAL STUDIES : DIET PLANNING : EDUCATION . . . . .	244, 581, 882, 1226
Food Economics and Statistics	248, 584, 885, 1228
Diet in Etiology of Disease	
METHODS OF ASSESSING STATE OF HEALTH . . . . .	249, 584, 885, 1228
GENERAL STUDIES . . . . .	249, 584, 886, 1229
DEFICIENCY DISEASES	
General . . . . .	252, 590, 890, 1233
Vitamin A . . . . .	254, 593, 893, 1236
" D . . . . .	255, 594, 895, 1239
" E . . . . .	257, 596, 896, 1241
" B Complex . . . . .	258, 596, 897, 1242
" C . . . . .	267, 606, 905, 1254
Other Vitamins . . . . .	268, 607, 907, 1256
DENTAL DISEASES . . . . .	269, 607, 908, 1256
POISONS : PATHOGENIC ORGANISMS : FOOD LAWS	271, 609, 909, 1257
IMMUNITY . . . . .	273, 610, 909, 1259
RADIATION . . . . .	274, 611, 911, 1259

Clinical, Therapeutic and Pre- ventive Studies		PAGES
GENERAL . . . . .	274, 611, 912, 1260	
DIABETES . . . . .	275, 612, 914, 1261	
GASTRO-INTESTINAL CONDI- TIONS . . . . .	277, 612, 914, 1262	
THYROID DISEASE . . . . .	278, 616, 916, 1263	
ANAEMIA . . . . .	279, 617, 917, 1265	
OTHER CONDITIONS . . . . .	280, 619, 919, 1267	

## 6. FEEDING OF ANIMALS

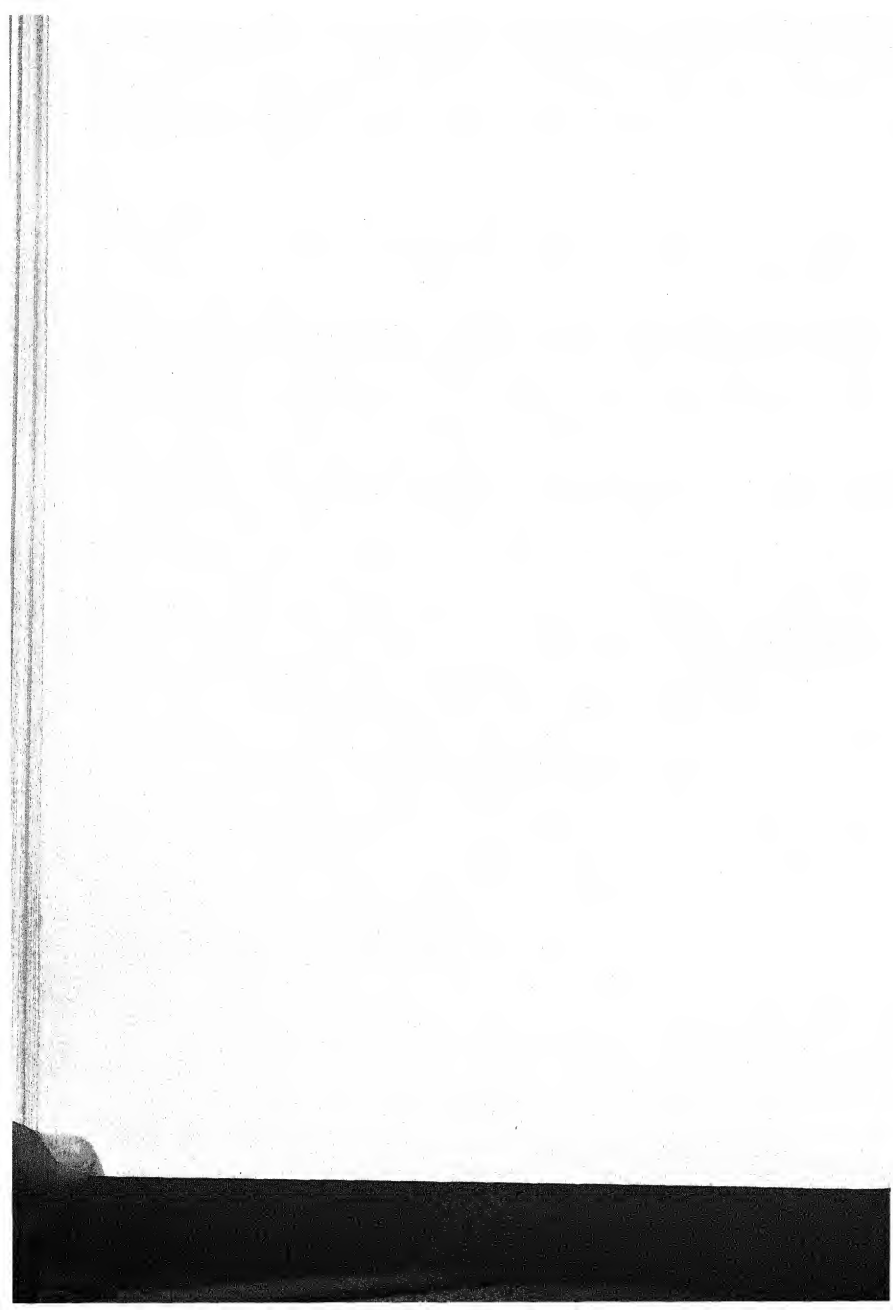

General, including Digestibility Trials . . . . .	284, 623, 922, 1272
Horses . . . . .	292, 626, 926, 1276
Cattle	
GROWTH AND FATTENING . . . . .	293, 628, 926, 1277
MILK PRODUCTION . . . . .	298, 634, 931, 1286
REPRODUCTION . . . . .	303, 639, 935, 1293
Sheep . . . . .	304, 640, 936, 1294
Pigs . . . . .	311, 643, 939, 1300
Goats, Rabbits and other Mammals . . . . .	321, 647, 945, 1312
Poultry	
GROWTH AND FATTENING . . . . .	324, 650, 946, 1316
EGG PRODUCTION . . . . .	332, 660, 956, 1324
Other Birds . . . . .	335, 663, 960, 1326
Food Economics and Statistics	335, 664, 960, 1327
Diet in Etiology of Disease	
GENERAL . . . . .	338, 665, 964, 1330
DEFICIENCY DISEASES . . . . .	338, 667, 965, 1333
DISEASES OF METABOLISM . . . . .	342, 669, 967, 1333
POISONS OCCURRING IN FOOD	343, 670, 968, 1334
MICRO-ORGANISMS OCCURRING IN FOOD . . . . .	— — 969, 1336
IMMUNITY . . . . .	345, — 969, 1337
7. BOOK REVIEWS . . . . .	345, 673, 970, 1337
8. SYMPOSIA, PROCEEDINGS AND CONGRESS REPORTS . . . . .	348, 677, 974, 1343
9. FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS . . . . .	363, 690, 982, 1351
10. DEPARTMENTAL AND OTHER REPORTS . . . . .	364, 691, 982, 1352

NUTRITION ABSTRACTS AND REVIEWS

# SUBJECT INDEX, VOLUME 28

(\* Title and reference only)

- ABOMASUM, contents, nitrogen (sheep), 349.\*  
secretion, 1354.\*  
Absorption (see also under specific headings, e.g., *Calcium, absorption*)  
anthraquinone violet as indicator, 285.  
clinical estimation, 480.\*  
mechanisms, permeability and active transport, 200.\*  
*Acanthoscyus horrida*, seed protein, amino acids, 1042.  
Acerola (see *Cherry, West Indian*)  
Acetaldehyde, estimation, 724.  
Acetate or acetic acid  
incorporation into lipids, 1347.\*  
in vitro, 850.  
iodo-, effect on coenzyme A in cockroach, 460.  
metabolism, 1148.  
in vitro, 1186.  
placental transfer and uptake by foetus (sheep), 212.  
utilisation, in biotin deficiency, 1080.  
Acetoacetate (see *Ketone bodies*)  
Acetonaemia (see *Ketosis*)  
Acetone bodies (see *Ketone bodies*)  
Acetostearin, nutritive value (rat), 1344.\*  
Acetylcholine, bound, nature, 1346.\*  
in milk, 53, 1035.  
Acetylcholine antagonists, effect of  $\beta$ -ionone in vitro, 72.  
Acetylcholinesterase (see *Cholinesterase, acetyl*)  
3-Acetylpyridine, effect on nicotinic acid metabolism (rat), 1073.

 Blood formation, 683.\*  
 effect of blood group substances (rat), 352.\*  
 effect of cobalt and nickel, 684.\*  
 effect of lysine and folic acid deficiencies (chicken), 106.  
 effect of papain, 352.\*  
 effect of pituitary (rat), 357.\*  
 in cows, 981.\*  
 in protein depletion (rat), 1141.  
 in riboflavin deficiency (rat), 977.\*  
 in starvation (rabbit), 131.  
 role of cobalt (rat), 194.  
 Blood group substances, haematopoietic and nitrogen-sparing effect (rat), 352.\*  
 Blood lipids (see also *Blood fat*)  
 and serum turbidity (man), 182.  
 chromatography, 397.  
 clearing activity (man), 1155.  
 (rat), 1945.\*  
 of tissues (several species), 1185.  
 clinical, 488.  
 effect of cobalt, 538.\*  
 effect of diet (dog), 1157.  
 (man), 354\*, 521.  
 (pig), 1947.\*  
 review, 826.\*  
 effect of exercise (man), 138.  
 effect of fasting and glucose (man), 174.  
 effect of fat emulsion, 350.\*  
 effect of fat load, in atherosclerosis (man), 181.  
 effect of glucagon (man), 506.  
 (rabbit), 830.  
 effect of glucose (man), 1137.  
 effect of heparin (dog), 1161.  
 (rat), 809.  
 effect of hormones (rat), 808.  
 effect of insulin (man), 523.

## Blood lipids

- effect of laminarin sulphate, 1182.  
 effect of linoleic acid (man), 826.  
 effect of lipase and bile salts (man), 919.  
 effect of lipid mobiliser hormone (man), 1127.  
 effect of maize oil (man), 826.  
 effect of protamine (man), 176.  
 effect of safflower oil (man), 1154.  
 effect of sex hormones, 493.  
 effect of sulphated polysaccharides (man, rabbit), 1155.  
 effect of tung oil (cow), 355.\*  
 effect of unabsorbed fat (man), 175.  
 effect of uranum (rabbit), 183.  
 effect on coagulation (man), 488.  
 endogenous clearing activity (man), 1155.  
 estimation and fractionation, 35.  
 experimental, 520.\*  
 fats (rat), 1152.  
 in alcoholism (man), 1176.  
 in atherosclerosis (man), 677\*, 898.  
 in cattle, 489.  
 in diabetes, 677.\*  
 (child), 1111.  
 in hyperthyroidism (man), 1123.  
 in Indian servicemen, 137.  
 in infants, after fat meal, 137.  
 in kwashiorkor, 489.  
 in liver cirrhosis (man), 138.  
 in muscular dystrophy (cow), 365.\*  
 in pregnancy, clinical, 552, 1349.\*  
 in ruminants, 365.\*  
 nature in rats, 177.  
 relation to atherosclerosis (chicken), 830.  
 Blood lipids and lipoproteins, effect of fat meal (man), 174.  
 in dogs, 137.  
 Blood, oxygen tension, estimation, 730.\*  
 pH, estimation, 1347.\*  
 Blood picture, cattle, 342, 484, 980.\*  
 children, 483.\*  
 clinical, 599.\*  
 standards, 483.\*  
 deer, 977.\*  
 dog, 1109.\*  
 experimental changes, effects of nutrition, review, 1229.\*  
 goat, 945.  
 in anaemia, 692.\*  
 leucocytoid in puerperium, treatment, 918.  
 sheep, 131, 1109.  
 vitamin B deficiency (monkey), 86.  
 Blood pigments, haem, formation, 101.  
 Blood plasma, carbon dioxide combining power, 539.  
 freezing point (man), 139.  
 recalcification time, effect of lipids (man), 176.  
 volume, clinical, 491.  
 estimation, 974\*, 1019, 1019.\*  
 in rats, 484.  
 Blood plasma lipoproteins, complex (hen), 355.\*  
 composition, 1115.  
 isolation, 397.  
 Blood plasma proteins, estimation, 355\*, 718.  
 effect of diet (rat), 693\*, 1345.\*  
 enzyme hydrolysis for amino acid estimation, 720.  
 fat transport (dog), 1153.  
 fish, 572.  
 foetus, goat, 1111.\*  
 $\beta$ -globulins (cattle), 691.\*  
 in exudative diathesis (chicken), 762.

coronary artery disease, epidemiological aspects, 630.\*  
in diabetes, role of obesity, 1262.  
treatment by diet, 282.  
effect of fat meal (dog), 830.  
fragility, effect of vitamin K deficiency and vitamin P deprivation (rat), 440.

## effect of vitamin P substances with ascorbic acid and vitamin K (guinea pig), 682.\*

- testing, 731.  
lipids, relation to blood cholesterol, 828.  
permeability, 411, 731.\*

## Blood volume, calculation (man), 130.

- effect of activity (man), 1109.  
estimation, 44, 45, 409, 679\*, 730, 1019, 1109.  
horse, 1109.  
in cold environment (rat), 190.  
in pregnancy (woman), 619.  
infants, newborn, 709.  
rat, 484.  
response to heat (calf), 130.

## Blood, white cells (see also Blood picture)

- counts (man), 130.  
East Africa, 1110.

## Blood, preserved, for pigs, 655.

- Bloodmeal, as feeding stuff, 368.\*  
for poultry, 327.

## Blowfly (see under Insects)

- Blown (see Cattle disorders, blast)

## Body composition, concept of compartments, 1116.

- in animals, 166, 220, 356\*, 402, 1348.\*  
estimation, 364\*, 365.\*  
in man, 141, 142, 160, 491, 492, 1127, 1270.  
estimation, 142, 1116.

## Body fat (see under Fat)

- Body measurements (see also Growth; Height; Weight)

- boys, Belgian Congo, 854.  
height and weight, adolescent boys, Spain, 207.  
children and youth, America (U.S.), 551.  
men, U.K., 208.  
Philippines, 1190.  
students and other adults, America (U.S.), 1344.\*  
Uganda Africans, 854.  
industrial workers, effect of nutrition, 976.\*  
North Africans in France, 1229.

## Body measurements

- relation to physical fitness, 1229.  
surface area, calculation for Indians, 1196.  
women, Australia, 854.

## Body temperature (see under Energy Exchange)

- Body volume, effect of weight reduction (woman), 1271.  
Body water (see under Water)

## Bodyweight (see Weight)

- Bolivia, diet study, 242.  
Bombyx mori (see under Insects, silkworm)

## Bone(s) (see also Skeleton)

- ash, estimation, 408.  
calcification, and diet, 351.\*  
effect of calcium source (diet (chicken)) 1058.  
effect of hormones (chicken), 1323.  
effect of pantothenic acid, 974.\*  
effect of vitamin D, 446.  
in calcium deficiency, 444.  
in calves, 981.\*  
in lysine deficiency (rat), 819.  
in rickets, 444.  
in vitro, 549, 1189.  
mechanism, 204.  
phosphorus, 631.

## calcium metabolism, 979.\*

- calcium and strontium, estimation, 720.\*  
calcium, sodium and potassium, separation, 720.  
occarboxylase, 453.\*

## composition, effect of diet (rat), 1215.

- estimation, 966.  
in fluorosis, 494.  
composition and strength, changes with age (rat), 145.

## damage in lathyrism, role of muscles (rat), 1214.

- decalcification, 26\*, 1036.  
density (man), 357\*, 494.  
effect of nutrition, 880, 1203.  
development, epiphyseal closure, effect of malnutrition (mouse), 591.  
in wrist and hand, effect of environment (child), 1354.\*  
Japan (man), 582.

## Bone disorders (see also Rickets)

- dysoostosis, membranous, production by vitamins A and D, 855.\*  
osteoclerosis, 233.  
healing, effect of amino acids, 979.\*  
joint disease, role of nutrition, 889.\*  
joint rigidity after injury, effect of vitamin E (rabbit), 88.

## lecture, 1239.

- osteodystrophy fibrosa, in baboons, 667.  
osteodystrophy, produced by gastric fistula (rat), 1104.  
osteomalacia, 595.\*  
after gastric surgery, 896.  
review, 255.\*  
osteoporosis, 589.\*  
effect of sex hormones, 682.\*  
etiology and treatment, 1233.\*  
in old age (man), 677\*, 678\*, 1233.  
relation to scurvy, South Africa, 606.  
sheep, 965.

## osteoclerosis, in hyperloaemia, idiopathic (child), 596, 596.\*

- pathogenesis (livestock), 965.  
sarcoma produced by injected radioactive calcium or strontium (mouse, rat), 359.\*  
skeletal function tests, 529.\*  
spinal column defects, effect of fluoride intake (child), 608.

## systemic, production by calcium intake, low (man), 283.\*

- Bone, effect of cystine (rat), 974.\*  
effect of fluoride (rat), 131.  
effect of indurium, 227.\*  
effect of synthetic amino acids (rat), 1350.\*

## Bone

- effect of vitamin C deficiency (guinea pig), 1350.\*  
embryo, growth in vitro, 544.  
epiphyseal union, in girls, Punjabi, 245.

## foetal, crystal structure (man), 144.

- fluoride, effect of water fluoridation (man), 1257.  
formation, role of zinc and potassium (turkey), 1322.

## fractures, healing, 833, 1169.

- role of ascorbic acid in adrenals (guinea pig, rat), 681.\*  
growth, in protein deficiency (pig), 1343.\*  
in rickets, 1351.\*

## growth and composition, effect of diethylstilboestrol (sheep), 685.\*

- growth responses, effect of denervation (rat), 1197.  
healing, sulphur uptake, effect of hormones, 1121.\*  
human, measurements, Asiatics, 362.\*  
in ageing, reversibility of changes, 677.\*  
lead uptake (cat, dog), 1173.

## marrow (see Marrow, bone)

- mineral accretion (man), 184.  
mineral content, X-ray study in vivo (man), 858.\*  
mineral exchange, effect of diet (rat), 1364.\*

## mineral reorganisation, 1189.\*

- osteogenic inductor factor, 1188.\*  
periosteum, enzymes (rat), 792, 1101.  
protein, 979.\*  
radio-activity, caesium, strontium, 422, 911.

## regeneration, effect of vitamins, 433.

- response to alloxan acidosis (rat), 1174.  
salts, physico-chemical factors, 494.\*  
sodium (rat), 534.

## sodium turnover (rat), 835, 1170.

- strength, in lathyrism (rat), 680.\*  
structure, method of study, 732.  
sulphur metabolism, 1174.  
sulphur uptake, 538.

## ultrastructure, 145\*, 1188.\*

- Boron, accumulation in body (rat), 831.  
antagonism to riboflavin, 455.  
in blood (infant), 1114.

## Boys (see also Adolescents; Children)

- body measurements, 854.  
calcium balance, 1333.\*  
height and weight, Spain, 207.  
physique and skeletal maturation, 207.

## Bracharia mutica (Pars grass), composition, 633.

- feeding value, 623, 983.\*

## Bracken, Pteris aquilina, poisoning (livestock), 1335.

- thiaminase, purification and properties, 97.

## Brain, carbohydrate metabolism, effect of thyroxine, 1124.

- in vitro, 545.  
composition (crab, man, monkey), 1117.  
(rat), 1244.\*

## congenital malformations, environmental, review, 855.

- cystathionine, in pyridoxine deficiency (rat), 1347.\*  
disorders (see also Mental disorders)

effect of vitamin B<sub>12</sub> (child), 1244.

- encephalomalacia, in vitamin E deficiency (chick), 1344.\*  
epilepsy, vitamin B<sub>12</sub> deficiency, 1244.  
in vitamin C deficiency (cattle), 69.  
electroencephalogram, in malnutrition and kwashiorkor, 890.  
encephalogram, effect of malnutrition in infants, 253.  
galactolipid metabolism, 524.  
ganglioside, structure, 804.\*  
glycine metabolism (rat), 545.\*

- Brain**  
 hypothalamus, control of appetite (rat), 123, 864, 1102.\*  
 lesions, metabolic effects (rat), 977.\*  
 role in carbohydrate regulation, 356.\*  
 role in electrolyte metabolism, 1109.  
 lecithin formation *in vitro*, 850.  
 lipids (infant), 970.\*  
 review, 804.\*  
 maturation, physiological characteristics, 357.\*  
 metabolism, in mental disorders, review, 848.\*

## Infection

- Bacillus anthracis*, amino acids in blood (guineapig), 520.  
effect of host and diet (mouse), 362.\*  
nicotinic acid and tryptophan metabolism, 899.  
vitamin C in tissues, 606.\*  
Infrared light, effect on growth (baby pig), 647.  
Injury, electroshock metabolism, role of adrenal, 506.\*  
metabolic effects, influence of training (rat), 1213.  
review, 500\*, 1230.\*  
nitrogen metabolism (rat), 365.\*  
resistance, effect of starvation (rat), 1213.  
Inositol, effect on body composition (chicken), 220.  
effect on fat metabolism, 845.  
estimation, 368.\*  
in nutrition, 200.\*  
*meso*-, effect on fat content in milk, 764.  
excretion (man), 200.  
*myo*-, effect in secury (guineapig), 1095.  
estimation, 1018.  
growth factor in tissue culture, 204.  
Inositol monophosphate, in tissues, 493.  
Inosine-5-phosphate, separation from adenosine-5-phosphate, 1012.\*  
Insecticides, residues on vegetables, 1354.\*  
study with radio-active isotopes, 1351.\*  
toxicity (rat), 569.  
Insects, bees, queen, rearing, role of hormones, 979.\*  
role of royal jelly, 1220.\*  
royal jelly, effect on weight gain, fertility and ageing (rat), 769.  
10-hydroxy- $\Delta^8$ -decenoic acid, isolation, 421.\*  
in paediatrics, 878.\*  
therapeutic use, 275.  
beetle, amino acids, 1231.  
*Drosophila*, methionine digestion, 231.  
thoracic excretory, phosphorus compounds, 976.\*  
bumble bees, feeding, 572.  
carbohydrate metabolism, 573.\*  
carbohydrate utilization, 1218.  
chick-beetles, food and larval development, 230.  
cockroach, coenzyme A content, 104, 460.  
desert locust, amino acid metabolism, 231.  
digestive enzymes, 1218.\*  
*Drosophila*, methionine content, 1219.  
fat body, enzymes, 1219.  
flour beetle, mineral requirements 232.  
sterol metabolism, 232.  
fruit flies, *Anastrepha ludens* diet, 230.  
glucose absorption, 1219.  
grasshopper, pigment, effect on growth, 1348.\*  
haemolymph cells, effect of vitamin B complex components, 1068.  
housefly, coenzyme A content, 104, 460.  
effect of diet and longevity, 677.\*  
infestation of grain, effect on nutritive value, 693.\*  
iodine metabolism, 573.  
mineral requirements, 1218.  
moth, rice, growth factors, 873.  
larvae, glycocyamine methylation, effect of vitamin B<sub>12</sub> deficiency, 781.  
onion maggot, amino acid requirements, 231.  
protein formation, 573, 573.\*  
protein, nitrogen and phosphorus contents, 231.  
requirements, 1217.  
shield-bugs, feeding habits, and food reserves, 230.  
silkworm, amino acid metabolism, 232, 873.

## Insects, silkworm

- complex in coelomic fluid, 1219.  
effect of humidity, 230.  
glycogen and chitin metabolism, 977.\*  
rearing, 573.  
*Stomoxys calcitrans*, vitamin A, 1049.  
trace elements, 1219.  
taetse fly, diet, East Africa, 230.  
water metabolism, 1218.  
Inulin, also *Diabetes*,  
action, concepts (cat, rat), 357.\*  
activity and antagonism in plasma of diabetic patients and animals, 356.\*  
deficiency, effect on cartilage, 974.\*  
effect after pancreas removal (rat), 1128.\*  
effect on amino acid penetration into cells, 1184.  
effect on blood lipids (man), 523.  
effect on calcium retention (man), 1202.  
effect on dehydroascorbic acid and glutathione in secury (guineapig), 768.\*  
effect on fat metabolism, 523, 825.  
effect on fat tolerance (dog), 521.  
effect on metabolism of adipose tissue (rat), 200.  
effect on muscle in potassium deficiency (rat), 201.  
effect on pentose metabolism, 510.  
estimation in pancreas, 720.  
in blood, 356\*, 1113.\*  
lente, treatment of diabetes, 277.\*  
relation to vitamin B<sub>1</sub> and cortisone in carbohydrate and protein metabolism (guineapig, rat), 90.  
metabolism, outside liver, 1127.\*  
mode of action, 1139.  
secretion, effect of sugars, 1137.  
Intestine (see also *Digestive tract*)  
absorption, 411\*, 1024.  
effect of ascorbic acid (dog), 788.  
effect of tonicity, 481.  
appendix, absorption of bacteria (rabbit), 708.  
bleeding, loss and reabsorption of iron, estimation, 619.  
caecum, role in nutrition (pig), 685.\*  
removal, effect on deficiency of vitamin B<sub>1</sub> and riboflavin (rat), 767.  
chymotrypsin and trypsin, estimation, 406.  
digestion (man), 479.  
duodenum, iron absorption (rat), 840.  
secretion, milk digestion, *in vitro* (man), 120.  
effect of diet (rat), 1106, 1107.  
epithelium, histology, 479.  
guineapig, response to antigen, effect of ascorbic acid, *in vitro*, 359.\*  
large, motility *in vitro* (horse), 977.\*  
secretion and motility (dog), 482, 1108.  
lymphatic tissue, during absorption (rat), 797.  
metabolism, *in vitro*, 544.\*  
micro-organisms, effect of antibiotics, 362\*, 984.\*  
(man), 216.  
effect of bilifidus factor, 349.\*  
effect of carbohydrate (rat), 1355.\*  
effect of diet (man), 216.  
(pig), 1068.  
effect of garlic (rat), 217.  
effect of p-hydroxybenzoic acid ethyl ester, 861.  
effect of nutrition, 349.\*  
effect on growth, 349.\*  
formation and distribution of riboflavin (man), 87.  
formation of vitamin B (man), 349.\*  
in children, 1204.  
in malabsorption syndrome, 348.\*  
in pigs, 562.

## Intestine, micro-organisms

- in vitamin B<sub>12</sub> deficiency (rat), 458.  
metabolic activity (pig), 349.\*  
*in vivo*, estimation (poultry), 349.\*  
normal (man), 680.\*  
problems, 216.\*  
quantitative studies (different species), 216.  
role, review, 348\*, 562.\*  
role in methionine metabolism, 520.  
role in sugar utilisation, 349.\*  
symbiotic action (child), 216.\*  
motility, effect of milk (dog), 125.  
mucosa, agonal changes (sheep), 479.  
effect of vitamin C deprivation (guineapig), 681.\*  
fructose phosphorylation (rat), 201.  
proliferase and nitrogen, 353.\*  
mucosal regeneration, effect of feeding (newt), 871.  
oleic acid, absorption (rat), 356.\*  
parasites (see under *Parasites* and under specific parasites, e.g., *Helminths*)  
propulsion and defecation, effect of hydroxy derivatives of tryptamine and tryptophan (mouse), 977.\*  
secretion, enzymes (horse), 977.\*  
small, contents, nitrogen (sheep), 349.\*  
ileum, vitamin B<sub>12</sub> absorption (rat), 901.  
metabolism, effect of salicylate (rat), 954.\*  
mucosa, atrophy in codine disease, 613.  
pancreatic lipase, estimation, 406.  
phospholipins (man), 125.  
proteolytic activity, estimation, 406.  
sugar absorption *in vitro*, 1180, 1181.  
transamination, *in vivo*, 676.\*  
vitamin B<sub>12</sub>-binding substances, 1087.  
volatile fatty acid transfer, *in vitro*, 1185.  
weight, effect of antibiotics (chicken), 830.  
Inulin, estimation, 380, 718.  
Inulin space, skeletal muscle, measurement in cat (rat), 976.\*  
Invertase, rumen holotrich protozoa (sheep), 355.\*  
Iodates, toxicity (mouse), 535.  
Iodinated protein(s) (see also *Thyroprotein*)  
effect on conversion of carotene and response to vitamin A (rat), 752.  
effect on fish scale formation, 343.\*  
effect on vitamin B<sub>12</sub> in tissues (mouse, rat), 111.  
for cattle, 366.\*  
for poultry, 689.\*  
Iodine or iodide, absorption, and intestinal secretion (rat), 127.  
clinical, 481.  
deficiency, role in goitre, review, 886\*, 916.\*  
effect of form of supplement (cattle), 841.  
effect on reproduction (rat), 348.\*  
estimation, 409, 1264, 1347.\*  
exchangeable, in blood, urine and thyroid, effect of thyroid disorders (man), 367.\*  
excretion (rat), 1173.  
for livestock, 925.  
for poultry, 953.  
for sheep, 367.\*  
in blood, 1015.  
butanol-soluble, clinical significance, 973.\*  
separation of free and protein-bound (guineapig), 1348.\*  
in blood and tears (man), 139.  
in common salt, Central America, 432.  
in drinking water, effect on goitre incidence, 1265.\*  
in milk (cow), 351\*, 361.\*  
(rabbit, rat), 740.  
in saliva, 140.\*

- Iodine or iodide  
in vegetables, 743.  
metabolism, 684.\*  
effect of thyroid (rat), 977.\*  
in foetal thyroid (rat), 148.  
in goitre, endemic, 1264.  
in hypothyroidism, iodine-induced (man), 1265.  
in insects, 573.  
in laying hens, 535.  
in pregnancy (rat), 1199.  
in tadpoles, 229.\*  
organic, treatment of infertility (cow), 935.  
placental transfer (woman), 855.  
protein-bound, estimation, 59, 40\*, 403.  
in blood (cattle), 140, 486.\*  
at parturition (woman), 140.  
Bantu, 500.  
clinical, 139, 491.\*  
in ketosis (cow), 806.  
radio-active, effects of excess (sheep), 148, 359.\*  
excretion (dog), 1173.\*  
in endemic goitre area (man), 192.  
in thyroid, after nuclear weapon tests, 919.  
sheep, 863.  
metabolism (dairy cow), 352\*, 686.\*  
study of fat absorption (man), 352.\*  
uptake, effect of triiodothyronine (man), 978.\*  
reduction of periodate, 837.  
requirement, man, 351.\*  
poultry, 953.  
toxicity (mouse), 535.  
treatment of thyroid disorders, 1265.\*  
uptake, by frog tadpoles, 228, 871.  
Iodised salt, control of goitre, relation to meat consumption, 278.  
for livestock, 925.  
for sheep, 684.\*  
preparation, 917, 1264.  
stabilisation, 734.  
Iodoamino acids, in thyroid, 1008.  
Iodothyroacetic acids, metabolism (rat), 679.\*  
treatment of myxoedema, 978.\*  
Iodotyrosine, di- (see *Thyroxine*)  
Ion(s), uptake and transport, 1361.\*  
Ion exchange resins, retention of sodium in faeces, 1108.  
synthetic, developments in theory and application (book), 347.  
 $\beta$ -Ions, antagonist *in vitro* to acetylcholine (frog, guinea-pig), 72.  
*Ipomoea pestigridae*, composition, 429.  
Iran, diet study, 581.  
Iraq, fruit and vegetables, vitamin C, 1093.  
Ireland, Northern (see *United Kingdom*)  
Iron, absorption, 67, 351\*, 452, 599, 748, 838, 839, 840, 1266.  
after stomach removal (man), 127.  
estimation (infant), 857.\*  
from muscle (woman), 618.  
in digestive tract disorders (man), 1262.  
*in vitro*, 204.
